Graph and Table Symbols

Performance Glance

Performance indicators have been added to the titles and table of contents to assist the reader in quickly determining current performance in specific areas.

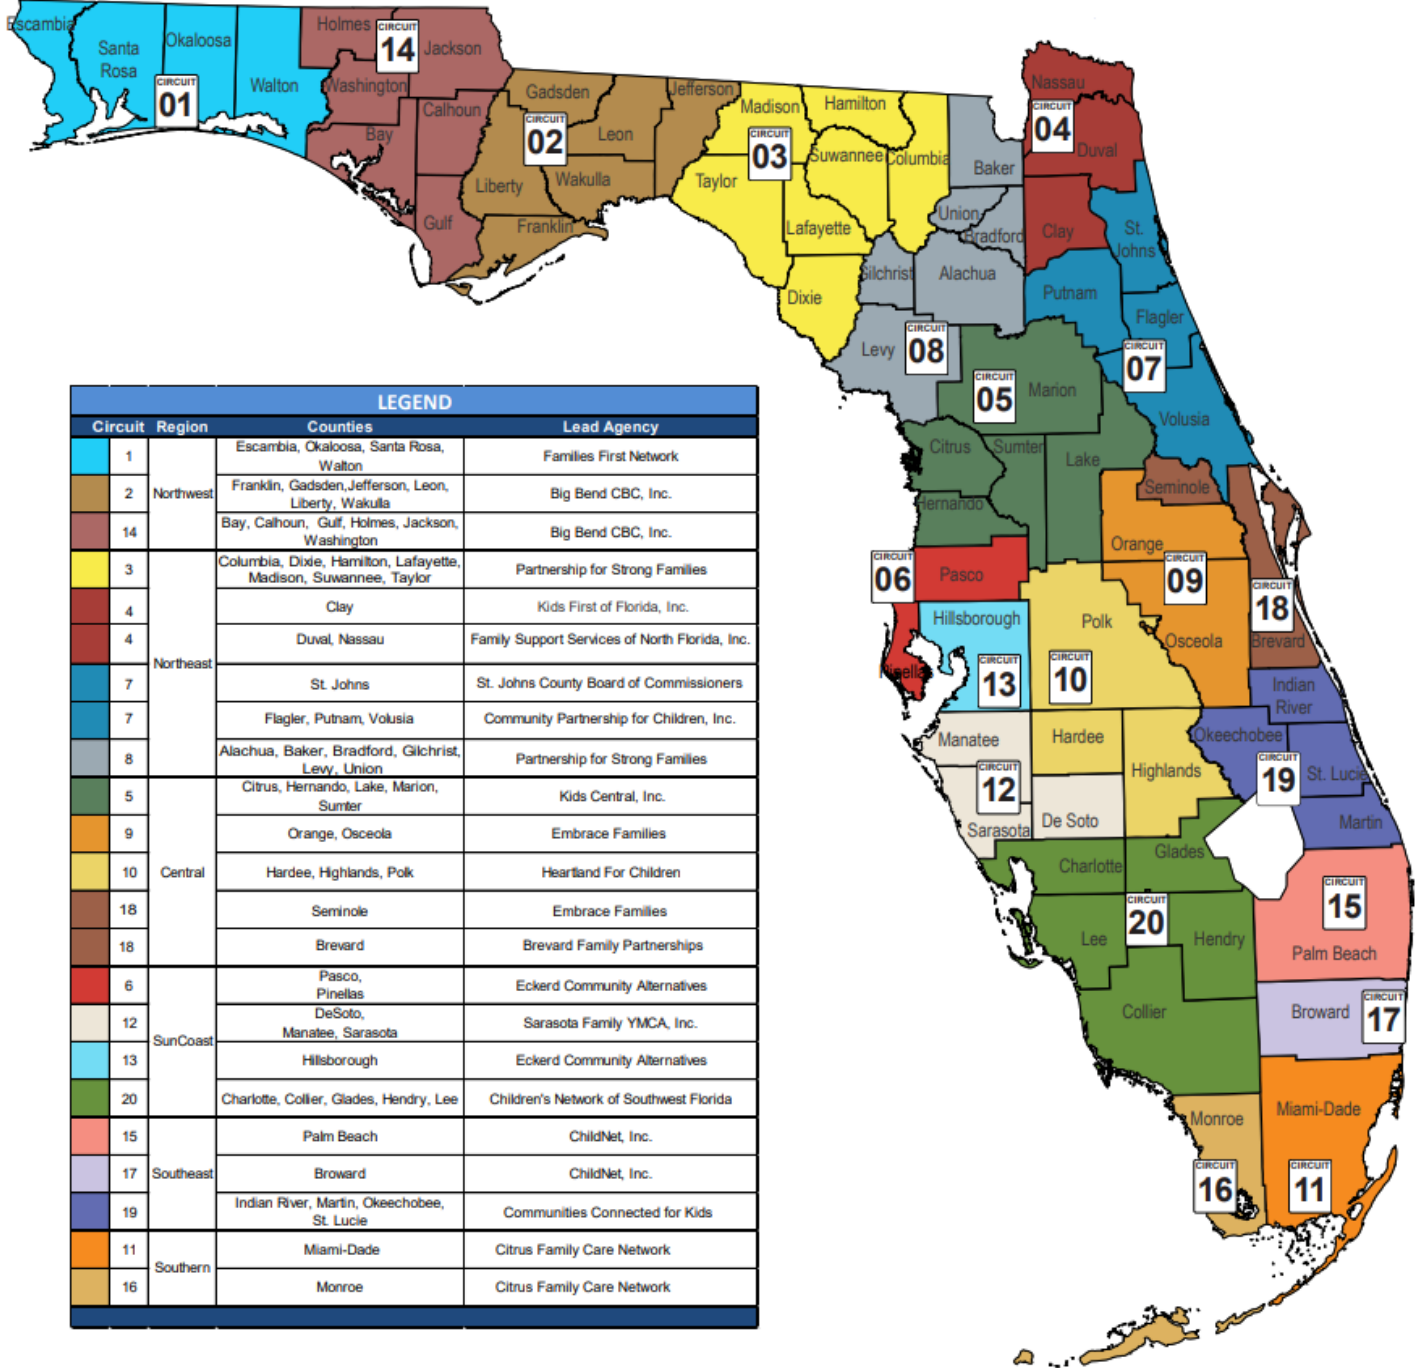

- Green dots before the titles indicate that either statewide/national targets are being met or for those measures where a target is not applicable, the previous 3-month trend is either stable or moving in the right direction.
- Red dots before the titles indicate that either statewide/national targets are not being met or for those measures where a target is not applicable, the previous 3-month trend is moving in the wrong direction.

DCF Service Structure

Regions, Circuits, Counties, and CBC Lead Agencies

System Overview

Florida's community-based child welfare system is comprised of a partnership between the Department of Children and Families (DCF), other state agencies, the courts, law enforcement agencies, service providers, and local communities.

There are over four million children in Florida of which most fortunately do not come to the attention of the system. For those children who do enter the system, entry begins with reports of allegations of abuse or neglect made to the Florida Abuse Hotline, operated by DCF. The Florida Abuse Hotline receives more than 350,000 child-related calls annually. Calls received are screened to determine if the criteria are met to initiate a protective investigation.

If criteria are met, the report is referred to a local Child Protective Investigations (CPI). Statewide there are over 240,000 protective investigations conducted annually. These investigations are conducted by DCF in 60 counties. In the remaining 7 counties, including Broward, Hillsborough, Manatee, Pasco, Pinellas, Seminole, and Walton, county sheriff's offices perform the investigations. Investigators determine the need for post-investigation services, including protecting the child through removal and placement in out-of-home care or through case-managed, in-home services (by court order or non-judicially), or through informal voluntary family support services. For SFY 2018-2019, over 37,000 children were served in out-of-home care.

Florida statute requires that post-investigation services be provided through contracting with community-based care lead agencies (CBCs). There are 17 Community-Based Care (CBC) lead agencies that each provide coverage to specific geographic areas within the 20 Judicial Circuits in Florida. Several lead agencies cover more than one geographic area and areas may include one or multiple counties. In two instances, the CBC lead agency serves two geographic areas under separate contracts, lending to 19 lead agencies displayed within the CBC tables of this report. Although services vary among CBC lead agencies, they have a shared role in participating and ensuring safety, permanency, and well-being for all children in the state.

The monthly Child Welfare Key Indicators Report presents data for the Florida Abuse Hotline, Child Protective Investigations, CBC lead agencies, as well as other key metrics describing the state of the Florida Child Welfare System.

