Executive Summary

In accordance with § 20.055, Florida Statutes (F.S.), the Office of Inspector General (OIG) is “established in each state agency to provide a central point for coordination of and responsibility for activities that promote accountability, integrity, and efficiency in government.” Additionally, by September 30, the Inspector General is required to complete an annual report summarizing activities of the office during the prior fiscal year. Consistent with these duties, the following accomplishments, highlights, and activities demonstrate significant efforts of the Department of Children and Families (Department) OIG staff during Fiscal Year 2016-2017:

- Received, reviewed, and processed 4,315 complaints or requests for assistance from Department managers, employees, clients, or citizens;
- Opened 85 cases, and completed 121 investigations, that examined allegations of violations of statute, rule, policy, contract, or systemic issues, and tracked 104 corrective actions (166 recommendations) by management to ensure responses to recommendations for personnel action or policy clarification were appropriately addressed;
- Processed 4,153 Inspector General Reference Checks for current and former Department and provider employees;
- Conducted 66 Outreach Training sessions for 2,019 Department and/or provider employees on the role of the OIG, when to report suspected employee wrongdoing, the Whistle-blower’s Act,¹ and how to recognize violations of statute, rule, policy, or contract;
- Maintained accreditation status through the Commission for Florida Law Enforcement Accreditation, Inc. (CFA);
- Completed 10,063 fair hearing requests, 1,406 administrative disqualification hearing requests, and 125 nursing facility discharge or transfer hearing requests;
- Published 9 assurance reports, which contained 20 findings and 30 recommendations for improvement of efficiency and effectiveness in Department programs and operations;
- Coordinated liaison activities for the Auditor General, Office of Program Policy Analysis and Government Accountability (OPPAGA), and federal agency requests for responses and information regarding audits and reviews;
- Reviewed and processed 141 Department contractor and provider audit packages of state financial assistance as required by § 215.97, F.S., as well as 5 certifications of no audit required from providers that did not meet the threshold; and
- The Auditor General completed its triennial Quality Assessment Review of the internal audit function. The review found that the audit activity was adequately designed and provided reasonable assurance of conformance with applicable auditing standards.

¹ The Whistle-blower’s Act, § 112.3187-112.31895, F.S., is intended to protect current employees, former employees, or applicants for employment with state agencies or independent contractors from retaliatory action. Whistle-blower designation is determined by the OIG. If a complaint meets whistle-blower criteria, the whistle-blower’s identity is protected from release and an investigation is conducted pursuant to § 112.3189, F.S.

Introduction

The OIG worked diligently to meet its statutory mandates and fulfill its mission of “Enhancing Public Trust in Government.” This annual report summarizes the activities and accomplishments of the OIG for Fiscal Year 2016-2017.

