FFPSA and Florida's Child Welfare Group Home Providers | Webinar Q&A Responses
\*\*\*IMPORTANT NOTE\*\*\*The below responses are based on current or draft policies as of 8/28/2020. FFPSA related policies are pending finalization by the Department including federal approval.

Item #	Ougstion Asked	Anguar Chan
_	Question Asked  CBCs are not supporting additional CPAs to be licensed for this purpose.	Answer Given  If the provider requests an application to become licensed as a CPA, the DCF regional licensing team must follow the standard
	Obos are not supporting additional of As to be licensed for this purpose.	licensing process. It is at the discretion of the CBC if they would like to partner with a CPA for licensing of foster homes. We (DCF
		Office of Child Welfare) encourage the regions and CBC to continue their current practice for the licensing of a CPA for the
		purpose of foster home management for the dependency population.
		purpose of roster from a management for the dependency population.
2	If the employee let go for any reason, since our home is their primary residence, are there legal complications when it comes to "evicting them"?	There is a process and most agencies have it outlined in their agreement with the employee.
3	Also, if Foster Parents decide to move states/location, the license goes with them. What would happen	Some agencies have kept their requirements to be licensed group homes up to date, so the region can easily convert them in
	to the kids in the home until we are able to obtain/train new Foster Parents for that home?	emergency circumstances This will also be discussed during the workgroup.
1	So with the information just shared, is it my understanding that a campus setting can only have a	Yes, that is correct. A provider can only have a total capacity of 12 if they have multiple licenses of a QRTP.
	capacity of 12 even if they have 2 seperate licenses? Providers with more than one home or facility	
	licensed as a QRTP shall not exceed a combined capacity of 12, when each home/facility has the same treatment program, shared staff and medical professionals, and are under the same management	
	treatment program, shared stant and medical professionals, and are times the same management	
5	Why is the capacity for QRTP limited to 12 per campus when the IMD rule allows to limit at 16 youth, I	12 was the selected number to align with STGH as recommended by AHCA as we determine the funding ability for QRTP related
ı	don't understand why we would want to limit capacity especially of quality campus providers	treatment services billable to Medicaid.
6	Why do you need to add the limitation 12 language into 65c-14, it is already federal IMD langue therfore	the restriction is added to maintain consistency in policy development and to ensure licensing standards are adhered to by the
	not requeired to be in adm. code or licensing language. It seems to be unnecessary.	regional licensing teams and providers.
7	where can we find what ebps are currently in the clearing house?	https://preventionservices.abtsites.com/
8	Hello regarding the AT Risk you mentioned DCF classes for Direct staff for human trafficking. Is that	Human trafficking (HT) classes are available and provided by existing Safe House providers. All at-risk homes are encouraged to
	available yet for review?	develop their own human trafficking curriculum which would be approved by OCW's human trafficking team to allow for ongoing
		training of staff within your own organization. We will be sharing a listing of the HT training topics and contacts to assist and guide
		prospective providers.
9	Not a Medicare provider but Medicaid provider as stated earlier?	Medicaid provider is required for QRTP only
10	What is the programs are SIPP and TGH which have a waiver for IMD?	AHCA uses the "psych under 21" exclusion for SIPP. The IMD issue is still being discussed amongst states and the Children's
		Bureau.
11	Are you going to address the Assessor requirements/access to an assessor?	The assessor must be a licensed clinician or a master's level practitioner under supervision of a licensed clinician; have at least 3
		years' experience working with children or adolescents involved in the child welfare system of care; Has no actual or perceived
		conflict of interest with any QRTP; and Has completed training pertaining to the population of children in the child welfare system.
		Training topics shall include, but are not limited to, trauma-informed care and human trafficking.
12	Can you explain the age waiver?	Children under the age of 10 (age 12 for at-risk group home) will need an age differential waiver for placement in a group home.
12		The age differential waiver is to be completed by the CBC and approved by DCF.
13	has there been any further discussion regarding exemptions for sibling sets in any of the group home	FFPSA settings are specific to the individual child meeting the criteria for placement in these specified settings.
	types in order to support statute to keep siblings together?	Florida is proposing policy (pending federal approval) to allow siblings to be placed together if at least one child meets criteria to b
14	will IMD apply to the other group types?	placed in a maternity home  The department is engaging AHCA to seek further clarification regarding the IMD issue.
15	So do APD licensed group homes need to become QRTP to contine to recieve foster placements?	APD homes do not have to be licensed as a QRTP to continue serving APD clients who are in DCF care (dependency children).
		APD homes may consider transitioning to a QRTP or other FFPSA settings to serve dependency children who are not APD
		clients.
16	To follow up on the question of "Are you going to address the Assessor requirements/access to an	The assessor who completes the required assessment for placement in a QRTP will be conducted by a DCF approved assessor.