Eight Quarter Statewide Trend:												

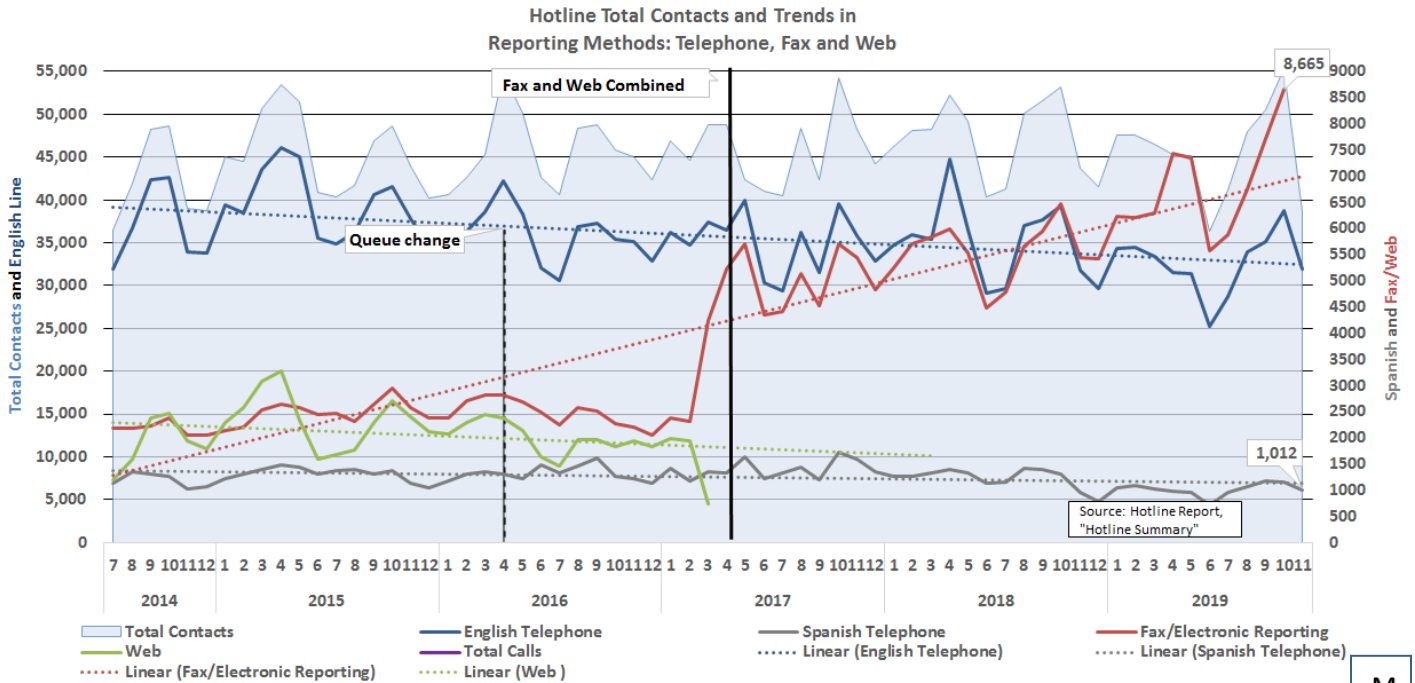

Some of the above CBC scorecard measures are calculated based on quarterly performance for trending purposes. The performance in this chart may not align with performance displayed on the CBC Scorecard dashboard for all measures due to the dashboard utilizing a 12-month rolling average on several measures.

Workload Trends

Reporting Method Trends

The Florida Abuse Hotline offers a variety of methods for citizens to report concerns about children and vulnerable adults. A modification was made within the system, resulting in the tracking of webs and faxes together. Webs were previously represented by the green line within the graph below, however beginning in March 2017, webs were combined with faxes, now represented by the red line.

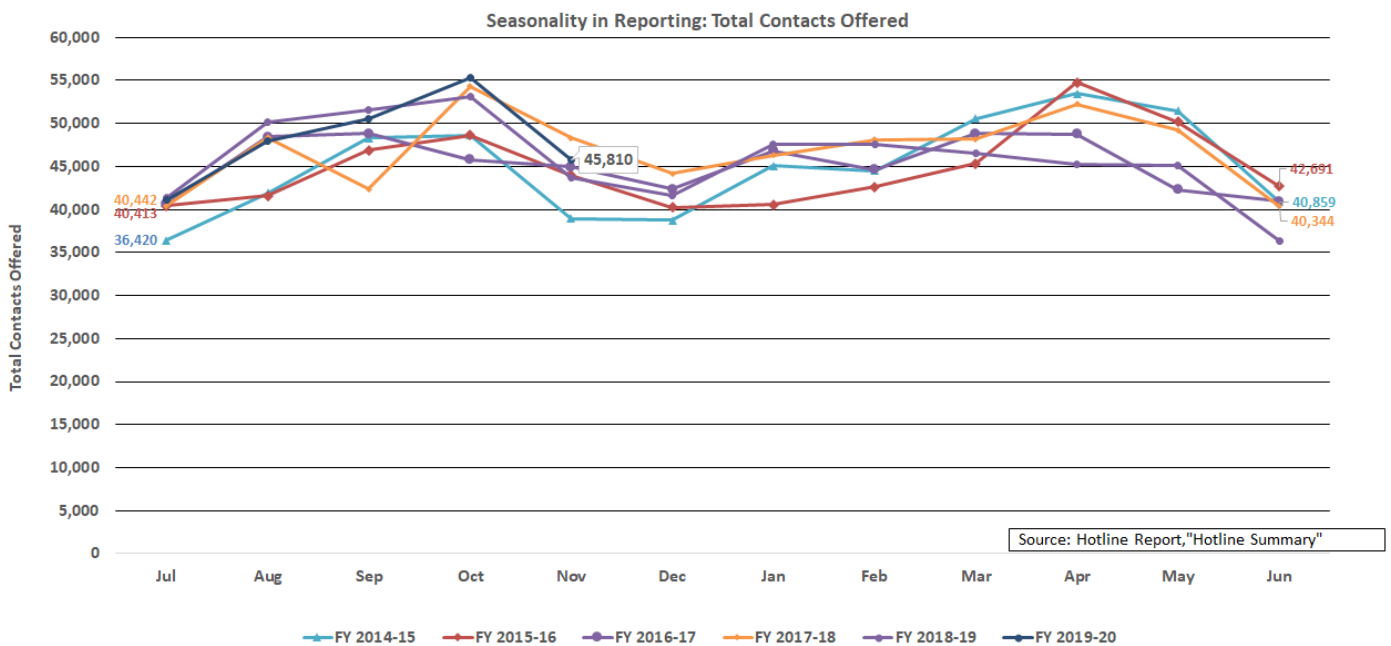

M

M

Seasonality of Hotline Workload

There were 45,810 total contacts offered for the month of November. "Contacts Offered" include those abandoned by a caller who called back, so both attempts and completed calls from the same individual may be counted.

