Graph and Table Symbols

Performance Glance

Performance indicators have been added to the titles and table of contents to assist the reader in quickly determining current performance in specific areas.

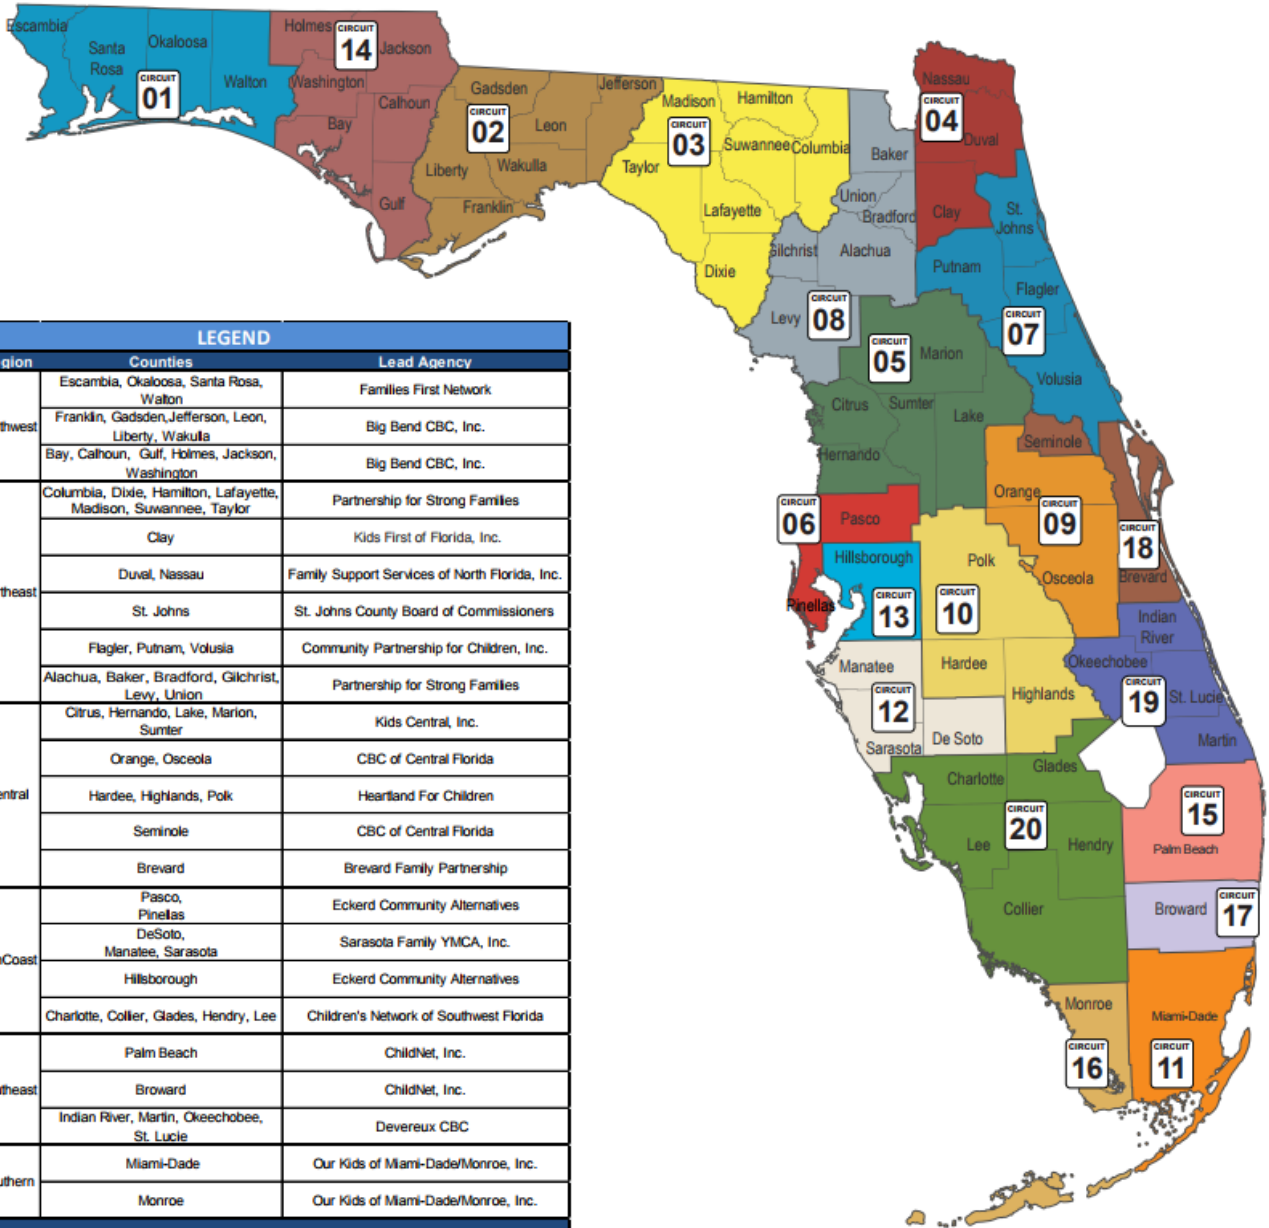

- Green dots before the titles indicate that either statewide/national targets are being met or for those measures where a target is not applicable, the previous 3-month trend is either stable or moving in the right direction.
- Red dots before the titles indicate that either statewide/national targets are not being met or for those measures where a target is not applicable, the previous 3-month trend is moving in the wrong direction.

DCF Service Structure

Regions, Circuits, Counties, and CBC Lead Agencies

System Overview

Florida's community-based child welfare system is comprised of a partnership between the Department of Children and Families (DCF), other state agencies, the courts, law enforcement agencies, service providers, and local communities.

There are over four million children in Florida of which most fortunately do not come to the attention of the system. For those children who do enter the system, entry begins with reports of allegations of abuse or neglect made to the Florida Abuse Hotline, operated by DCF. The Florida Abuse Hotline receives in excess of 350,000 child-related calls annually. Calls received are screened to determine if the criteria are met to initiate a protective investigation.

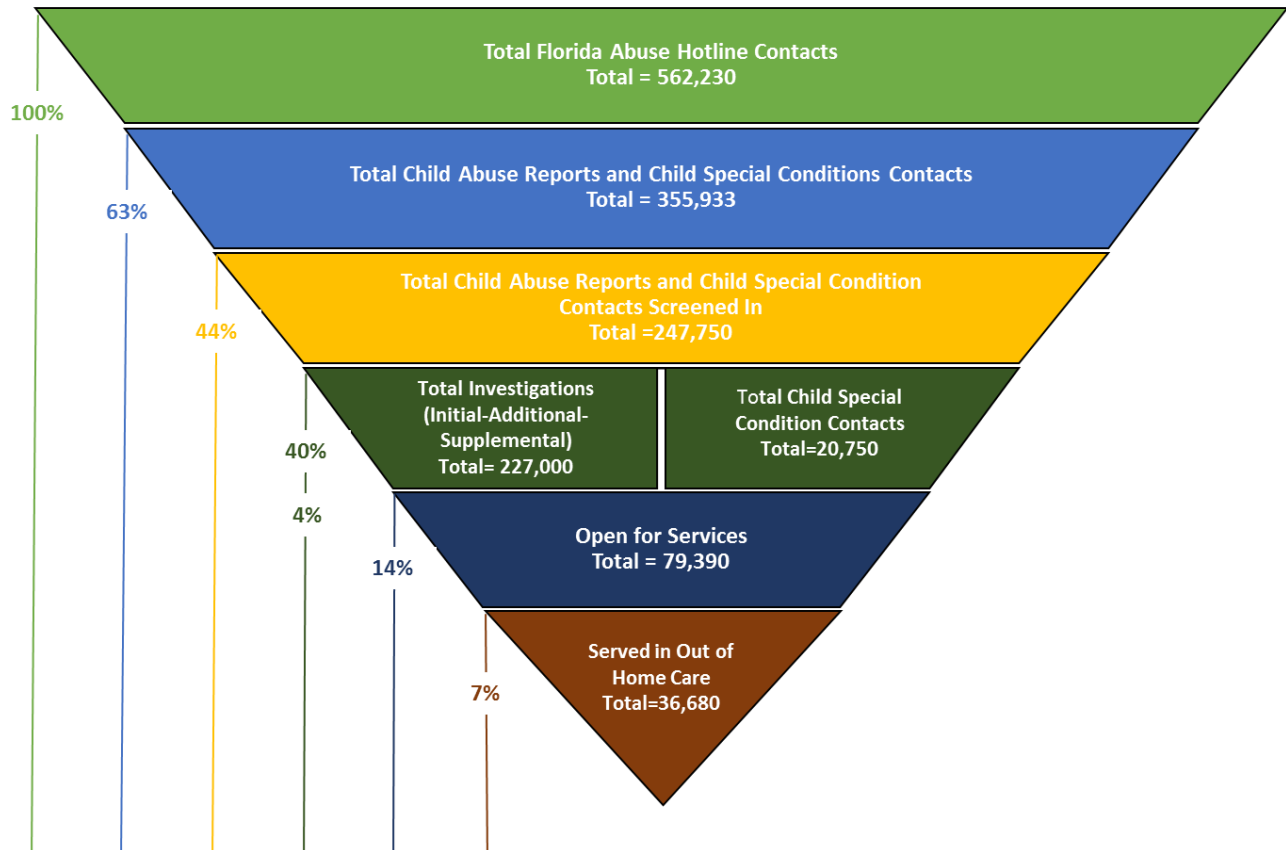

If criteria are met, the report is referred to a local Child Protective Investigations (CPI). Statewide there are over 220,000 protective investigations conducted annually. These investigations are conducted by DCF in 60 counties. In the remaining 7 counties, including Broward, Hillsborough, Manatee, Pasco, Pinellas, Seminole, and Walton, county sheriff's offices perform the investigations. Investigators determine the need for post-investigation services, including protecting the child through removal and placement in out-of-home care or through case-managed, in-home services (by court order or non-judicially), or through informal voluntary family support services. For SFY 2017-2018, over 36,000 children were served in out-of-home care.

Florida statute requires that post-investigation services be provided through contracting with community-based care lead agencies (CBCs). There are 17 Community-Based Care (CBC) lead agencies that each provide coverage to specific geographic areas within the 20 Judicial Circuits in Florida. Several lead agencies cover more than one geographic area and areas may include one or multiple counties. In two instances, the CBC lead agency serves two geographic areas under separate contracts, lending to 19 lead agencies displayed within the CBC tables of this report. Although services vary among CBC lead agencies, they have a shared role in participating and ensuring safety, permanency, and well-being for all children in the state.

The monthly Child Welfare Key Indicators Report presents data for the Florida Abuse Hotline, Child Protective Investigations, CBC lead agencies, as well as other key metrics describing the state of the Florida Child Welfare System.

<http://www.dcf.state.fl.us/programs/childwelfare/dashboard/federal-indicators.shtm>

***Black Belt projects were conducted on the Rate of Abuse, Re-entry, and Placement Moves Federal Indicators due to these measures not meeting the national target. The projects were completed in conjunction with state child welfare partners and have been routed to the Florida Institute for Child Welfare for research review as outlined in Florida's continuous quality improvement process. An analysis project is also currently underway on the permanency in 12 months Federal Indicator, which has dropped below the federal target for four of the last five quarters.

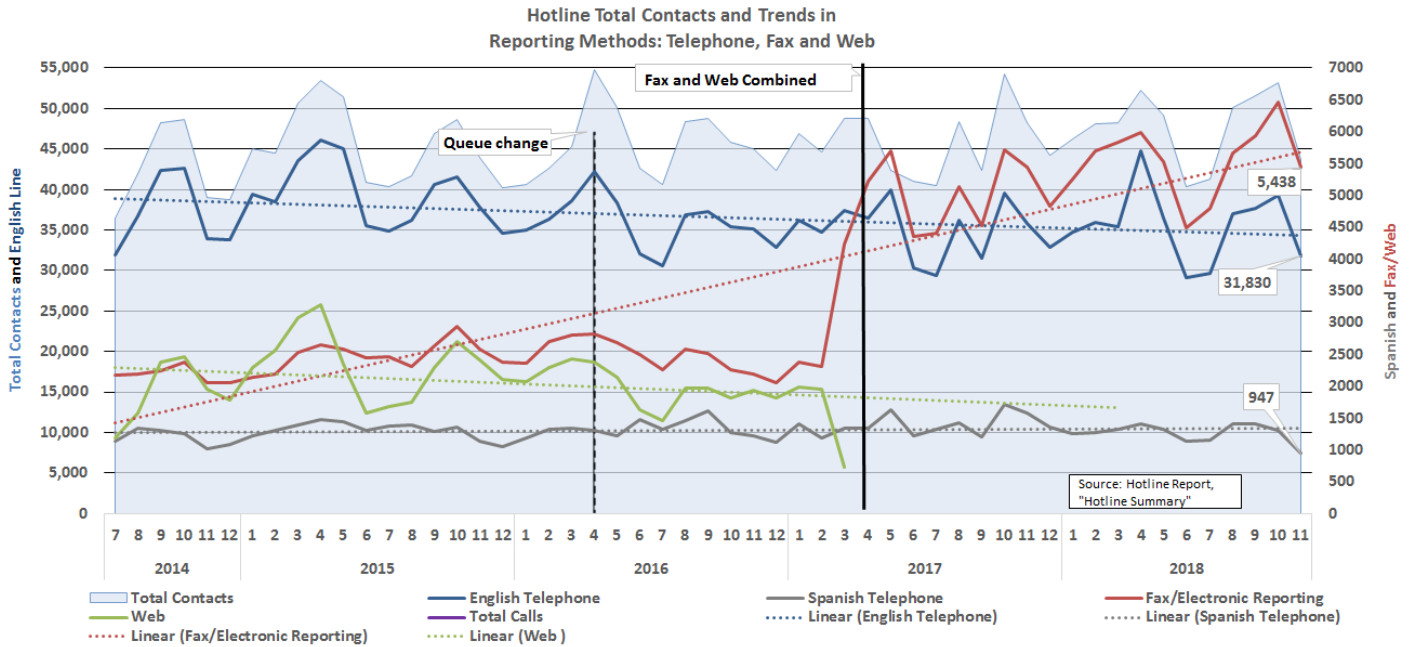

Workload Trends

M

Reporting Method Trends

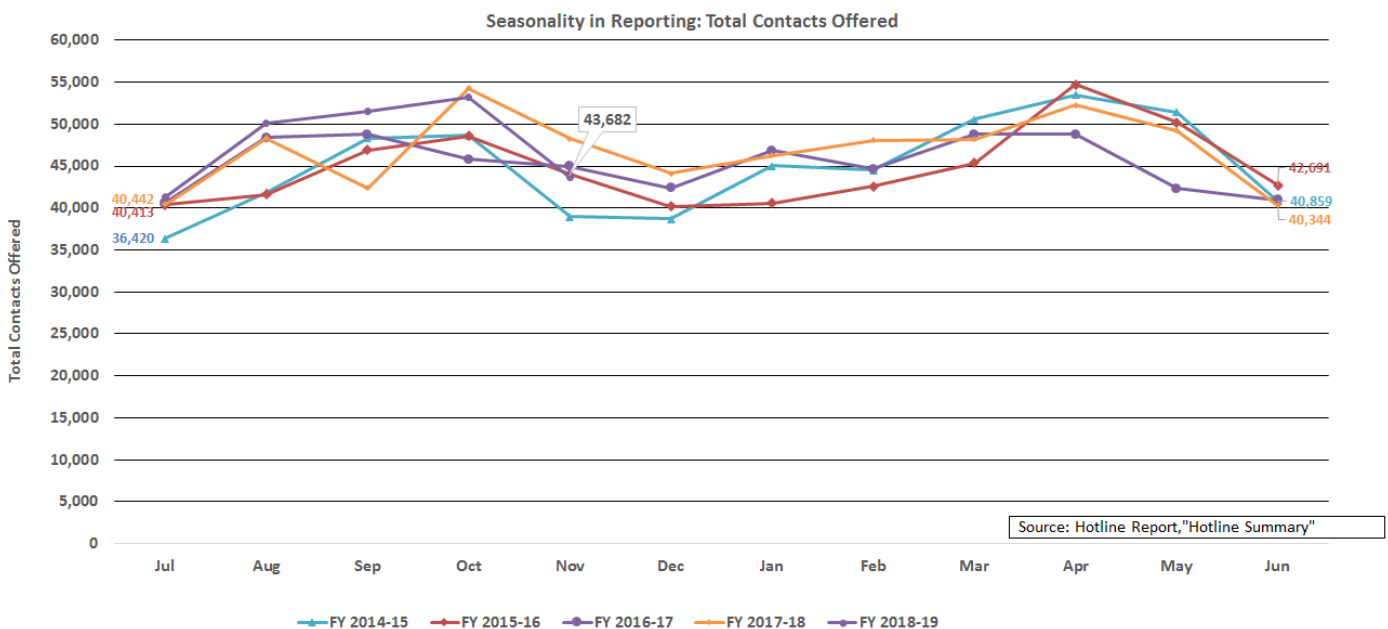

The Florida Abuse Hotline offers a variety of methods for citizens to report concerns about children and vulnerable adults. A modification was made within the system, resulting in the tracking of webs and faxes together. Webs were previously represented by the green line within the graph below, however beginning in March 2017, webs were combined with faxes, now represented by the red line.

Seasonality of Hotline Workload

M

There were 43,682 total contacts offered for the month of November. "Contacts Offered" include those abandoned by a caller who called back, so both attempts and completed calls from the same individual may be counted.

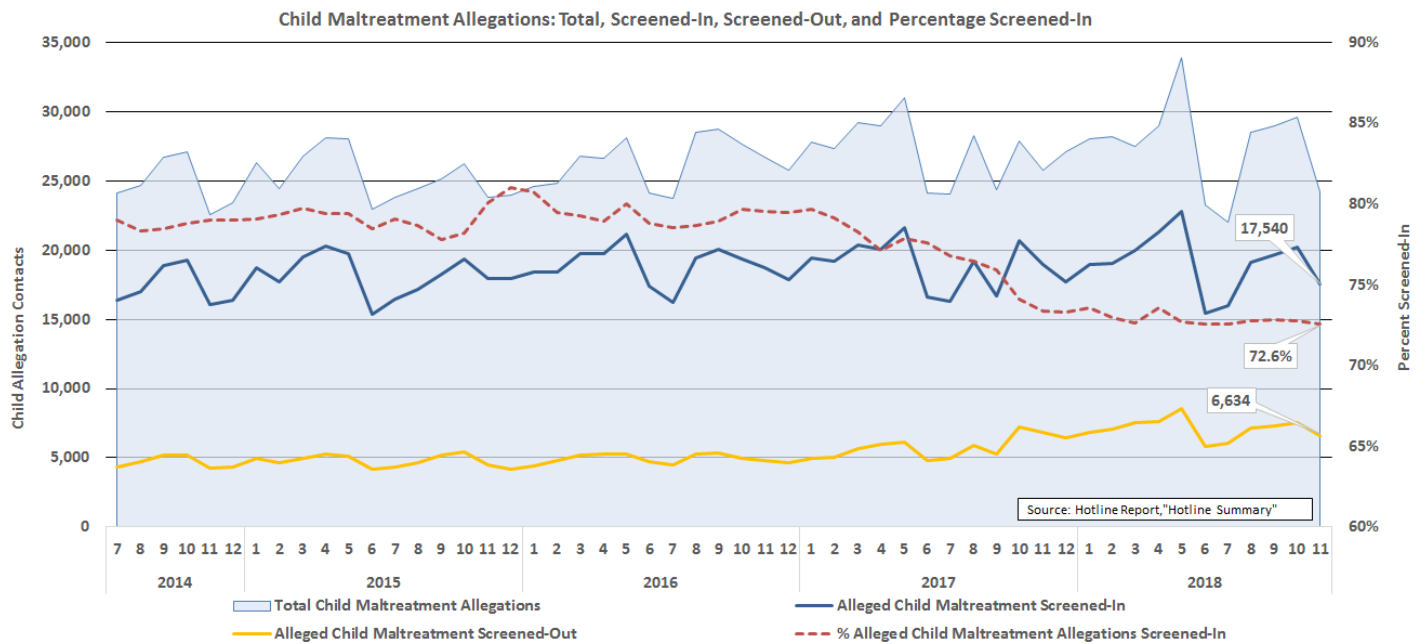

Screening Trends

M

Alleged Maltreatment Screening

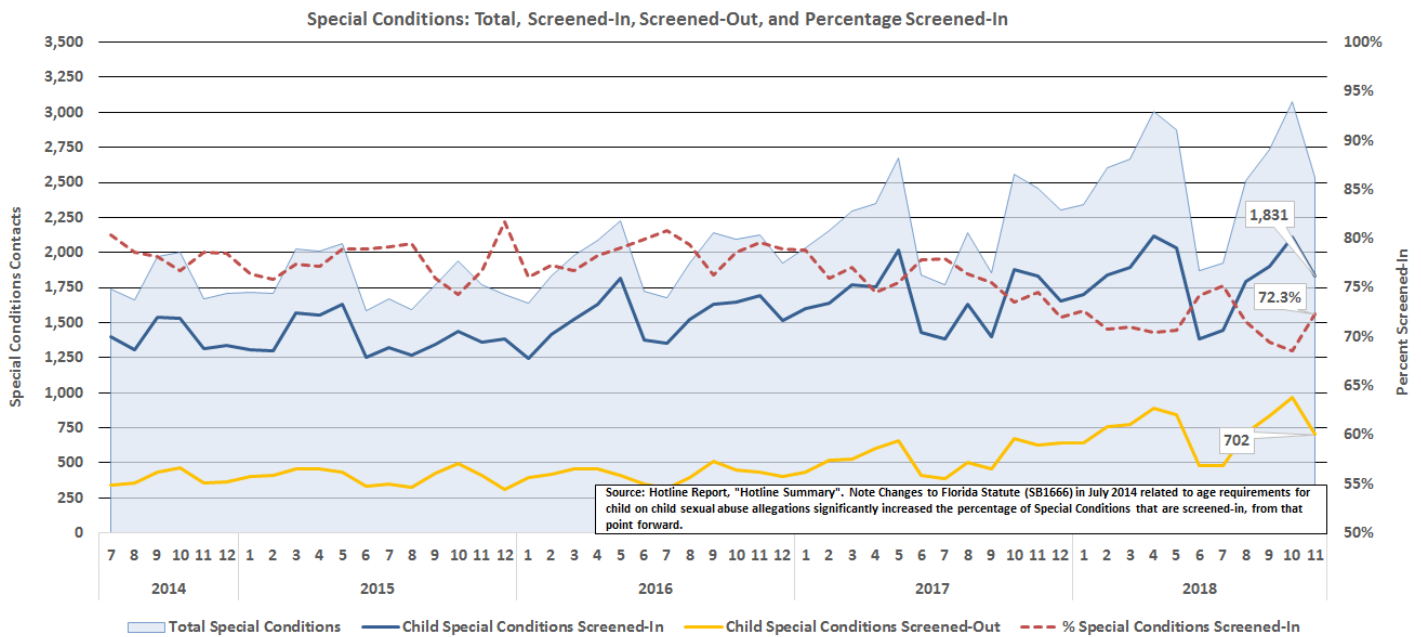

Total child maltreatment allegations for November 2018 was 17,540. In November 2018, 72.6% of child maltreatment allegations reported were screened-in.