1	assessor?" is the answer referring to the required assessment need for placement in a QRTP? so it	The assesser will not be employed/contracted with the QRTP.
	sounds like from the answer is that the assessor is not an employee of the QRTP?.

Emergency shelters and runaway shelters will continue to be licensed the same way and will not move to an FFPSA setting unles they select to do so.  We are currently working with AHCA to determine the most suitable funding options. At this time, AHCA has indicated that STGH is the setting that is likely to be a suitable comparison.  The comprehensive placement assessment is a current required practice that was implemented in 2017 that is completed by the CPI at removal and the case manager throughout the life of the case.  The comprehensive assessment is not the same as the required assessment needed for placement in a QRTP.  Yes, other state agencies who also license residential settings for children include APD and AHCA.  The requirement is for group homes interested in transitioning to a QRTP to become a Medicaid provider.  The foster home workgroup will discuss this concern.  Some differences consist of the provider having a license with oversight from DCF, it allows for DCF to account for available placement options for our EFC youth, and allows for EFC population to relocate to another city or county.  SAMH facilities will continue to be licensed by SAMH.  SAMH facilities will continue to be licensed group home as an option of residence.  Yes, there will be 2 levels of QRTP, QRTP level II will have a higher degree of structure, support, supervision, and clinical intervention.  The CBC may opt to continue their current practice of placing children in facilities that have progra
18 19 20 21 22 23 24 25 26 27 28 29 30	So all the referrals for placement to APD homes will greatly diminsh?  So the assessor must be a licensed clinician or a master's level practitioner:  Registered Nurse is qualified to perform the QRTP assessment?  at risk group home is the billling will be coming from eckerd when you submit your billing  For those facilities that are community respite providers/runaway shelters that are also licensed through Family Safety as a traditional group home, these facilities can remain correct with the restrictions on utilization outlined in FFPSA?  Will QRTP become part of the Child Welfare Plan funded by Sunshine similiar to SIPP?  Who will complete the comprehensive placement assessment-the CBC, DCF, subcontractor, Qualified Evaluator?  when discussing homes licensed businesses "other state agencies" are you referring to APD homes?  So is being a Medicare Provider a requirement at this time for becoming an QRTP?  Will the other reasons for a waiver be utilized in the state of Florida. I.e More than 2 childrine under the age of 24 mnths, Age, foster home capacity?  There is no license required right now for IL services nor do CBCs have authority over our program for 18-21. They also do not fund any of the program. How will this be different if licensed?  Licensed by DCF CW only? What about DCF SAMH license?  IL Facilities for youth 18-21 are not a placement  Are there different levels of QRTP? It says that the child-caring agency shall indicte if they will serve as Tier 1 or Tier II. How will this work?  My question related to DCF licensed programs really relates to all of this material speacks to only child welfare DCF Licenses. MAny of us have DCF SAMH licenses that serve CW youth, but we do not fit into this mold. We keep asking the question on how we get counted and how it will be different for us. We are a treatment facility, not a placement, but Lead Agencies to pay for room and board and some	It has been proposed that QRTPs be considered as a possible placement for dependency children who meet the APD criteria. We are waiting on approval from the Children's Bureau on this proposal.  A registered nurse would need to meet all of the requirements outlined for an QRTP assessor including not employed/contracted with QRTP and DCF approved.  the billing and payment of placement for dependent youth in a group home will remain the same. It is the funding source that will change that the CBC are permitted to use that will change.  Emergency shelters and runaway shelters will continue to be licensed the same way and will not move to an FFPSA setting unles they select to do so.  We are currently working with AHCA to determine the most suitable funding options. At this time, AHCA has indicated that STGH is the setting that is likely to be a suitable comparison. Some differences consist of the provider having a license with oversight from DCF, it allows for DCF to account for available placement options for our EFC youth, and allows for EFC population to relocate to another city or county.  SAMH facilities will continue to be licensed by SAMH.  EFC population do not fall under the "placement" definition but under a supervised living arrangement. An IL group home will allow for the young adult to select a licensed group home as an option of residence.  Yes, there will be 2 levels of QRTP. QRTP level II will have a higher degree of structure, support, supervision, an

## FFPSA and Florida's Child Welfare Group Home Providers | Webinar Q&A Responses

***IMPORTANT NOTE***The below responses are based on current or draft policies as of 8/28/2020. FFPSA related policies are pending finalization by the Department including federal approval.		
33	Why is the staffing ratio 1:8 for independent living? If they live in a dorm at a college the numbers would be greater with less oversight.	We increased the ratio of 1:6 to 1:8 for the traditional/residential homes serving EFC population based on the population. A ratio accompanies DCF issued licenses.