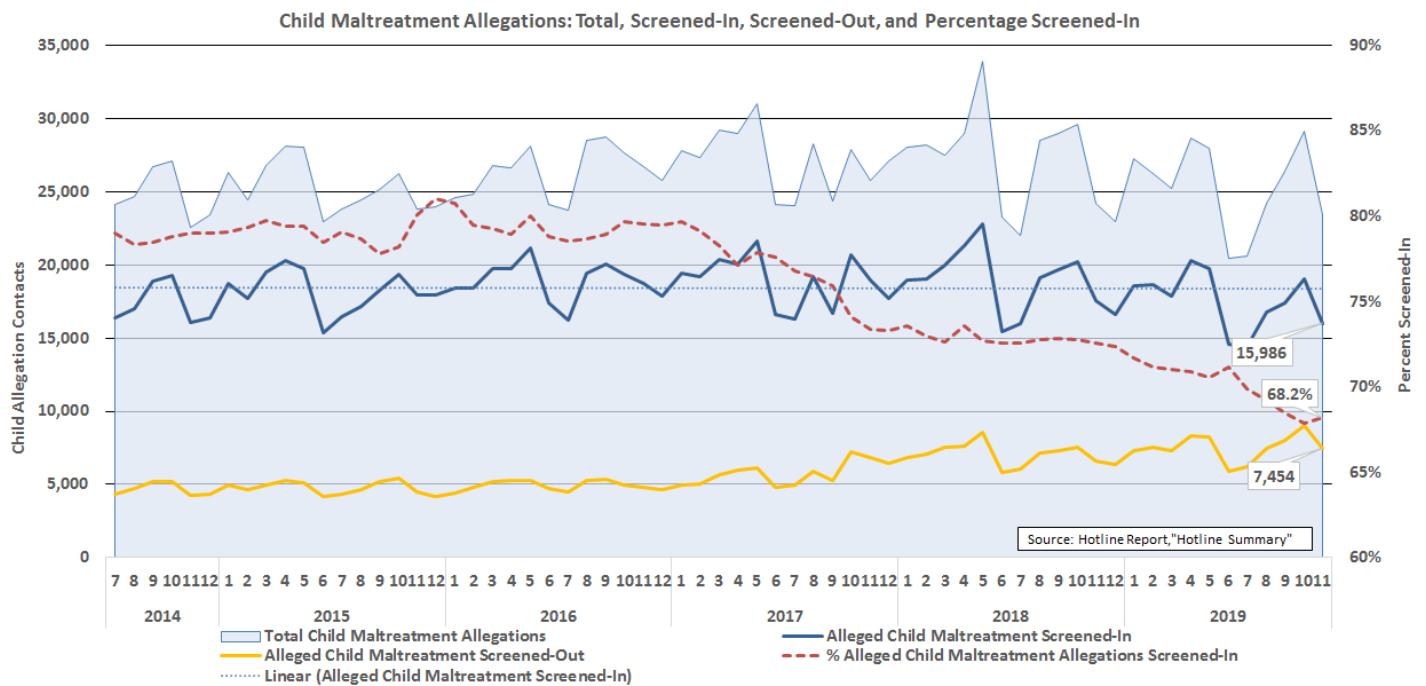

Screening Trends

M

Alleged Maltreatment Screening

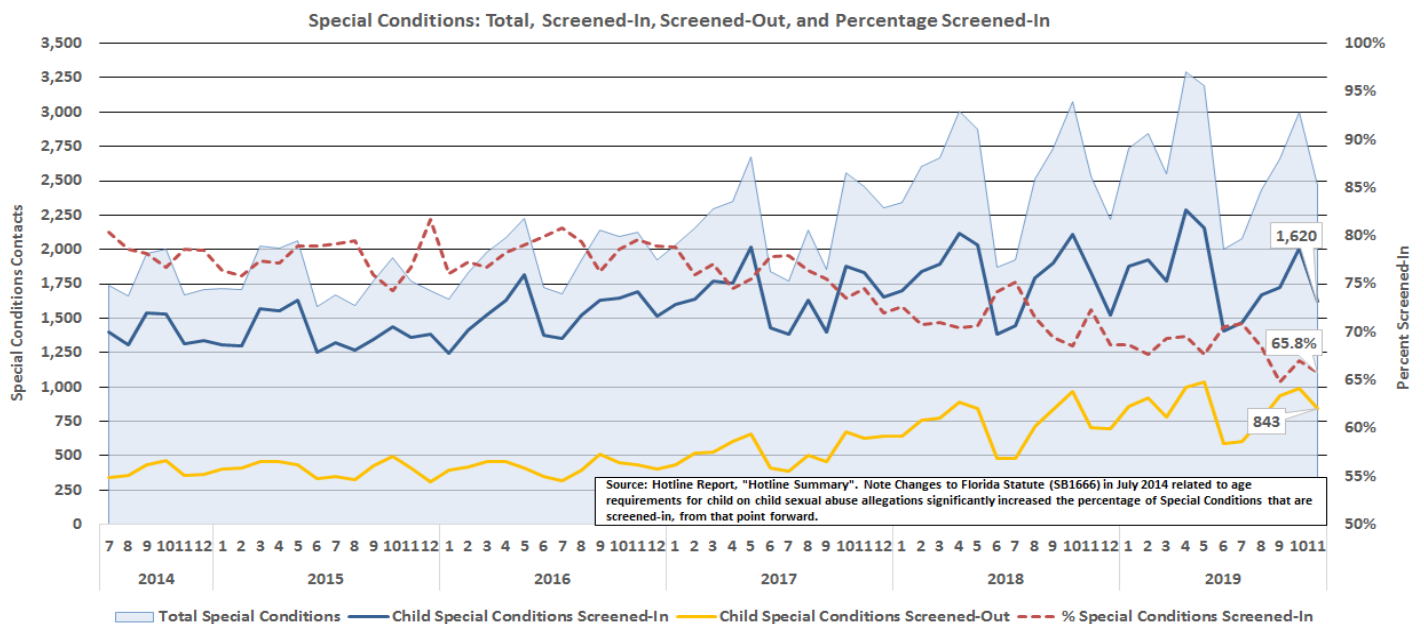

Total child maltreatment allegations for November 2019 was 15,986. In November 2019, 68.2% of child maltreatment allegations reported were screened-in.

M

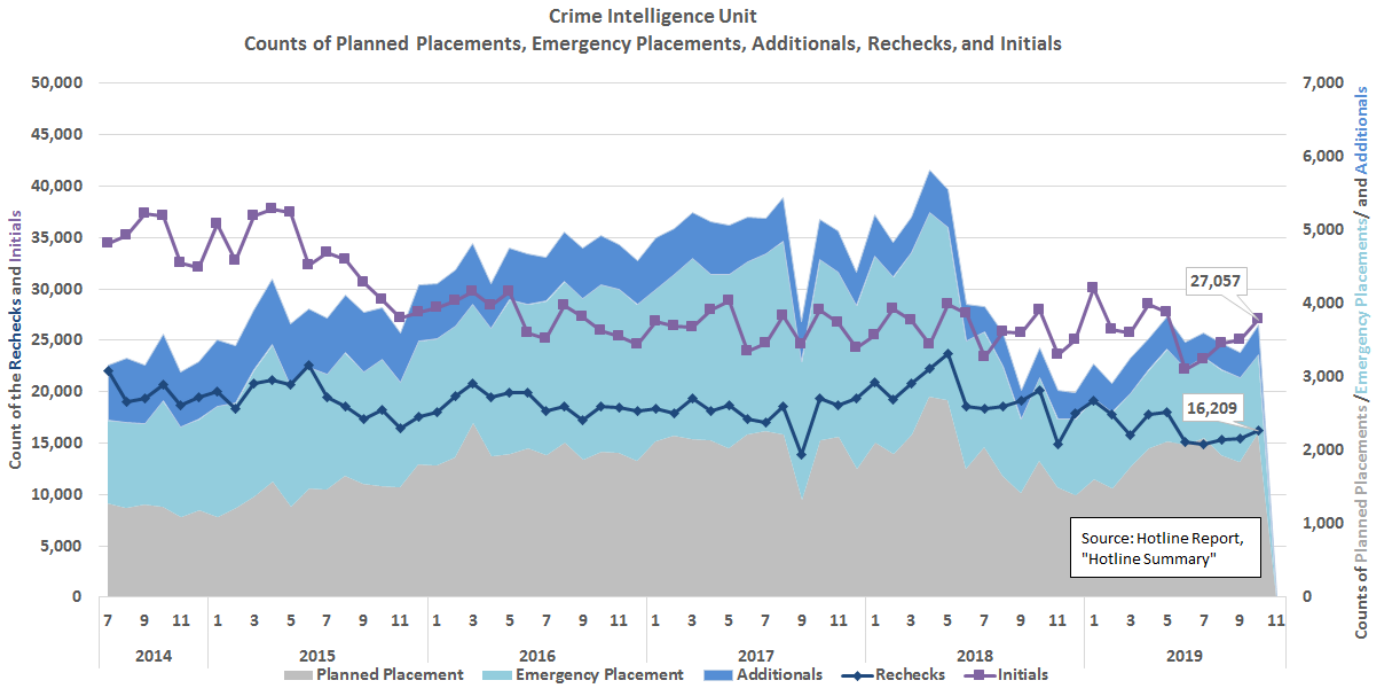

Special Conditions Screening

There were 1,620 screened-in special conditions for November 2019. The screen-in percentage for special conditions is at 65.8%. Special Conditions screen-in percentage continues to decrease and is has been below 70% for the last (2) two months. However, the number of accepted intakes continues to fluctuate according to the seasonal patterns.

Crime Intelligence Unit

The chart below contains Crime Intelligence Unit counts for planned placements, emergency placements, additional, rechecks, and initials. The CIU average time to completion on all background check types are within compliance of DCF standards.

Timeliness Trends

● Average and Maximum Times to Answer or Abandon

The average wait time before answer is eight (8) minutes and 19 seconds. 70 % of calls were answered in 10 minutes or less, which is below the 98% target.

● Percent of Calls Abandoned

The percent of calls to the Florida Abuse Hotline English Line that are abandoned before answer decreased to 19.4% for November 2019, and the percent of Spanish Line abandoned calls slightly decreased to 23.9%.

● Average Handling Time Trend Stratification

The Average Handling Time (AHT) for November is 31 mins 22 secs which is below the 34-37 min AHT Hotline target. Automated Calls Distribution (ACD) remains under 13 mins and After-Call Work (ACW) remains around 20 mins.