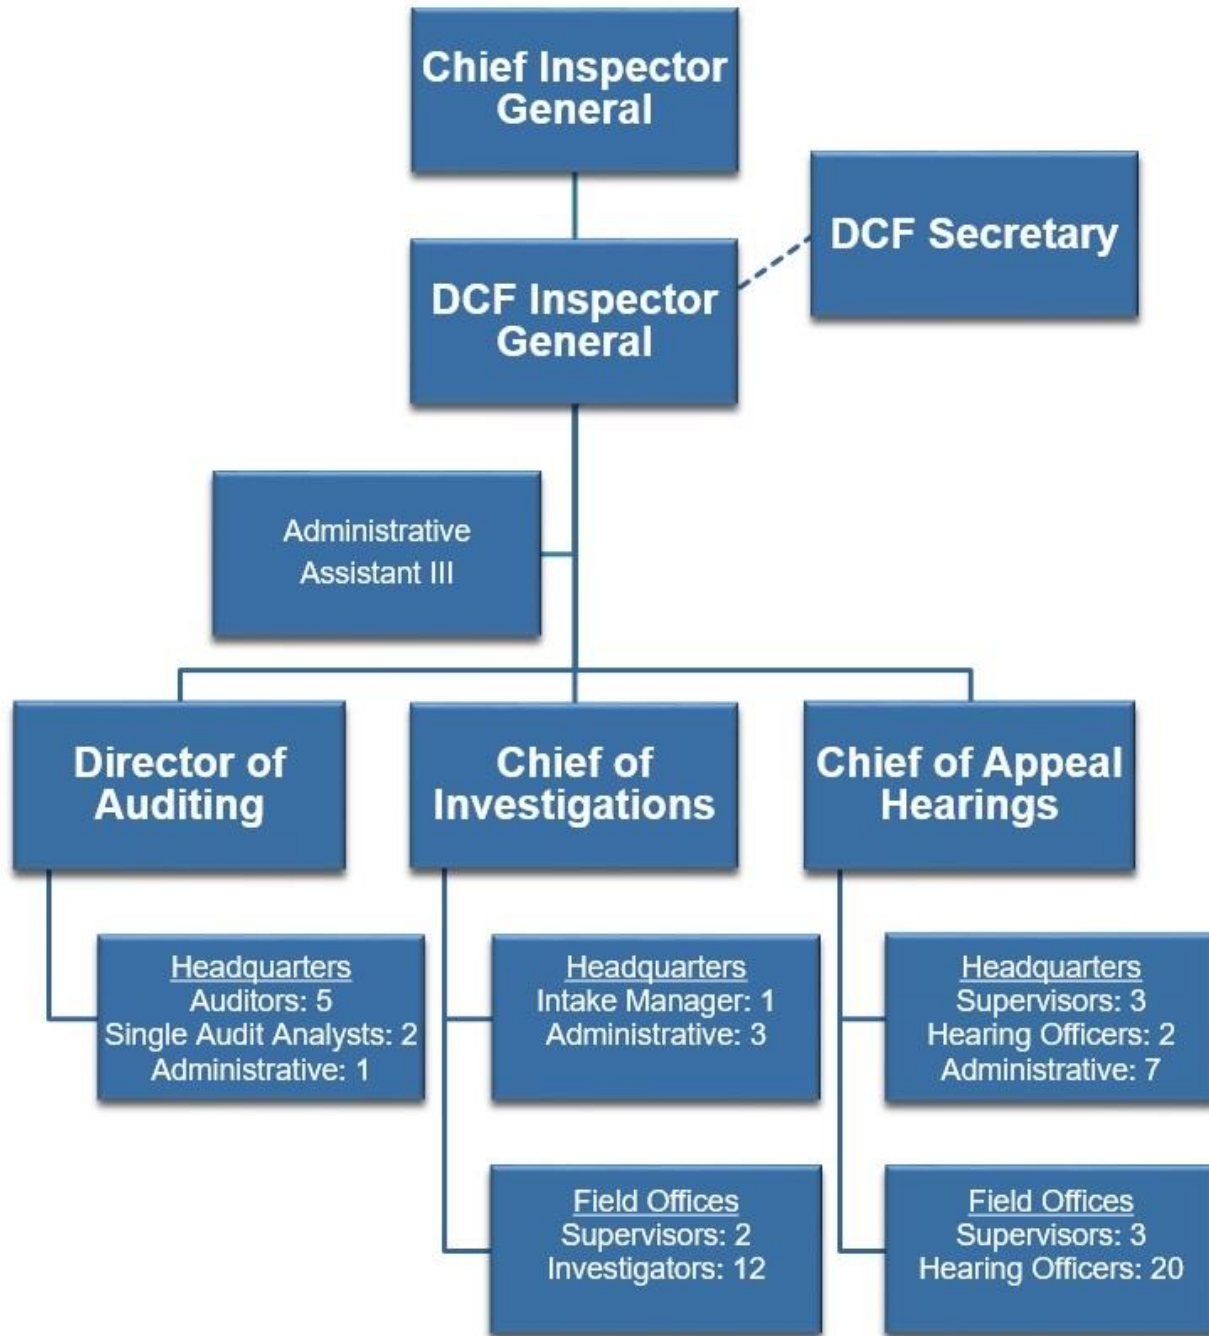

Statutory Requirements

The OIG is established in each state agency to provide a central point of coordination and responsibility for promoting and ensuring accountability, integrity, and efficiency in government. In accordance with § 20.055, F.S., the Inspector General is appointed by and reports to the Chief Inspector General, but is under the general supervision of the agency head. As outlined in statute, the duties of the Inspector General include:

- Advising in the development of performance measures, standards, and procedures for the evaluation of state agency programs;
- Assessing the reliability and validity of information provided on performance measures and standards, and making recommendations as needed;
- Reviewing actions taken by the agency to improve operational and program performance and making recommendations for improvement;
- Providing direction for, supervising, and coordinating audits, investigations, and management reviews relating to the programs and operations of the agency;
- Conducting, supervising, and coordinating activities that promote economy and efficiency and prevent or detect fraud, waste, and abuse;
- Informing the Chief Inspector General of fraud, abuses, and deficiencies relating to programs and operations administered or financed by the agency, recommending corrective actions concerning fraud, abuses, and deficiencies, and reporting on the progress made in implementing corrective action;
- Ensuring effective coordination and cooperation between the Auditor General, OPPAGA, federal auditors, and other governmental entities;
- Reviewing rules relating to programs and operations, and making recommendations regarding impact;
- Ensuring an appropriate balance between audit, investigative, and other accountability activities; and
- Complying with the *General Principles and Standards for Offices of Inspector General* as published and revised by the Association of Inspectors General.

