Graph and Table Symbols

Performance Glance

Performance indicators have been added to the titles and table of contents to assist the reader in quickly determining current performance in specific areas.

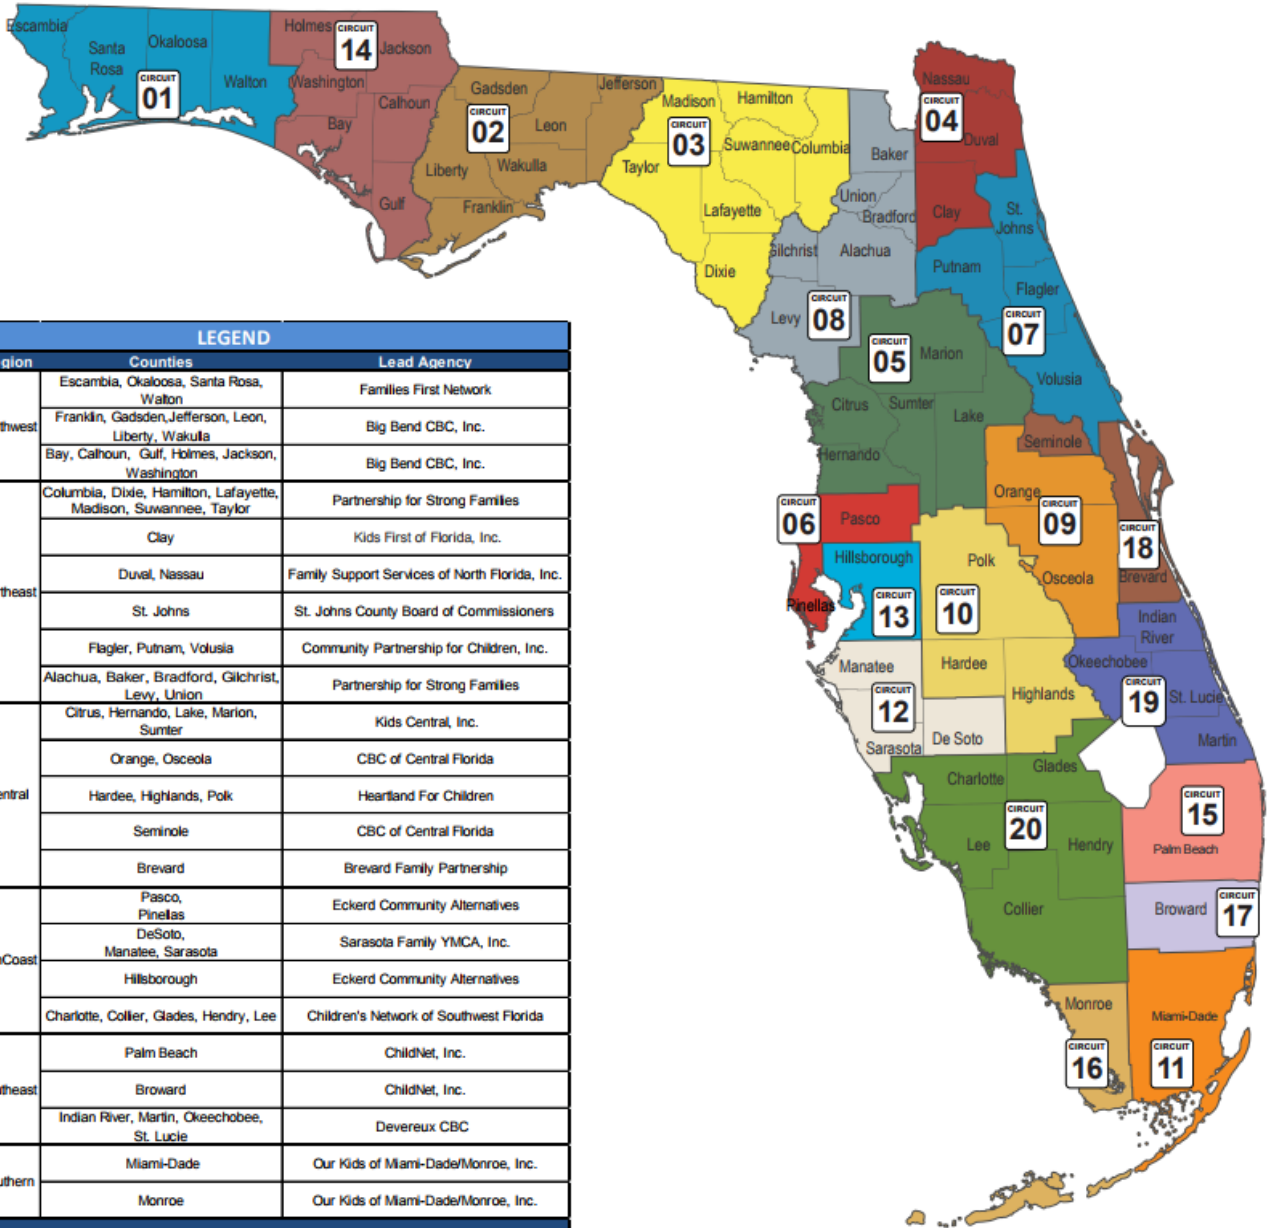

- Green dots before the titles indicate that either statewide/national targets are being met or for those measures where a target is not applicable, the previous 3-month trend is either stable or moving in the right direction.
- Red dots before the titles indicate that either statewide/national targets are not being met or for those measures where a target is not applicable, the previous 3-month trend is moving in the wrong direction.

DCF Service Structure

Regions, Circuits, Counties, and CBC Lead Agencies

System Overview

Florida's community-based child welfare system is comprised of a partnership between the Department of Children and Families (DCF), other state agencies, the courts, law enforcement agencies, service providers, and local communities.

There are over four million children in Florida of which most fortunately do not come to the attention of the system. For those children who do enter the system, entry begins with reports of allegations of abuse or neglect made to the Florida Abuse Hotline, operated by DCF. The Florida Abuse Hotline receives in excess of 350,000 child-related calls annually. Calls received are screened to determine if the criteria are met to initiate a protective investigation.

If criteria are met, the report is referred to a local Child Protective Investigations (CPI). Statewide there are over 220,000 protective investigations conducted annually. These investigations are conducted by DCF in 61 counties. In the remaining 6 counties, including Broward, Hillsborough, Manatee, Pasco, Pinellas, and Seminole, county sheriff's offices perform the investigations. Investigators determine the need for post-investigation services, including protecting the child through removal and placement in out-of-home care or through case-managed, in-home services (by court order or non-judicially), or through informal voluntary family support services. For SFY 2016-2017, over 35,000 children were served in out-of-home care.

Florida statute requires that post-investigation services be provided through contracting with community-based care lead agencies (CBCs). There are 17 Community-Based Care (CBC) lead agencies that each provide coverage to specific geographic areas within the 20 Judicial Circuits in Florida. Several lead agencies cover more than one geographic area and areas may include one or multiple counties. In three instances, the CBC lead agency serves two geographic areas under separate contracts, lending to 20 lead agencies displayed within the CBC tables of this report. Although services vary among CBC lead agencies, they have a shared role in participating and ensuring safety, permanency, and well-being for all children in the state.

The monthly Child Welfare Key Indicators Report presents data for the Florida Abuse Hotline, Child Protective Investigations, CBC lead agencies, as well as other key metrics describing the state of the Florida Child Welfare System.

Below Standard Standard or Better

Last Updated: 4/13/2018

Source: Federal Child Welfare Indicator Dashboard

<http://www.dcf.state.fl.us/programs/childwelfare/dashboard/federal-indicators.shtml>

***Black Belt projects were conducted on the Rate of Abuse, Re-entry, and Placement Moves Federal Indicators due to these measures not meeting the national target. The projects were completed in conjunction with state child welfare partners and have been routed to the Florida Institute for Child Welfare for research review as outlined in Florida's continuous quality improvement process. An analysis project is also currently underway on the permanency in 12 months Federal Indicator, which dropped below the federal target for two of the last three quarters.

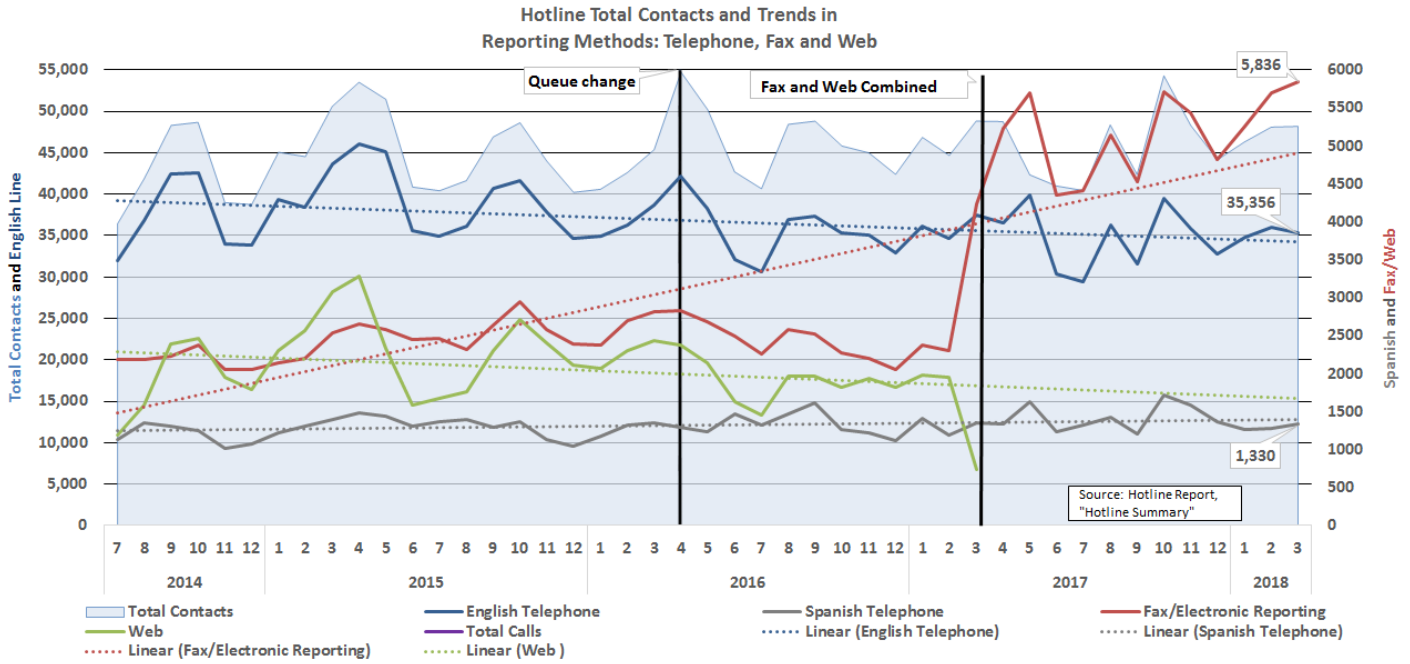

Workload Trends

Reporting Method Trends

M

The Florida Abuse Hotline offers a variety of methods for citizens to report concerns about children and vulnerable adults. A modification was made within the system, resulting in the tracking of webs and faxes together. Webs were previously represented by the green line within the graph below, however beginning in March 2017, webs were combined with faxes, now represented by the red line.