Recurrence of Hotline Reporting Trends

The following four measures look at all initial calls (no additional or supplemental) to the Hotline within a month and places them into a monthly cohort based on whether the first call received in the month was screened-in or screened-out. Subsequent initial calls to the Hotline within the following 12 months are captured as recurrence. These monthly screen-in and screen-out cohorts are tracked for recurrence of reporting by child (meaning the child appears again in a Hotline report within the following 12 months) and by perpetrator (meaning the perpetrator on the initial report appears as a perpetrator in another initial report within the following 12 months). The percentage of recurrence of reporting for these four groups are displayed at 3, 6, 9, and 12-month intervals.

Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Ins by Child

M

30.62% of children with an initial screen-in decision in November 2018 experienced recurrence of reporting over the following 12 months.

Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Outs by Child

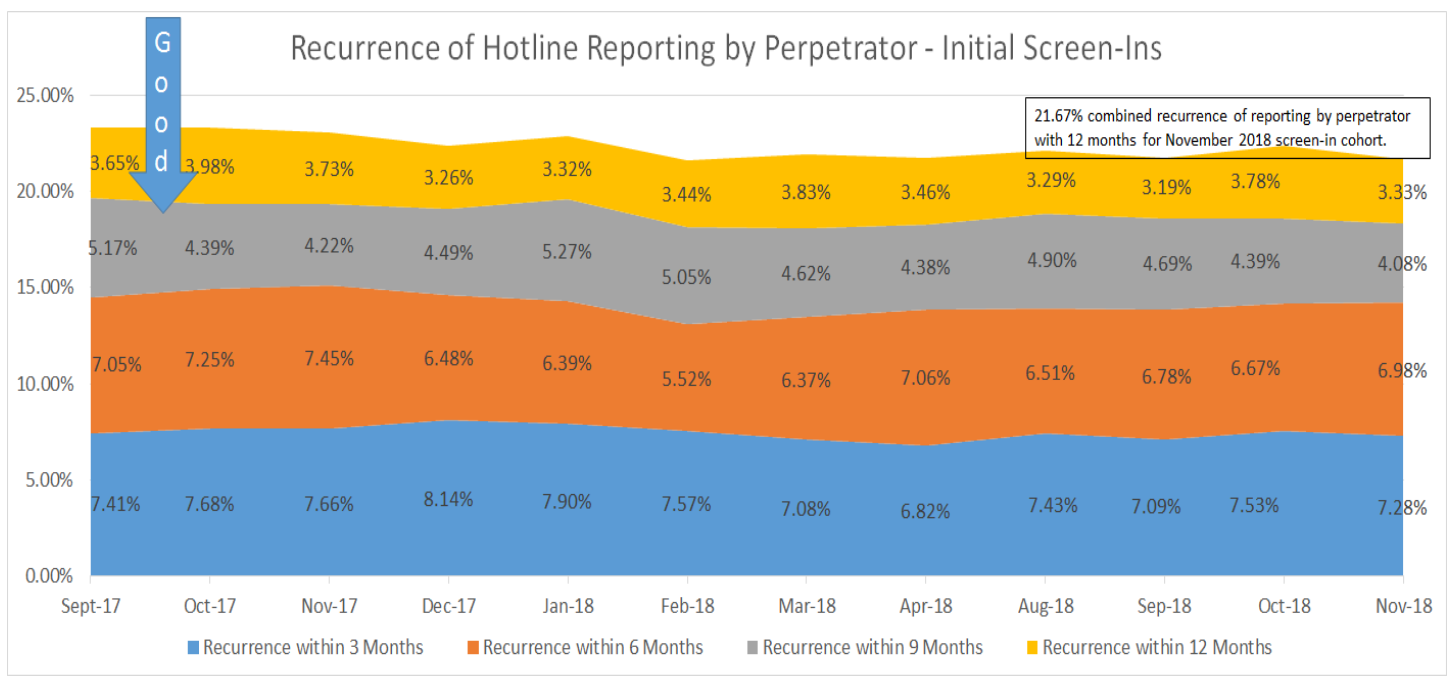

M

23.60% of children with an initial screen-out decision in November 2018 experienced recurrence of reporting over the following 12 months.

Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Ins by Perpetrator

21.67% of alleged perpetrators involved in an initial screen-in decision in November 2018 experienced recurrence of reporting over the following 12 months.

Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Outs by Perpetrator

15.15% of alleged perpetrators involved in an initial screen-out decision in November 2018 experienced recurrence of reporting over the following 12 months.

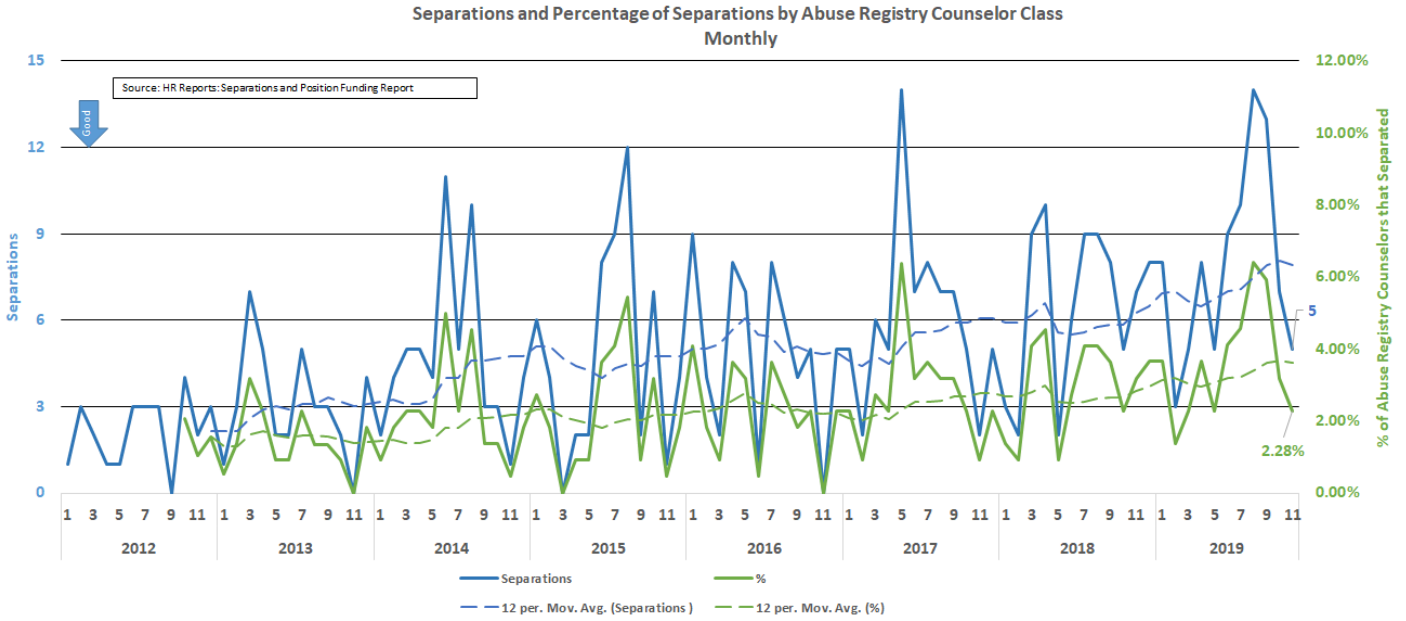

Hotline Counselor Workforce

M

Monthly Separations for Abuse Counselors

Monthly Abuse Registry Counselor separations were down for a third consecutive month and appear to have returned to more normal levels after having spiked between June and September of 2019.