Organizational Chart

As of June 30, 2017, the OIG consisted of three sections: Appeal Hearings, Internal Audit, and Investigations. Appeal Hearings and Investigations staff are located at headquarters and in field offices throughout the state.²

² Field Offices: Investigations – Ft. Lauderdale, Miami, Orlando, Tallahassee, and Tampa
Appeal Hearings – Ft. Lauderdale, Ft. Myers, Gainesville, Jacksonville, Marianna, Miami, Orlando, Pensacola, Tallahassee, Tampa, and West Palm Beach

Professional Certifications and Licenses

In addition to the educational degrees and experience required for their respective positions, OIG staff members hold the following professional certifications and licenses:

- Certified Inspector General: 2
- Certified Inspector General Auditor: 6
- Certified Inspector General Investigator: 9
- Certified Internal Auditor: 2
- Certified Internal Controls Auditor: 1
- Certified Fraud Examiner: 2
- Certified Public Accountant: 1
- Certified Public Manager: 3
- Certified Hearing Official: 1
- Certified Law Enforcement: 2
- Certified Paralegal: 1
- Licensed by the Florida Bar: 8
- CFA Accreditation Manager: 1
- CFA Team Leader Assessor: 1
- Child Welfare Protective Investigator: 1
- Florida Certified Contract Manager: 1

Investigations Section

Intake Unit

The Intake Unit handles incoming calls and reviews all complaints or requests for assistance received by the Investigations Section via telephone, letter, fax, e-mail, website, or in person. The Intake Unit reviewed a total of **4,315** complaints or requests for assistance, received in the following manner:

- 2,795** via telephone
- 739** via e-mail
- 582** via website
- 188** via letter or fax
- 11** in person

Investigations Unit

The Investigations Unit initiates investigations or management reviews when violations of statute, rule, policy, and/or contract provisions are alleged, including those filed under the Whistle-blower's Act. While investigations are administrative in nature, potential criminal violations are often discovered during the investigative process. When a determination is made that the subject of an investigation has committed a potential criminal violation, the investigation is coordinated with the Florida Department of Law Enforcement, local law enforcement agencies, or the appropriate State Attorney's Office for criminal prosecution.

Investigations and Management Reviews

- 85** cases were opened for investigation or management review
- 121** investigations were completed
- 189** allegations were investigated or reviewed

Whistle-blower Investigations

There were no investigations initiated or completed in accordance with the Whistle-blower's Act.

Recommended Corrective Actions

Based on the investigation or management review, the Investigations Unit may make recommendations in the form of corrective actions. The recommendations are for the purpose of process improvement and are made to Department or contracted provider management. The final reports, including recommendations, are sent to all appropriate parties and actions are tracked to completion. A total of **104** corrective actions, entailing **166** recommendations, were issued by the Investigations Unit.

Personnel Actions Associated with Investigations and Management Reviews

Personnel actions may occur as a result of allegations reported to the OIG, or investigations or management reviews completed by the OIG. The following actions were reported to the OIG and took place at the discretion of management or the employees themselves:

- 65** Resignations
- 51** Terminations
- 4** Suspensions
- 3** Written Counselings
- 1** Demotion

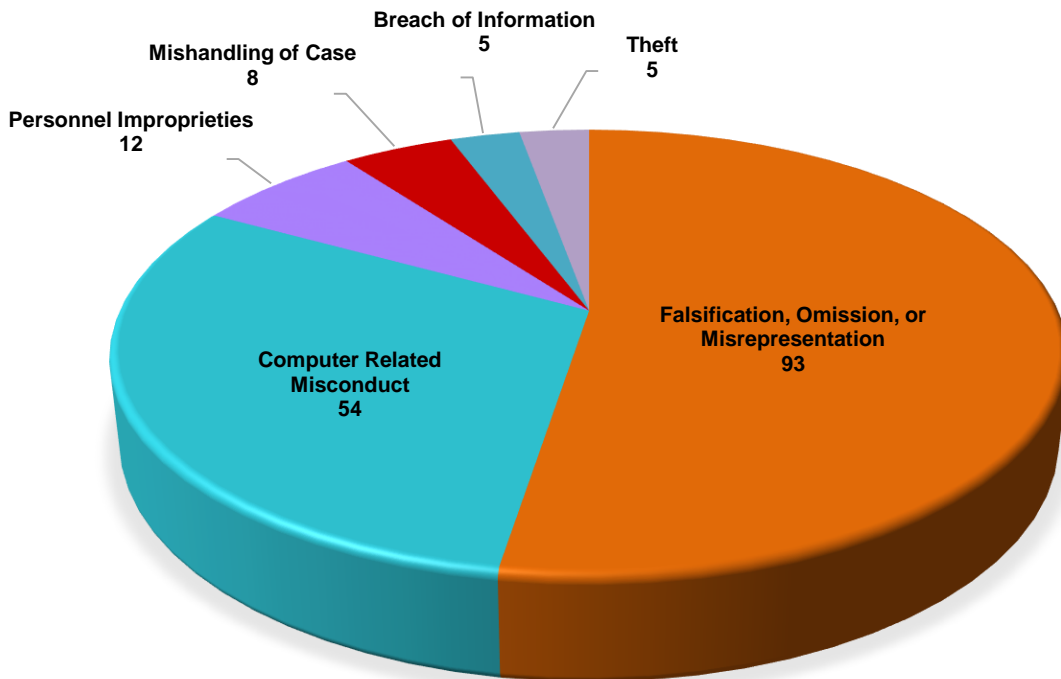

The following chart provides a comparative analysis of the **85** cases opened by Circuit:

Cases Opened by Circuit

The top six allegation types³ and corresponding numbers of allegations investigated for closed cases are as follows:

Top Six Allegation Types

³ These are the top six of the 189 allegations investigated or reviewed.