M

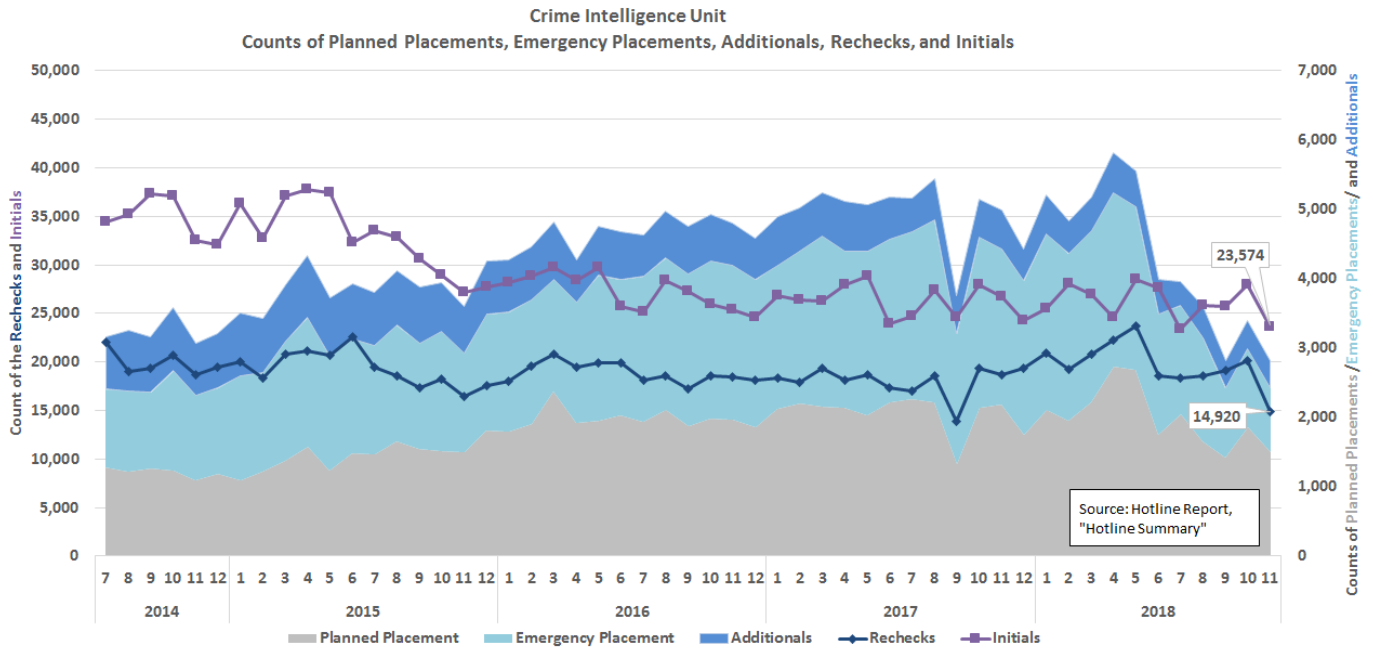

Special Conditions Screening

There were 1,831 screened-in special conditions for November 2018. The screen-in percentage for special conditions is 72.3%.

Crime Intelligence Unit

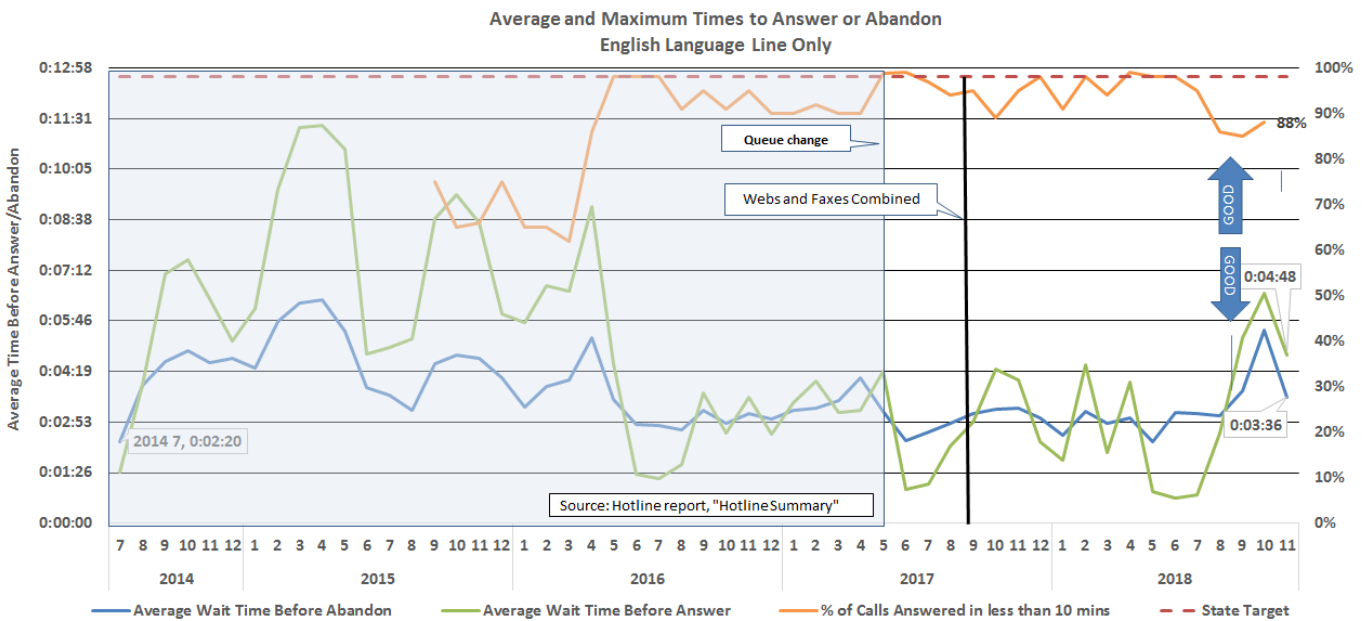

The included chart contains Crime Intelligence Unit counts for planned placements, emergency placements, additional, rechecks, and initials.

Timeliness Trends

● Average and Maximum Times to Answer or Abandon

The average wait time before answer increased in November to four minutes and 48 seconds. 88% of calls were answered in 10 minutes or less, falling below the 98% target.

M

● Percent of Calls Abandoned

The percent of calls to the Florida Abuse Hotline English Line that are abandoned before answer increased to 14.2% for November 2018, and the percent of Spanish Line abandoned calls decreased to 18.9%.

Percent of Calls to Hotline Abandoned Before Answer: English and Spanish Language Lines

Source: Hotline Report, "Hotline Summary"

Legend: English Calls Abandoned %, Spanish Calls Abandoned %, Legislative Target: 3%, 12-Month Moving Average (English)

● Average Handling Time Trend Stratification

Due to the change in the Workforce Management System. The Average Handling Time (AHT) cannot be determined this time. Below is the information through the last available time period – September 2018.

M

Average Handling Time Stratified by Average Talk Time and Average After-Call Work Time

AHT Target Range: 34-37 minutes

14 | Page

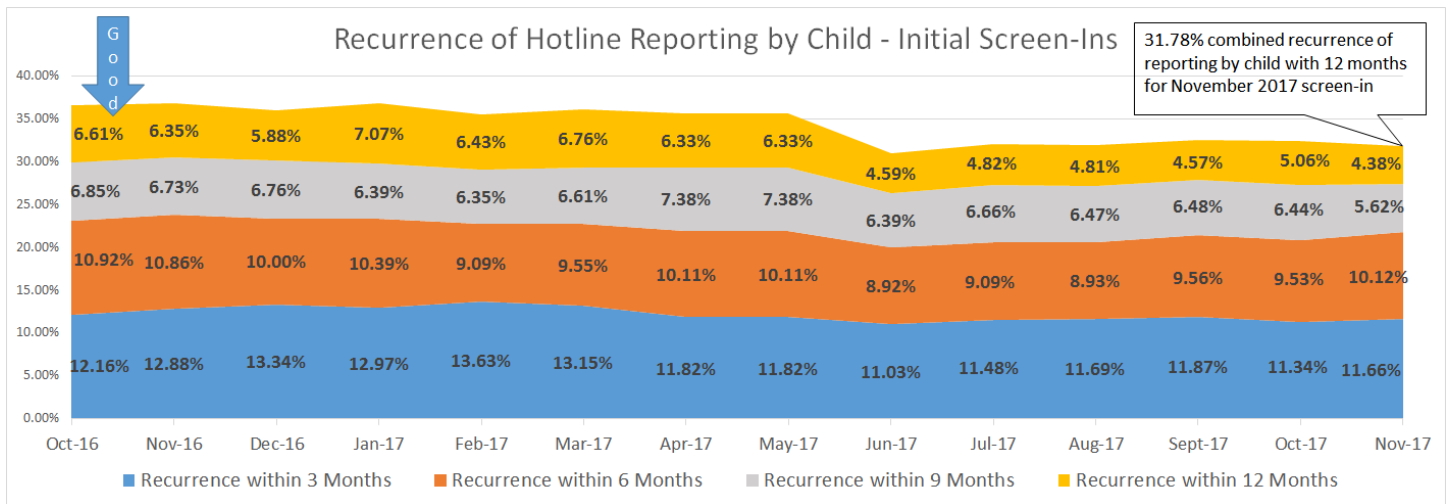

Recurrence of Hotline Reporting Trends

The following four new measures look at all initial calls (no additional, supplemental) to the Hotline within a month and places them into a monthly cohort based on whether the first call received in the month was screened-in or screened-out. Subsequent initial calls to the Hotline within the following 12 months are captured as recurrence. These monthly screen-in and screen-out cohorts are tracked for recurrence of reporting by child (meaning the child appears again in a Hotline report within the following 12 months) and by perpetrator (meaning the perpetrator on the initial report appears as a perpetrator in another initial report within the following 12 months). The percentage of recurrence of reporting for these four groups are displayed at 3, 6, 9, and 12-month intervals.

Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Ins by Child

M

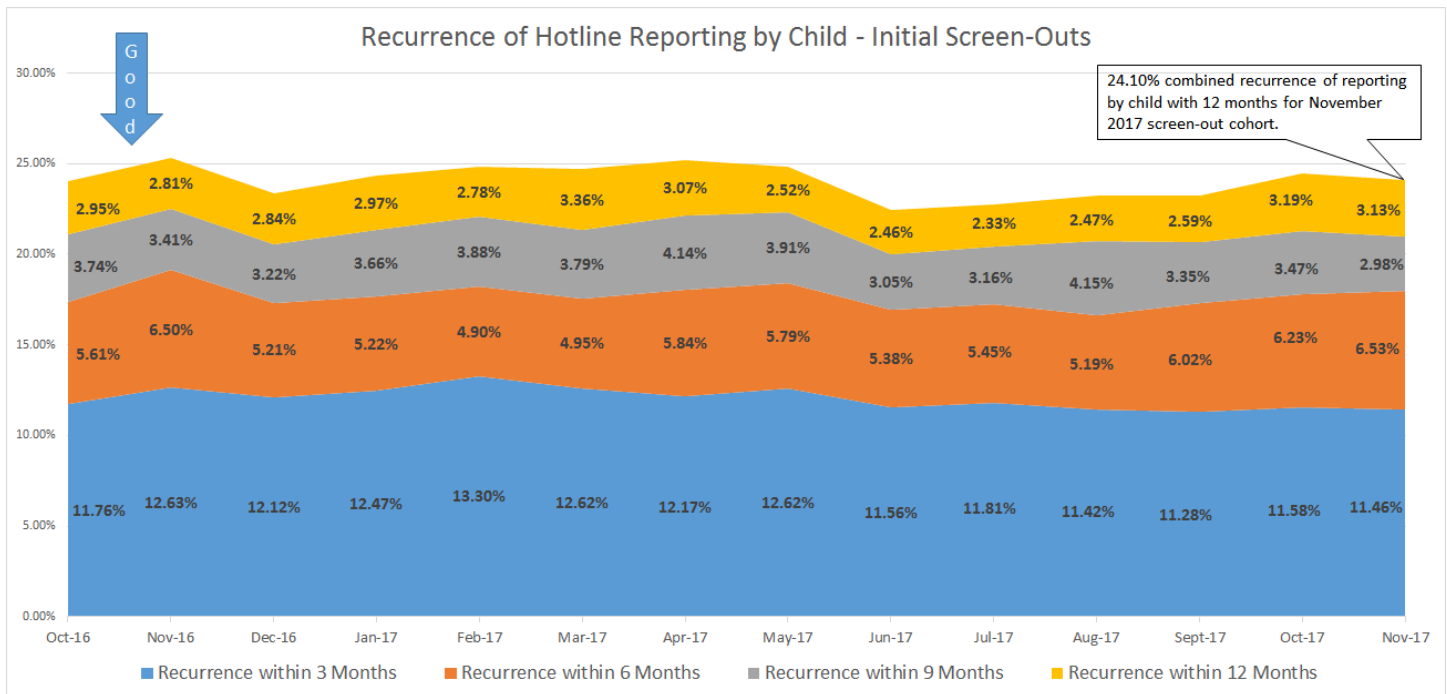

31.78% of children with an initial screen-in decision in November 2017 experienced recurrence of reporting over the following 12 months.

Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Outs by Child

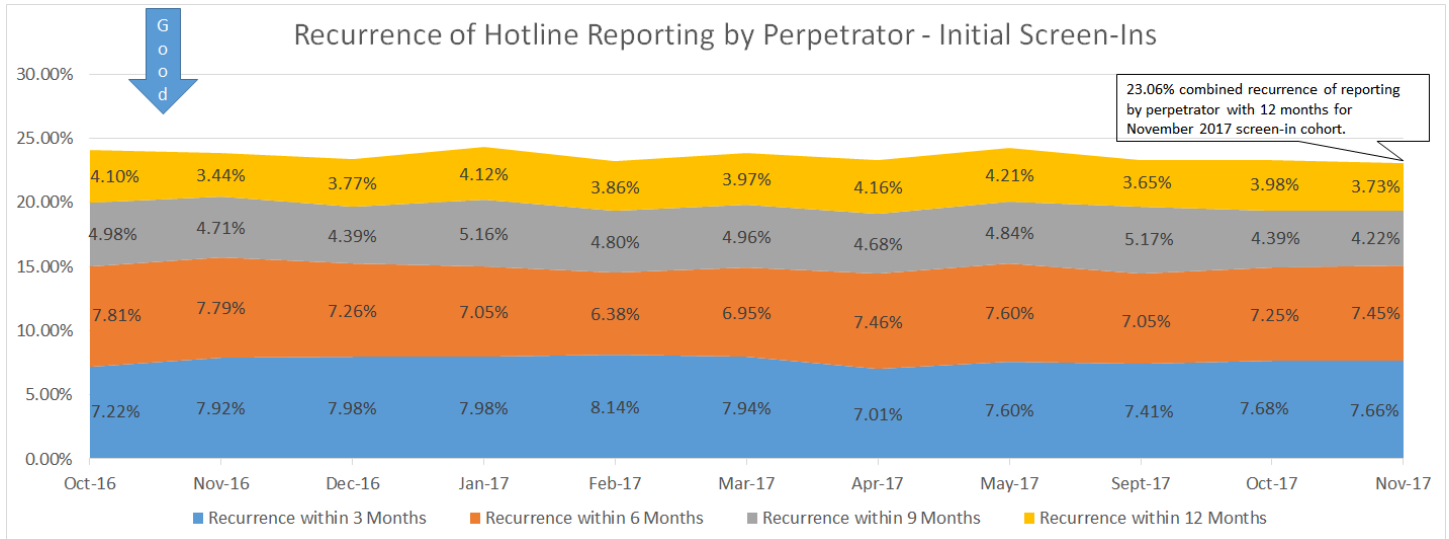

M

24.10% of children with an initial screen-out decision in November 2017 experienced recurrence of reporting over the following 12 months.

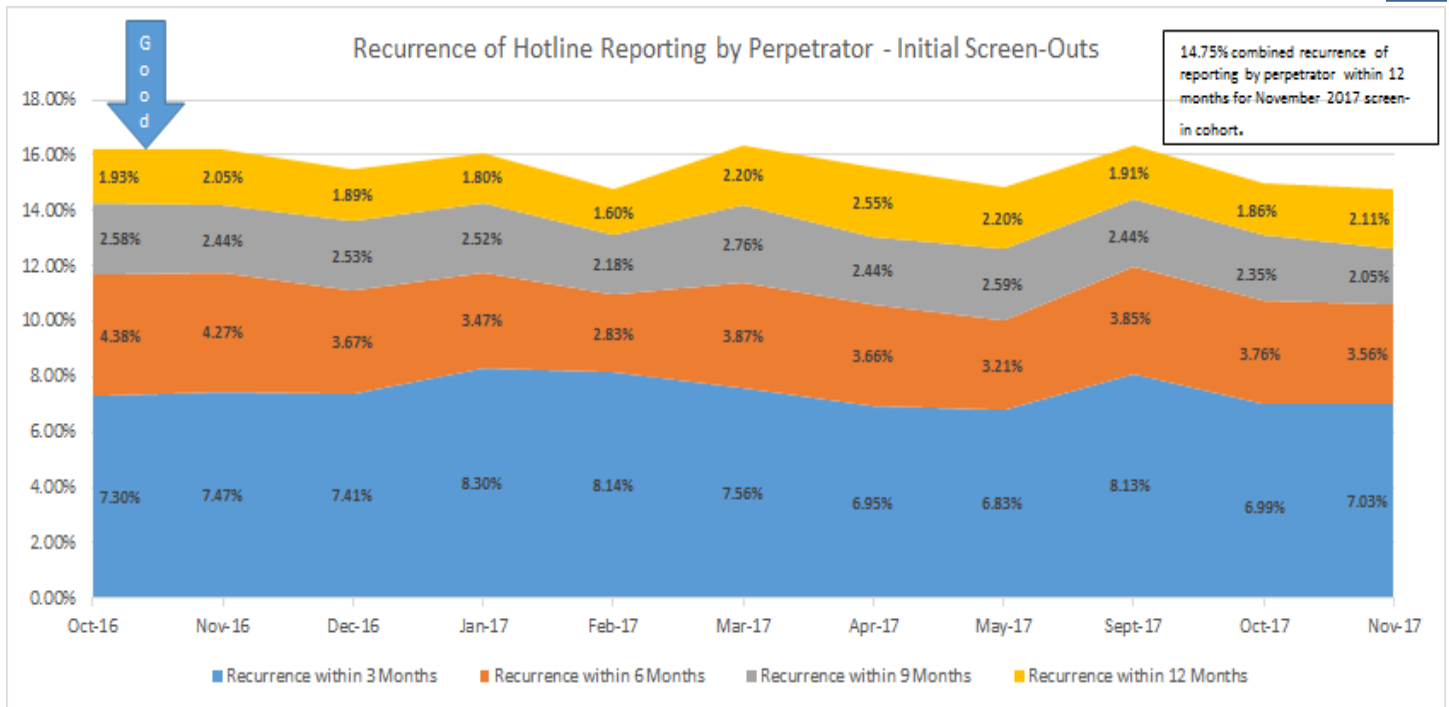

Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Ins by Perpetrator

23.06% of alleged perpetrators involved in an initial screen-in decision in November 2017 experienced recurrence of reporting over the following 12 months.

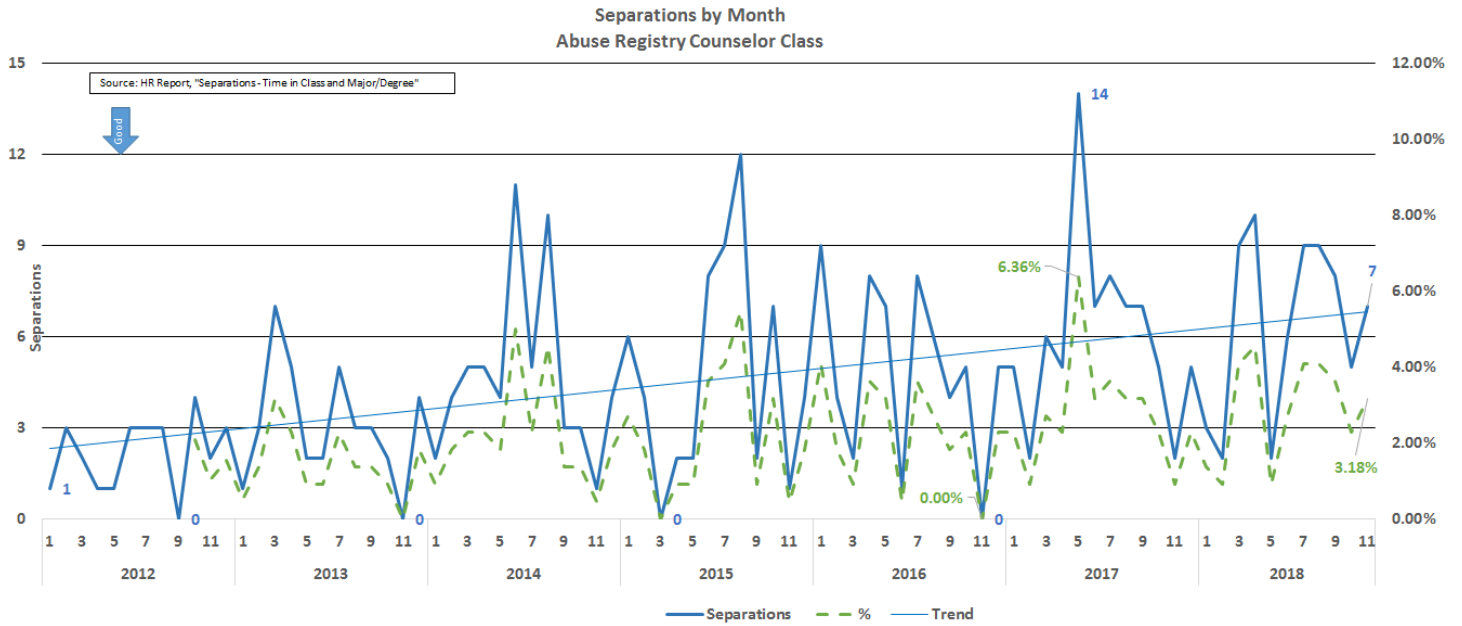

Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Outs by Perpetrator

14.75% of alleged perpetrators involved in an initial screen-out decision in November 2017 experienced recurrence of reporting over the following 12 months.