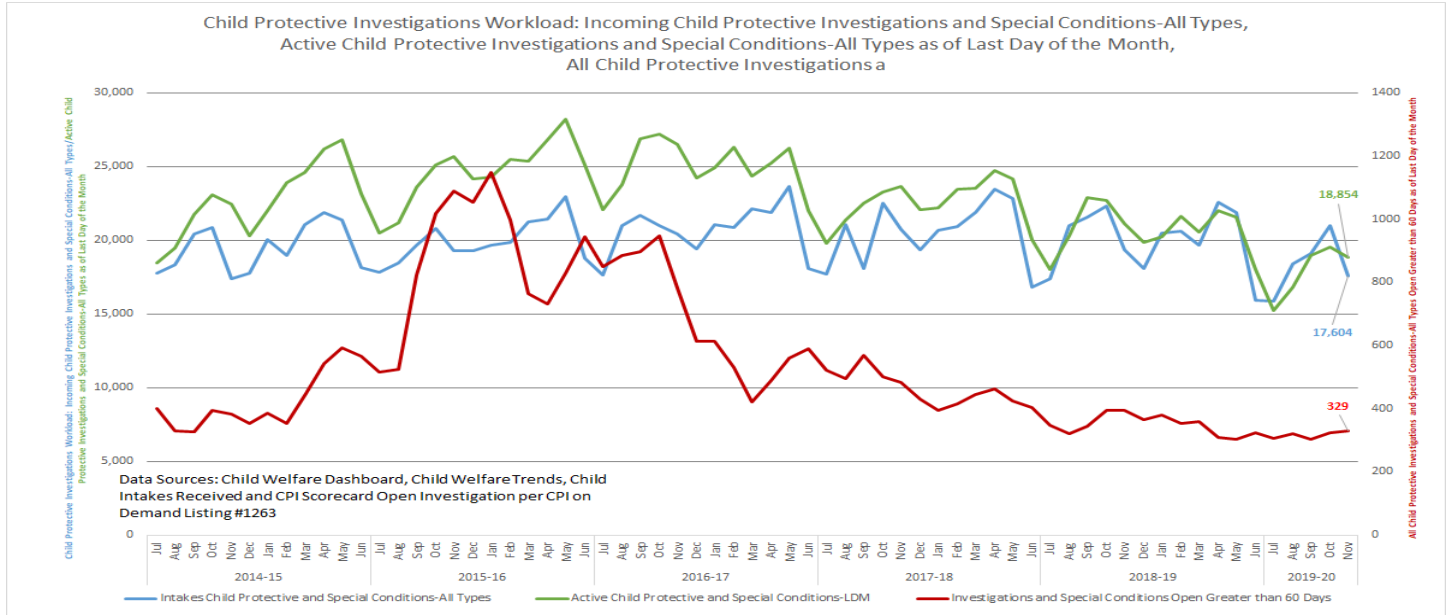

Child Protective Investigators

Workload Trends

M

Investigative Workload: Incoming, Active, and Backlog Investigations

At both the year-over-year and trend level accepted child abuse intakes and active investigations continue to show decline. On a year-over-year basis, accepted child abuse intakes were down 1,773 (-9.2%) in November. Active investigation as of November 30, 2019 were down 2,276 (-10.8%). Investigations open more than 60 days as of November 30, 2019 increased to 329 (1.7% of the active investigations) while the overall trend for investigations in backlog remains flat.

Investigative Workload: Backlog Stratified by Region

M

There are currently eleven investigative areas where 2% or more of the investigative workload has been active for more than 60 Days.

Data Source: CPI Scorecard Open Investigations Per CPI on Demand Listing #1263 (Hotline Intake Decision Date - Report Date)

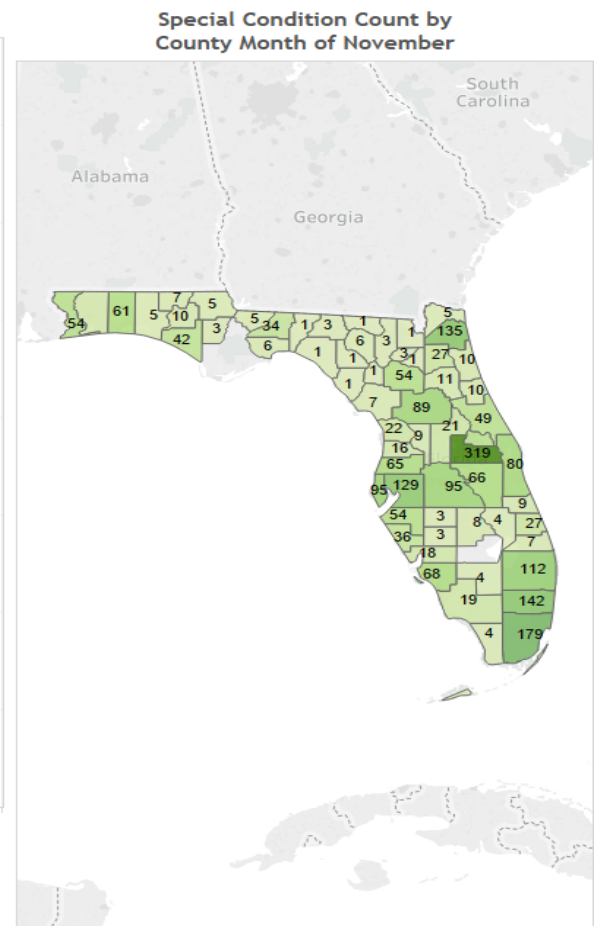

Maltreatment Investigations and Special Conditions Referrals

On a year-over-year basis both accepted Alleged Maltreatment Investigations and Special Condition Referrals were down 8.5% and 11.5% respectively when compared with November 2018.

Special Conditions: Stratified by Type and by County

As observed in the data, the increasing trend in special conditions is largely due to the increase in child-on-child referrals which has seen a 3.64% increase compared to February 2018. All other special condition types have remained fairly flat.

Statewide: More Than 20 Active Investigations

The percentage of investigators, DCF and SO areas combined, that were carrying more than 20 active investigations has stabilized in the 5% to 10% range.

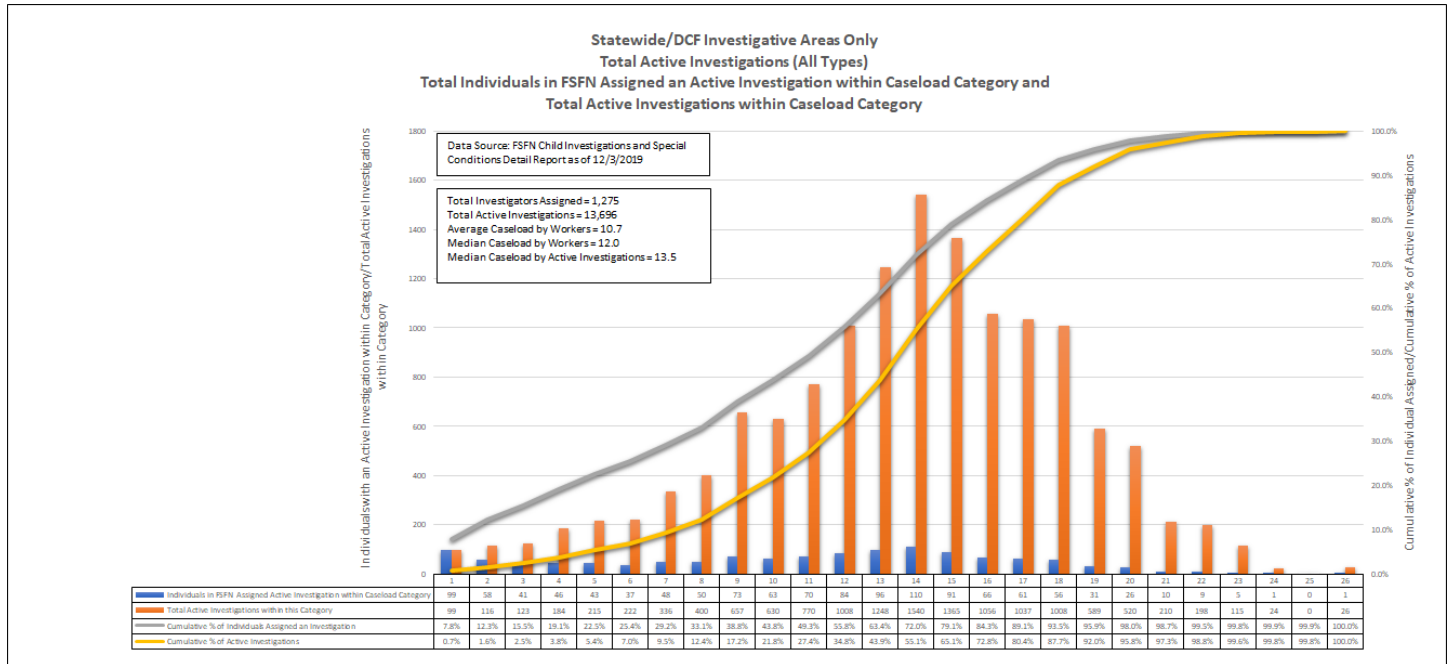

Stratification More Than 20 Active investigations by DCF Circuit and Sheriff's Office

Note that the bulk of CPIs carrying more than 20 active investigations are in those areas where a sheriff office conducts investigations.

Active Investigations by Cohort

Department-wide efforts designed to ensure that no DCF CPI is carrying an active caseload greater than 20 cases have been extremely successful. As of December 3, 2019, only 2.0% (25/1,275) of the DCF investigative workforce was carrying more than 20 active investigations.