Public Records Requests

The Investigations Section responded to **31** public records requests under Chapter 119, F.S.

Inspector General Reference Checks / Database Checks for Prior Investigations

Current and former Department and provider employees being considered for rehire, transfer, promotion, or demotion are screened to determine if they were the subject of an OIG investigation. The OIG processed **4,153** such reference checks.

Inspector General Outreach Program

The Investigations Unit offers an outreach program to educate management and staff of the Department and providers on the role of the OIG. The training sessions cover when to report suspected employee wrongdoing, protection afforded under the Whistle-blower's Act, and how to recognize violations of statute, rule, policy, or contract. A total of **66** training sessions, involving **2,019** individuals, were completed with Department employees and/or contracted and subcontracted providers.

Appeal Hearings Section

The Appeal Hearings Section conducts administrative hearings for applicants or recipients of public assistance programs, and individuals being transferred or discharged from nursing facilities. The section also conducts disqualification hearings for the Department when individuals are alleged to have committed intentional program violations in the Cash or Food Assistance Programs.

The Appeal Hearings Section reports directly to the Inspector General. This assures independence and complies with federal regulations requiring a hearing officer to be a headquarters-level employee. Hearings are funded with 50% federal funds and 50% state general revenue.

Hearings Authority

The section operates pursuant to the following statutory authorities:

§ 409.285, F.S., *Opportunity for hearing and appeal*

§ 120.80, F.S., *Exceptions and special requirements; agencies*

§ 400.0255, F.S., *Resident transfer or discharge; requirements and procedures; hearings*

§ 393.125, F.S., *Hearing rights*

The administrative rules for the Department's fair hearing procedures appear in Rule 65-2.042, et seq., Florida Administrative Code, *Applicant/Recipient Fair Hearings*.

The major controlling federal regulations are as follows:

- Temporary Assistance to Needy Families Personal Responsibility and Work Reconciliation Act of 1996
- Medicaid - 42 C.F.R. § 431.200, *Fair Hearings for Applicants and Recipients*
- Food Assistance - 7 C.F.R. § 273.15, *Fair Hearings*
- 7 C.F.R. § 273.16, *Disqualification for intentional Program violation*

Hearings Jurisdiction

The section conducts hearings for the following programs:

Office of Economic Self-Sufficiency (OES)

- Cash, Temporary Assistance to Needy Families (TANF)
- Food Assistance
- Disaster Food Assistance Program
- Medicaid Eligibility
- Refugee Assistance Program
- Institutional Care Program

- Optional State Supplementation

Medicaid Benefits

- Agency for Health Care Administration (AHCA)⁴
- Agency for Persons with Disabilities (APD)
- Nursing Facility Discharge or Transfer Hearings
- Preadmission Screening and Resident Review Hearings

Others

- Department of Health Special Supplemental Food Program for Women, Infants, and Children (WIC)
- Eligibility or amount of assistance for Office of Child Welfare programs funded through the Social Security Act
- Child Support Enforcement issues for the Department of Revenue (DOR)

Hearings Activities

During Fiscal Year 2016-2017:

- 10,063** fair hearing requests were completed
- 1,406** administrative disqualification hearings for Cash or Food Assistance Program benefits were conducted and completed
- 125** nursing facility discharge or transfer hearings were completed

**Hearings Completed by Agency
Fiscal Years 2015-2016 & 2016-2017⁵**

⁴ As of March 1, 2017, appeals related to Medicaid programs directly administered by AHCA, including appeals related to Florida's Statewide Medicaid Managed Care program and associated federal waivers, were directed to AHCA pursuant to § 409.285(2), F.S.

⁵ DCF hearings include fair and administrative disqualification hearings. AHCA hearings include fair and nursing home discharge or transfer hearings. APD and DOR hearings include only fair hearings.

Internal Audit Section

Internal Audit Unit

The Internal Audit Unit conducts assurance audits and consulting projects related to programs, operations, and contracts to promote economic and efficient use of Department resources, and ensure compliance with policies, procedures, laws, regulations, and contractual requirements. The scope of internal auditing includes evaluating the adequacy and effectiveness of internal controls, assessing the Department's governance process, and evaluating risk exposures, including the potential for fraud. Acting as a liaison between external auditors and the Department, the Internal Audit Unit monitors implementation of Department responses to reports issued by the Auditor General or OPPAGA.

The Internal Audit Unit published **nine (9)** reports, which included **20** findings and **30** recommendations for improvement. Department management concurred or agreed with all of the findings.

During the fiscal year, the Internal Audit Unit facilitated **seven (7)** external projects from various external auditors, including the Auditor General, the U.S. Department of Health and Human Services Office of Inspector General, the Department of Financial Services, and OPPAGA. The unit also tracked and reported Department implementation of corrective action for **six (6)** external reports.

Single Audit Unit

The Single Audit Unit was created within the Department to review and recommend action on recipient audits of state and federal funding. The activity is mandated by Federal Uniform Grant Guidance and § 215.97, F.S.