Seasonality of Hotline Workload

M

There were 48,187 total contacts offered for the month of March. "Contacts Offered" include those abandoned by a caller who called back, so both attempts and completed calls from the same individual may be counted.

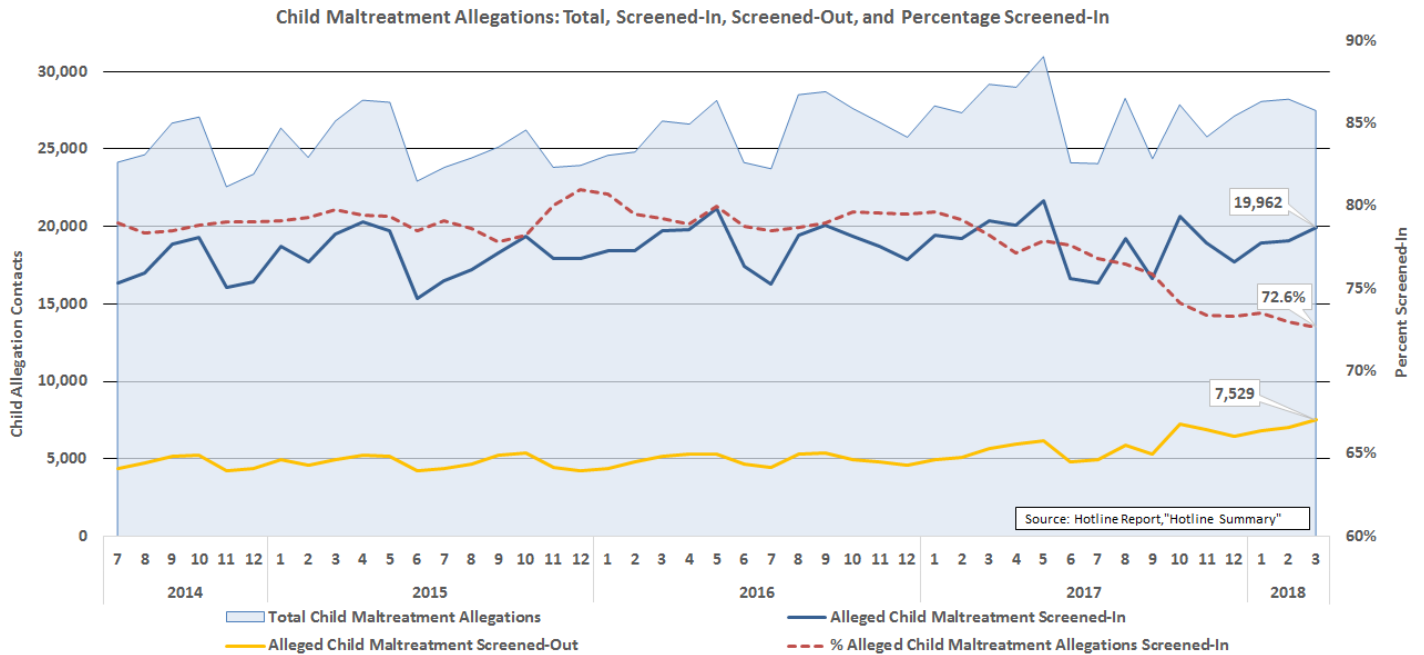

Screening Trends

M

Alleged Maltreatment Screening

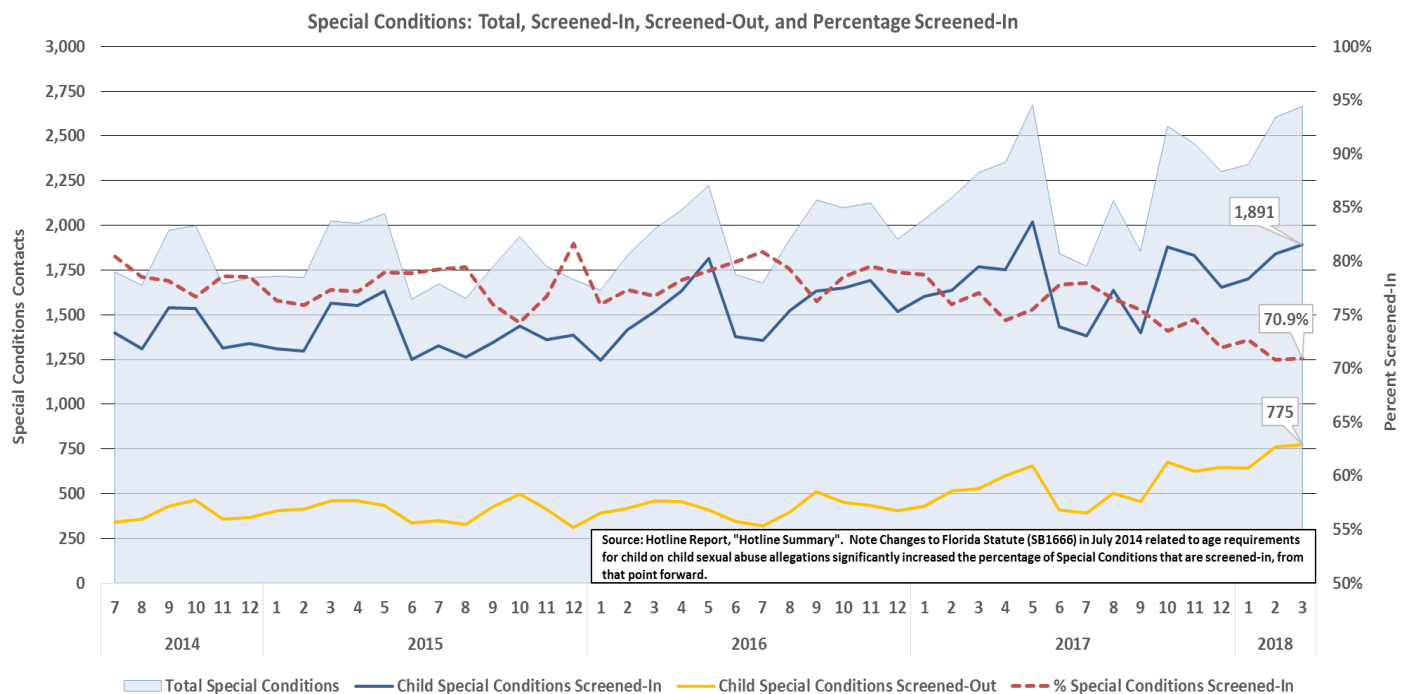

Total child maltreatment allegations for March 2018 was 19,962. In March 2018, 72.6% of child maltreatment allegations reported were screened-in. Since September 2017, there has been a steady decline in the acceptance of screened-in intakes statewide.

Special Conditions Screening

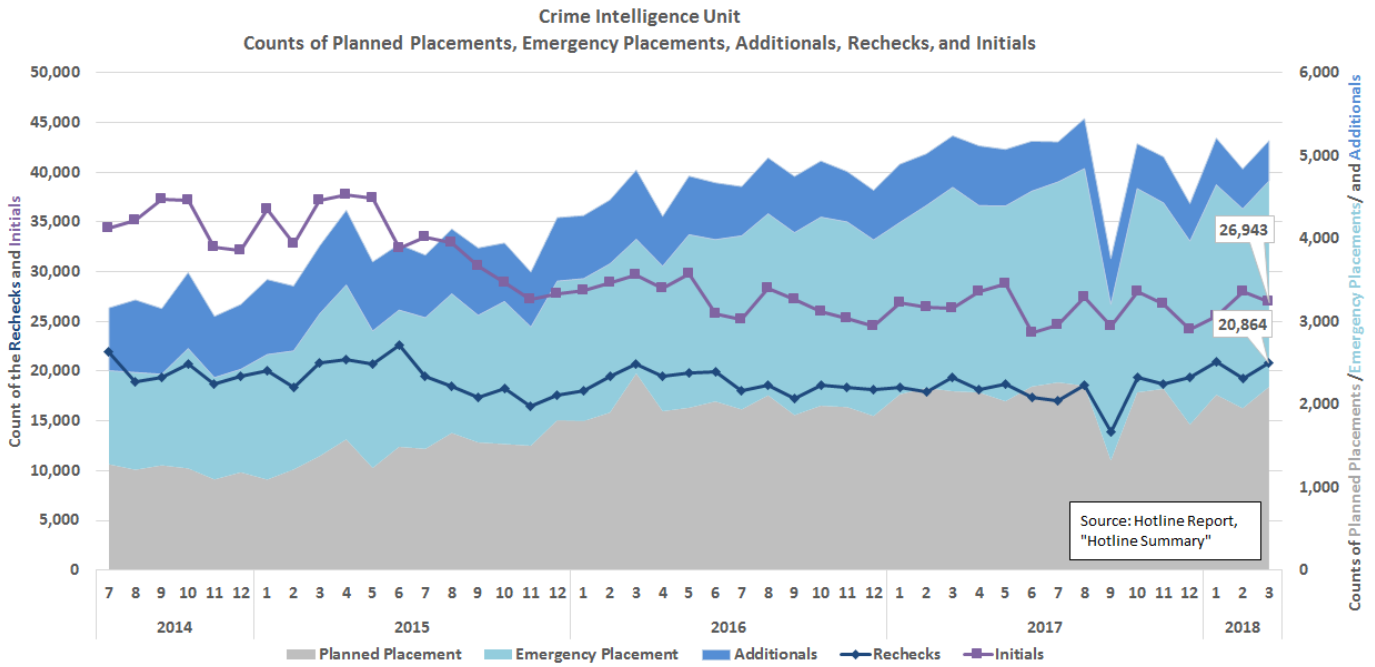

M

There were 1,843 screened-in special conditions for March 2018.