Monthly Separations for Abuse Counselors

Abuse Registry Counselor separations have increased since January 2014. They have now entered a pattern that generates two consecutive months at upper levels followed by one month of decline. Note that the lower level for total separations has been increasing while the upper level has stabilized.

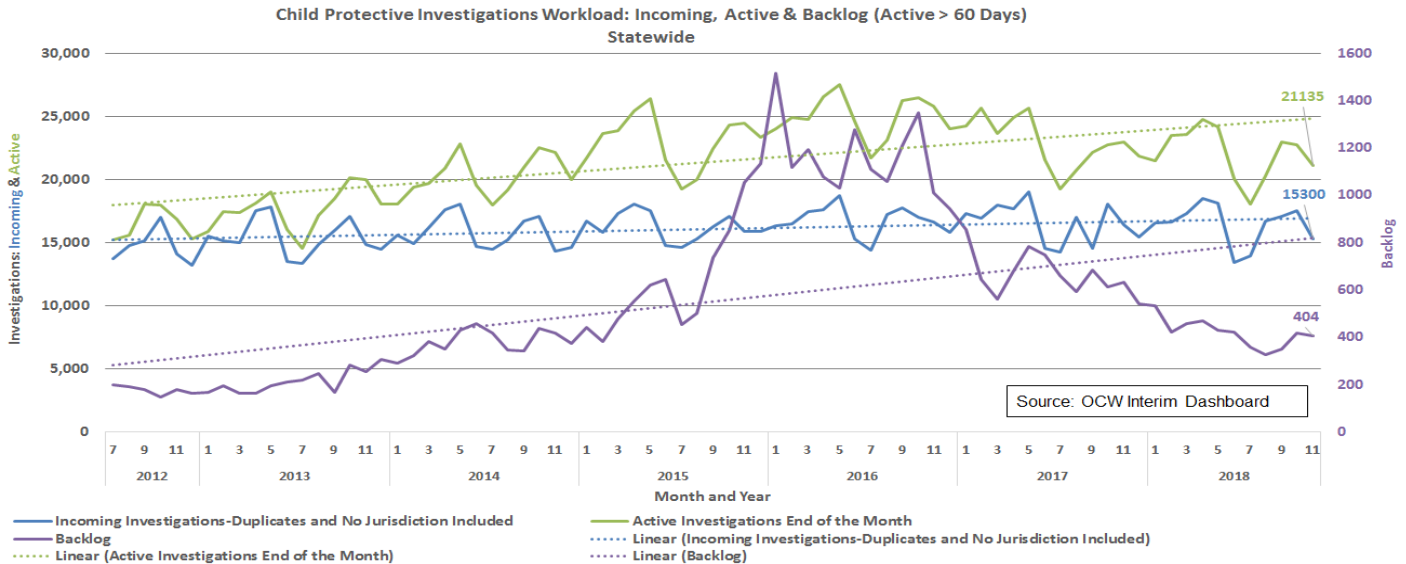

Child Protective Investigators

Workload Trends

M

Investigative Workload: Incoming, Active, and Backlog Investigations

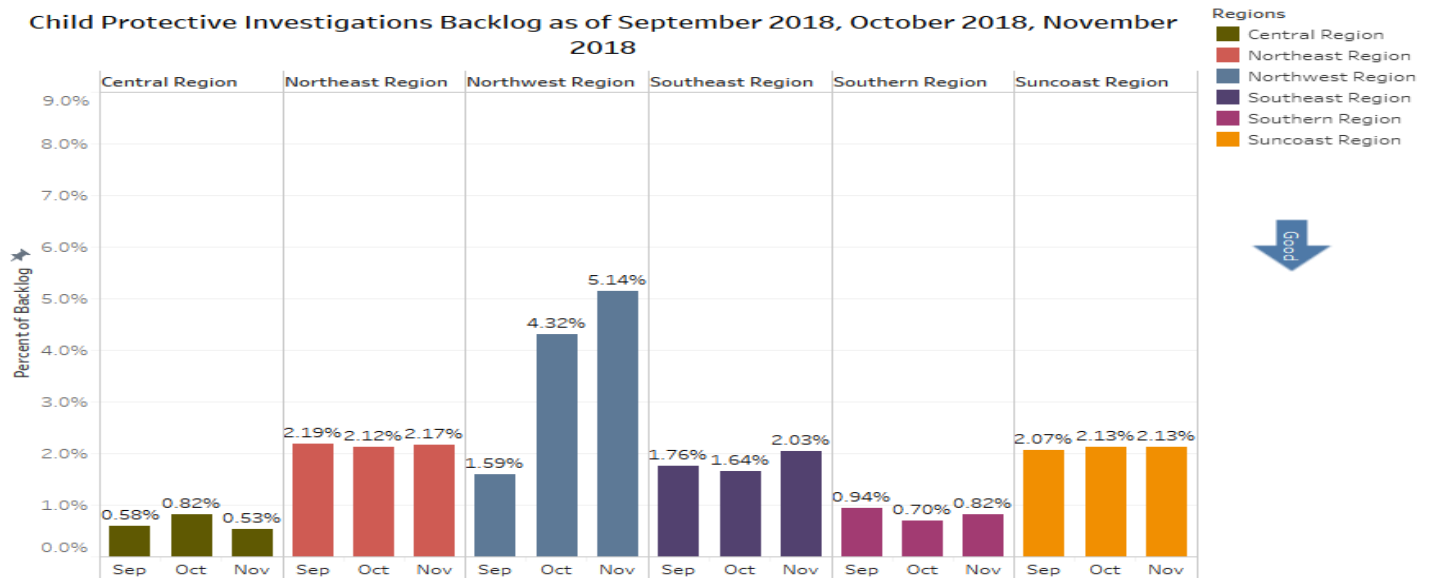

There was an expected seasonal decline in both incoming investigations and active investigations as of the last day of the month. There has been an 18% decline in incoming investigations month-over-month since 2016 and a 9% decline in the number of active investigations month-over-month since 2016. The Northwest Region currently accounts for 25% of active investigations in Backlog.

Investigative Workload: Stratified by Region

M

The Central Region has continued to have the lowest backlog from September through November 2018 with the Southern Region close behind. The Northwest Region backlog has experienced a significant increase since August and continues to have the highest backlog at 5.14% for November 2018.

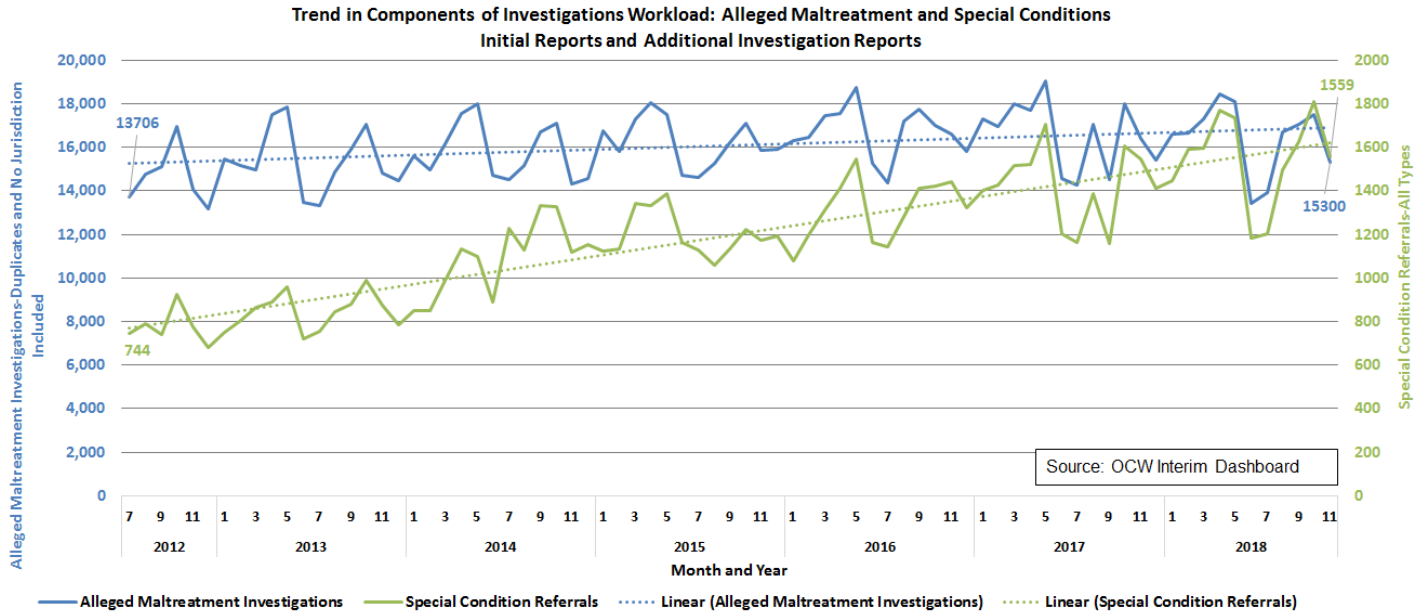

Data Source: OCW Interim Dashboard
Backlog Percentage calculation doesn't include active investigations closed after last day of month, effective 3/15/2018.

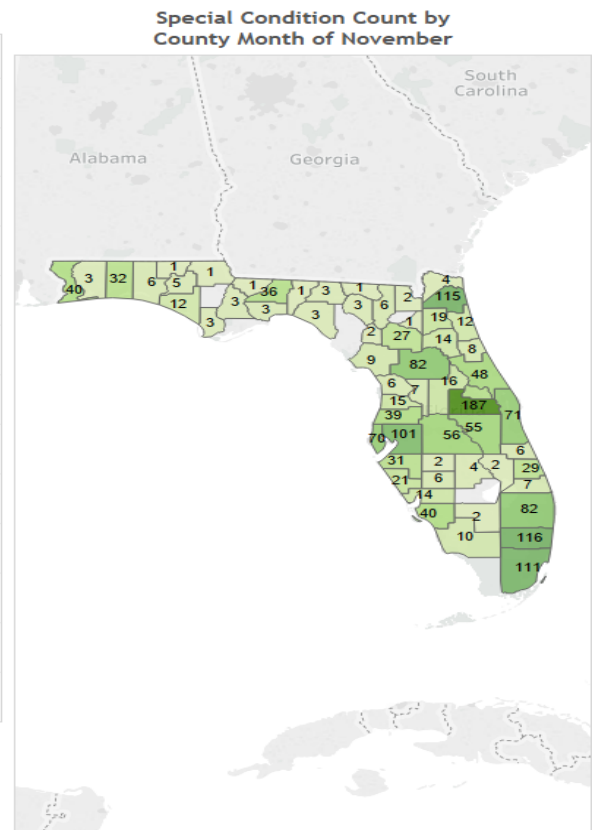

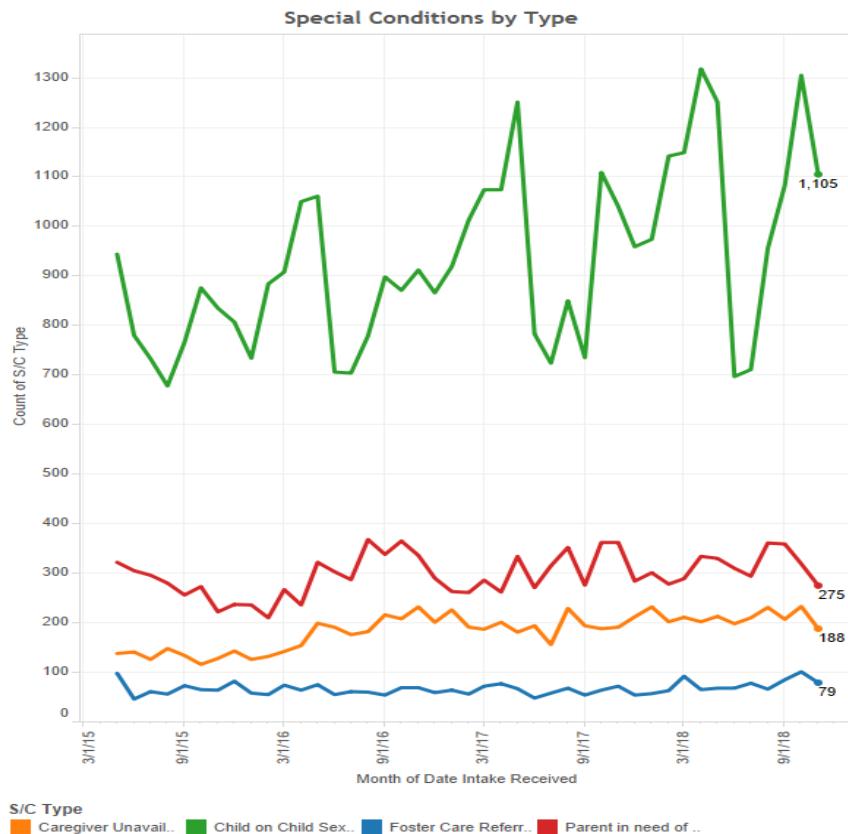

Maltreatment Investigations and Special Conditions Referrals

Alleged Maltreatment Investigations show a declining trend beginning in May 2017 while Special Conditions Referrals have been increasing steadily since 2012.

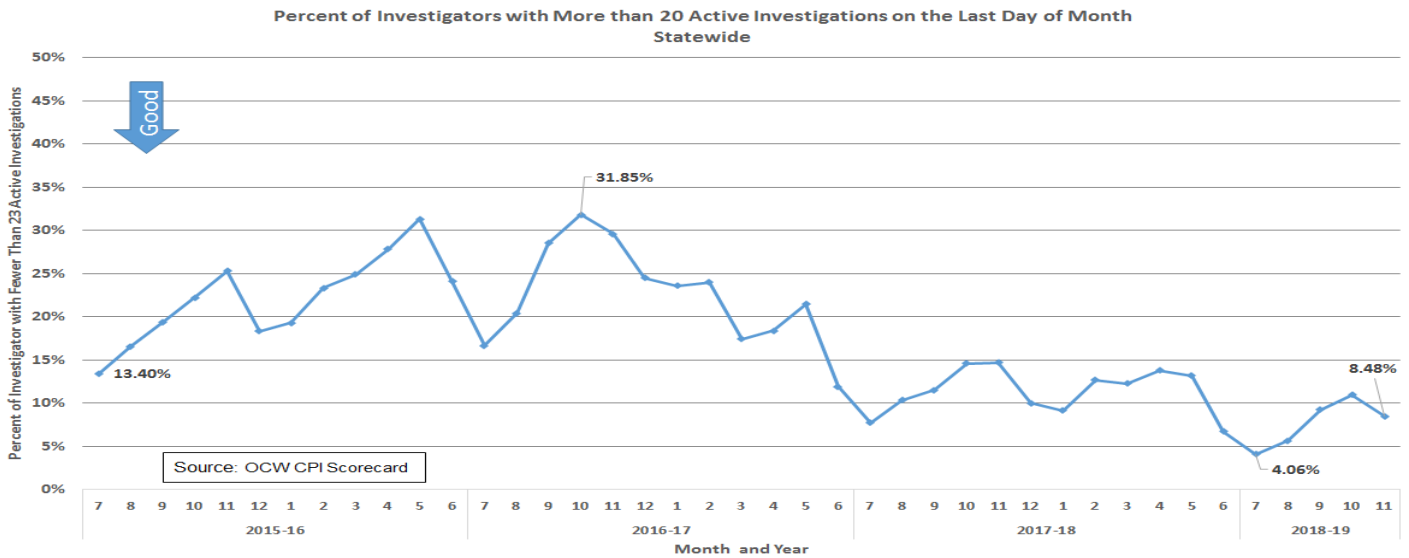

Special Conditions: Stratified by Type and by County

As observed in the data, the increasing trend in special conditions is largely due to the increase in child-on-child referrals. All other special condition types have remained fairly flat.

Statewide: More Than 20 Active Investigations

The percentage of DCF investigators that were carrying more than 20 active investigations as of the last day of the month declined in November 2018 to 8.48%. The trend has been in a downward phase since October 2016.

Stratification More Than 20 Active investigations by DCF Circuit and Sheriff’s Office

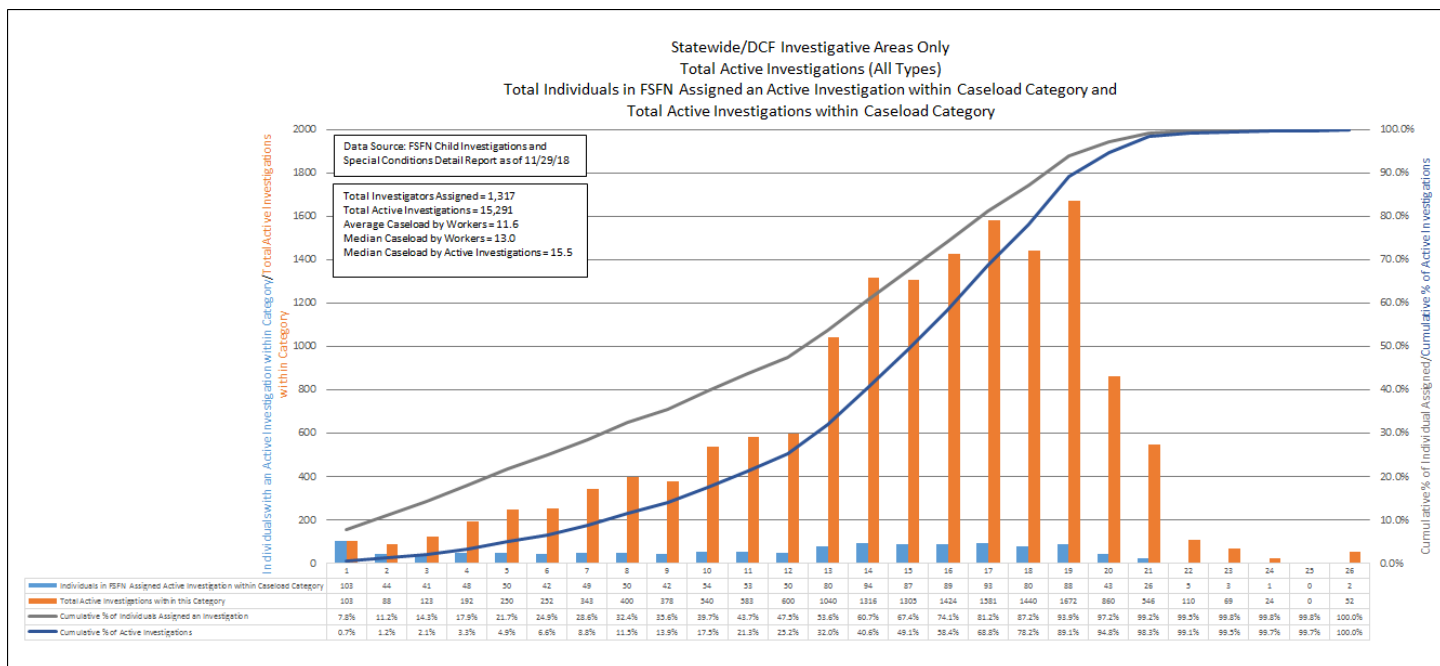

Note that the bulk of CPIs carrying more than 20 active investigations is in those areas where a sheriff office conducts investigations. In areas where DCF conducts investigations, it is the Northwest Region at 92.1% that lags behind while the other areas of the state are generally solid.

Data Source: OCW CPI Scorecard Dashboard

Active Investigations by Cohort

Department-wide efforts to ensure that no DCF CPI is carrying a caseload greater than 26 cases have been extremely successful. As of November 29, 2018, only one DCF CPI was carrying 26 or more active investigations (all types).

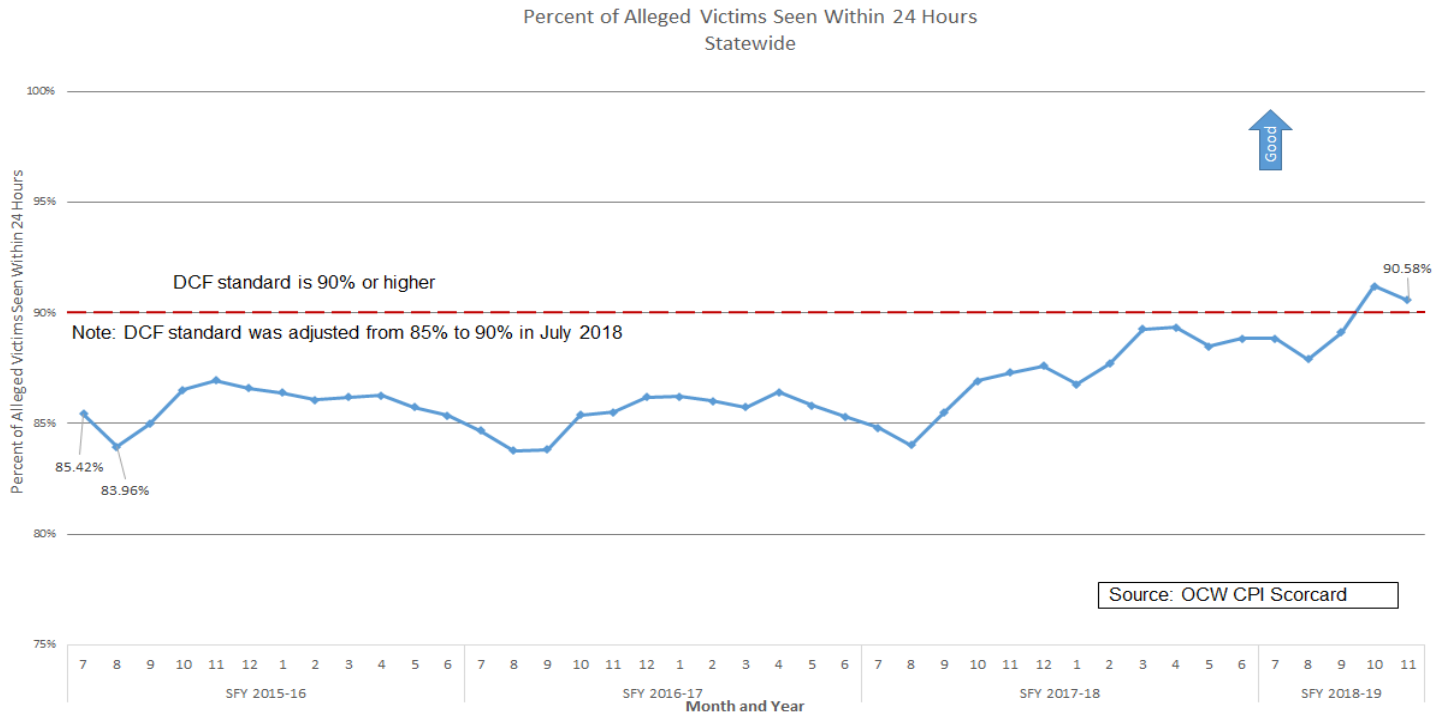

Timeliness Trends

M

Statewide: Alleged Child Victims Seen Within 24 Hours

The new DCF standard for this measure as of July 2018 is 90% or higher. Note that this is the second consecutive month that the new 90% or higher standard has been reached.