Public accounting firms perform financial audits of Department contractors and providers that receive state and federal financial assistance. Single audits and associated reports are required by contract and considered a critical accountability component for state and federally funded initiatives. Financial accounting and reporting can be complex and technical. Since contract managers may lack the financial background or technical skills to properly assess financial statements and related schedules, this function was placed in the Internal Audit Section.

At the completion of each desk review, an Audit Review Status Report is prepared and sent to the Department contract manager and contract administrator. If a report contains findings, Contracted Client Services is included in the notification. Many desk reviews require no follow-up action. Desk review issues that require further attention from contract managers range from review findings communicated for informational purposes to significant issues requiring corrective action by the recipient. The Single Audit Unit also provides feedback to external auditors where clarification of an existing audit is required. The unit analyzed and reviewed **141** recipient audit reporting packages. In addition, the Single Audit Unit reviewed **58** certifications of no audit required from providers that did not meet the threshold requiring a single audit.

Florida Inspectors General Expertise System (FIGES)

The Internal Audit Section staff created and serve as the site administrator for the *Florida Inspectors General Expertise System (FIGES)*. *FIGES* is a public internet database of Florida state and local government Offices of Inspector General. It contains contact information, areas of expertise, and professional certifications for Office of Inspector General staff (<http://figes.dcf.state.fl.us>).

Appendix

Summary of Issued Internal Audits

PROJECT #A-1516DCF-004: *Audit of the Florida Safe Families Network Financial Module*

The objective of this audit was to examine Community-Based Care Lead Agencies' (CBCs') usage of the Florida Safe Families Network (FSFN) Financial Module to record client-specific expenditures. The scope of this audit focused on Office of Child Welfare client-specific expenditures during the period January 1, 2015 through March 31, 2015, including policies and practices in effect as of June 30, 2015.

The audit disclosed the following:

- CBCs often did not enter sufficient information in the FSFN Financial Module for the Department to determine whether client-specific expenditures were incurred;
- Control over access to confidential FSFN data needed improvement; and
- The Department did not require CBCs to enter all client-specific expenditures in the FSFN Financial Module.

The Director of Child Welfare Strategic Projects responded that the Department has defined the minimum menu of services desired in communities to serve children and families and is implementing requirements for each CBC to document all such services funded by the CBC.

PROJECT #A-1516DCF-045: *Welfare Trust Funds Maintained by Headquarters*

The objectives of this audit were to determine whether:

- Transactions of Welfare Trust Funds were made in compliance with state law and Department policy and procedures;
- Adequate controls were maintained over donations to ensure they were appropriately expended;
- Sufficient documentation was generated and maintained to support Welfare Trust Fund disbursements;
- Local bank account balances were maintained in accordance with Department policy; and
- The Central and SunCoast Regions spent any available Welfare Trust Funds during calendar year 2015.

The scope of this audit included reviewing procedures and supporting documentation of Welfare Trust Funds maintained at Headquarters.

The audit disclosed the following:

- During the 2015 calendar year, the Central and SunCoast Regions did not expend any of the \$226,960.77, in total, available to them in Headquarters Welfare Trust Funds.

Additionally, the Central Region did not expend any of the \$11,443.02 available in the Mildred F. MacDonnell Children's Fund;

- Excess Welfare Trust Funds in local bank accounts were not invested in accordance with state law and Department policy;
- Petty cash internal control procedures were insufficient and needed improvement; and
- Welfare Trust Funds procedures were outdated during the period under review.

The Chief Financial Officer responded that Financial Management will provide monthly information regarding account balances, directives, and/or restrictions for use to all regions, review the usage of funds, invest excess funds, and update existing policies.

PROJECT #A-1516DCF-118: *Audit of the Incident Reporting and Analysis System (IRAS)*

The objective of this audit was to evaluate the internal control structure and determine if the system was being used as designed. The scope of this audit focused on IRAS transactions and related activities for calendar years 2014 and 2015, and through the end of fieldwork (September 28, 2016).

The audit disclosed the following:

- IRAS access controls did not effectively remove IRAS users that were no longer employed by the Department or its licensed or contracted service providers;
- For calendar years 2014 and 2015, the Southern Region did not enter all critical incidents into IRAS. Upon review of more recent data, however, the Southern Region had significantly improved its IRAS incident reporting; and
- IRAS Substance Abuse and Mental Health (SAMH) Missing Child notifications may need additional review.

The Assistant Secretary for Child Welfare responded that the program would work with Department staff to revise the necessary procedures and the IRAS User Administrator Guide to develop a protocol for ensuring the timely deactivation of profiles when IRAS access is no longer needed or authorized. The Assistant Secretary for Child Welfare and the Assistant Secretary for SAMH responded that the two programs would work together to address policy issues regarding missing children notifications.

PROJECT #A-1617DCF-013: *Memoranda of Agreement and Memoranda of Understanding*

The objectives of this audit were to determine the number of active interagency agreements managed by the Department; determine if the use of interagency agreements by the Department was in accordance with the Department of Management Services, the Department of Financial Services, and Department procedures; and determine if the Department has an adequate methodology for tracking interagency agreements. The scope primarily focused on the various types of Department-issued interagency agreements currently managed by Department staff. Interagency agreements reviewed included Memoranda of Agreement, Memoranda of Understanding, and Community Partner Agreements.