Crime Intelligence Unit

The included chart contains Crime Intelligence Unit counts for planned placements, emergency placements, additional, rechecks, and initials.

Timeliness Trends

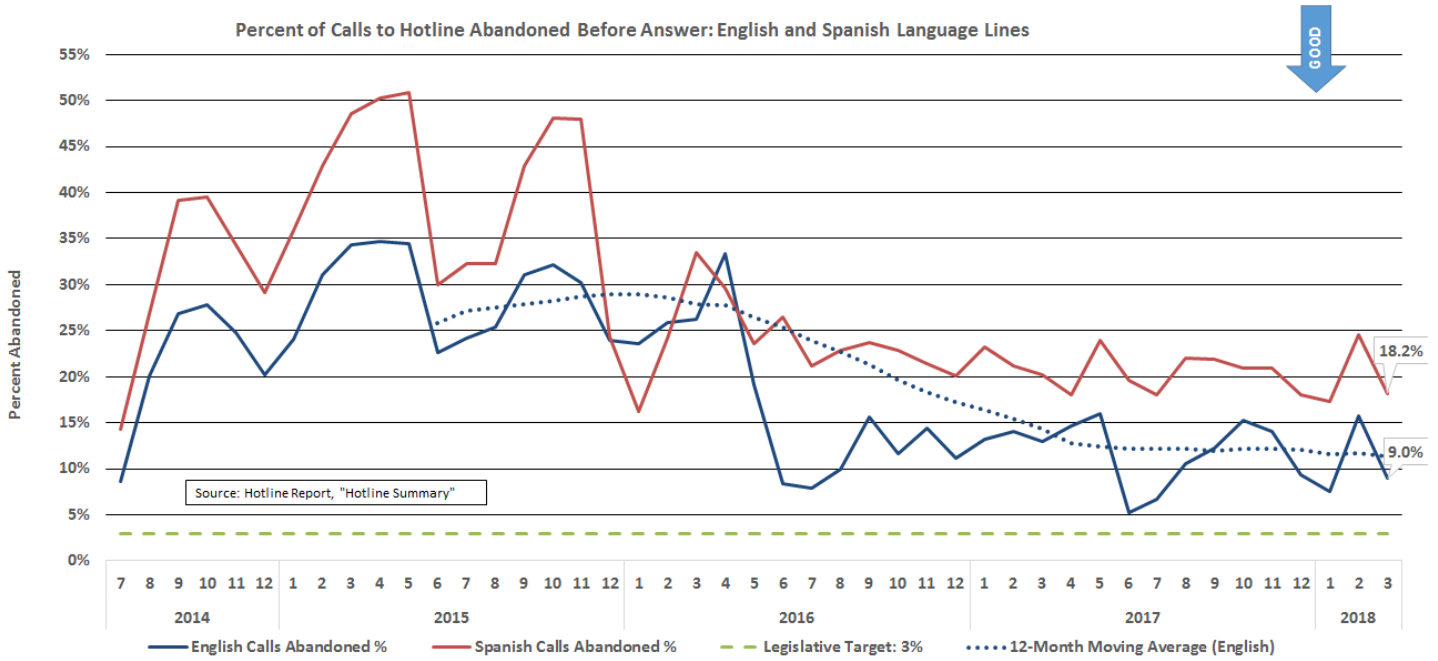

● Average and Maximum Times to Answer or Abandon

The average wait time before answer decreased in March (2 minutes 1 seconds). 98% of calls were answered in 10 minutes or less, meeting the 98% target.

● Percent of Calls Abandoned

The percent of calls to the Florida Abuse Hotline English Line that are abandoned before answer decreased to 9.0% for March 2018, and the percent of Spanish Line abandoned calls decreased to 18.2%.

● Average Handling Time Trend Stratification

The Average Handling Time (AHT) of a counselor includes talk time (ACD) and after call work (ACW). Average talk time maintained at just above the 12-minute level while ACW continued below the 22-minute level.

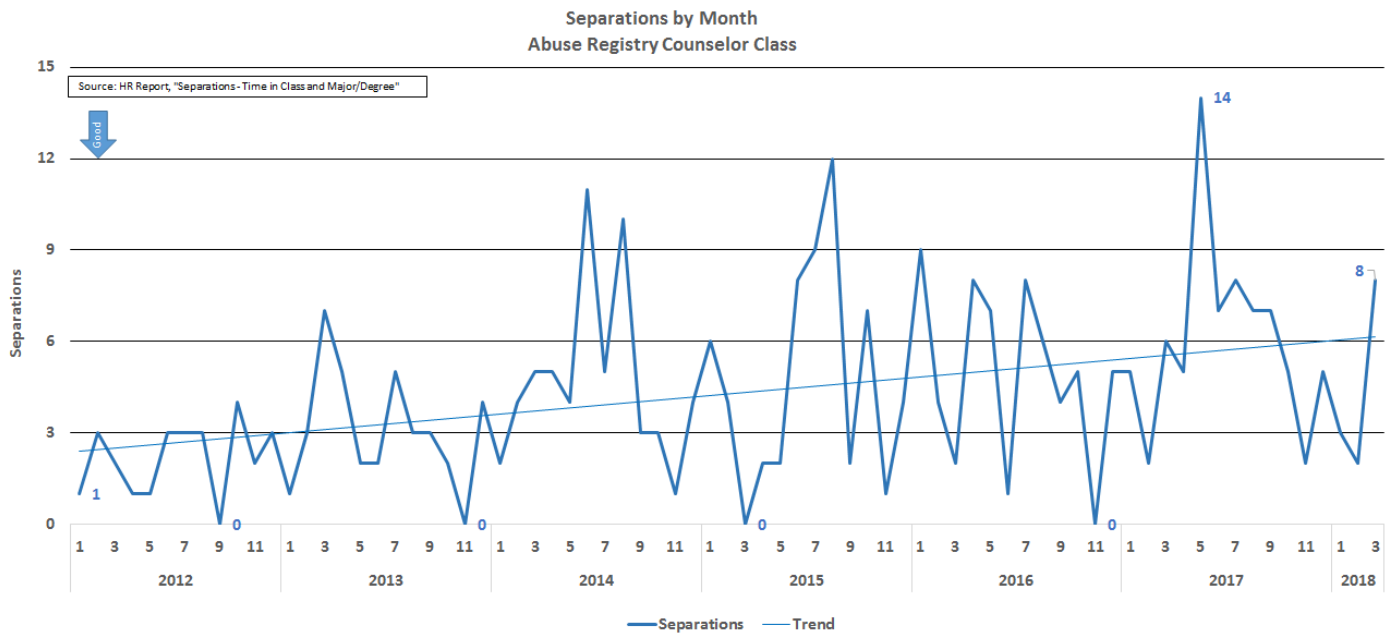

Hotline Counselor Workforce

M

Monthly Separations for Abuse Counselors

The Florida Abuse Hotline experienced a spike in Abuse Registry Counselor separations in March 2018.