Stratification Alleged Victims Seen Within 24 Hours by DCF Circuit and Sheriff's Office

M

Fourteen of the twenty-four investigative areas compliant with the new 90% DCF standard for victims seen within 24 hours in November 2018. Note that with the exception of Circuits 4 (Jacksonville), 12-DCF (Sarasota), and 15 (Palm Beach) most of the remaining noncompliant areas of the state cover large and generally rural geographic areas.

Note: DCF standard was adjusted from 85% to 90% in July 2018

Statewide: Child Investigations Completed Within 60 Days

M

There has been a four-month decline in the percentage of investigations completed within 60 days and the state has not achieved the 99% standard since July 2013.

Stratification Child Investigations Completed Within 60 Days by DCF Circuit and Sheriff's Office

M

5 of the 24 investigative areas met the 99.0% standard for completing investigations within 60-days and only the Manatee SO and Circuit 16 (the Keys) have been able to meet the standard for the last three 3 months.

Percent of Investigations Completed in 60 Days DCF Standard is 99% or Higher

Safety Determinations and Services Provided

M

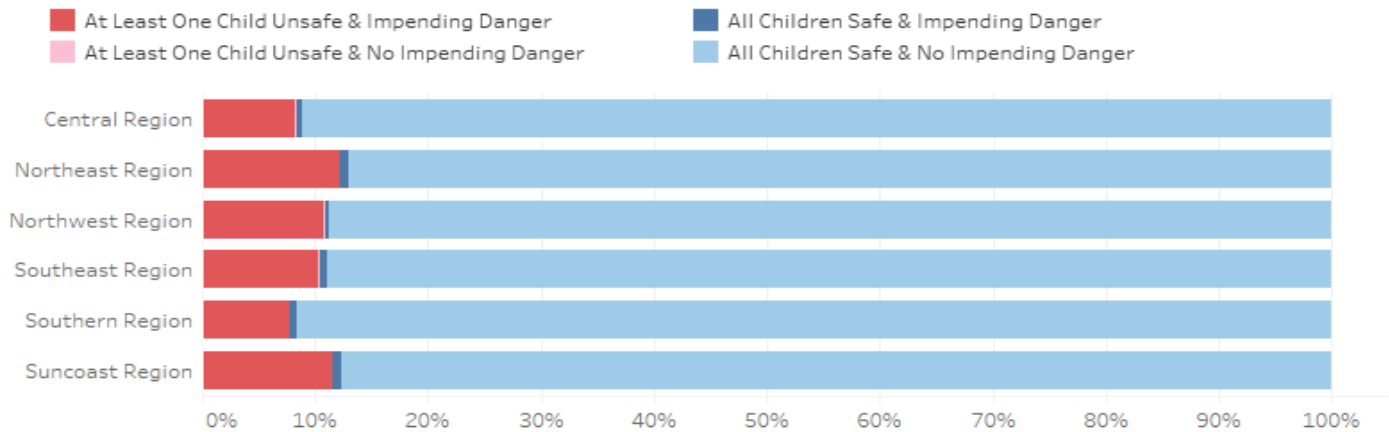

These Tableau visualizations are for investigations closed during November 2018. The percentage of children safe with no impending danger continues to be fairly stable.

Impending Danger Threats and Safety Determination

This visualization indicates that some children have been determined “unsafe,” yet have no impending danger (pink), while others are determined “safe,” yet there is impending danger (dark blue).

Impending Danger Threats and Safety Determination for Investigations Closed During November 2018

Percent of FFAs - Investigations by Impending Danger Threats and Safety Determination

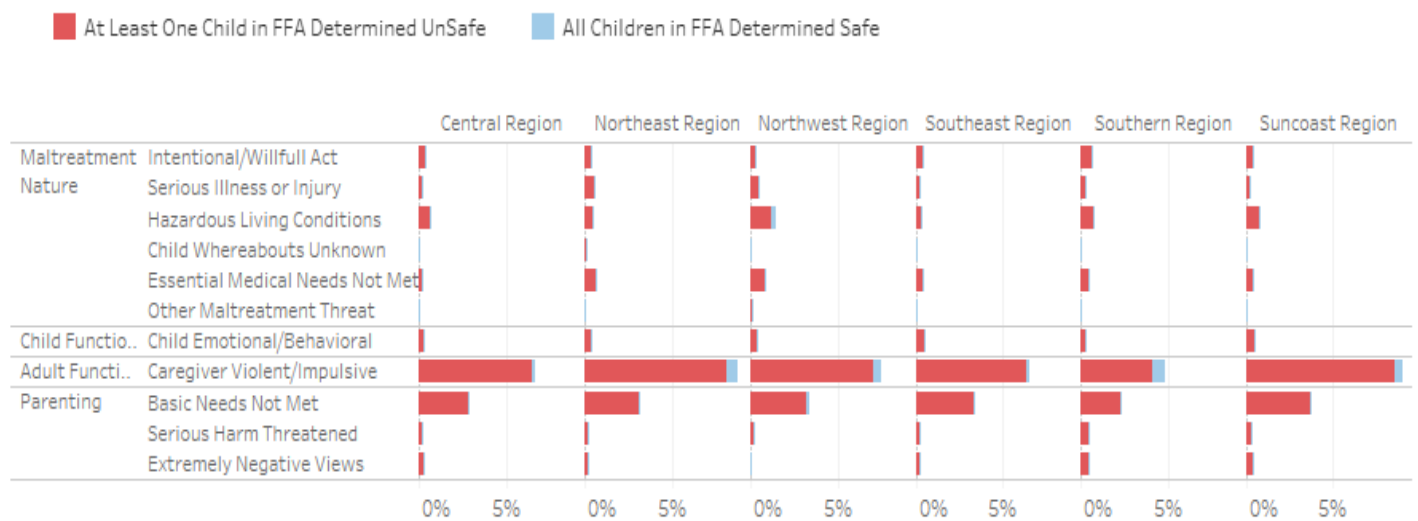

Impending Danger Threats Identified by Safety Determination

This Tableau visualization indicates the percentage of the identified Impending Danger Threats for both safe and unsafe children, by region. Adult functioning continues to be the most significant influential risk factor for unsafe children with Suncoast Region leading at 8.55%.

Percent of Impending Danger Threats Identified (of Total FFAs) by Safety Determination

M

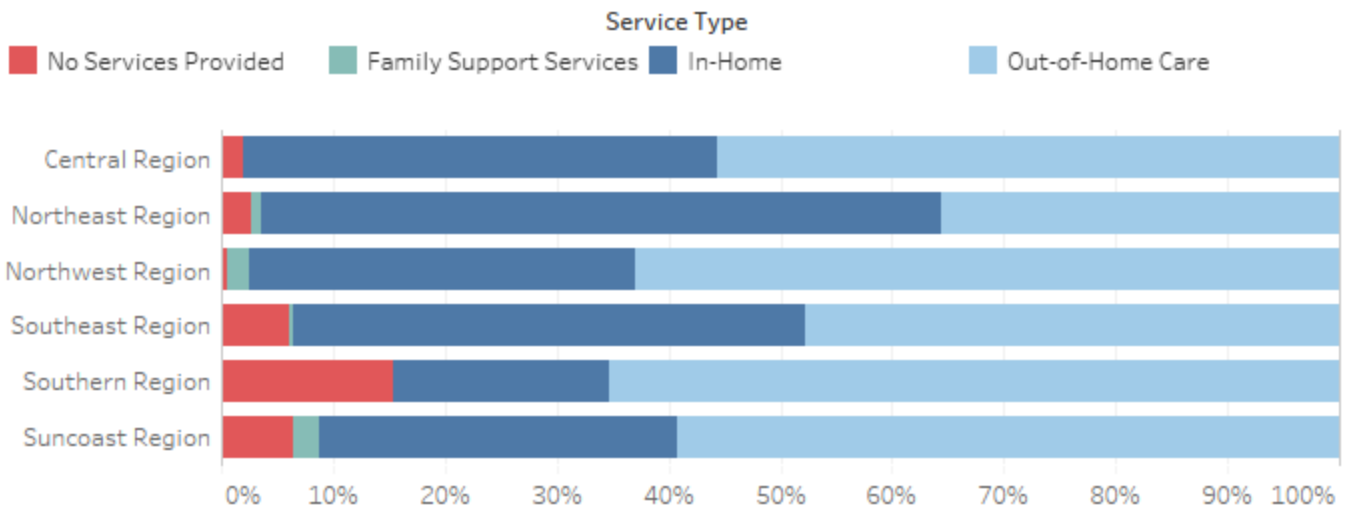

Unsafe Children and Safe Children by Placement Service Type upon Investigation Closure

M

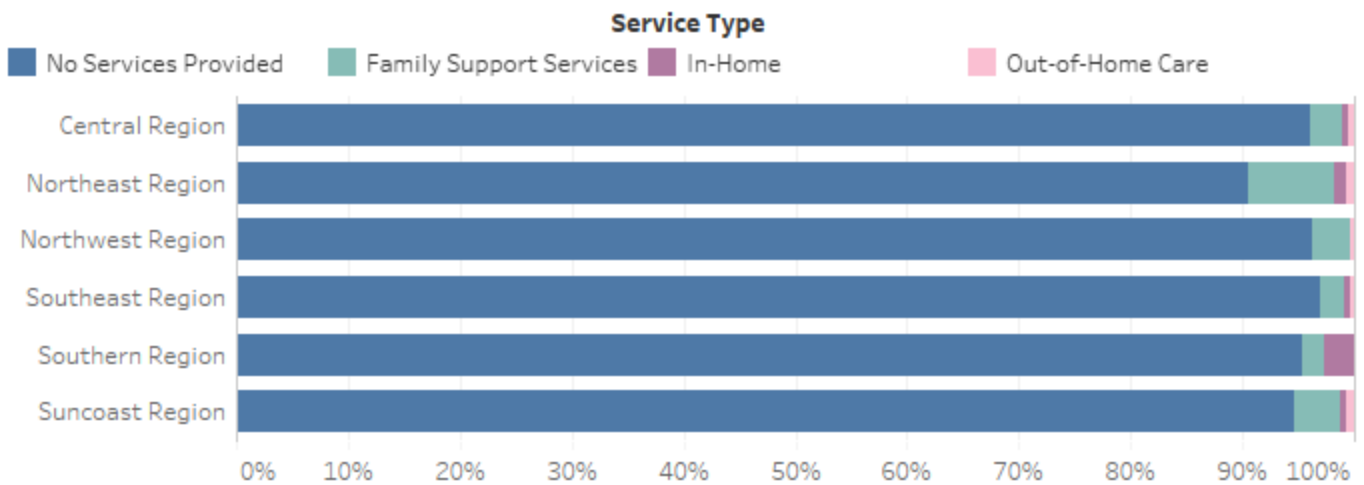

These Tableau visualizations reflect investigations closed during November 2018. The Southern Region is leading with the highest percentage of unsafe children with no placement services at 15.38%

- The visualization on the top indicates that some children have been determined “unsafe,” yet have no placement services (red) or are indicated as receiving Family Support Services (lightest blue).
- The visualization on the bottom indicates that some children have been determined “safe,” yet were placed in out-of-home care (violet) or received case-managed in-home services (dark purple).

Percent of UnSafe Children by Placement Service Type or Family Support Services Upon Investigative Closure

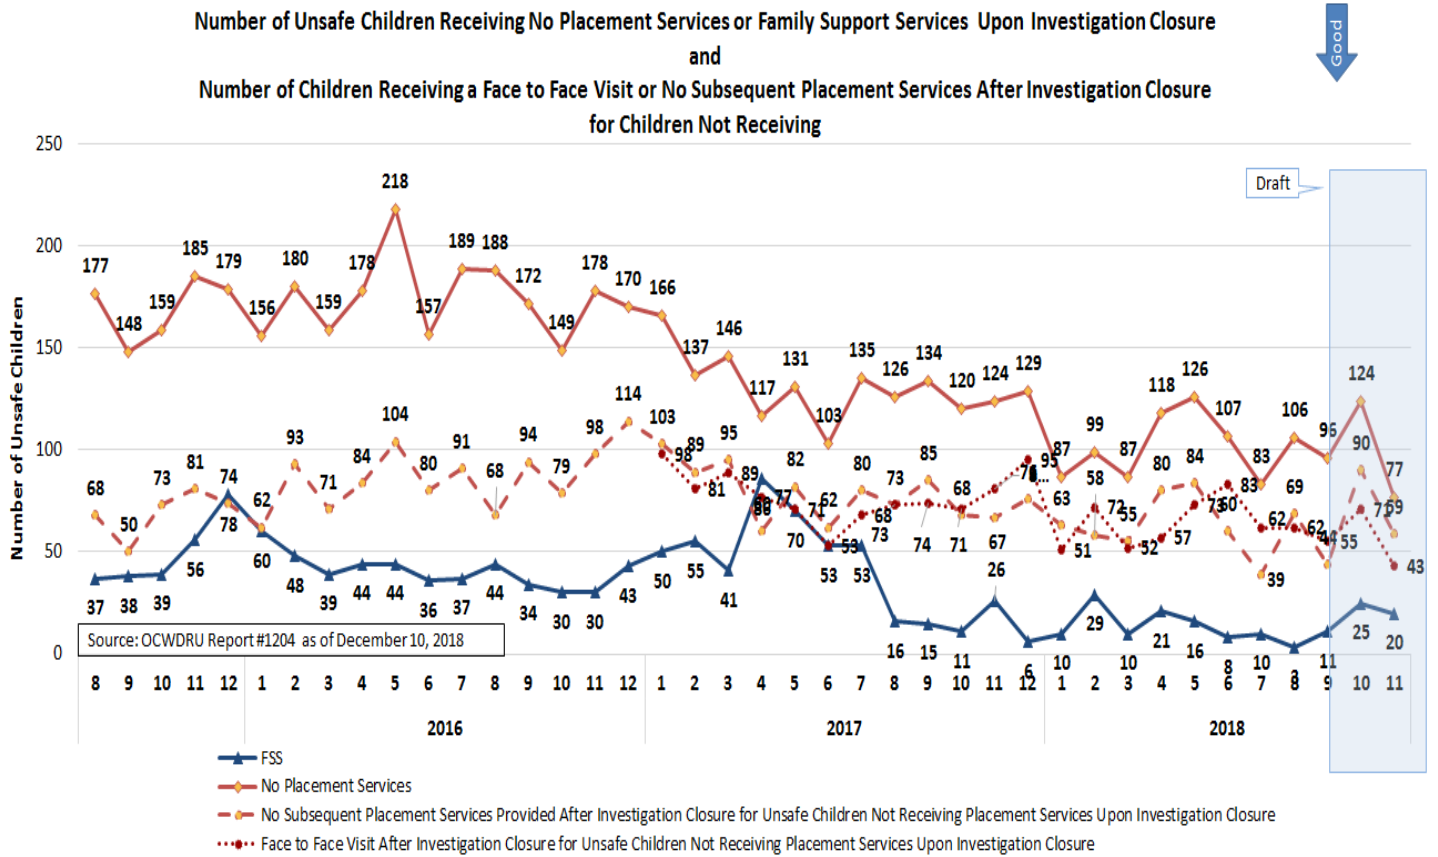

Percent of Safe Children by Placement Service Type or Family Support Services Upon Investigative Closure

Unsafe Children Receiving No Placement Services or Family Support Services Upon Investigative Closure and No Placement Services After Investigation Closure

M

The following chart provides a trend view of the number of children who have been deemed unsafe, by month of investigation closure, who are receiving Family Support Services or no placement services, as opposed to ongoing, case-managed services. Each month's data is finalized on the third pull, allowing for a grace period of around 75 days for data entry. The "No Subsequent Services Provided After Investigation Closure" line is a drill down on the children not receiving placement services upon investigative closure. Additionally, a line has been added to identify if there was a face-to-face contact made after investigation closure for those children that had no placement services at investigation closure. In November 2018, 43 of the 59 children who were not receiving placement services upon investigation closure had a face-to-face contact after closure. None of these measures have a set target, but lower is the desired direction.

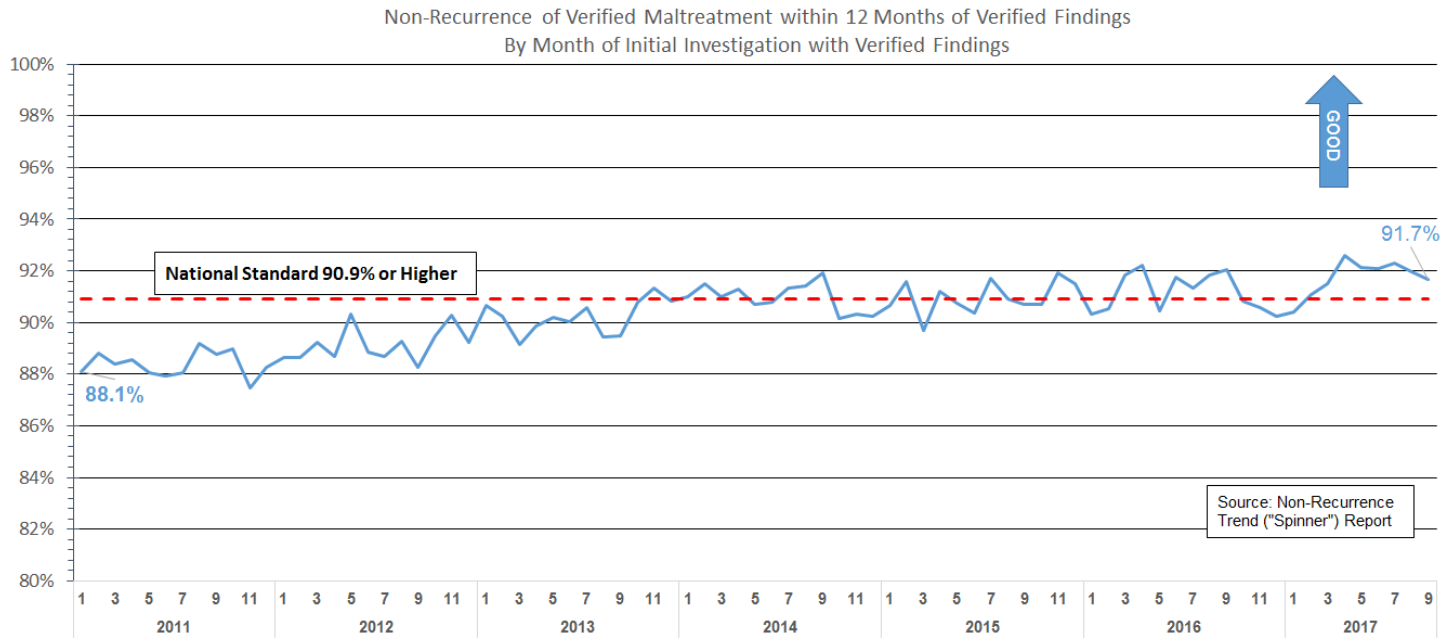

Draft

Statewide Children with No Recurrence of Verified Maltreatment within 12 Months★

M

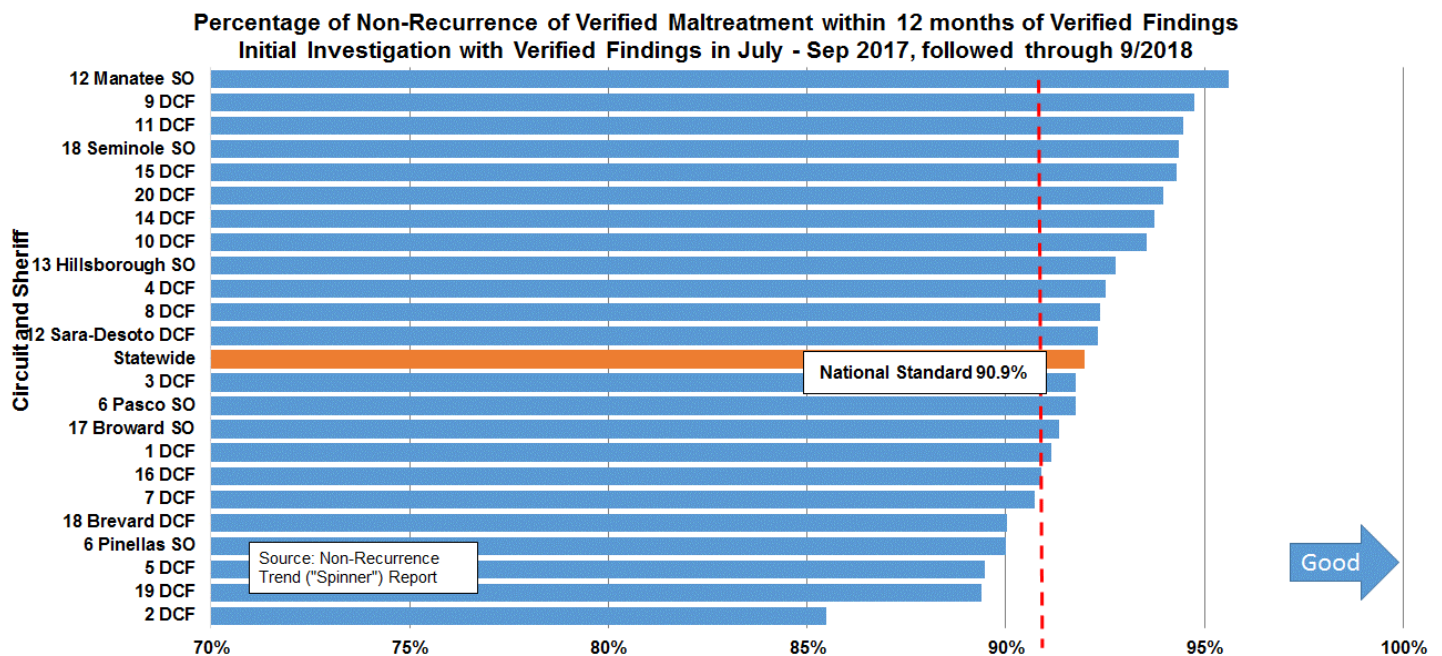

The percentage of children with no recurrence of maltreatment within 12 months of a verified finding was stable for children with completed investigation in September of 2017 and Florida remained above the national standard of 90.1%. The most recent national data which has been stratified to the state level for this measure is from 2012/2013. Florida would rank 25th among states if comparing current performance to the available 2013 data. Wyoming led all states in 2012/2013 at 97.3%.