The audit disclosed the following:

- The methodology for issuing and approving interagency agreements was not consistent between regions and program areas; and
- Department methodology for tracking various types of interagency agreements was not consistent between regions and program areas.

The Assistant Secretary for Administration responded that the Office of Contracted Client Services convened a work group to address and create a standardized routing and approval process, a standard unique identifier, and an approach to retention of the agreements.

PROJECT #A-1617DCF-020: *Child Care License and Registration Fee Collections*

The objective of this audit was to determine whether the Department periodically reconciled the amount of license and registration fees that should be collected, per the Child Care Administration Regulation and Enforcement System (CARES), to the amount of fees actually collected, deposited in the bank, and recorded in the Department Cash Receipts System and the Florida Accounting and Information Resource (FLAIR) system. The scope focused primarily on child care license and registration fee collections recorded by the Department in FLAIR for Fiscal Year 2015-2016.

The audit disclosed the following:

- The Department did not periodically reconcile the amount of license and registration fees that should be collected per CARES to the amount of fees actually collected, deposited in the bank, and recorded in the Cash Receipts System and FLAIR;
- Bank deposits of license and registration fee collections were not always timely; and
- Physical safeguarding of registration fee collections needed improvement.

The Director of Child Care Regulation responded that the Office of Child Care Regulation would work with the Office of Revenue Management to conduct a quarterly reconciliation. The Director of Child Care Regulation also responded that the appropriate staff will be reminded of the statutory time requirements and that updates to policy will be incorporated to ensure that registration fees are safeguarded.

PROJECT #A-1617DCF-023: *Office of Public Benefits Integrity Memorandum of Understanding with the Department of Financial Services Division of Public Assistance Fraud*

The objective of this audit was to determine if funds were being expended in accordance with the agreement. The scope of this audit primarily focused on payments made under this agreement during Fiscal Year 2015-2016.

The audit disclosed the following:

- The invoices submitted by the Department of Financial Services (DFS) Division of Public Assistance Fraud (DPAF) did not contain the detail as required by the agreement; and
- The agreement did not contain sufficient language to ensure that payments are made in accordance with federal requirements.

The response by the DPAF Director stated that DPAF would work with DFS Finance and Accounting and the Department's Office of Public Benefits Integrity to ensure that the monthly invoices contain the detail specified in the agreement. The Director of Data Analytics and Contract Management in the Office of Economic Self-Sufficiency responded that the two Departments would work together to strengthen the language in the Memorandum of Understanding to include reference to the federal requirements.

PROJECT #A-1617DCF-034: *Inappropriate Access to Case Files in FSFN*

The objective of this audit was to identify conditions where Department employees and contracted providers accessed FSFN without a legitimate business purpose and to make recommendations to mitigate such occurrences. The scope of this audit focused primarily on investigations completed by the OIG during the period July 1, 2013 through June 30, 2016. The audit was limited to the Department's current preventative and detective controls relating to FSFN.

The audit disclosed that supervisory reviews were not conducted to verify the legitimacy of FSFN searches. The Assistant Secretary for Operations concurred with the finding and is working closely with the Department Offices of Information Technology Services and Human Resources to reduce the occurrences of inappropriate access to Department systems. Specific steps being initiated include:

- Developing an e-Acknowledgement that will be disseminated to all employees. The e-Acknowledgement is to ensure that all Department employees are aware of state law and Department policies regarding falsifying records and accessing systems.
- Identifying red flag indicators that will be used to alert management and supervisors to possible inappropriate access and misuse of specific systems;
- Conducting regional meetings with all staff to ensure all employees are aware of the Department policy on accessing systems and records; and
- Ensuring system access is terminated for all employees that separate from the Department.

PROJECT #A-1617DCF-064: *Post Audit Sampling of Travel Advances*

The objective of this post-audit sampling was to determine if Department travel advance transactions complied with statutes, rules, and established operating procedures. The scope of this audit focused on travel advances during the period July 1, 2016 to September 30, 2016.

The audit disclosed the following:

- Travel advances were not always completed and submitted within 10 working days after travel had ended; and
- The Department was not using the most current travel forms approved by DFS.

The Staff Director of Account System and Service in the Office of Accounting and Finance responded that the Administrative Services Support Center (ASSC) will be instituting additional processes to address outstanding travel advances. Additionally, the ASSC Director will ensure the approved forms are available on the ASSC website and Department intranet.

PROJECT #A-1617DCF-116: *Audit of the Monitoring of the Florida Coalition Against Domestic Violence Contract and Subrecipient Agreements*

The objectives of this audit were to determine if the Department monitored the Florida Coalition Against Domestic Violence (FCADV) in accordance with Department procedures, and if the FCADV adequately monitored subrecipients for compliance with the terms of the agreement and fiscal stability. The scope of this audit primarily focused on the payments and monitoring activities occurring between July 1, 2016 and December 31, 2016.