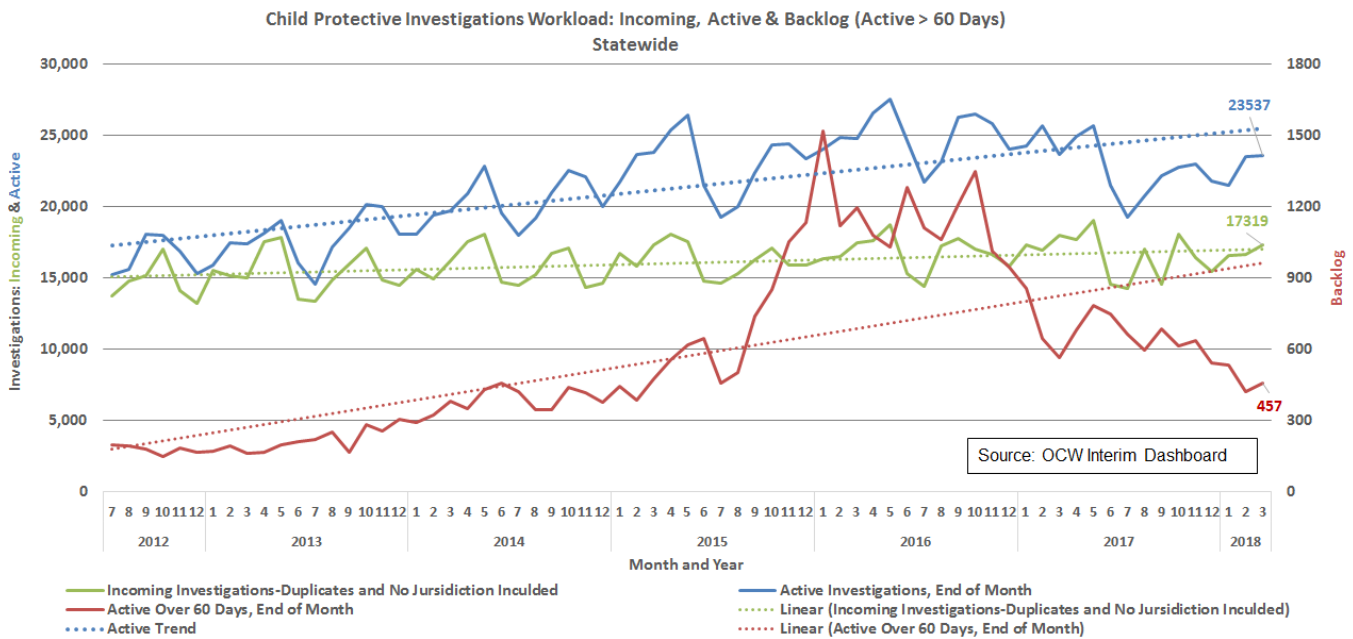

Child Protective Investigators

Workload Trends

M

Investigative Workload: Incoming, Active, and Backlog Investigations

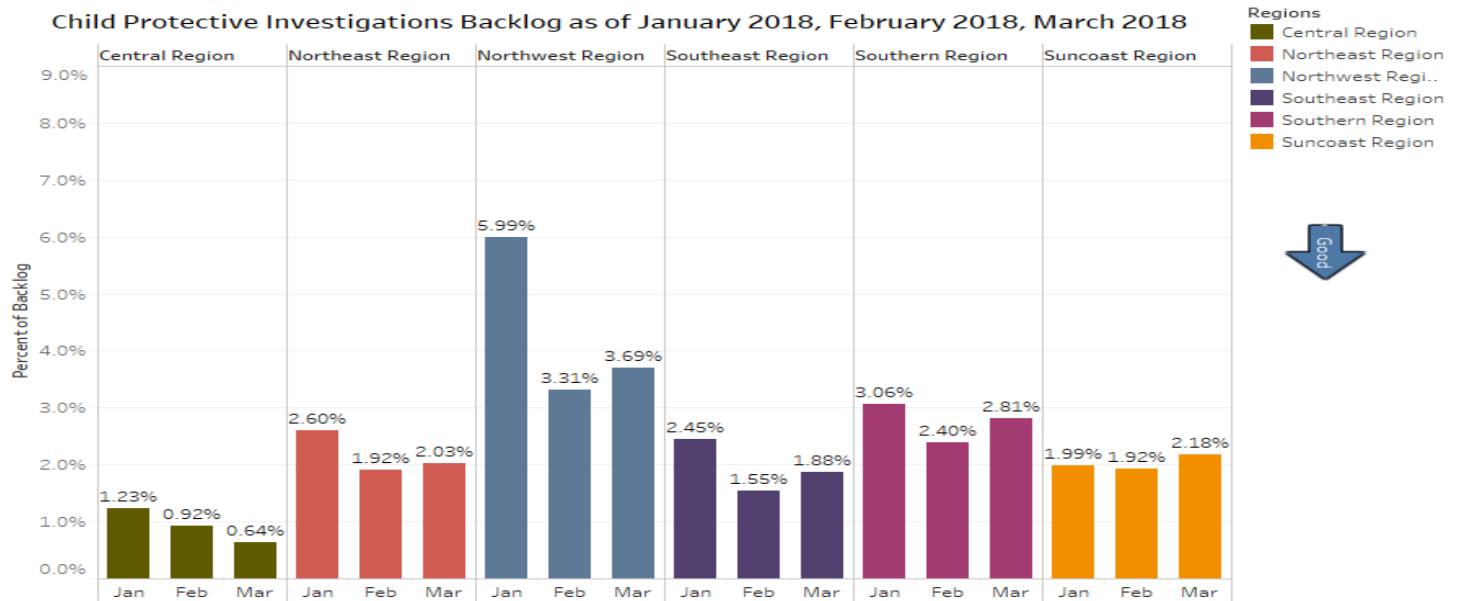

Incoming investigations remained stable for March at 17,319. Active investigations as of the last day of the month remained unseasonably low at 23,537. This number is approximately 671 lower than what was observed for March 2017. Total investigations in Backlog increased slightly to 457 as of 3/31/18.

Investigative Workload: Stratified by Region

M

Five out of six DCF regions experienced an increase in backlog from February 2018 to March 2018. Central Region is the only area that continued to tend downward for a three-month time period.

Data Source: OCW Interim Dashboard
Backlog Percentage calculation doesn't include active investigations closed after last day of month, effective 3/15/2018.

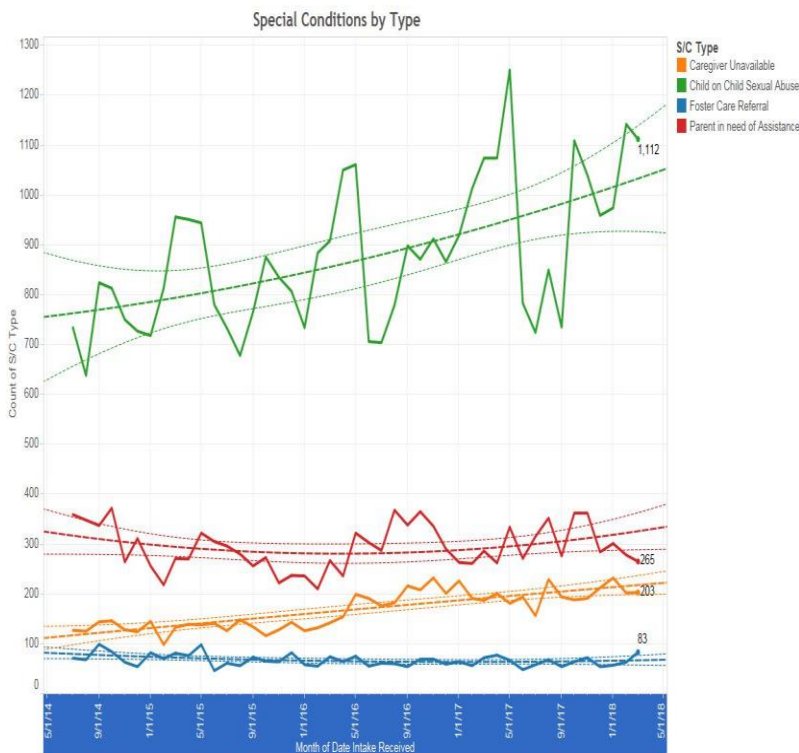

Maltreatment Investigations and Special Conditions Referrals

Alleged Maltreatment Investigations were stable for a normal March. Special Condition Referrals remained stable when compared with March 2017 data.

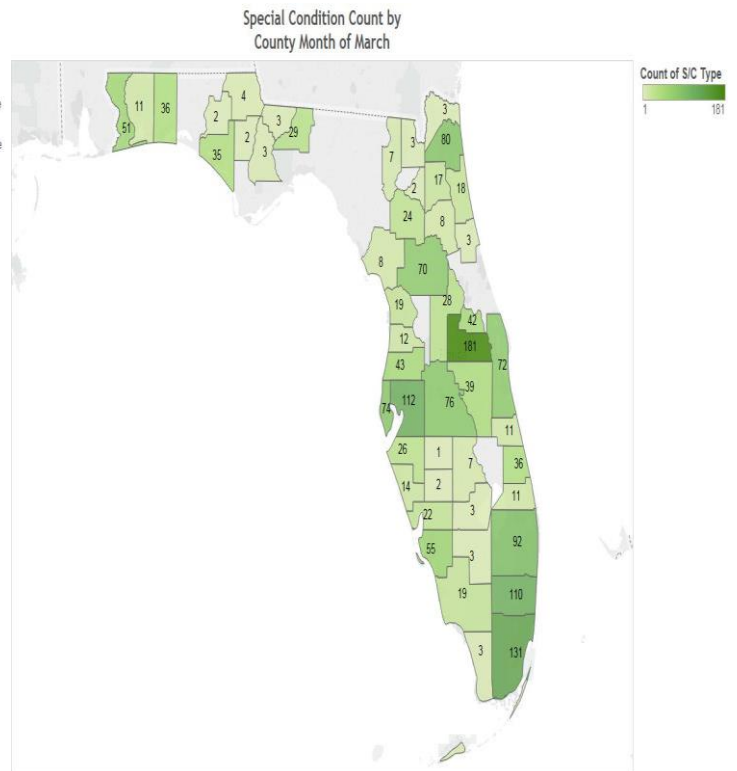

Special Conditions: Stratified by Type and by County

As observed in the data, the increasing trend in special conditions is largely due to the increase in child-on-child referrals. All other special condition types have remained fairly flat.

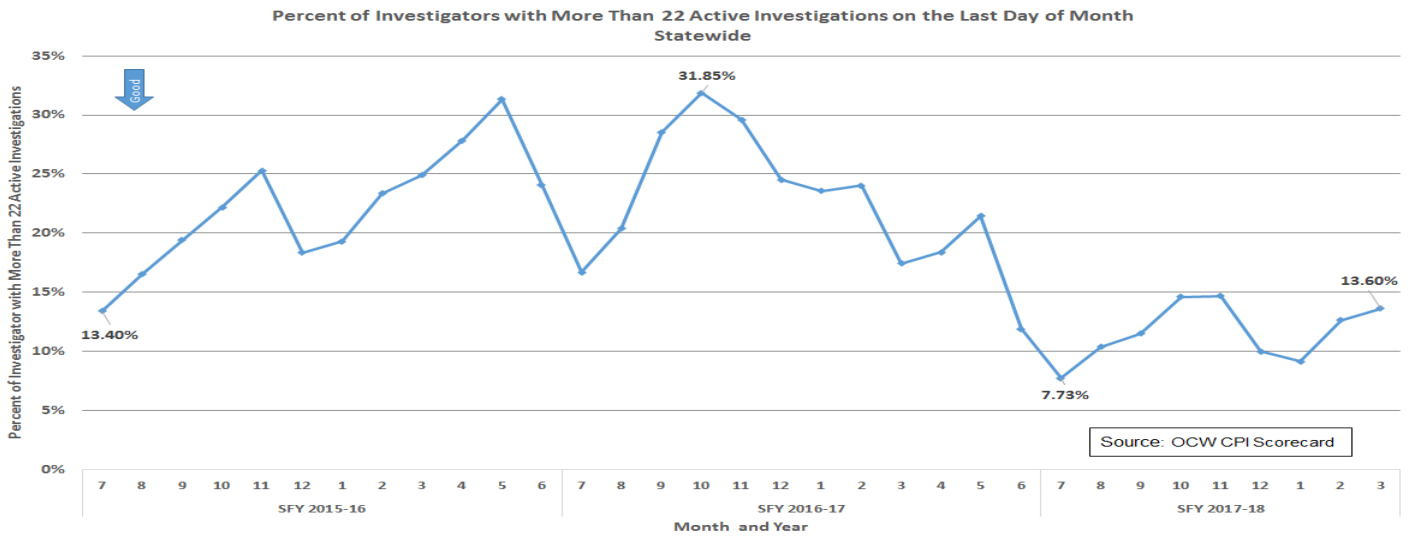

The trend of count of S/C Type for Date Intake Received Month. Color shows details about S/C Type. The data is filtered on County and Date Intake Received Year. The County filter keeps 67 of 67 members. The Date Intake Received Year filter keeps multiple members. The view is filtered on Date Intake Received Month, which ranges from 7/1/14 to 3/1/18.