Stratification by DCF Circuit and Sheriff's Office

Q

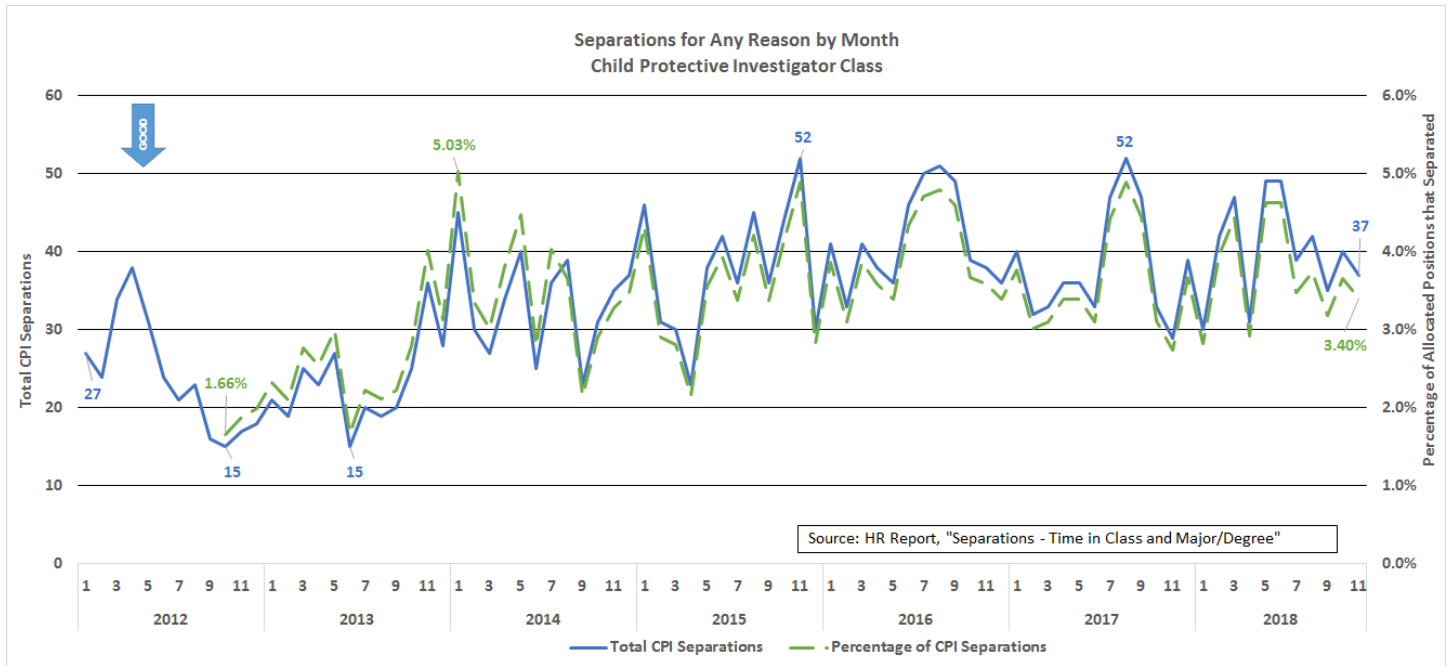

There is wide variation among the circuits and sheriff's offices on this indicator. Note that Florida met the national standard for the third quarter of the calendar year for this measure.

CPI Workforce Monthly Separations

M

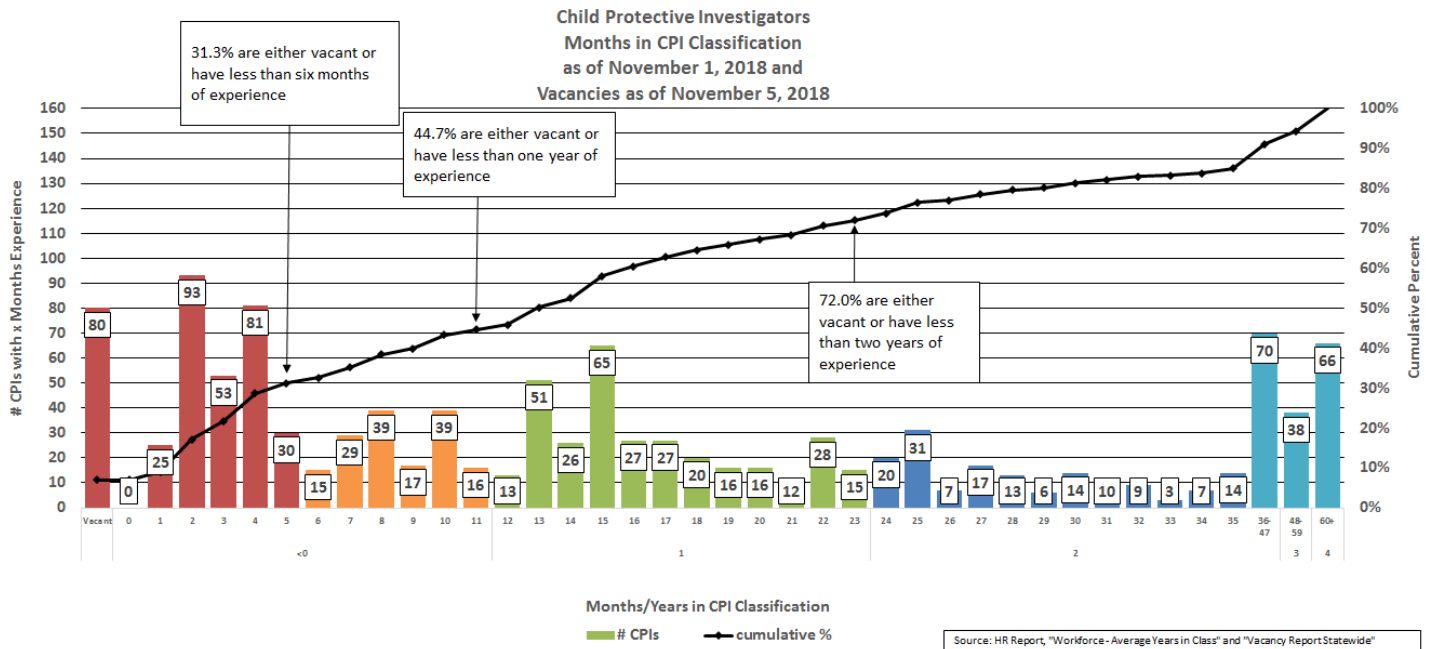

The number of Child Protective Investigators that separated from the department has been generally stable since 2016 with the exception two-three peaks. Note that the lower level has been increasing over the last 6 months. This indicates that this data could be moving to where there is less volatility in the data.

CPI Time in Classification

M

The addition of new CPI positions is skewing this data towards inexperience within the CPI work force. As these new positions are filled and move through the standard workforce attrition cycle it is expected that the displayed counts and percentages will stabilize in the 20.0%-25.0% range for CPI positions that were vacant or had less than 6-months experience and the 45.0% to 47.0% range for CPI positions that were vacant or had less than 1-year experience.

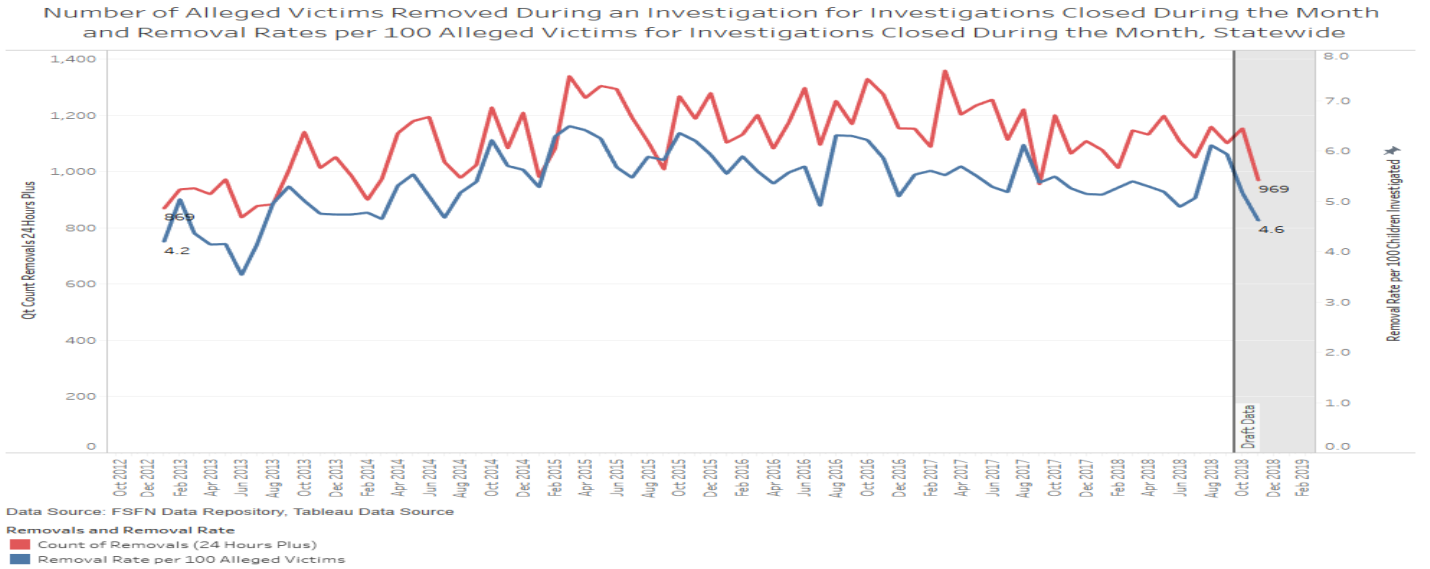

Flow from CPI to CBC Lead Agencies

Removals and Removal Rates

Statewide Trend

M

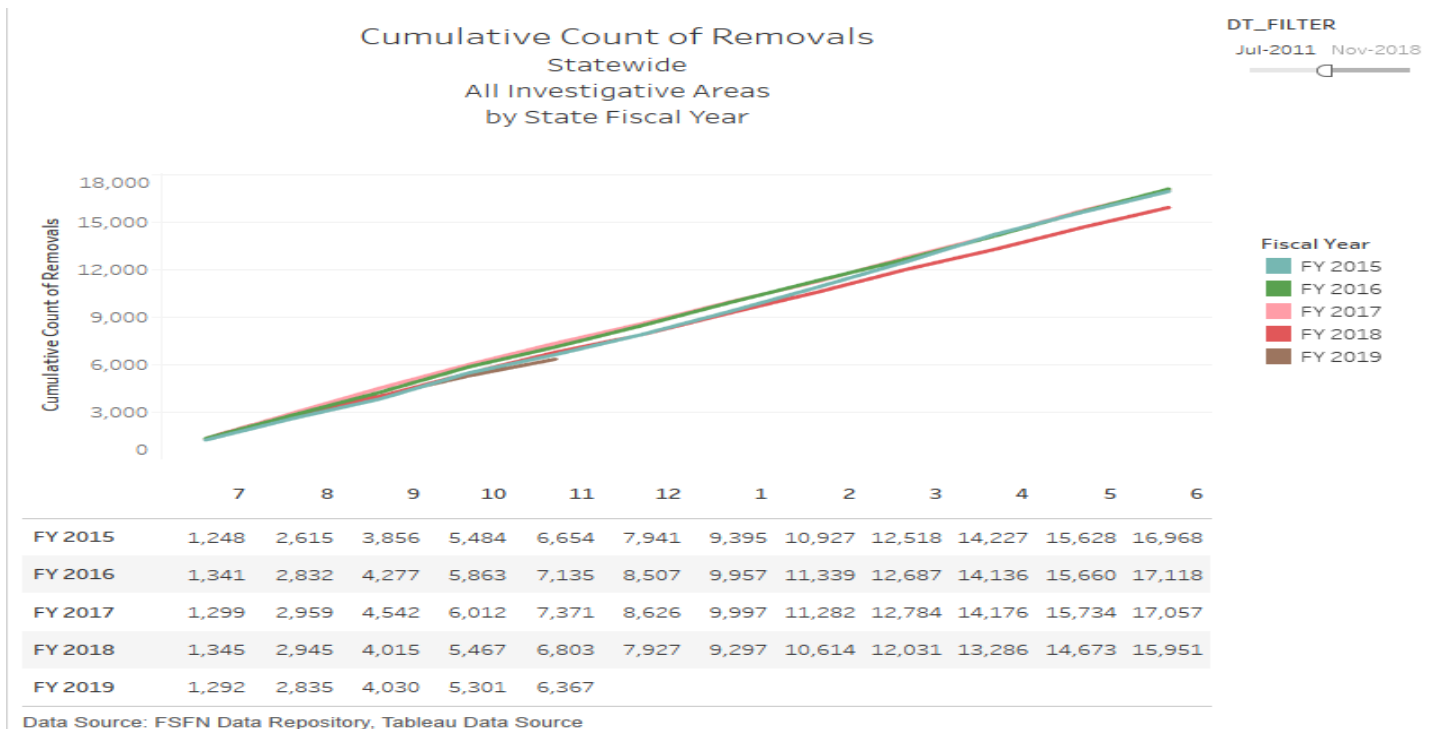

The number of children removed significantly decreased from 1,164 in October 2018 to 969 in November 2018. The removal rate has been steadily declining since July 2018 decreasing from over 6.0 to 4.6 for November 2018.

M

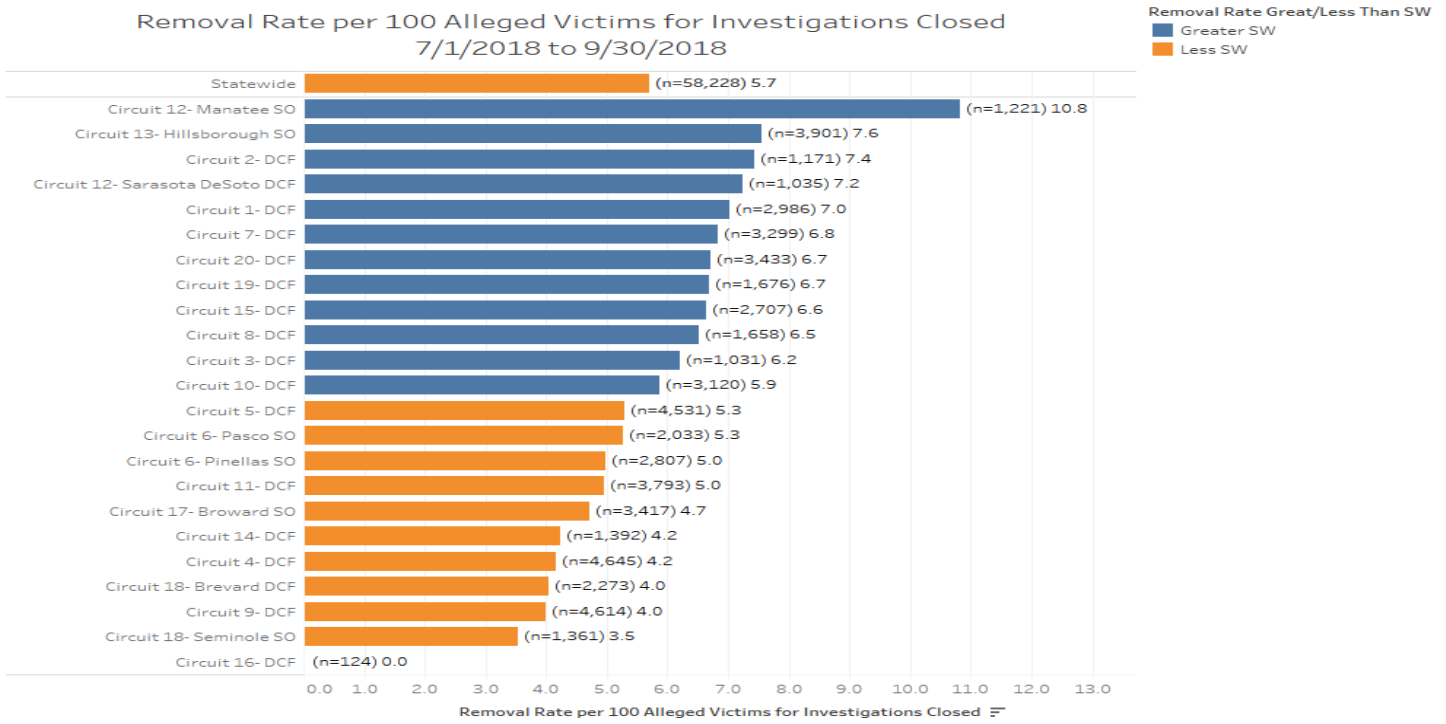

Removals Cumulative Count by SFY

The year-over-year cumulative count of removals for November 2018 were 6,367, which has been trailing behind the cumulative count of removals for FY 2018.

Quarterly Stratification by Circuit and Sheriff's Office

There remains wide variation among circuits and sheriff's offices on this indicator. Removal rates range from 3.5 to 10.8 per 100 alleged victims.

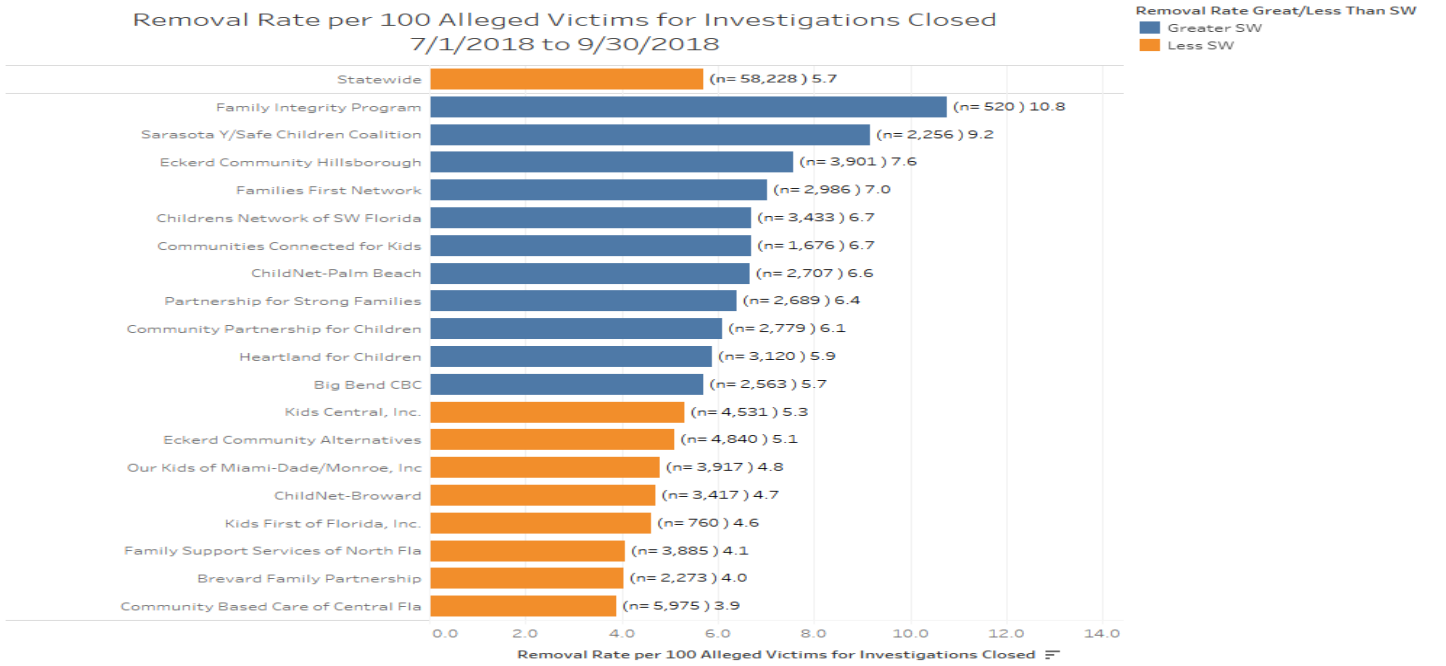

Data Source: FSFN Data Repository, Tableau Data Source

*Sep 2017 - Measure changed from per 100 children investigated to per 100 Alleged Victims.

Quarterly Stratification by Circuit and CBC Lead Agency

There remains wide variation among the circuits and CBC lead agencies for this indicator.

Data Source: FSFN Data Repository, Tableau Data Source

*Sep 2017 - Measure changed from per 100 children investigated to per 100 Alleged Victims.