34	The definition of Traditional Residential Group home limits home or community capacity to 14. Our	Traditional group homes located in a single family or multi family community fall under the capacity of having no greater than a
	communities that are traditional and not drawing down federal funds have more than 14 community	capacity of 14.
	children on a campus. Is this definition going to be fixed?	Residential group homes do not have a capacity restriction, regardless of their location.
35	Is there any provision in your current draft that includes children with dual diagnoses (ID/DD and mental	We have proposed the requirements for admission into a QRTP to include this population and are currently waiting on final
	health issues)/	approval from the Children's Bureau.
36	How do you became a medicaid provider whats the steps	Please visit AHCA's site to learn more on how to become a Medicaid provider https://ahca.myflorida.com
37	So, a QRTP home, cant' go over 12 people?	Correct, there can be no more than a bed capacity of 12 for a QRTP.
38	Is there a staff ratio for the At risk program? is there a staff ratio?	yes it will be 1:6
39 40	Meant is there a limit on capacity for At risk?	no limit on the number of beds for licensure
40	Question for Dr. McGrath - what is your payment structure for the QRTP? thx	We (Citrus Health Network) will be braiding Medicaid funding for the services that we provide with the QRTP board rate that we bill the CBC Lead Agency. The exact rates are pending a final determination by Sunshine regarding a Day of Care rate for the QRTP.
41	Do you anticipate that any given at-risk home will have both community and child welfare kids at the same time?	We are unable to make that determination at this time. Currently that is the case with our Safe Houses as they are able to accept
42	How are you going to decide which specified setting home a teen should go to when they qualify for	children from the community, statewide, and nationally.  The comprehensive placement assessment is required to be completed for all children in out-of-home care when determing the
42	more than one setting	most appropriate placement setting.
43	Are you loosing licensing to manage capacity? Who will decide if an area needs a specified setting?	DCF regional licensing teams and the CBC will collaborate to determine which area needs specific group home settings.
44	How will IL licesed homes with high level supervision receive extra funding.	increased funding is determine by the CBC
45	1 boy group home and 1 girl group home , both QRTP could not exceed 12 combined?	That is correct.
46	Can you repeat the QRP bed capacitry for campus setting?	a QRTP can have no more than a capacity of 12. This applies to providers seeking to license more than one facility. The combined
	can you reposit the grant bod capability for campus country.	bed capacity must be 12.
47	How do we create Large Family Model Home's?	The foster home workgroup will discuss this item and additional guidance will be provided as policies are finalized
48	Who do we email for the Workgroup?	Samantha.Wassdeczege@myflfamilies.com
49	We are a large group care setting (many more than 12 beds). I'm looking at the large number of beds	IMD is a barrier to Florida's placement alignment and ability to provide treatment to children. We are currently in discussion with
	that look to be needed for QRTP level of care. How will we serve that many children if the QRTPs are capped at 12 beds?	several partners on this issue
50	when will we know whit the assessment for QRTP looks like	The assessment for QRTP will be either the CANS or CFAR. We are currently waiting on the final approval from the Children's Bureau
51	How were the billing issues solved in terms of the daily rate breakdown?	Billing issues related to providing QRPT services are still pending results of discussion with AHCA and Sunshine
52	what is the current need of Independent Living facilities??	We will share the current for IL homes
53	Can at Risk Group be non dependent children. How does that process differ?	Yes they can serve community (non-dependent) children. The licensing standards will be the same.
54	Where do the funds come from or the providers that want to stay the same?	Title IV-E funding is the primary funding sources for the payment of foster care room and board on behalf of an eligible child in DCF care
		Other potential funding streams may include local community entities, county programs, state/ federal grants, state general revenue, etc.
55	If a home chooses to stay just as they are, who coveres the cost of that care since they are not elibigle for Title IV-E funds?	At time of full FFPSA implementation, the state may continue to claim IV-E so long as the child remains in their current licensed group home that did not transition to a FFPSA setting.
56	If a group home chooses to stay as they are and not transition to FFPSA, how will that be paid since	Title IV-E funding is the primary funding sources for the payment of foster care room and board on behalf of an eligible child in
	they will lose eligibility for Title IV-E. Will they still be licensed as just residential care?	DCF care
		Other potential funding streams may include local community entities, county programs, state/ federal grants, state general
		revenue, etc.
		Group homes who do not transition to a FFPSA setting will remain licensed under their current setting type.
57	Will the foster parents be expected to work the entire month or can a schedule be developed.	While respite will be an option, no shift worked will be permanented. This will be discussed during the workgroup.
58	Does the AtRisk Setting Require Accreditation?	The at-risk homes do not require an accreditation.
59	can we have both settings?	Providers are allowed to have two different setting types. The two different setting types require two separate facilities/buildings
	AtRisk and IL	The same of the sa
	2 separate homes/ locations