The audit determined the following:

- Monitoring of FCADV by the Department was in accordance with Department procedures; and
- FCADV adequately monitored subrecipients for compliance with the terms of the agreement and fiscal stability.

This audit resulted in no findings. A response from the program office and FCADV was not required.

Summary of Internal Audit Projects Initiated and Terminated

PROJECT #A-1617DCF-035: *Follow-up on Community-Based Care Lead Agency Audits by the Auditor General*

The Auditor General conducted two audits in 2015 pertaining to the Department's Community-Based Care (CBC) and Managing Entity (ME) Lead Agencies. The objective of this project was to determine if the Department responded to findings in those audits and if the findings were resolved.

During the planning phase of this project, the Auditor General announced an operational audit that included additional CBCs and MEs. During this operational audit, the Auditor General would be following up on the findings in the previous reports. It was determined that an additional audit by the Internal Audit Unit would be a duplication of effort.

PROJECT #A-1617DCF-111: *Northeast Florida State Hospital Property Infrastructure Safety Concerns*

Previous risk assessment interviews reported concerns relating to generator power and video security camera monitoring. The objective of this project was to determine the risks posed by the lack of these items.

During the planning phase of this audit, the Chief Hospital Administrator was contacted for an update on issues reported during the risk assessment process. The Chief Hospital Administrator advised that security cameras had been received and were in the process of being installed. He also advised that there was generator power available at the campus and upgrades to the current generator system were ongoing.

PROJECT #A1617DCF-154: *State Term Contract Provider not Safeguarding Confidential Data Appropriately*

During a 2016 risk assessment interview, a concern was expressed that Novitex Enterprise Solutions exposed confidential and personal information of a Department customer. During the planning phase of this project, it was determined that the information exposed did not meet the definition of "personal information" pursuant to § 501.171, F.S.

PROJECT #O-1617DCF-132: *Sexually Exploited Children*

In 2012, the Florida Legislature passed the *Florida Safe Harbor Act*, which was created to provide a more coordinated response to address child welfare service needs of sexually exploited children. In 2016, House Bill 7141 expanded the provision of the *Florida Safe Harbor Act* by requiring the Department to develop or adopt a screening instrument for the identification of sexually exploited children, service planning, and placement. The Department partnered with the Department of Juvenile Justice and implemented the *Human Trafficking Screening Tool* to

identify Commercially Sexually Exploited (CSE) children brought into the delinquency system and divert them to the child welfare system when appropriate.

Pursuant to § 409.16791, F.S., OPPAGA is required to conduct an annual study on CSE of children. OPPAGA commenced their third annual study on February 27, 2017.

Significant Audit Recommendations Not Fully Implemented

Pursuant to § 20.055(8)(c)4., F.S., requires the OIG to identify significant recommendations described in prior audit reports that have not been completed.

PROJECT #A-1516DCF-031: *Audit of the Department's Purchasing Card Transactions*

Finding:

Department records in the Voucher Imaging System did not always contain all required supporting documentation for Purchasing Card (P-Card) transactions.

Recommendation:

The OIG recommended that the ASSC establish a process to ensure that all supporting documentation is included with P-Card transaction information in the Voucher Imaging System.

Status as of June 30, 2017:

The ASSC was restructuring and re-arranging job duties to assist with P-Card reconciliation and tracking. Additionally, the ASSC was working on a process to enable them to cross-reference the original P-Card charge to the travel voucher.

PROJECT #A-1516DCF-062: *Background Screening of Summer Camp and Membership Organizations Personnel*

Finding:

Department operating procedures related to background screening were outdated and did not reflect changes applicable to personnel of summer camps and membership organizations.

Recommendation:

The OIG recommended that the Background Screening Office administrator update CFOP 60-19, *Caretaker Screening*, and CFOP 60-18, *Exemption from Disqualification*, to reflect current background screening requirements applicable to summer camp and membership organization personnel.

Status as of February 1, 2017:

As a result of legislative changes for child care personnel background screening requirements effective July 1, 2016, CFOP 60-19 is under revision to separate requirements for child care from other caretaker screenings. CFOP 170-3, Chapter 12, *Criminal Background Checks for Child Care Personnel*, has been released and CFOP 170-3, Chapter 13, *Caretaker Screening*,

was created and is under final review. These two policies will replace CFOP 60-19. CFOP 60-18 is being revised to incorporate changes in the exemption process.

Auditor General Quality Assessment Review of the Internal Audit Function

From July 2016 to September 2016, the Internal Audit Section facilitated the Auditor General Quality Assessment Review of the OIG internal audit function. Results of this review were reported in Auditor General Report Number 2017-023, *Department of Children and Families Office of Inspector General's Internal Audit Activity for the Review Period July 2015 through June 2016*.

The Auditor General found that, during the review period, the quality assurance program related to the internal audit activity was adequately designed and provided reasonable assurance of conformance with applicable professional auditing standards. In addition, the OIG internal audit function generally complied with provisions of § 20.055, F.S., and nothing significant was disclosed.