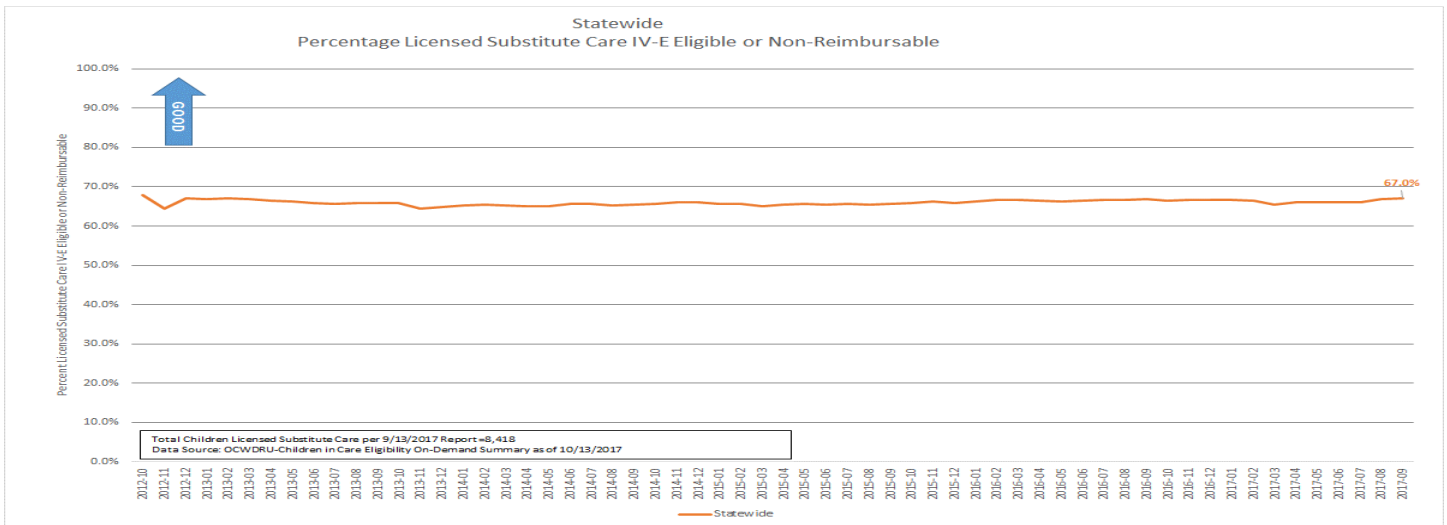

Eligibility

Title IV-E and TANF Eligibility Licensed Substitute Care and Adoption Eligibility

Q

Percentage of Children in Licensed Substitute Care that were Title IV-E Eligible or in a Non-Reimbursable Placement

The percentage of children in out-of-home care that are deemed to be Title IV-E eligible or that are in a non-reimbursable placement remained relatively flat, in the range of 67.0%.

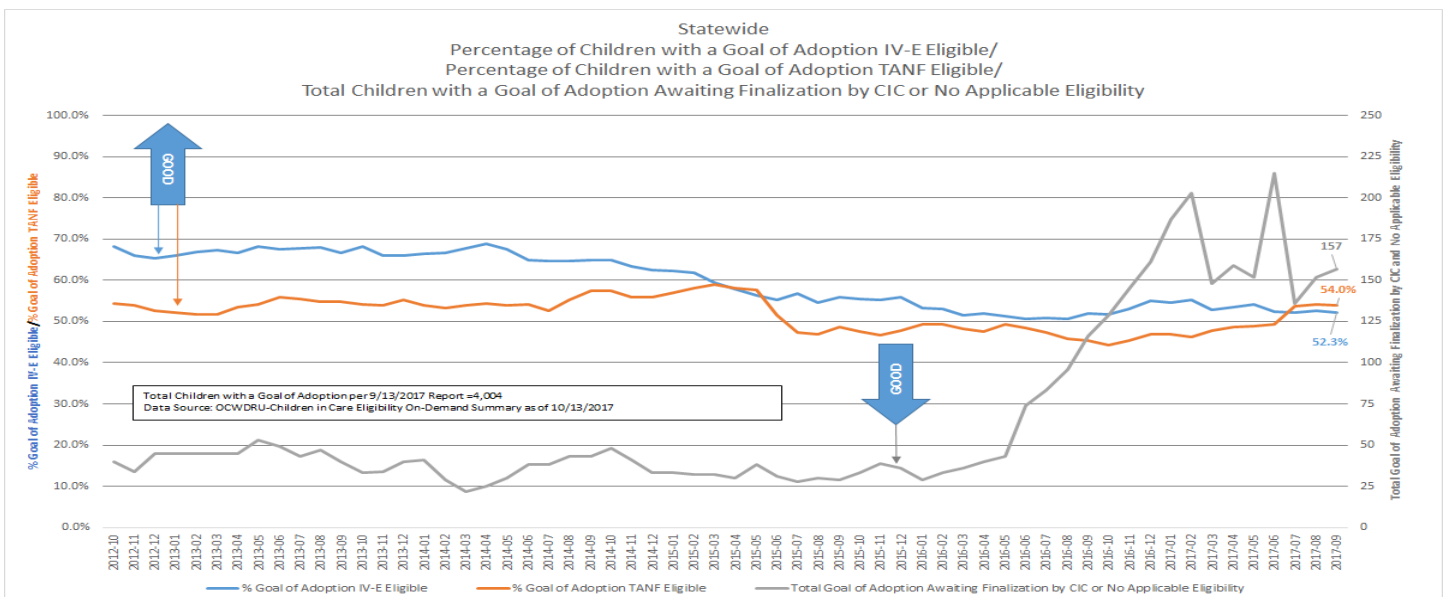

Percentage of Children with a Goal of Adoption that are Title IV-E or TANF Eligible and

Q

Count of Children with a Goal of Adoption Awaiting Finalization or have No Applicable Eligibility

The percentage with a goal of adoption that were classified as Title IV-E or TANF eligible has stabilized in the range of 55.0% after declining since January 2015. Note the increase in children awaiting finalization by the CIC or where the child has no eligibility determination since June 2016. As of September 2017, approximately 1/3 of these pending eligibility cases were located within the Eckerd Community Alternatives (Pasco & Pinellas Counties) system of care.

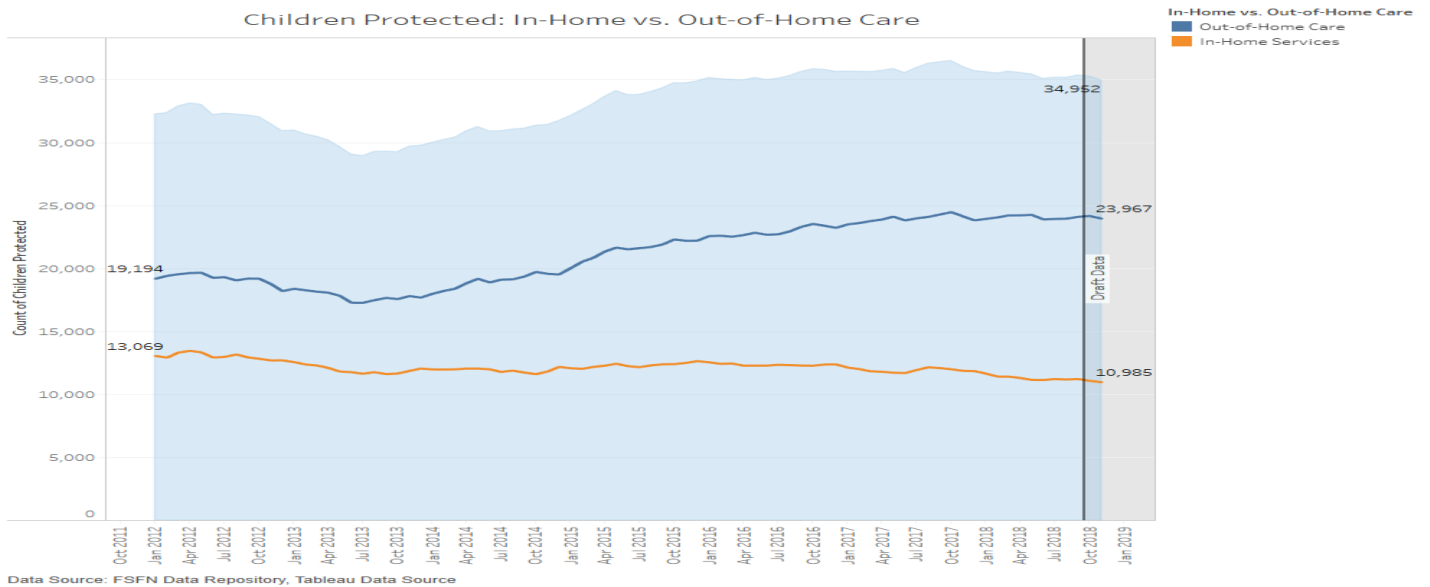

Community-Based Care Lead Agencies

Caseload Indicators

Statewide Trends in Case-Managed Services

M

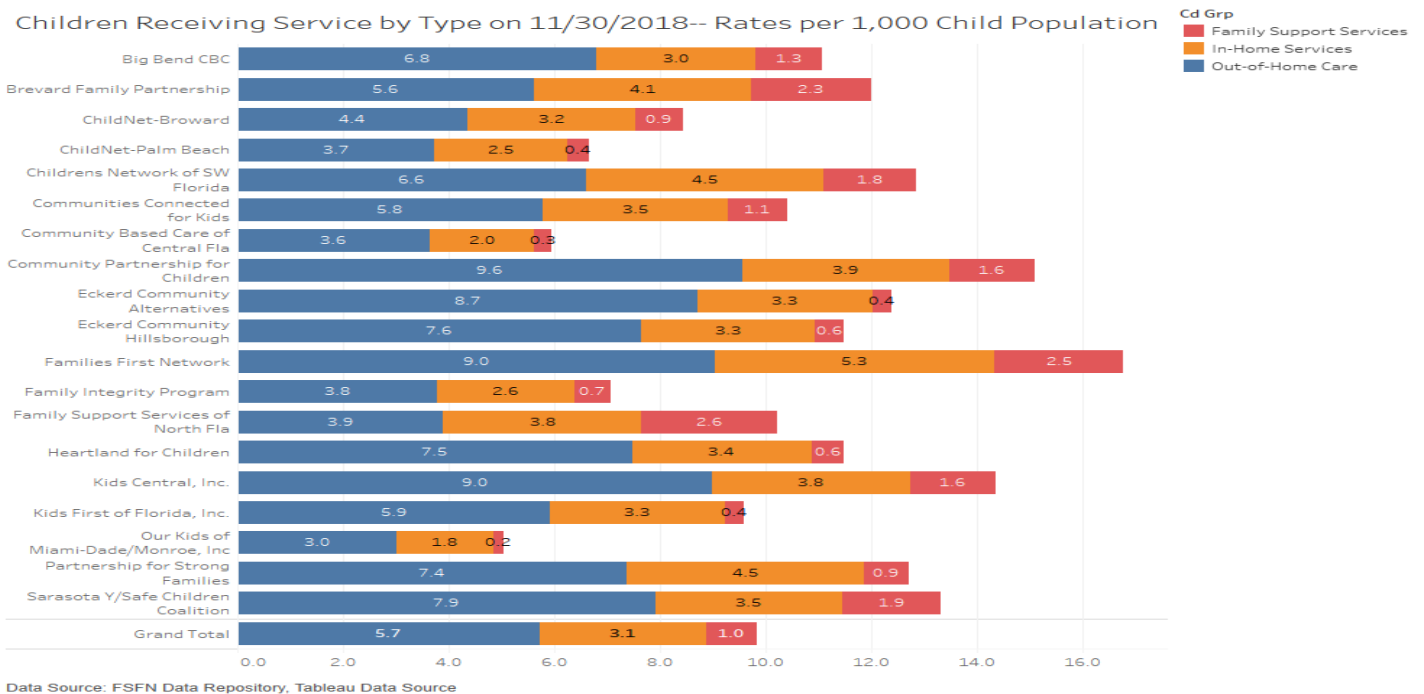

There were 23,967 children in out-of-home (OHC) care on November 30, 2018, which remained stable compared to the consistent upward trend in OHC observed since the middle of 2013. The trend for children receiving in-home services has remained relatively flat for three years, with 10,985 children receiving in-home services on November 30, 2018.

Services Mix

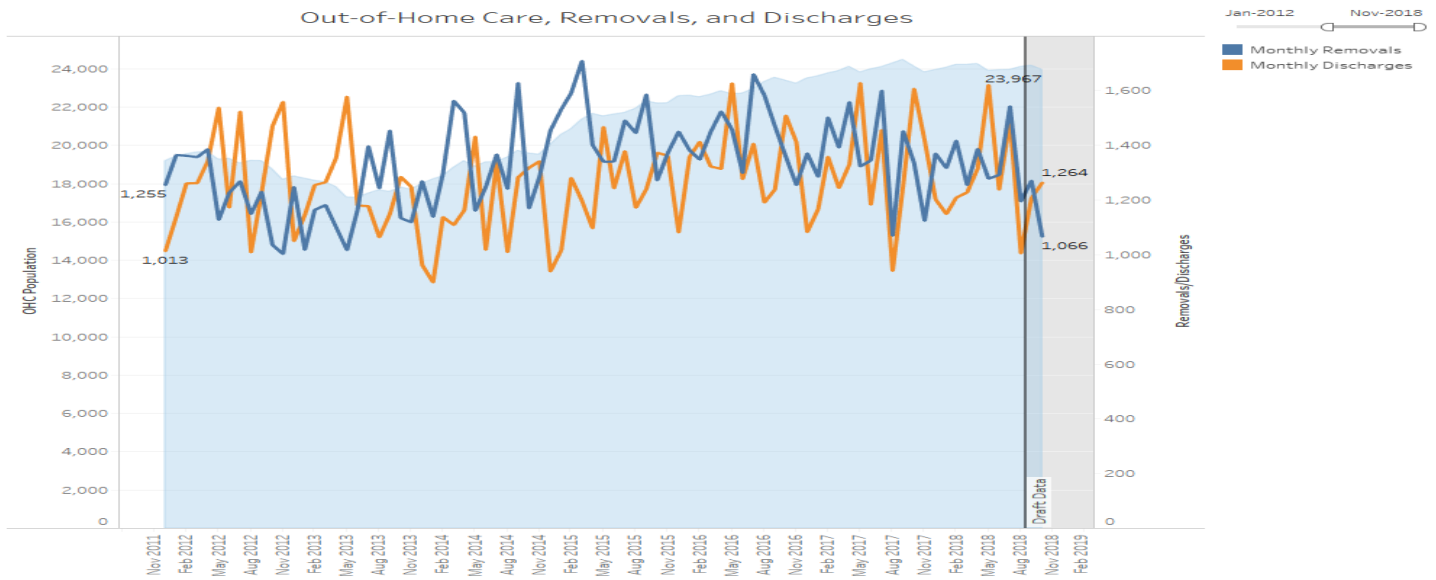

M

There continues to be variation among circuits regarding in-home and out-of-home care services, with the widest variation occurring in the use of Family Support Services.

Removals and Discharges Compared to Out-of-Home Care Trend

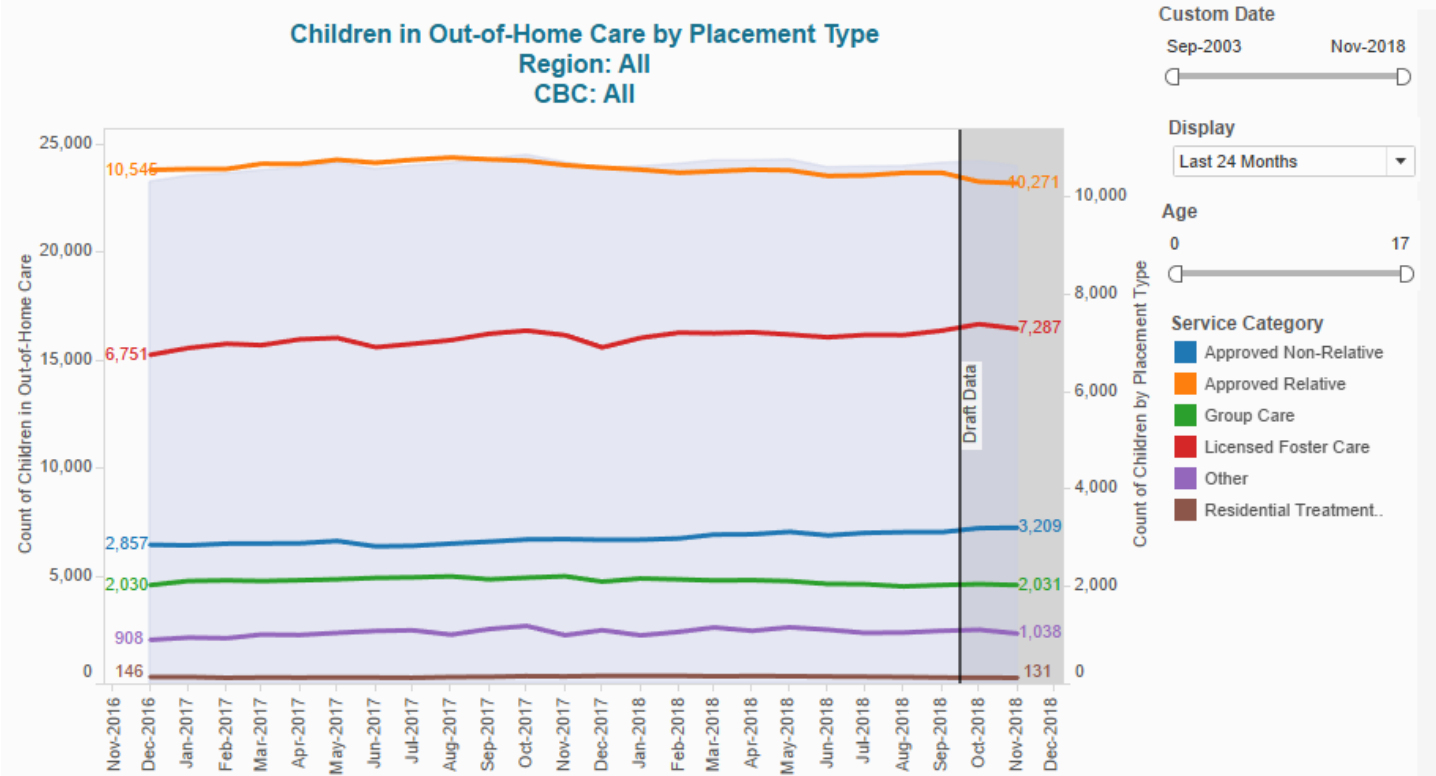

The number of removals decreased from 1,328 in October 2018 to 1,066 removals for November 2018. However, the number of discharges has had a slight increase from 1,142 in October 2018 to 1,264 discharges during November 2018.

Data Source: FSFN Data Repository, Tableau Data Source

Placement Types Compared to Children in Out-of-Home Care Trend

As of November 30, 2018, there were 23,967 children in out of home care with 10,271 in relative care placement, 7,287 in a licensed family foster home, 3,209 in non-relative care, 2,031 in licensed group care, and 1,038 in other placements.

Family Functioning Assessment-Ongoing Implementation Map

This Tableau map provides county-specific percentages, as well as percentages by region. Please note that this map is a snapshot in time and does not reflect closed cases that utilized an FFA ongoing. Zero percent for some counties may result from a small number of cases or cases assigned to other counties. It is important to note the change in the scale from previous months.

Ongoing Services Safety Methodology Implementation Status as of 12/13/2018

Source: FSN report Active Cases with an Approved FFA-Ongoing – OCWRU #1084
 Notes: Small number of cases assigned to the county will affect percentages. Based on location of primary worker. Counties with no cases assigned to them will not appear in the map.

Family Support Services “Prime” Counts

This measure shows the number of children in investigations closed during the quarter who met all “FSS Prime” criteria of: 1) being deemed safe; 2) being high or very high risk, 3) having a FSS module opened within 45 days of investigative closure, and 4) having an attempted or completed face-to-face contact within 45 days of investigative closure.

* Three children found in the 9/13/18 data pull did not appear in the 11/19/18 data pull due to the children being merged with duplicates with birthdates listed as 00/00/0000. Birthdates are used to determine when a person in an investigation is a child. The three children were included in the January 2018 counts for Family Support Services of North Florida due to the fact that it was known from the previous data pull that the children met all FSS criteria.

Safety Indicators

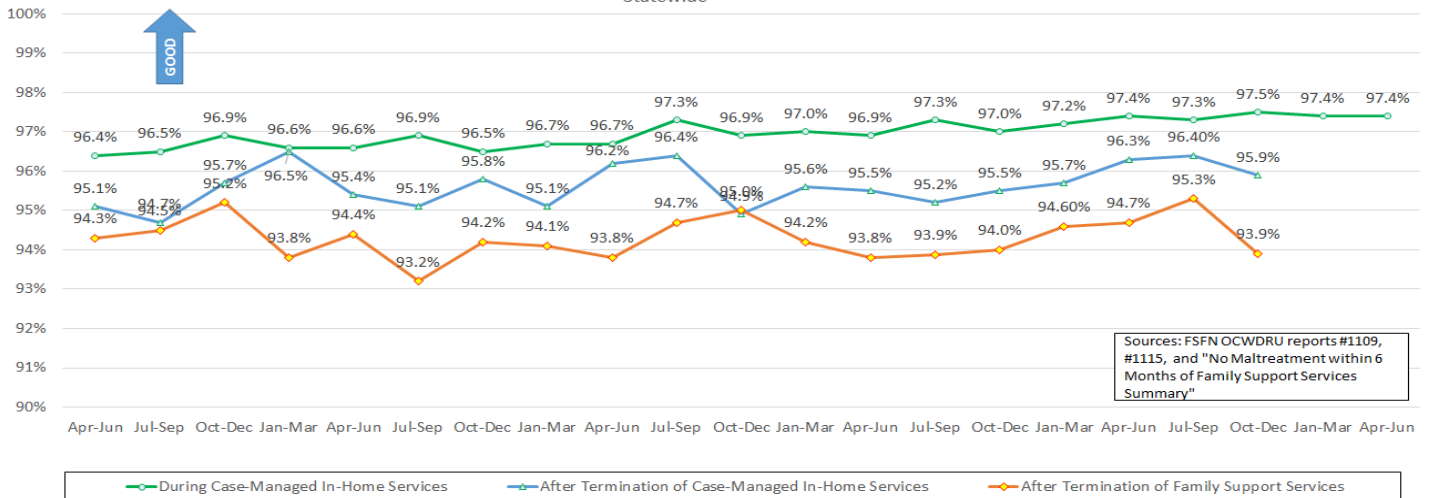

Q

Child Safety Trends: Comparison of Three Indicators

Children continue to be safer while receiving services than after termination of services:

- The percent of children with no verified maltreatment during case-managed in-home services was 97.4%, for July through September 2018. The state continues to exceed the set target for this measure at 95%.
- The percent of children with no verified maltreatment within six months after termination of case-managed services was 95.9% for January through March 2018. The state continues to exceed the set target for this measure at 95%.
- The percent of children with no verified maltreatment within six months of termination of Family Support Services was at 93.9% for those terminating January through March 2018. This measure does not have a set target.