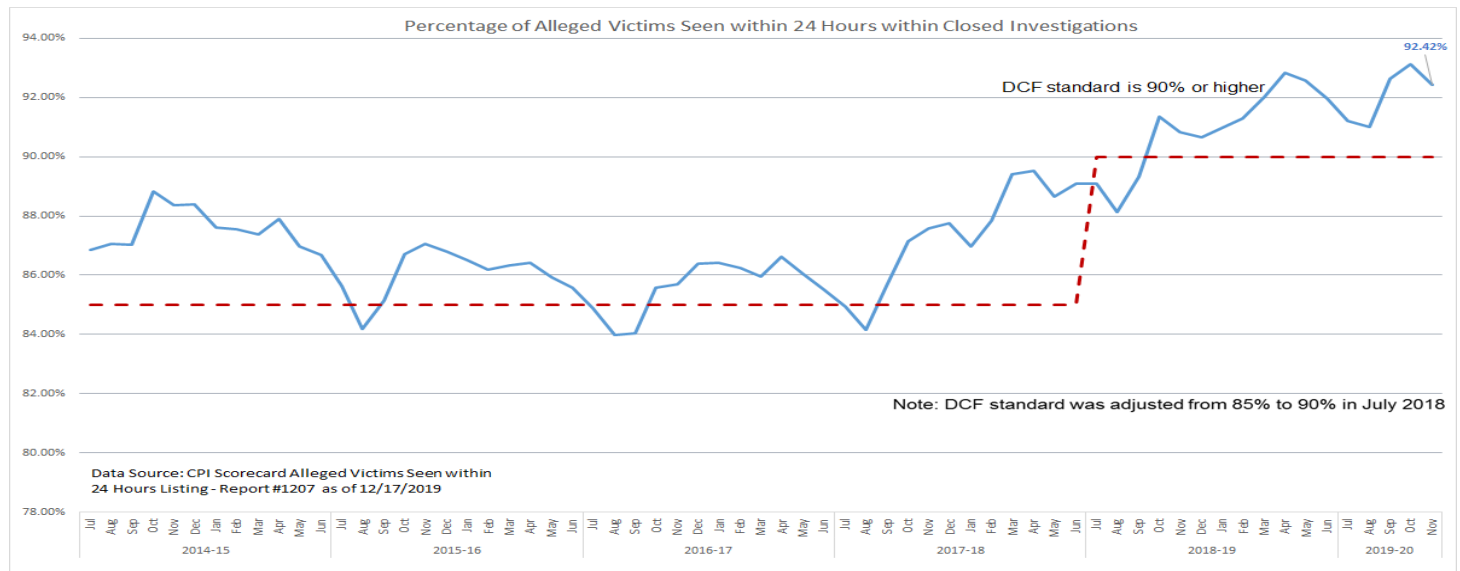

Timeliness Trends

M

Statewide: Alleged Child Victims Seen Within 24 Hours

This metric appears to have stabilized at a point that is well above the DCF target of 90.0%

Stratification Alleged Victims Seen Within 24 Hours by DCF Circuit and Sheriff’s Office

M

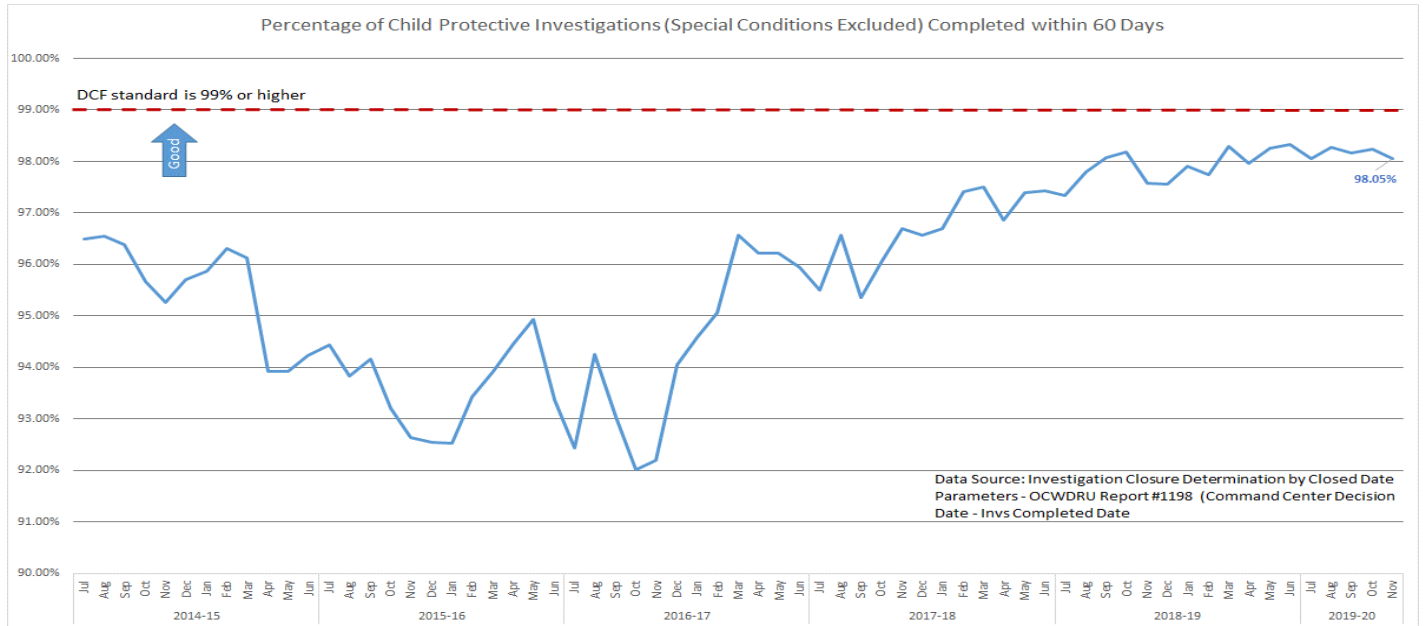

Five investigative areas failed to reach the 90% target for victims seen within 24 hours for investigations closed in November. DCF Circuit 12 (DeSoto and Sarasota) and the Pinellas SO appear to be the two areas of the state that are consistently failing to meet the 90.0% target.

Data Source: CPI Scorecard Alleged Victims Seen within 24 Hours Listing - Report #1207

Statewide: Child Investigations Completed Within 60 Days

While there has been steady improvement for this metric since October 2016. However, November 2019 marks the 76th consecutive month that the Department has failed to meet the 99% standard for investigations completed in 60 days.

Stratification Child Investigations Completed Within 60 Days by DCF Circuit and Sheriff's Office
 Fourteen of the twenty-six investigative areas met the 99.0% standard for completing investigations within 60-days. DCF Circuit 2, DCF Circuit 14, DCF Circuit 20, and Walton SO were all 3% or greater from the DCF target of 99%.

Data Sources: Investigation Closure Determination by Closed Date Parameters - OCWDRU Report #1198 (Hotline Command Center Decision Date - Invs Completed Date)

Safety Determinations and Services Provided

M

Statewide: Children Determined Safe at Investigative Closure by Post Investigation Service

This chart looks at all children with a safety determination of 'safe' in investigations closed during the month and shows what post investigation service (if any) the child is receiving. Due to the overwhelming percentage of children closing safe who do not receive post investigation services the "no services" percentage is displayed on a secondary (right) axis as an area chart.

Stratification by CBC

M

There is great variation between CBCs for service provision for safe children, with some CBCs providing services to over 20% of the safe population in closed investigations in their service area, and others providing services to less than 10%.

Children Determined Unsafe at Investigative Closure by Post Investigation Service

This chart looks at all children with a safety determination of 'unsafe' in investigations closed during the month and shows what post investigation service (if any) the child is receiving. Statewide the percentages for all four service categories have been extremely stable over the last four years.

Stratification by CBC

There is great variation between CBCs for service provision for unsafe children. Eckerd Community Hillsborough had the highest percentage of unsafe children entering out-of-home care in November 2019, while Kids First served over three fourths of their unsafe children with in-home services and no services at all.

● Statewide Children with No Recurrence of Verified Maltreatment within 12 Months
 Statewide performance for this measure has been at, or above, the federal standard of 90.9% since July 2016.

● Stratification by DCF Circuit and Sheriff's Office

While five investigative areas failed to reach the 90.9% target in November there generally is no discernable pattern that indicates ongoing poor performance within any area of the state.

Children with No Recurrence of Verified Maltreatment within 12 Months On-Demand Listing - Report #1227
 Note: Data is lagged by 15 months Aug 2019 data aligns with May 2018 reports

CPI Workforce Monthly Separations

The number of Child Protective Investigators that separated from the department increased in November.

CPI Time in Classification

The percentage of CPI positions that are vacant or the CPI has been within their current position for less than six months was 32.2%. This means that at a minimum, slightly less than one-third of CPIs are not currently available for full rotation. Also note that 53.0% of CPI positions currently have under one year of experience.

Flow from CPI to CBC Lead Agencies

Removals and Removal Rates

Statewide Trend

M

Removal and removal rates declined in November 2019. This seasonal artifact was expected and both removal totals and removal rates were generally comparable to November 2018 (975 and 4.6). Note that as the number of accepted child abuse declines so too does the number of alleged victims within closed child abuse investigations. This has the potential to skew removal rates slightly higher than what they have been in the past.