Map based on Longitude (generated) and Latitude (generated). Color shows count of S/C Type. The marks are labeled by count of S/C Type. Details are shown for County. The data is filtered on S/C Type, Date Intake Received Year, Date Intake Received Month and Supervisor Decision. The S/C Type filter keeps Caregiver Unavailable, Child on Child Sexual Abuse, Foster Care Referral and Parent in need of Assistance. The Date Intake Received Year filter keeps 2018. The Date Intake Received Month filter keeps March. The Supervisor Decision filter keeps Screen In.

Statewide: More Than 22 Active Investigations

This measure has been modified from the percentage of investigators carrying 15+ to the percentage of investigators carrying 22+ active child protective investigations. There was an increase in the percentage of investigators carrying 22+ active investigations in March, but the observed percentage of 13.60% is still lower than the March 2017 percentage of 17.42%.

Stratification More Than 22 Active investigations by DCF Circuit and Sheriff’s Office

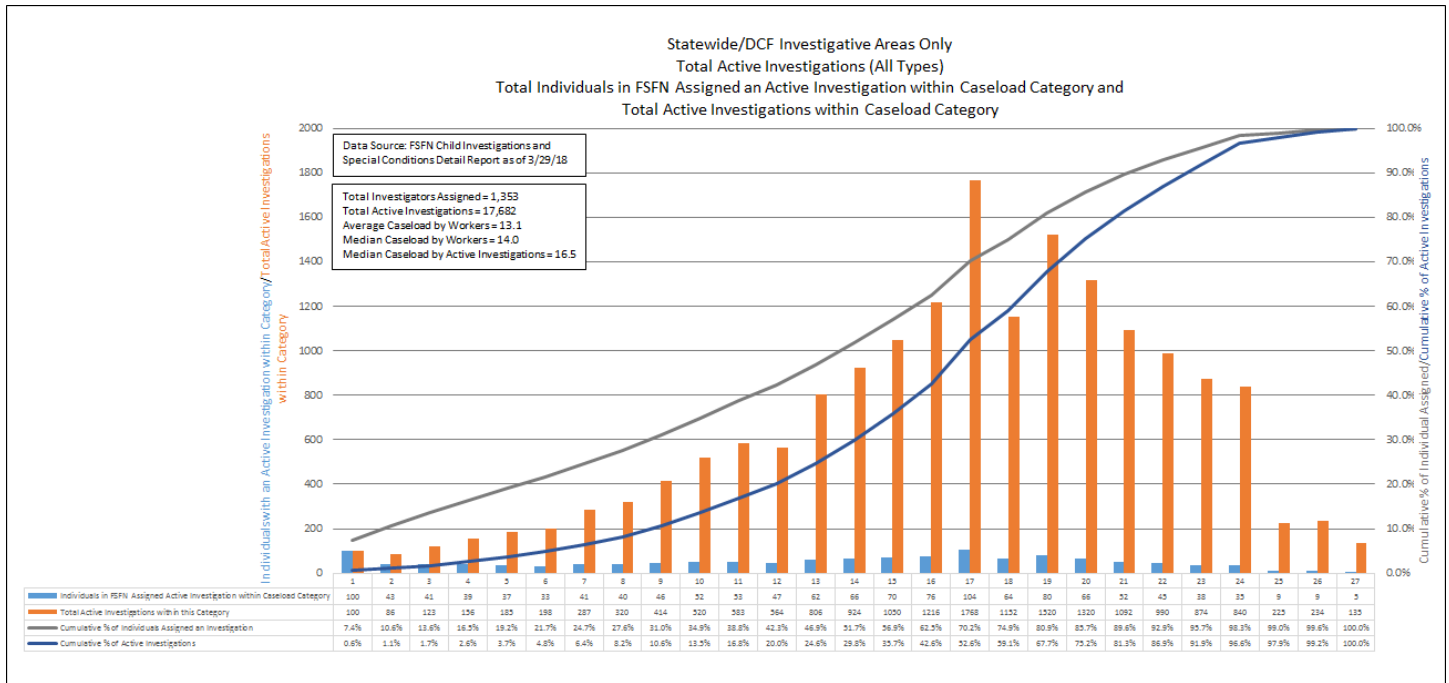

This measure has been modified from the percentage of investigators carrying 15+ to the percentage of investigators carrying 22+ active child protective investigations. Note that Circuits 5,14,17 and 18 (Brevard) have all experienced three consecutive months with an increase in the percentage of investigators carrying 22+ investigations.

Data Source: OCW CPI Scorecard Dashboard

Active Investigations by Cohort

Department-wide efforts to ensure that no DCF CPI is carrying a case load greater than 26 cases have been extremely successful. As of March 29, 2018, only 14 DCF CPIs were carrying 26 or more active investigations (all types).

Timeliness Trends

Statewide: Alleged Child Victims Seen Within 24 Hours

The statewide percent of alleged victims seen within 24 hours remained stable at 89.5% in March 2018.

Stratification Alleged Victims Seen Within 24 Hours by DCF Circuit and Sheriff's Office

17 of the 23 investigative areas are currently meeting the DCF standard of 85.0% or higher. Three areas, Circuit 8, Circuit 11 and DCF Circuit 12-Desoto and Sarasota Counties have been below the standard for three consecutive months.

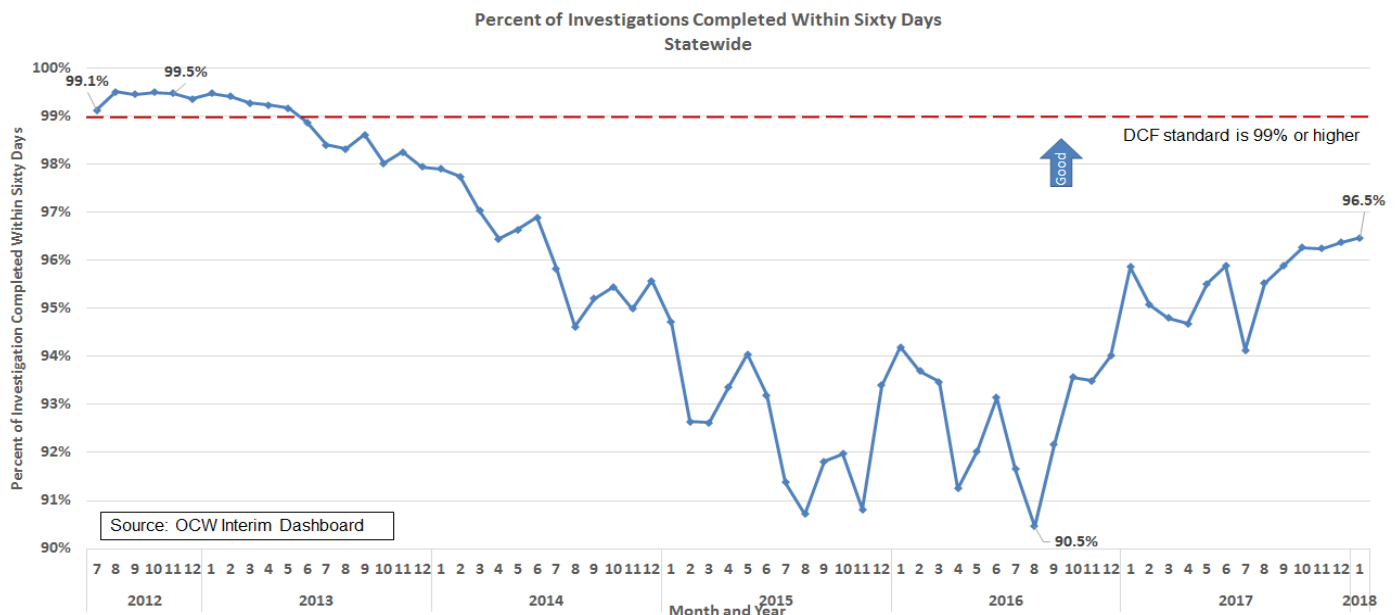

| Percent of Children Seen in 24 Hours by SFY | | | | | | | | | | | |

Statewide: Child Investigations Completed Within 60 Days

M

The state continues to struggle with this measure with 96.5% of investigations being completed within 60 days for March 2018 incoming investigations. This was the 56th consecutive month where the state failed to reach the target of 99.0%.

Only 7 of the 23 investigative areas met the 99.0% standard for completing investigations within 60-days.

Safety Determinations and Services Provided

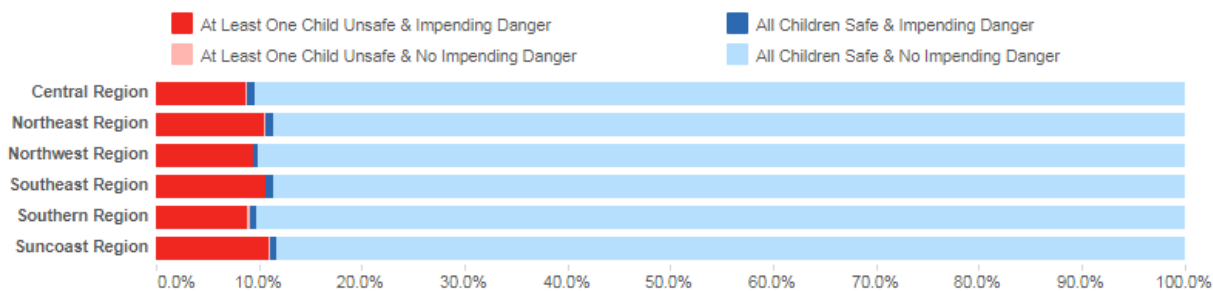

These Tableau visualizations are for investigations closed between February 22, 2018 and April 23, 2018.

Impending Danger Threats and Safety Determination

This visualization indicates that some children have been determined “unsafe,” yet have no impending danger (pink), while others are determined “safe,” yet there is impending danger (dark blue).

Impending Danger Threats and Safety Determination for Investigations Closed between February 22, 2018 and April 23, 2018

Percent of FFAs - Investigation by Impending Danger Threat and Safety Determination

Impending Danger Threats Identified by Safety Determination

This Tableau visualization indicates the percentage of the identified Impending Danger Threats for both safe and unsafe children, by region.