Safety of Children During Case-Managed In-Home Services and Within Six Months of Termination from Family Support Services and Case-Managed In-Home Services Statewide

Sources: FSFN OCWDRU reports #1109, #1115, and "No Maltreatment within 6 Months of Family Support Services Summary"

Child Safety During Case-Managed In-Home Services

Q

Statewide performance for period July through September 2018 was 97.4%, and all lead agencies exceeded the target.

● Child Safety in Out-of-Home Care 17 ★

Q

This measure is generated by taking the total number of reports with at least one verified maltreatment and dividing it by the total number of days in foster care for all children, with the result multiplied by 100,000 to calculate the rate of victimization per 100,000 days in foster care. The data for this quarter continues to show wide variation among the CBCs, with statewide performance meeting the national standard of 8.50 or less. The most recent national data which has been stratified to the state level for this measure is from 2013. Florida would rank 36th among states if comparing current performance to the available 2013 data. Wyoming led all states in 2013 at 1.16.

Note: The data in this table has been updated to match the algorithm used in the Federal Child Welfare Indicators and CBC Scorecard Dashboards for this measure. Each quarter of data reflects a rolling twelve (12) month period ending two (2) months prior to the end of the state fiscal quarter.

Permanency Indicators

Q

Statewide Trend: Permanency Within 12 Months of Removal 11 ★

Permanency within 12 Months of Removal is our primary indicator of timely permanency. Statewide performance is at 39.6%, which is below the 40.5% national standard. The most recent national data which has been stratified to the state level for this measure is from 2012. Florida would rank 28th among states if comparing current performance to the available 2012 data. Arkansas led all states in 2012 at 63.8%.

Stratification by CBC Lead Agency

Q

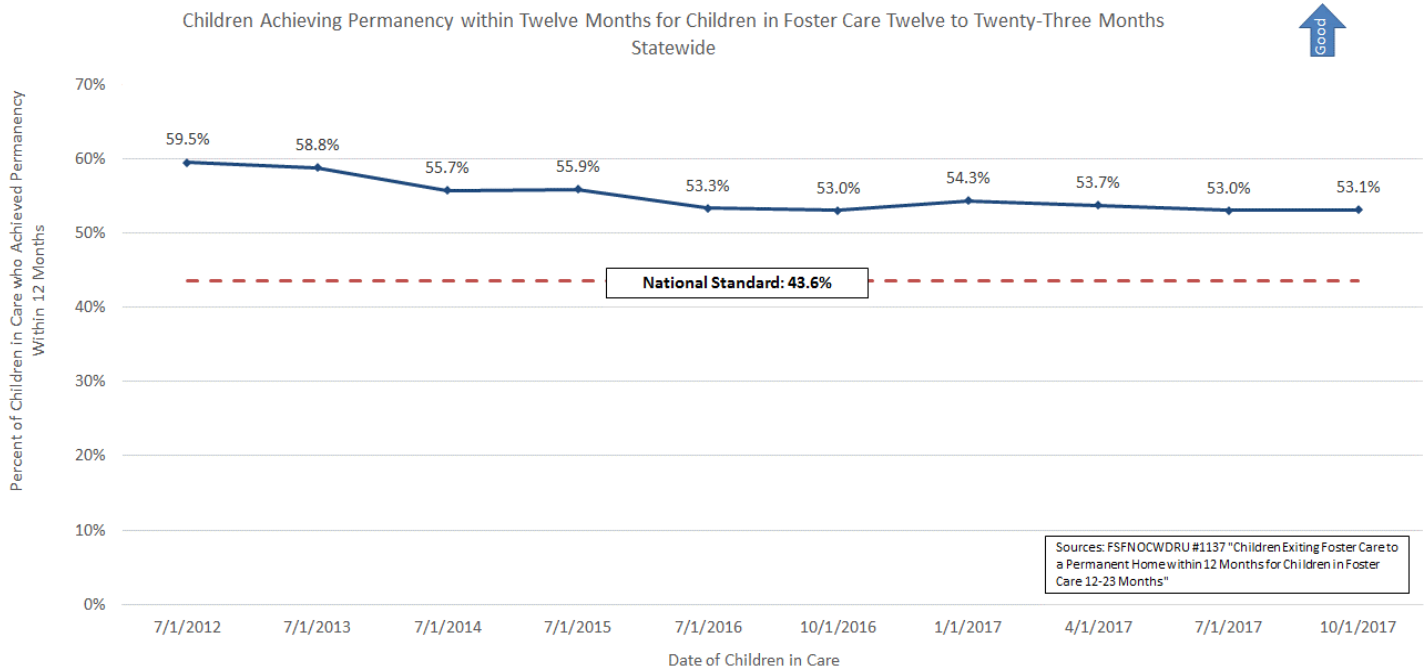

Eight of the lead agencies exceed the national standard of 40.5%.

Timeliness of Judicial Handling

M

These Children’s Legal Services indicators are directly related to the indicators of timely permanency.

● Reunification Goal After 15 Months and No Termination of Parental Rights Activity

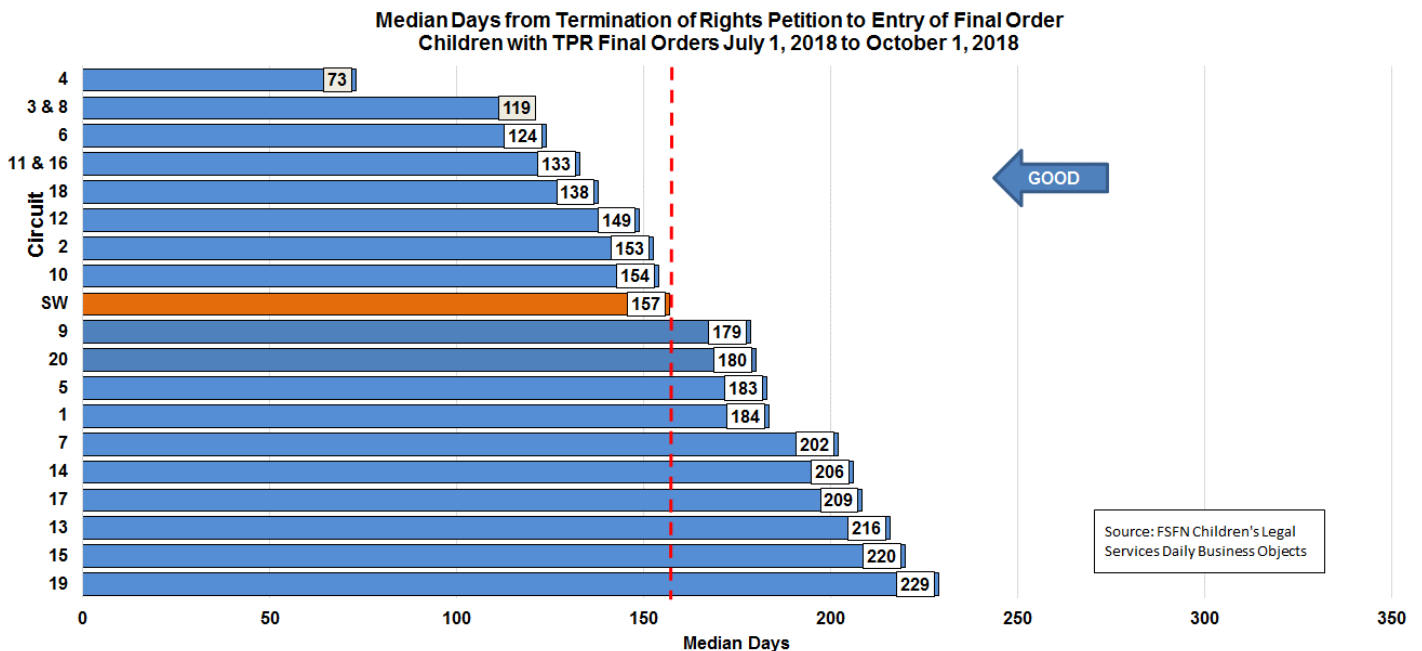

The statewide average for SFY 2018-19 is currently 6.87% as of September 30, 2018. Circuit goals are set for each period after review of baseline information. There are currently data issues with FSFN that prevent this measure from being updated.

M

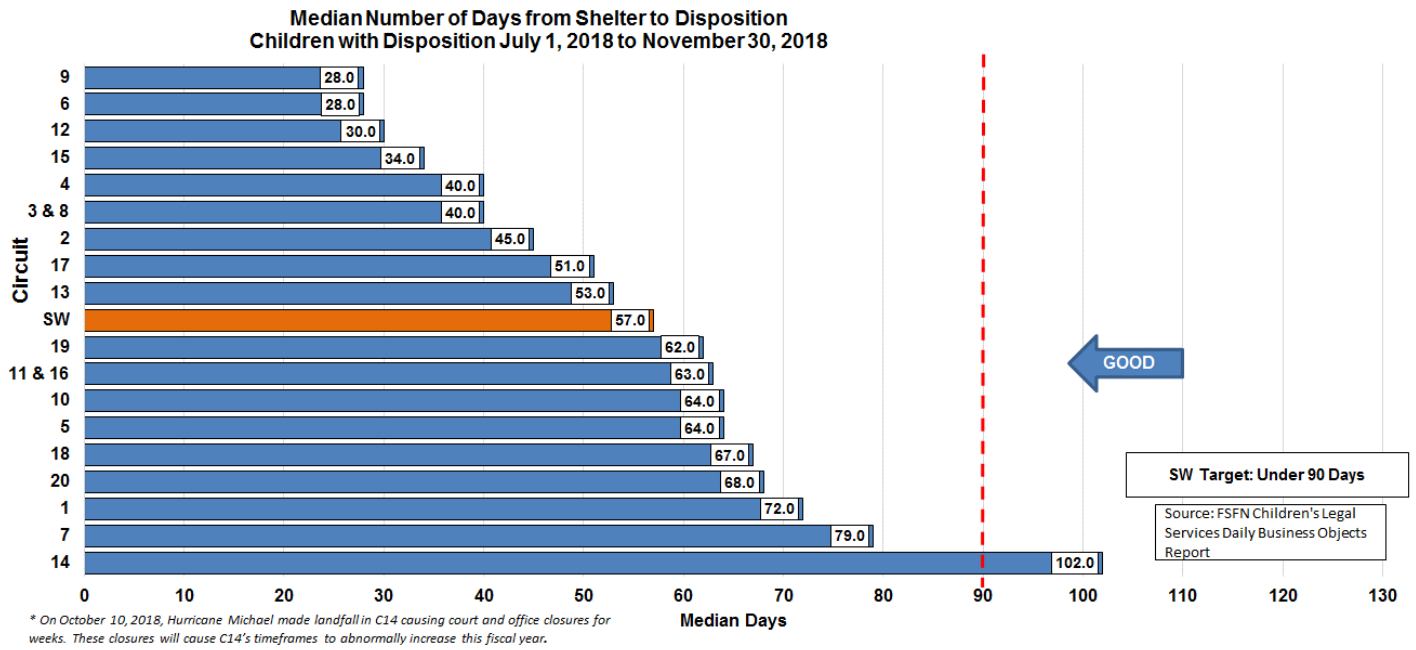

Timeliness of Termination of Parental Rights, from Petition to Order

The statewide average for SFY 2018-19 is currently 157 days as of September 30, 2018. Circuit goals are set for each period after review of baseline information. There are currently data issues with FSFN that prevent this measure from being updated.

● Time from Removal Date to Disposition Order

The statewide average of 57 days is well below the established target of 90 days and only Circuit 14 is currently above the 90-day target.

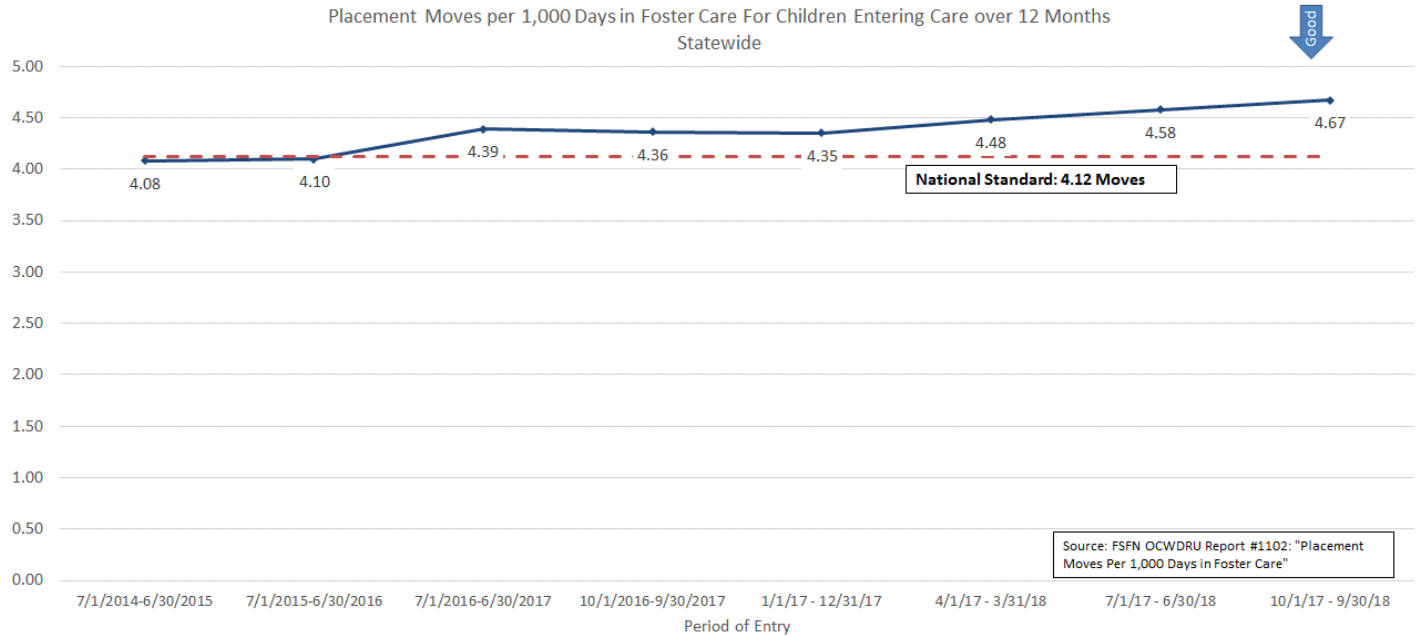

Maintaining Connections in Placement

Q

Statewide Trend: Placement Stability 17 ★

Statewide performance, currently at 4.67 moves per 1,000 days in foster care, does not meet the national standard of 4.12 moves. The most recent national data which has been stratified to the state level for this measure is from 2013/2014. Florida would rank 31st among states if comparing current performance to the available 2013/2014 data. Rhode Island led all states in 2013 at 2.60.

Stratification by CBC Lead Agency

Q

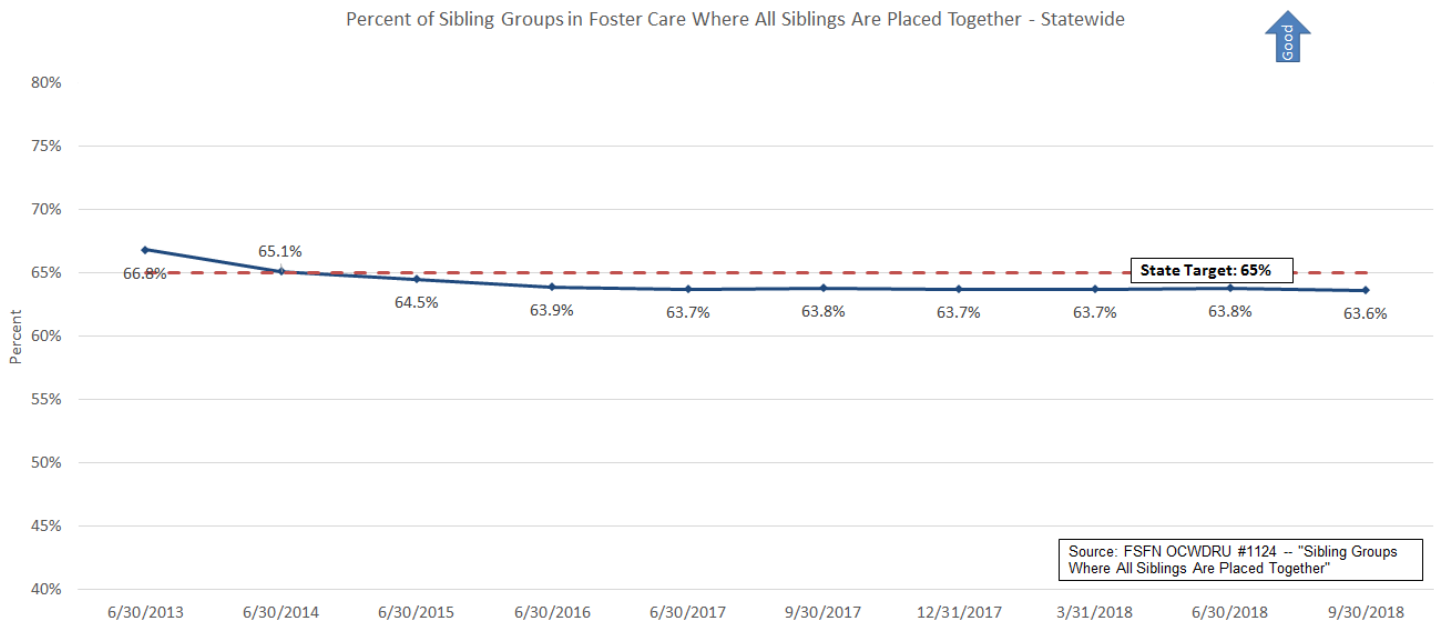

Statewide performance, currently at 4.67 moves per 1,000 days in foster care, does not meet the national standard of 4.12 moves. There is wide variation among the lead agencies, with nine meeting the standard.

Prescribed Psychotropic Medications

M

Children in Out-of-Home Care with Prescribed Psychotropic Medications

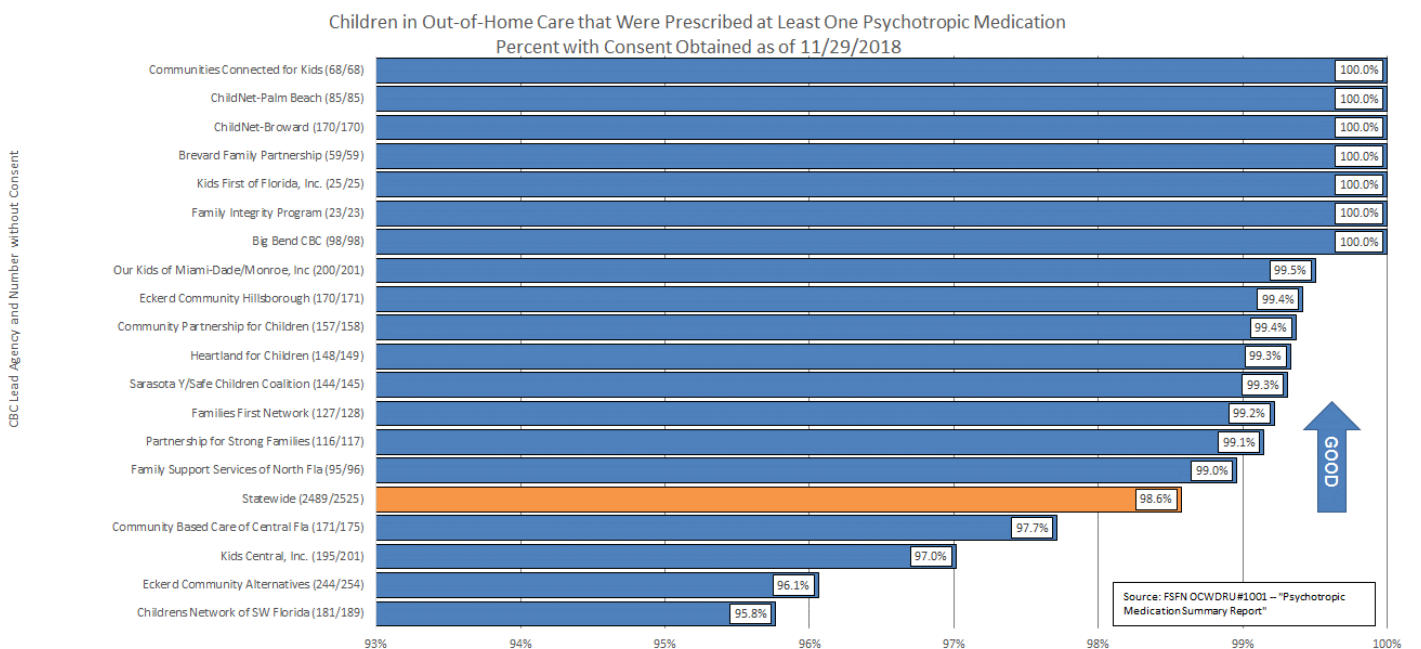

The statewide percentage of children in out-of-home care with at least one prescribed psychotropic medication on November 29, 2018 was 10.2%. This is down from 11% in November 2016.

Children with Consent for Prescribed Psychotropic Medications

M

In order to administer psychotropic medication to a foster child, parental consent or a court order must be obtained, unless the child is receiving inpatient services or a physician certifies that delay would be likely to harm the child. On November 29, 2018, the statewide percentage of children with at least one prescribed psychotropic medication where consent was obtained was 98.6% and seven CBCs were at 100%. This is consistent with past observations for this measure.

Dental Services

Q

● Children Receiving Dental Services in Last Seven Months

The statewide percent of children receiving recent dental services increased to 92.8% as of September 30, 2018, but is still below the statewide standard.