Out-of-Home Care Entries Cumulative Count by SFY

M

The year-over-year cumulative count of out-home-care entries for November 2019 was 4,949. This is 8% lower than last year's total of 6,460.

Quarterly Stratification by Circuit and Sheriff's Office

Q

There remains wide variation among circuits and sheriff's offices on this indicator. Removal rates range from 2.87 to 11.61 per 100 alleged victims.

*Sep 2017 - Measure changed from per 100 children investigated to per 100 Alleged Victims.

Q

Quarterly Stratification by Circuit and CBC Lead Agency

*Sep 2017 - Measure changed from per 100 children investigated to per 100 Alleged Victims.

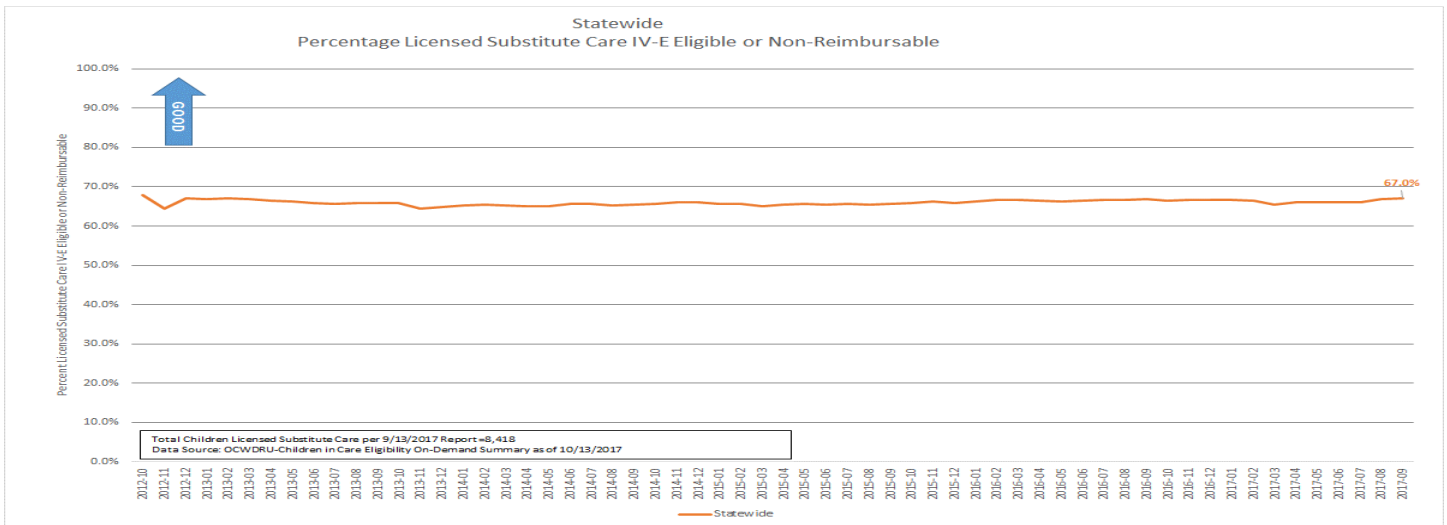

Eligibility

Title IV-E and TANF Eligibility Licensed Substitute Care and Adoption Eligibility

Q

Percentage of Children in Licensed Substitute Care that were Title IV-E Eligible or in a Non-Reimbursable Placement

The percentage of children in out-of-home care deemed to be Title IV-E eligible or are in a non-reimbursable placement remained relatively flat, in the range of 67.0%.

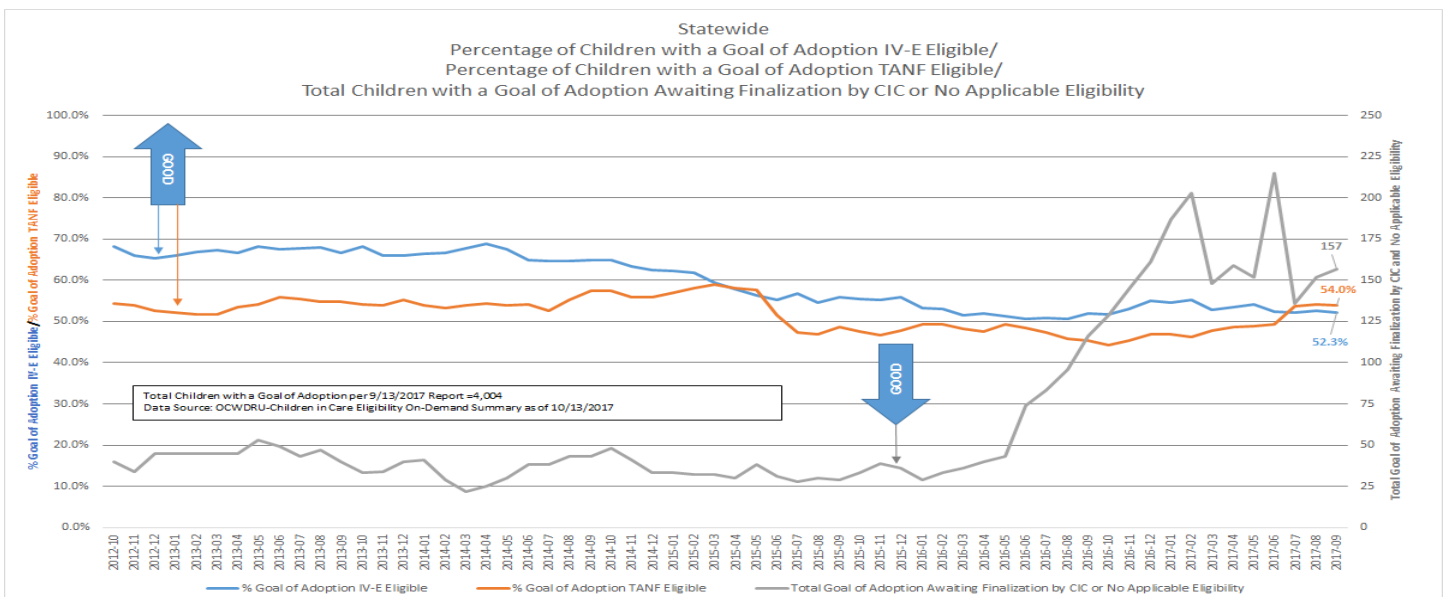

Percentage of Children with a Goal of Adoption that are Title IV-E or TANF Eligible and

Q

Count of Children with a Goal of Adoption Awaiting Finalization or have No Applicable Eligibility

The percentage with a goal of adoption that were classified as Title IV-E or TANF eligible has stabilized in the range of 55.0% after declining since January 2015. Note the increase in children awaiting finalization by the CIC or where the child has no eligibility determination since June 2016. As of September 2017, approximately 1/3 of these pending eligibility cases were located within the Eckerd Community Alternatives (Pasco & Pinellas counties) system of care.