Institutions

- 2014-0070 A Northeast Florida State Hospital (NEFSH) Mental Health Security Specialist Shift Supervisor, Mental Health Security Chief, and multiple other employees violated CFOP 155-21 by placing a resident in restraints and failing to adequately document the incident. **Investigation Terminated.**
- Corrective Action:** The decision to terminate the investigation was based on information obtained reflecting that when safety is an issue, security has to take appropriate action to ensure the safety of residents and employees. The issue was then not that the restraints were used, but that the resident was released from the restraints without medical clearance. NEFSH management had the information and ability to take any appropriate corrective action prior to referring the matter to the OIG. Though the OIG interviews were conducted timely, there was a lack of consensus among witnesses and an OIG investigation would add no value. The Mental Health security Specialist Shift Supervisor resigned.
- 2014-0071 Two Florida State Hospital (FSH) Unit Treatment and Rehabilitation Specialists (UTRSs), two FSH Human Services Counselor (HSC) IIIs, two FSH Rehabilitation Therapists, an FSH Storekeeper II, and an FSH Unit Treatment and Rehabilitation Senior Supervisor (UTRSS) II accessed the Resident's deskfile without a legitimate business reason. **Supported.** An FSH UTRSS I and an FSH Registered Nurse Specialist, accessed the Resident's deskfile without a legitimate business reason. **Neither Supported Nor Refuted.** An FSH Senior Human Services Counselor Supervisor, an FSH Behavioral

Program Specialist, an FSH Secretary Specialist, an FSH Nursing Program Specialist, and an FSH Barber/Beautician accessed the Resident's deskfile without a legitimate business reason. **Not Supported.**

Corrective Action: The UTRSs resigned. Due to the initiation of the following actions, no disciplinary action was recommended by management. FSH took the following actions to ensure the appropriate use of FSH resident deskfiles:

1. The FSH Health Information Services Director randomly selects and audits two resident deskfiles per month to determine if employees accessing the record had legitimate business reasons to do so.
2. FSH ensures that the level of access to deskfiles follows the "minimum necessary rule," and approval for access beyond the rule must be provided by the Administrator. The Information Technology Department (IT) has established accessibility to deskfiles based upon employee duties and responsibilities, and if IT determines there has been excessive activity in a particular record, the Administrator is notified and will determine if a formal inquiry is appropriate.
3. FSH ensures Health Insurance Portability and Accountability Act (HIPAA) training and refreshers are provided for staff, including online training and regular "In The Loop" reminders.
4. The FSH Health Information Services Director will send monthly HIPAA topics for the "In The Loop" document, and will submit quarterly HIPAA breach reporting procedures in the FSH newsletter ("Chattagram").
5. IT installed a button that must be clicked before entering a resident deskfile. The message on the button warns the user of consequences of potential breaches, and the user must click "OK" to proceed.
6. All employees signed an Access to Resident Electronic Medical Records and Other Protected Health Information acknowledgement form, acknowledging that accessing medical records or other Protected Health Information (PHI) must be directly related to the performance of official duties by September 1, 2014. The form is now completed by all new employees during new employee orientation. This information was scanned into a shared folder.

The Office of Information Technology Services (OITS) will work with Human Resources (HR) to implement the Department Security Agreement Form (CF 114) into the LMS as an annual certification requirement consistent with Chapter 815, F.S. An external HIPAA risk assessment audit was conducted by the OIG in 2012 and OITS will work with the OIG to determine whether a full or partial follow-up risk

assessment is needed and, if necessary, plan with senior management on the approach to complete any such review.

2015-0108

An FSH Health Support Technician, two FSH Food Support Workers, and an FSH Assistant Food Service Director took fresh fish plates out the back of the kitchen for personal use, without authorization, resulting in a theft of state resources. Another FSH Food Support Worker took slices of cheese for use on his sandwiches without payment or authorization to do so, resulting in a theft of state resources. Two FSH Dietetic Technicians are not going out to the units and verifying tray accuracy for the residents, but instead sitting in the office and pulling random names to complete reports, resulting in falsification of tray accuracy reports. An FSH Senior Clerical Supervisor is not verifying that Dietetic Technicians are going out to the units and verifying tray accuracy for the residents, resulting in falsification of tray accuracy reports. An FSH contracted employee ignored reports of theft, resulting in misappropriation of state resources by allowing employees to steal food and supplies from the kitchen at FSH. ***Investigation Terminated.***

Corrective Action: The decision to terminate the investigation was based on information obtained reflecting that FSH had already implemented changes upon initial receipt of the complaint and conducting an OIG investigation would provide no value.

2016-0049

An FSH UTRSS I shared her password with other employees. The FSH UTRSS I and an FSH UTRS provided confidential resident information to an unauthorized individual. ***Investigation Terminated.***

Corrective Action: The decision to terminate the investigation was based on information obtained that an OIG investigation would add no value due to the time elapsed between the event and the reporting of the event, and a lack of potential to obtain sufficient evidence to reach a finding. The UTRSS I was terminated and the UTRS resigned.