Unsafe Children and Safe Children by Placement Service Type upon Investigation Closure

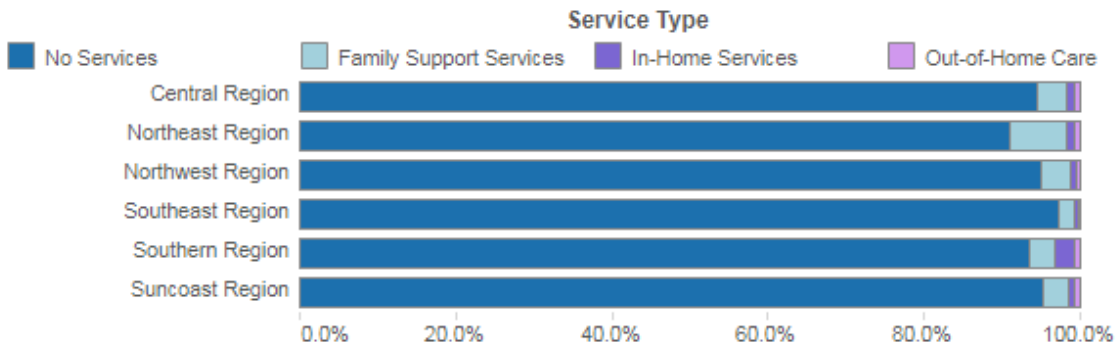

These Tableau visualizations reflect investigations closed between February 22, 2018 and April 23, 2018.

- The visualization on the top indicates that some children have been determined “unsafe,” yet have no placement services (red) or are indicated as receiving Family Support Services (lightest blue).
- The visualization on the bottom indicates that some children have been determined “safe,” yet were placed in out-of-home care (violet) or received case-managed in-home services (dark purple).

Percent of Unsafe Children by Placement Service Type or Family Support Services Upon Investigative Closure

Percent of Safe Children by Placement Service Type or Family Support Service Upon Investigative Closure

● Unsafe Children Receiving No Placement Services or Family Support Services Upon Investigative Closure and No Placement Services After Investigation Closure

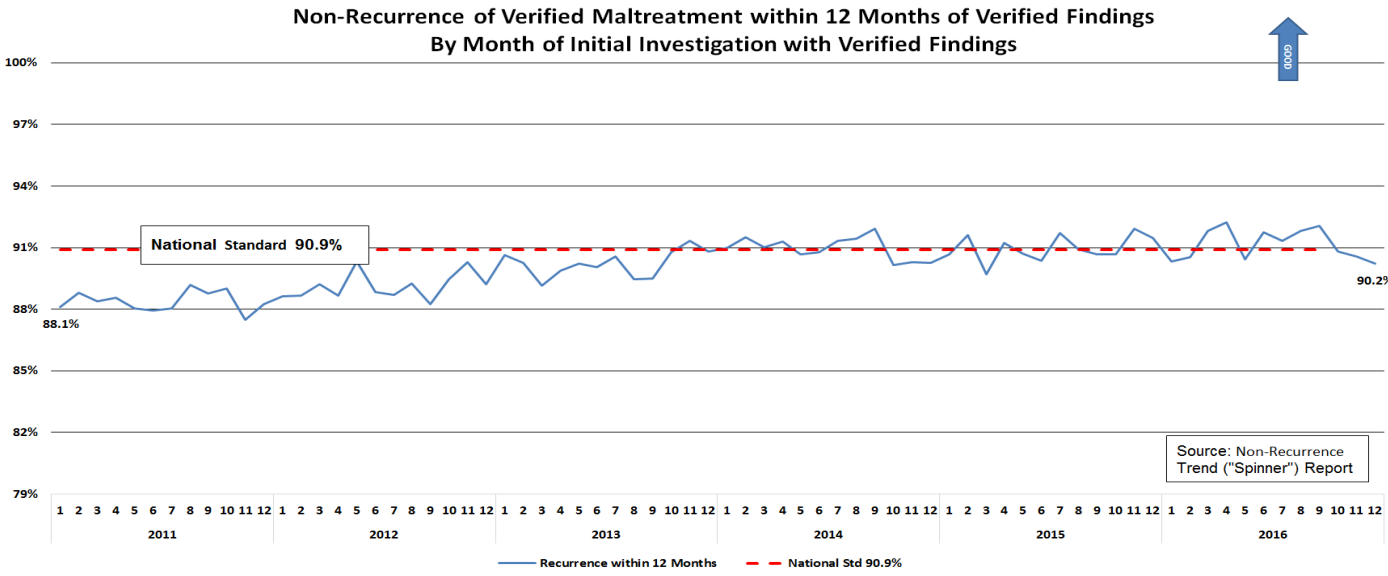

M

The following chart provides a trend view of the number of children who have been deemed unsafe, by month of investigation closure, who are receiving Family Support Services or no placement services as opposed to ongoing, case-managed services. Each month's data is finalized on the third pull, allowing for a grace period of around 75 days for data entry. The No Subsequent Services Provided After Investigation Closure line is a drill down on the children not receiving placement services upon investigative closure. Additionally, a new line has been added to identify if there was a face-to-face contact made after investigation closure for those children that had no placement services at investigation closure. In March 2018, although 55 children were not receiving placement services upon investigation closure, with 52 of them receiving face-to-face contacts after investigation closure. None of these measures have a set target, but lower is the desired direction.

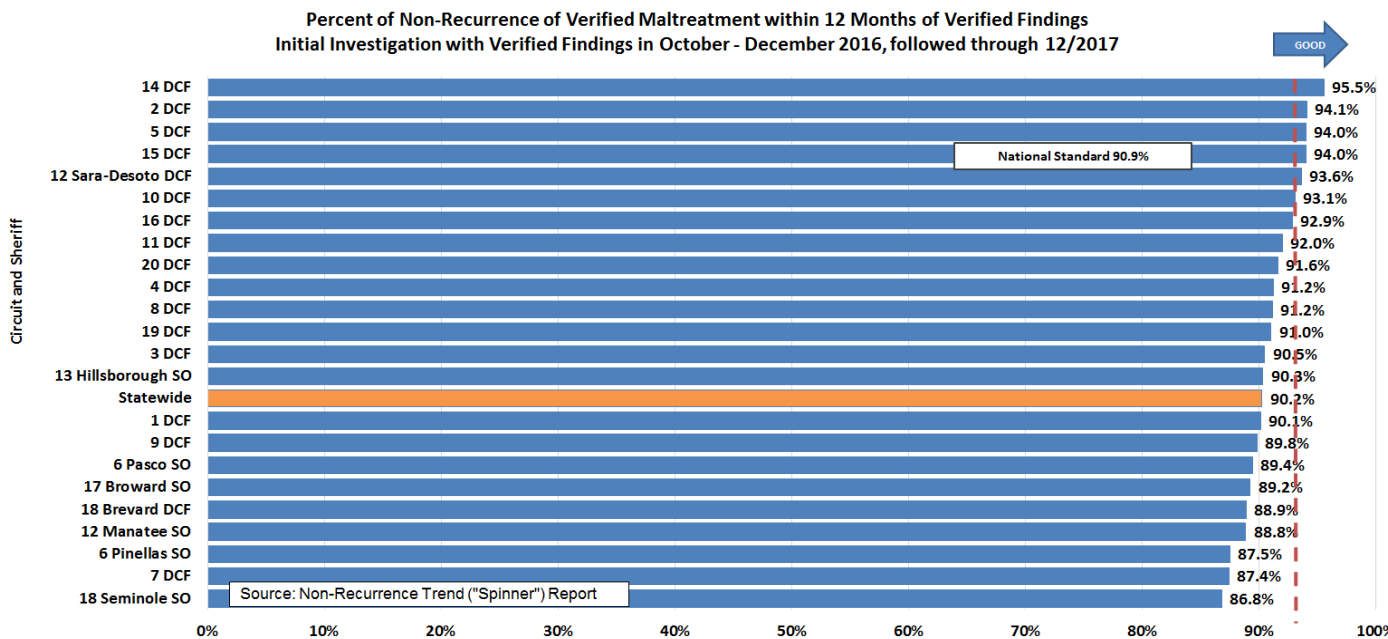

Statewide: Children with No Recurrence of Verified Maltreatment within 12 Months ★ Q

The percentage of children with no recurrence of maltreatment within 12 months has consistently been within a percentage point since October 2013, and is currently at 90.2%. The most recent national data which has been stratified to the state level for this measure is from 2012/2013. Florida would rank 28th among states if comparing current performance to the available 2013 data. Wyoming led all states in 2012/2013 at 97.3%.

Stratification by DCF Circuit and Sheriff's Office Q

There is wide variation among the circuits and sheriff's offices on this indicator. However, it should be noted variation in rates is influenced by both reporting and verification rates.