Education Program Enrollment

Q

● Young Adults Aging Out Enrolled in Education Programs

This is one indicator of preparation for adulthood, but does not control for any of the many variables that influence this preparation, including time in care and the child's educational level when entering care. Statewide performance in this measure has been relatively stable and above the statewide target for the past 3 years.

Dually Served Youth

M

Statewide Trend: Youths Served by CBC Lead Agencies and Juvenile Justice

The number of youths served by both the child welfare system and the juvenile justice system in November 2018 was 1,003. This measure does not have a specified target.

Source: Ingaging Lite Filing, Match File from FSFN/JJS

Stratification by CBC Lead Agency

M

The number of youths served by both systems (DCF and DJJ) is variable among the lead agencies, but is related to the total number of youths served by each lead agency.

Missing Child

M

Average Number of Children Categorized as Missing from Care and Supervision

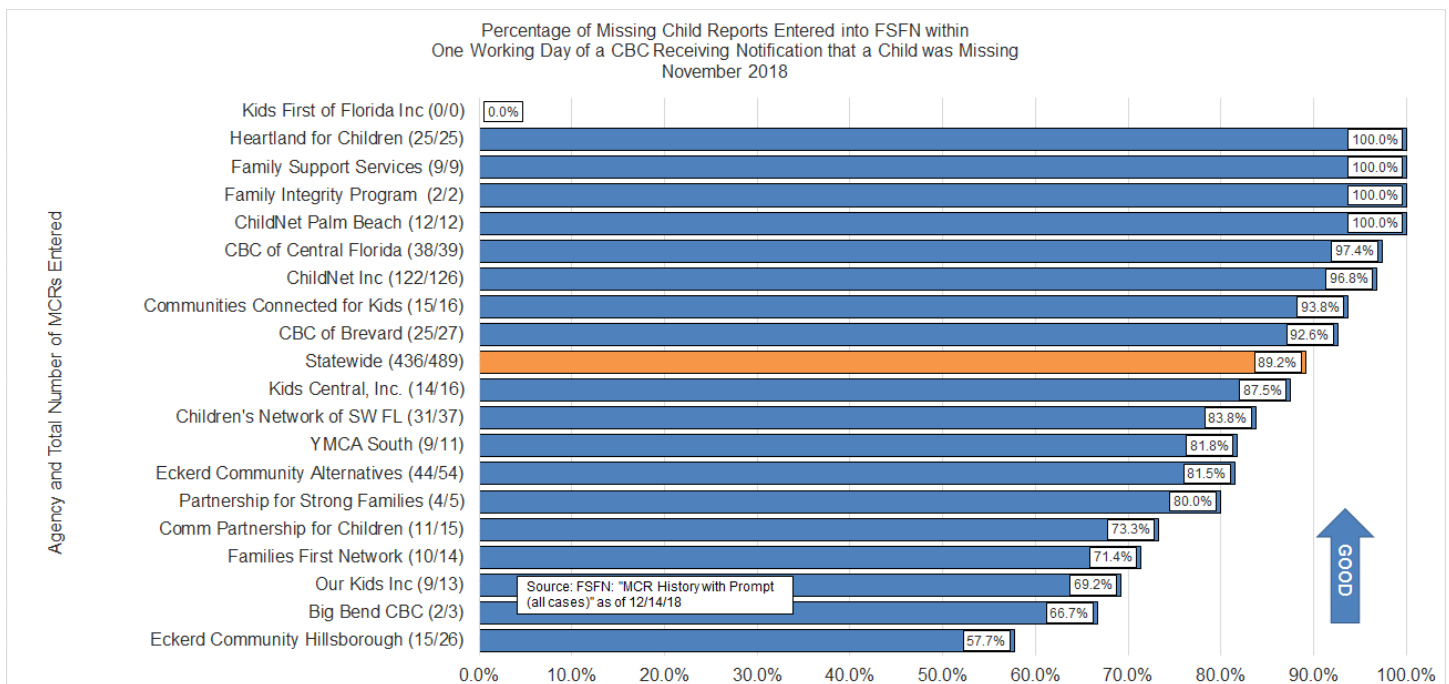

There was a rebound in the average number and percentage of children categorized as missing from the care and supervision of the state in November. While the average of 190.6 for November 2018 was down 22% from the November 2017 average of 244.6, with a similar number of children in out-of-home and in-home care, the decline does not appear to be inconsistent with general missing children trends. FDLE reported a 16% decline in the number of non-DCF children reported as missing to FDLE between 2017 and 2018.

Child Reports Entered into FSFN within One Working Day

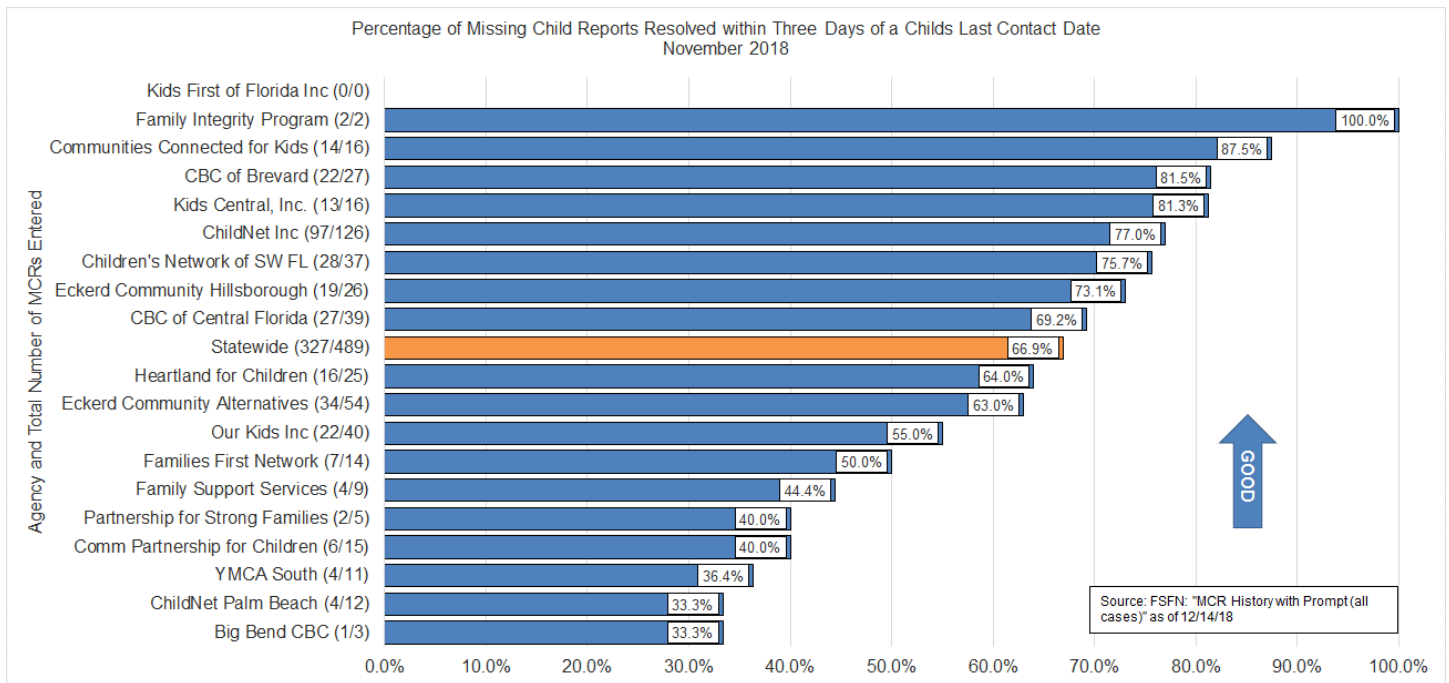

Statewide performance for November 2018 increased slightly to 89.2%. Overall performance for this measure has improved since March 2018 when the statewide percentage was 77.8%. Note the low performance of Eckerd Community Hillsborough, Big Bend CBC and Our Kids Inc. Also note the low number of entries, down from 694 in 2017 to 489 in November 2018. The bulk of the decline appears to be concentrated in the Hillsborough and Miami-Dade areas

M

Resolution of reports within 3 days

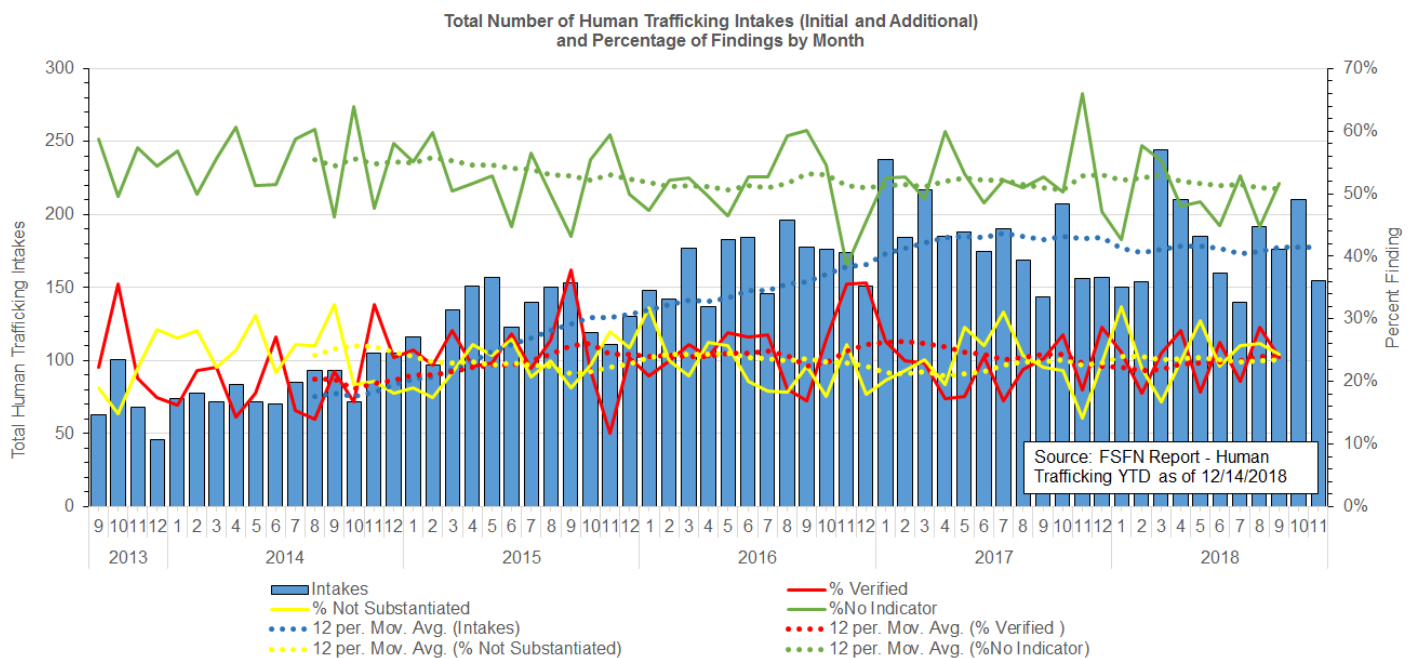

The majority of children, 66.9% in November 2018, that are classified as missing from the care and supervision of the Department are located in less than three days. However, this is down from 73.0% in October 2018.

Human Trafficking

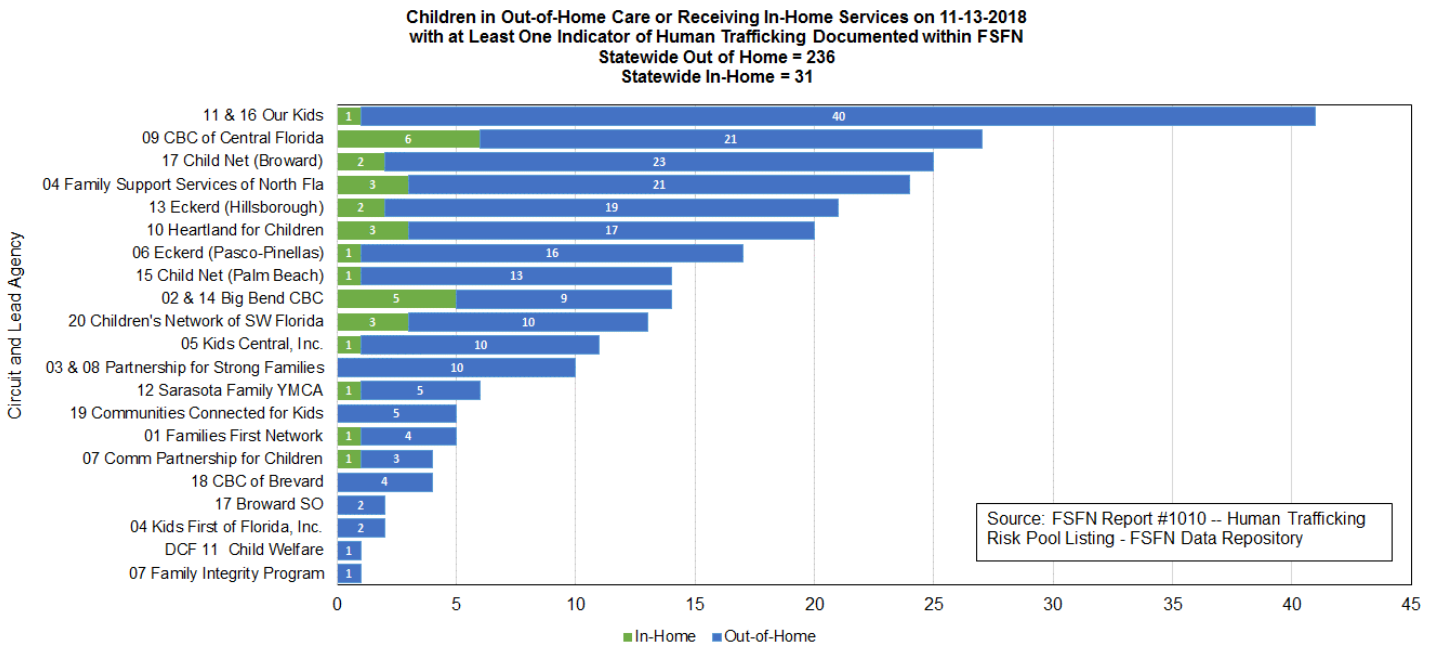

Human Trafficking Intakes Trend

The number of Human Trafficking Reports (Initial and Additional) accepted by the Hotline appears to have entered into a seasonal cycle while the percentage of human trafficking allegations that are closed as verified, not substantiated or no indicators has also stabilized.

Children with Indication of Human Trafficking by CBC Lead Agency

The number of children in out-of-home care or receiving in-home services with at least one FSNF indicator of being a victim of Human Trafficking remains concentrated within Florida’s urban centers, primarily in the Gold Coast and Tampa Bay areas.

Florida CQI and CFSR

The following table provides statewide and lead agency outcome ratings from FL CQI and CFSR data around Safety, Permanency, and Well-being.

Child Care and Domestic Violence

Child Care Regulation

● Child Care Inspections per Month

M

For August 2018, 100% of home inspections of facility inspections were completed within 45 days.

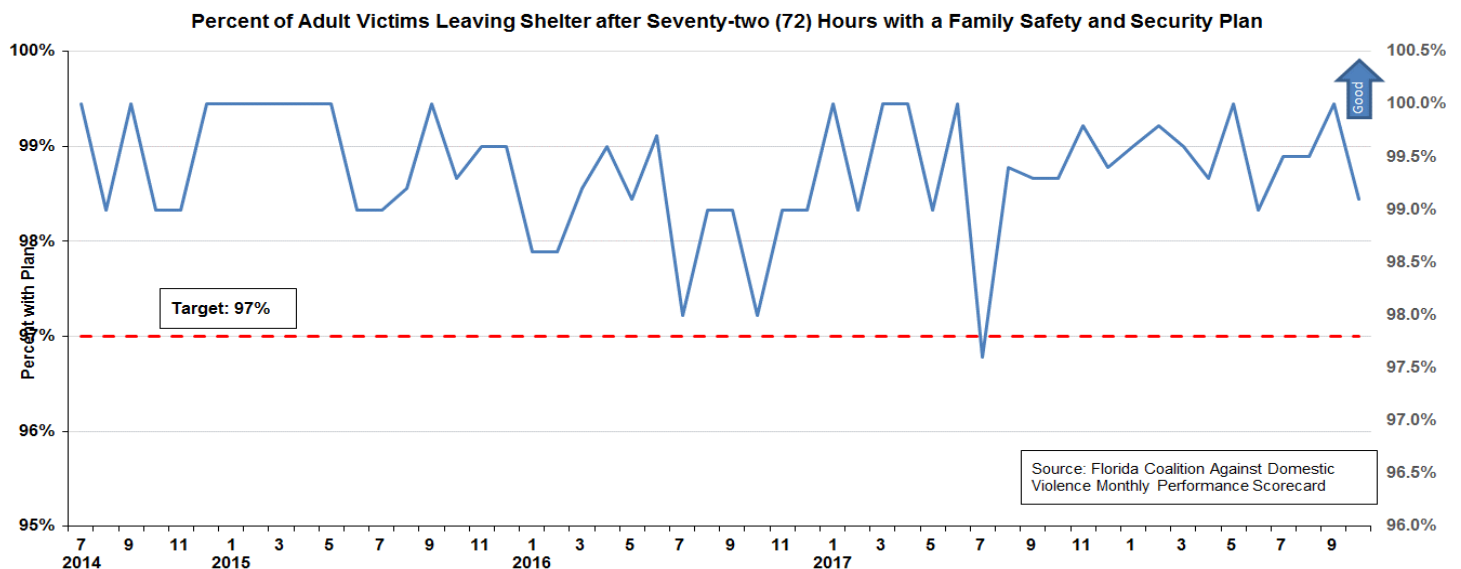

Domestic Violence

● Percent Victims Leaving a Shelter with a Family Safety and Security Plan

M

The percent of adult victims leaving a shelter after 72 hours with a Family Safety and Security Plan in August 2018 was 99.5%, continuing to exceed the target of 97%.

Eligibility	Hans Soder	Asst. Sec. of Operations / RMD	Percentage of Children in Licensed Substitutes Care that were Title IV-E Eligible or in a Non-Reimbursable Placement	31	OCWDRU Report #1191 Eligibility Summary Report for Children in Care	All children in Foster Care or receiving In-Home Services as of the report date categorized into out-of-home care/no adoption goal, out-of-home care/adoption goal, out-of-home relative/nonrelative placement and in-home services. Eligibility is determined by the FSFN eligibility data as of the report date. The absence of eligibility data is categorized as "No Applicable Eligibility" throughout the report. Percentages are determined by summing and dividing all eligible children and all non-reimbursable children as of the report date by all children categorized as being within licensed substitute care per the FSFN report date.
Eligibility	Hans Soder	Asst. Sec. of Operations / RMD	Percentage of Children with a Goal of Adoption that Title IV-E or TANF Eligible and Count of Children with a Goal of Adoption that Awaiting Finalization or have No Applicable Eligibility	31	OCWDRU Report #1191 Eligibility Summary Report for Children in Care	Report structure is same as above. Title IV-E percentages are determined by dividing all eligible children with a goal of adoption minus all TANF children from the numerator and denominator. Ineligible Title IV-E and TANF children and awaiting CIC and no eligibility determination are added to the numerator and denominator of the Title IV-E measure. TANF percentages are determined by dividing all eligible children with a goal of adoption minus all Title IV-E children. Ineligible Title IV-E and TANF children and awaiting CIC and no eligibility determination are added to the numerator and denominator of the Title TANF measure.
CBC Lead Agencies	Robin Preston	Asst. Sec. of Operations / RMD	Total Children Protected: In Home and OOHC	32	Child Welfare Services Trend Report	Line graph of the number of children in OHC and In-Home Care as of the last day of the month

CBC Lead Agencies	Robin Preston	Asst. Sec. of Operations / RMD	Permanency within 12 Mos of Removal by Cal. Quarter -- Line Graph	39	OCWDRU Report #1118	Line graph of the percent of children achieving permanency within 12 months for children removed during that quarter
CBC Lead Agencies	Robin Preston	Asst. Sec. of Operations / RMD	Permanency within 12 Mos of Removal by Cal. Quarter – Data Table	39	OCWDRU Report #1118	Select all children with a new removal episode during the report period where the removal episode was at least eight (8) days in duration. Exclude any removal episode ending with a discharge reason of "Dismissed by Court." Exclude any removal episode where the child was eighteen (18) years of age before the beginning of the report period. If a child has multiple removal episodes that meet the above criteria, select only the first such removal episode in the report period. A child is flagged as "Yes" in the Numerator column if the child achieved permanency such that their permanency date is less than twelve (12) months from the removal date of the removal episode. Children are assigned to the Lead Agency based on the primary case worker as of the earlier of the discharge date of the removal episode or twelve (12) months after the removal date. Only children with a worker whose agency type is "CBC Lead Agency" are included in this listing. <i>Same criteria for 12-23 and 24+ month children</i>
CBC Lead Agencies	Robin Preston	Asst. CBC Lead Agencies	Robin Preston	Asst. Sec. of Operations / RMD	Dually Served Youth	53	Imaging Lite Filing, Match File from FSFN/JJIS	Number of youth served by both DCF and DJJ
CBC Lead Agencies	Hans Soder	Director of the Hotline	Average and % of Children Categorized as Missing	54	FSFN Missing Child Data	Average missing is the average number of children appearing categorized as missing with each of the missing child listings for the month. For example, 28 individual missing child list for February are summed and then divided by 28 to generate the average daily missing child count. This total is then divided by the total number of children in out-of-home and in-home as determined by subtracting young adults from the Children Active by Primary Worker for the 15th day of the month.
CBC Lead Agencies	Hans Soder	Director of the Hotline	Missing Child Reports Entered into FSFN within One Working Day	54	FSFN Missing Child Data	All missing child episodes entered into FSFN as determined by Missing Child Entry Date in FSFN (time stamp) subtracted from Date FSFN CBC/CPI Notified of Missing Child (free text) with total resulting in number of days from notification to entry. Entries are reviewed to determine if entry was in one working day and then all missing child episodes that were entered into FSFN within one working day are divided by all missing child entries for the month.
CBC Lead Agencies	Hans Soder	Director of the Hotline	% Missing Child Reports Resolved within 3 Days	55	FSFN Missing Child Data	Subtract child's recovery date (FSFN free text) from child's missing from date (FSFN free text) to calculate a missing from care duration. Divide all episodes entered within the month that were resolved within three days or less from the total number of missing child reports entered within the month.