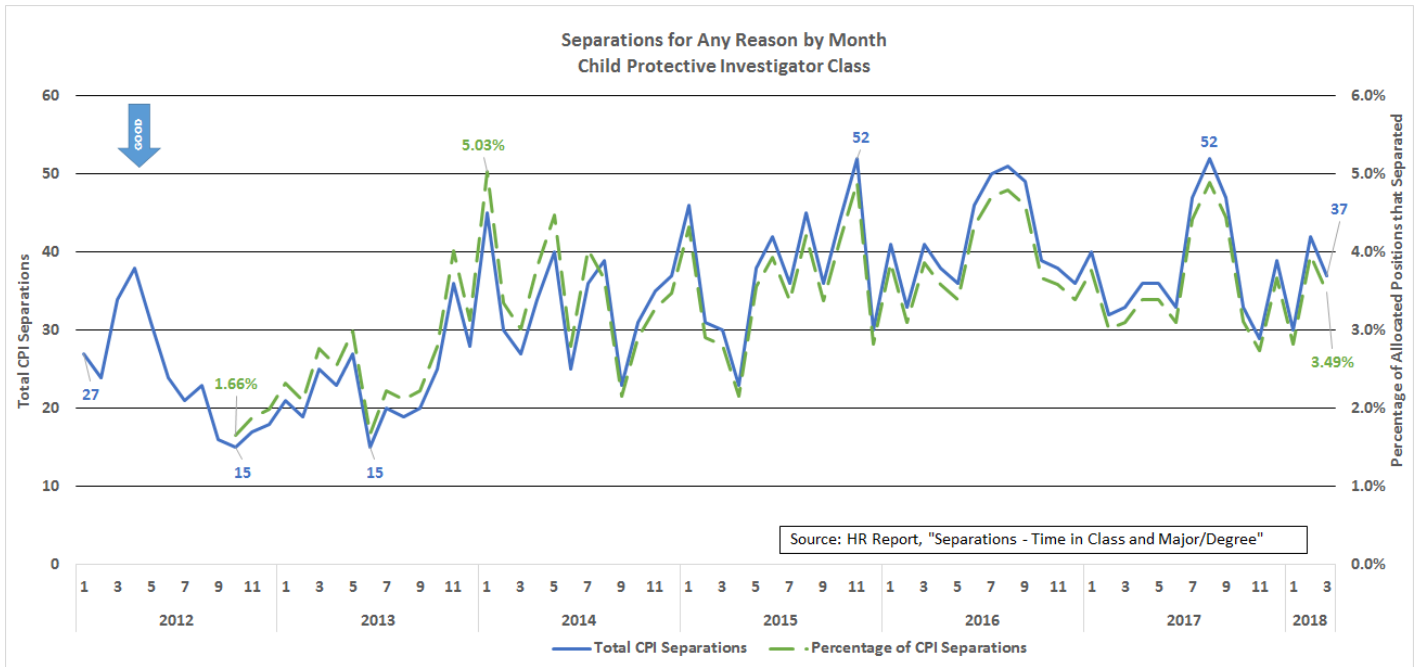

Note: The two preceding charts have been updated to show percentage of non-recurrence as opposed to percentage of recurrence. This change was made to align to the federal non-recurrence measure.

CPI Workforce Monthly Separations

M

There was a slight decline in the percentage of Child Protective Investigator that separated from the department in March 2018.

CPI Time in Classification

M

Consistent with recent trends for this point in time data, 25.2% of CPI positions were vacant or had less than 6-months experience and 48.8% were vacant or had less than 1-year experience.

Flow from CPI to CBC Lead Agencies

Removals and Removal Rates

Statewide Trend

M

1,151 children were removed in March 2018, which was an increase from February 2018 (1,021).

Quarterly Stratification by Circuit and Sheriff's Office

Q

There remains wide variation among circuits and sheriff's offices on this indicator. Removal rates range from 2.9 to 9.3 per 100 alleged victims.

*Sep 2017 - Measure changed from per 100 children investigated to per 100 Alleged Victims.

Quarterly Stratification by Circuit and CBC Lead Agency

Q

There remains wide variation among the circuits and CBC lead agencies for this indicator.

*Sep 2017 - Measure changed from per 100 children investigated to per 100 Alleged Victims.

Eligibility

Title IV-E and TANF Eligibility Licensed Substitute Care and Adoption Eligibility

Q

Percentage of Children in Licensed Substitute Care that were Title IV-E Eligible or in a Non-Reimbursable Placement

The percentage of children in out-of-home care that are deemed to be Title IV-E eligible or that are in a non-reimbursable placement remained relatively flat, in the range of 67.0%.

Percentage of Children with a Goal of Adoption that are Title IV-E or TANF Eligible and

Q

Count of Children with a Goal of Adoption Awaiting Finalization or have No Applicable Eligibility

The percentage with a goal of adoption that were classified as Title IV-E or TANF eligible has stabilized in the range of 55.0% after declining since January 2015. Note the increase in children awaiting finalization by the CIC or where the child has no eligibility determination since June 2016. As of September 2017, approximately 1/3 of these pending eligibility cases were located within the Eckerd Community Alternatives (Pasco & Pinellas Counties) system of care.

Community-Based Care Lead Agencies

Caseload Indicators

Statewide Trends in Case-Managed Services

M

There were 24,390 children in out-of-home (OHC) care on March 31, 2018, an increase consistent with the upward trend in OHC observed since the middle of 2013. The trend for children receiving in-home services has remained relatively flat for three years, with 11,212 children receiving in-home services on March 31, 2018.

Services Mix

M

There continues to be variation among circuits regarding in-home and out-of-home care services, with the widest variation continuing to occur in the use of Family Support Services.

Removals and Discharges Compared to Out-of-Home Care Trend

There were 1,055 discharges and 1,335 removals during March 2018.

Data Source: FSN Data Repository, Tableau Data Source

Placement Types Compared to Children in Out-of-Home Care Trend

On March 31, 2018, there were 24,390 children in out of home care with 10,600 in relative care placement, 7,242 in a licensed family foster home, 3,069 in non-relative care, 2,141 in licensed group care, and 1,173 in other placements.

Safety Indicators

Q

Child Safety Trends: Comparison of Three Indicators

Children continue to be safer while receiving services than after termination of services:

- The percent of children with no verified maltreatment during case-managed in-home services has been steady around 97% for years, including in October through December 2017. The state target for this measure is 95%.
- The percent of children with no verified maltreatment within six months after termination of case-managed services was 95.7% for April through June 2017. The state target for this measure is 95%.
- The percent of children with no verified maltreatment within six months of termination of Family Support Services was at 94.6% for those closing in April through June 2017. This measure does not have a set target.

Safety of Children During Case-Managed In-Home Services and Within Six Months of Termination from Family Support Services and Case-Managed In-Home Services Statewide

Sources: FSFN OCWDRU reports #1109, #1115, and "No Maltreatment within 6 Months of Family Support Services Summary"

Child Safety During Case-Managed In-Home Services

Q

Statewide performance for October through December 2017 was 97.3%, and all but one lead agency exceeded the state target.

Source: FSFN Report - "No Maltreatment within 6 Months of Family Support Services"

This measure is generated by taking the total number of reports with at least one verified maltreatment and dividing it by the total number of days in foster care for all children, with the result multiplied by 100,000 to calculate the rate of victimization per 100,000 days in foster care. The data for this quarter continues to show wide variation among the CBCs, with statewide performance meeting the national standard of 8.50 or less. The most recent national data which has been stratified to the state level for this measure is from 2013. Florida would rank 38th among states if comparing current performance to the available 2013 data. Wyoming led all states in 2013 at 1.16.

Source: FSFN OCWDRU Report #1108, "Rate of Abuse or Neglect Per Day While in Foster Care"

Note: The data in this table has been updated to match the algorithm used in the Federal Child Welfare Indicators and CBC Scorecard Dashboards for this measure. Each quarter of data reflects a rolling twelve (12) month period ending two (2) months prior to the end of the state fiscal quarter.

Permanency Indicators

Statewide Trend: Permanency Within 12 Months of Removal 4 ★

Permanency within 12 Months of Removal is our primary indicator of timely permanency. Statewide performance has improved and is now at 41.5%, above the 40.5% national standard. The most recent national data which has been stratified to the state level for this measure is from 2012. Florida would rank 29th among states if comparing current performance to the available 2012 data. Arkansas led all states in 2012 at 63.8%.

Stratification by CBC Lead Agency

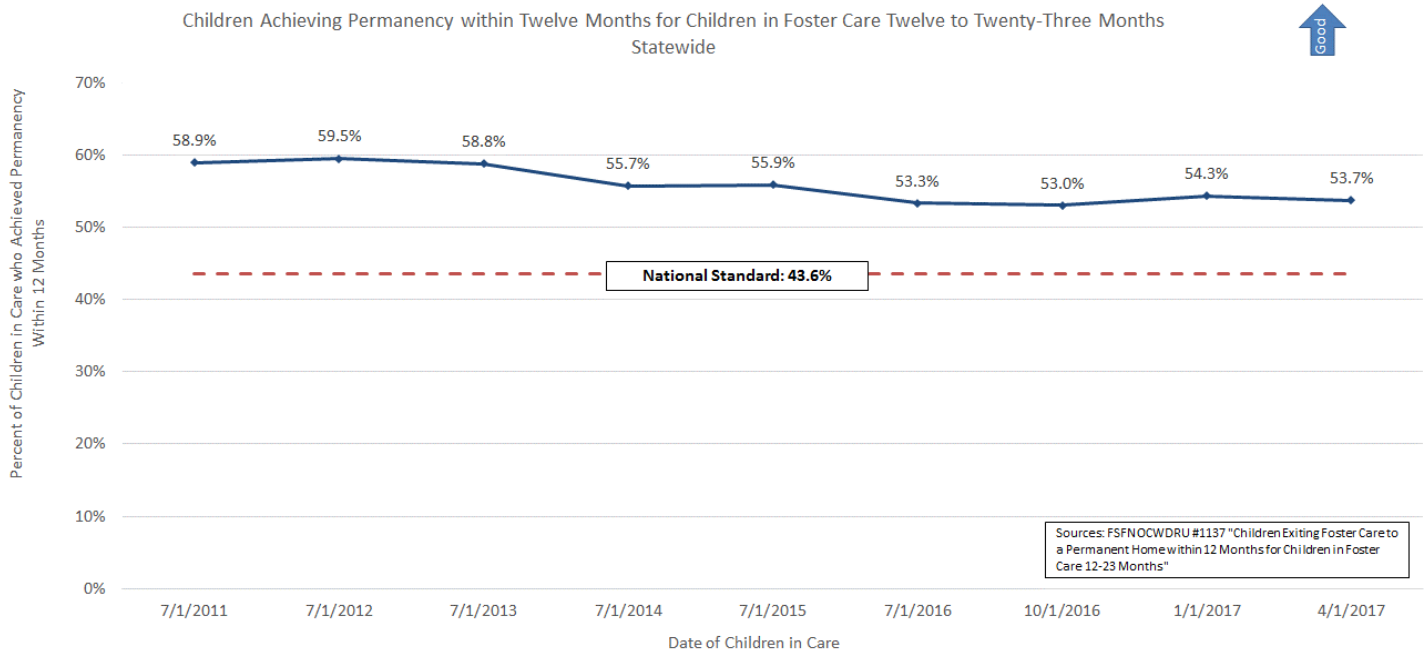

Eleven of the lead agencies exceed the national standard of 40.5%.

Timeliness of Judicial Handling

M

These Children's Legal Services indicators are directly related to the indicators of timely permanency.

● Reunification Goal After 15 Months and No Termination of Parental Rights Activity

The statewide average for SFY 2017-18 was 7.1% on March 31, 2018. Circuit goals are set for each period after review of baseline information.

Timeliness of Termination of Parental Rights, from Petition to Order

M

The statewide median was 160 days as of March 31, 2018 for SFY 2017-18. Circuit goals are set for each period after review of baseline information.

● Time from Removal Date to Disposition Order

The statewide median for days from shelter to disposition for SFY 2017-18 is currently at 57 days. This was well-below the statewide target of 90 days.

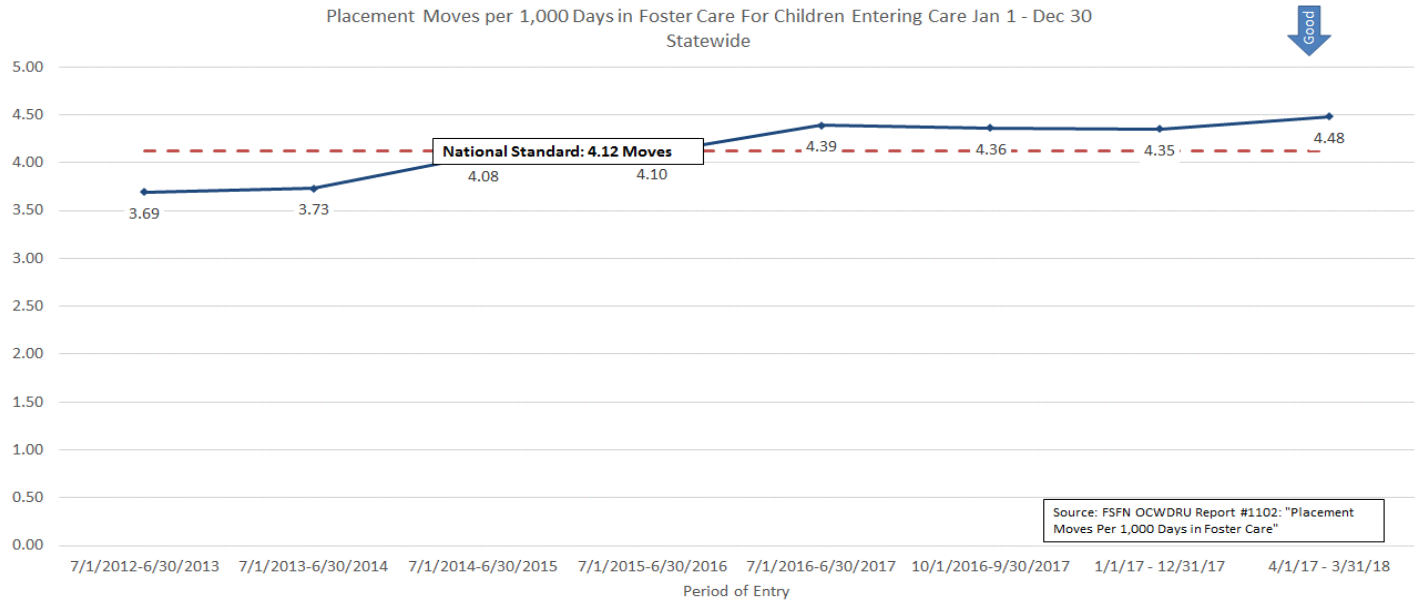

Maintaining Connections in Placement

Q

Statewide Trend: Placement Stability 10 ★

Statewide performance has increased to 4.48 moves per 1,000 days, and is still above the national standard of 4.12 moves per 1,000 days in foster care. The most recent national data which has been stratified to the state level for this measure is from 2013/2014. Florida would rank 28th among states if comparing current performance to the available 2013/2014 data. Rhode Island led all states in 2013 at 2.60.

Stratification by CBC Lead Agency

Q

Statewide performance, currently at 4.48 moves per 1,000 days in foster care, does not meet the national standard of 4.12 moves. There is wide variation among the lead agencies, with eleven meeting the standard.

Children Placed Outside the Removal Circuit

Q

The 19.47% currently placed outside of their removal circuit is lower than for the out-of-county indicator, as many children that are not placed in their home county are placed within their home circuit. This measure does not have a specified target.

Prescribed Psychotropic Medications

M

Children in Out-of-Home Care with Prescribed Psychotropic Medications

The statewide percentage of children in out-of-home care with at least one prescribed psychotropic medication on March 22, 2018 was 10.7%.

Children with Consent for Prescribed Psychotropic Medications

M

In order to administer psychotropic medication to a foster child, parental consent or a court order must be obtained, unless the child is receiving inpatient services or a physician certifies that delay would be likely to harm the child. The statewide percentage of children with at least one prescribed psychotropic medication on March 22, 2018 where consent was obtained was 98.3%.

Dental Services

● Children Receiving Dental Services in Last Seven Months

Q

While considerable progress has been made in the last few years with medical and dental services, the statewide percent of children receiving recent dental services increased to 91.8% in March 31, 2018, but is still below the statewide standard.

Education Program Enrollment

● Young Adults Aging Out Enrolled in Education Programs

Q

This is one indicator of that preparation for adulthood, but does not control for any of the many variables that influence this preparation, including time in care and the child's educational level when entering care. Statewide performance in this measure has been relatively stable and above the statewide target for the past 3 years.

Dually Served Youth

M

Statewide Trend: Youths Served by CBC Lead Agencies and Juvenile Justice

The number of youths served by both the child welfare system and the juvenile justice system in April 2018 was 1015. This measure does not have a specified target.

Stratification by CBC Lead Agency

M

The number of youths served by both systems is variable among the lead agencies, but is related to the total number of youths served by each lead agency.

Missing Child

M

Average Number of Children Categorized as Missing from Care and Supervision

Missing child data issue associated with FSFN migration to the cloud have been resolved. Both the number and percentage of children that are categorized as missing from the care and supervision of the state increased in March 2018.

Child Reports Entered into FSFN within One Working Day

M

Five CBCs were able to enter all of their missing child reports into FSFN within one working day of the CBC learning that a child was considered to be missing. However, the statewide average fell to 77.8%.

Resolution of reports within 3 days

The majority of children, 67.1% in February, that are classified as missing from the care and supervision of the Department are located in less than three days.

Human Trafficking

Human Trafficking Intakes Trend

The number of Human Trafficking Reports (Initial and Additional) accepted by the Hotline had been fairly stable over the last four months but there was a significant increase in March 2018.

Children with Indication of Human Trafficking by CBC Lead Agency

The number of children in out-of-home care or receiving in-home services with at least one FSN indicator of being a victim of Human Trafficking remains concentrated within Florida’s urban centers, primarily in the Gold Coast and Tampa Bay areas.

Child Care and Domestic Violence

Child Care Regulation

● Child Care Inspections per Month

M

For February 2018, 99.4% of home inspections and just under 100% of facility inspections were completed within 45 days.

Domestic Violence

● Percent Victims Leaving a Shelter with a Family Safety and Security Plan

M

The percent of adult victims leaving a shelter after 72 hours with a Family Safety and Security Plan in January 2018 was 99.6%, continuing to exceed the target of 97%.

| CBC Lead Agencies | Shameria Davis | Asst. Sec. of Operations / RMD | Permanency within 12 Mos of Removal by Cal. Quarter -- Line Graph | 36 | OCWDRU Report #1118 | Line graph of the percent of children achieving permanency within 12 months for children removed during that quarter |
| CBC Lead Agencies | Shameria Davis | Asst. Sec. of Operations / RMD | Permanency within 12 Mos of Removal by Cal. Quarter – Data Table | 36 | OCWDRU Report #1118 | Select all children with a new removal episode during the report period where the removal episode was at least eight (8) days in duration. Exclude any removal episode ending with a discharge reason of "Dismissed by Court." Exclude any removal episode where the child was eighteen (18) years of age before the beginning of the report period. If a child has multiple removal episodes that meet the above criteria, select only the first such removal episode in the report period. A child is flagged as "Yes" in the Numerator column if the child achieved permanency such that their permanency date is less than twelve (12) months from the removal date of the removal episode. Children are assigned to the Lead Agency based on the primary case worker as of the earlier of the discharge date of the removal episode or twelve (12) months after the removal date. Only children with a worker whose agency type is "CBC Lead Agency" are included in this listing. <u>Same criteria for 12-23 and 24+ month children</u> |

|--------------------------|--------------------------|--------------------------------|--|----------|---|---|
| CBC Lead Agencies | Hans Soder | Director of the Hotline | Avg and % of Children Categorized as Missing | 51 | FSFN Missing Child Data | Average missing is the average number of children appearing categorized as missing with each of the missing child listings for the month. For example, 28 individual missing child list for February are summed and then divided by 28 to generate the average daily missing child count. This total is then divided by the total number of children in out-of-home and in-home as determined by subtracting young adults from the Children Active by Primary Worker for the 15th day of the month. |
| CBC Lead Agencies | Hans Soder | Director of the Hotline | Missing Child Reports Entered into FSFN within One Working Day | 51 | FSFN Missing Child Data | All missing child episodes entered into FSFN as determined by Missing Child Entry Date in FSFN (time stamp) subtracted from Date FSFN CBC/CPI Notified of Missing Child (free text) with total resulting in number of days from notification to entry. Entries are reviewed to determine if entry was in one working day and then all missing child episodes that were entered into FSFN within one working day are divided by all missing child entries for the month. |
| CBC Lead Agencies | Hans Soder | Director of the Hotline | % Missing Child Reports Resolved within 3 Days | 52 | FSFN Missing Child Data | Subtract child's recovery date (FSFN free text) from child's missing from date (FSFN free text) to calculate a missing from care duration. Divide all episodes entered within the month that were resolved within three days or less from the total number of missing child reports entered within the month. |
| CBC Lead Agencies | Hans Soder | Asst. Sec. of Operations / RMD | Total HT Intakes and % of Findings | 52 | FSFN HT Data | Sum of all HT intakes accepted by the Florida Abuse Hotline by month. Investigative findings run on a 60 day lag so as to allow for completion of the all investigations so this represents the sum of all HT investigative findings with the month absent data for the 2 most recent months. CALCULATED HT findings divided by all HT INTAKES |
| CBC Lead Agencies | Hans Soder | Asst. Sec. of Operations / RMD | Total Children with an Indication of HT | 53 | FSFN HT Data | Sum of all children in out of home or in home care with one or more of the following data elements in FSFN Verified HT Finding, FSFN Person Mgt Page populated with HT info, one or more Missing Child Reports with HT selected as "Yes" |