Community-Based Care Lead Agencies

Caseload Indicators

M

Statewide Trends in Case-Managed Services

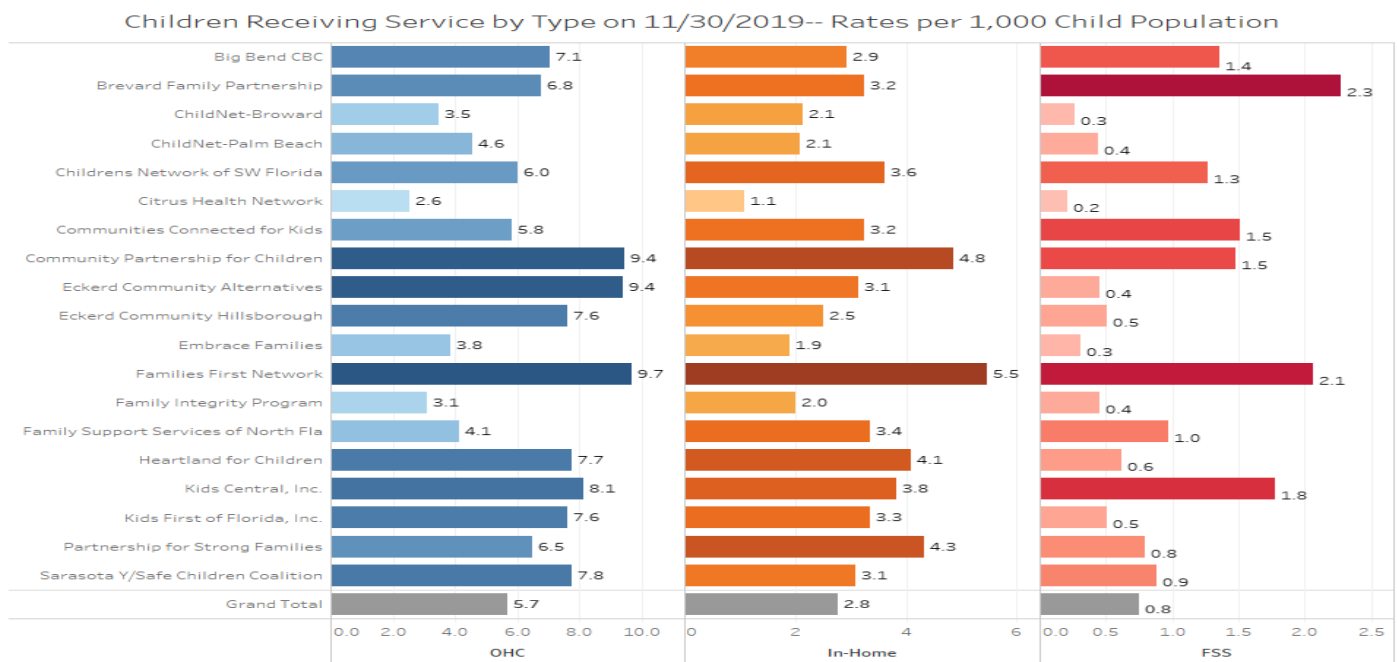

There were 23,251 children in out-of-home (OHC) care on November 30, 2019, which remained stable to declining when compared to the consistent upward trend in OHC observed since the middle of 2013. The trend for children receiving in-home services has remained relatively flat to declining for the last three years, with 10,527 children receiving in-home services on November 30, 2019.

Services Mix

M

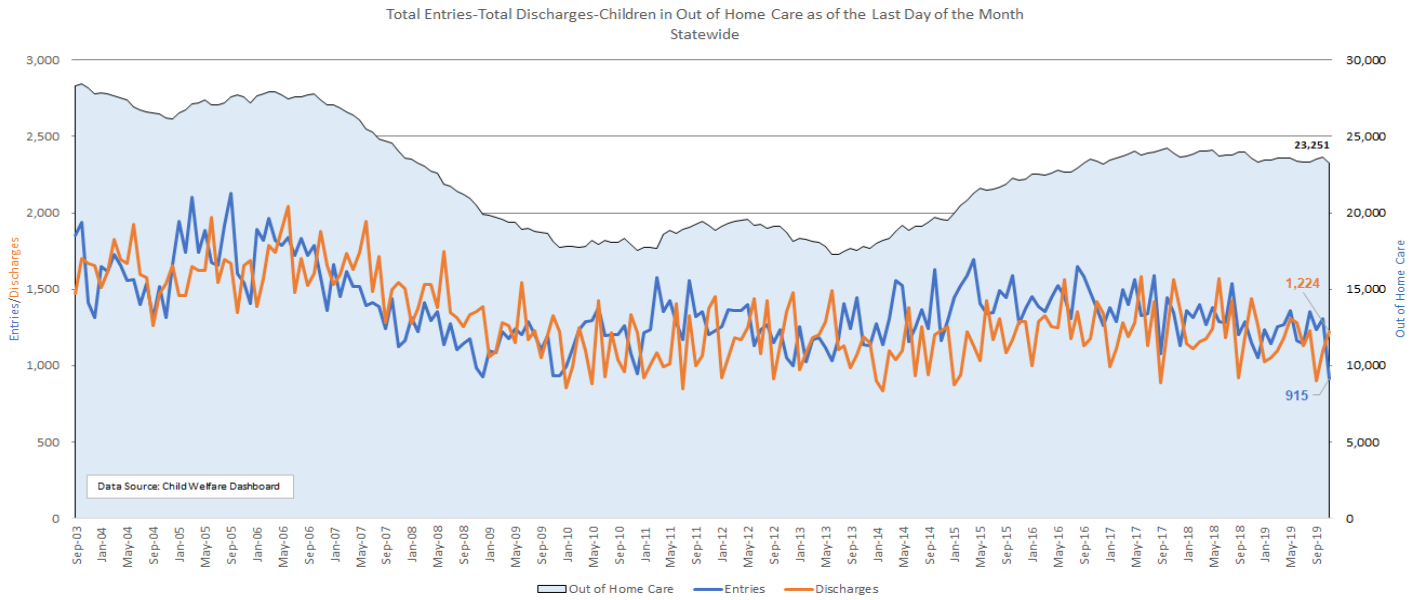

There continues to be variation among circuits regarding in-home and out-of-home care services, with the widest variation occurring in the use of Family Support Services.

Data Source: FSFN Data Repository, Tableau Data Source

Entries and Discharges Compared to Out-of-Home Care Trend

The number of out-of-home care entries declined to 915 in November while discharges from out-of-home care increased to 1,224. The number of children in out-of-home care as of the last day of the month remained generally stable at 23,251.

Placement Types Compared to Children in Out-of-Home Care Trend

As of November 30, 2019, there were 23,251 children in out of home care with 9,446 in relative care placement, 7,738 a licensed family foster home, 3,036 in non-relative care, 1,820 in licensed group care, and 1,066 in other placements.

Children in Out-of-Home Care by Placement Type Region: All CBC: All

Last Updated: 12/10/2019

Family Functioning Assessment-Ongoing Implementation Map

This Tableau map provides county-specific percentages, as well as percentages by region. Please note that this map is a snapshot in time and does not reflect closed cases that utilized an FFA ongoing. Zero percent for some counties may result from a small number of cases or cases assigned to other counties. It is important to note the change in the scale from previous months.

Source: FSFN report Active Cases with an Approved FFA-Ongoing – OCWRU #1084

Notes: Small number of cases assigned to the county will affect percentages. Based on location of primary worker. Counties with no cases assigned to them will not appear in the map.

Family Support Services “Prime” Counts

This measure shows the number of children in investigations closed during the quarter who met all “FSS Prime” criteria of: 1) being deemed safe; 2) being high or very high risk, 3) having a Family Support Services module opened within 45 days of investigative closure, and 4) having an attempted or completed face-to-face contact within 45 days of investigative closure. Data is lagged to allow note entry and Family Support Services module creation.

Safety Indicators

Q

Child Safety Trends: Comparison of Two Indicators

Children continue to be safer after termination of services:

- The percent of children with no verified maltreatment within six months after termination of case-managed services was 96.54% for October through December 2018. The state continues to exceed the 95% target for this measure.
- The percent of children with no verified maltreatment within six months of termination of Family Support Services was 94.7% for those terminating October through December 2018. This measure does not have a set target.

Child Safety After Termination of Case-Managed Services

Q

Statewide performance for services terminated in October through December 2018 increased to 96.54% and all but three lead agencies were above the 95% target.

Region/CBC Lead Agency	Percent of Children Terminated from Case Managed Services Who were Not Maltreated within Six Months

Child Safety in Out-of-Home Care

Q

This measure is generated by taking the total number of reports with at least one verified maltreatment and dividing it by the total number of days in foster care for all children, with the result multiplied by 100,000 to calculate the rate of victimization per 100,000 days in foster care. The data for this quarter continues to show wide variation among the CBCs, with statewide performance not meeting the national standard of 8.50 or less.

Child Safety During Case-Managed In-Home Services

This measure is generated by taking the total number of days the child received service and dividing by the number of verified maltreatment reports during the report period. This is a rolling 12 months ending 3 months prior to the end of the quarter. Statewide performance for the quarter ending September 2019 was 95.08%, and ten lead agencies met or exceeded the 95% target.

Source: New Data Source as of FY 2019 Q2: Child Welfare Dashboard, "Abuse During In-Home Services"

Note: The data in this table has been updated to match the Child Welfare Dashboards for this measure. Each quarter of data reflects a rolling twelve (12) month period ending three (3) months prior to the end of the state fiscal quarter.

Permanency Indicators

Q

Statewide Trend: Permanency Within 12 Months of Removal

Permanency within 12 Months of Removal is our primary indicator of timely permanency. Statewide performance fell to a new low of 35.58% in October-December 2018, which is below the 40.5% national standard.

Stratification by CBC Lead Agency

Q

Only five of the lead agencies exceeded the national standard of 40.5%.

Source: FSFN OCWDRU #1196 -- "Children Exiting Foster Care to a Permanent Home within 12 Months for Children in Foster Care Twenty-Four Months or More"

Length of Stay for Children Exiting Care by Exit Type

Length of stay for children that exited out-of-home care has been steadily increasing and is now nearly three months longer than it was in January 2014. On average children exiting care to reunification, guardianship, and adoption have all increased and on average children are now spending an additional 3.45 months (14.27 months compared to 17.72 months) in out-of-home care than they were in January 2014.

Percentage of Exits by Exit Type

The percentage of children exiting out-of-home care to reunification has been declining since January 2014. Note the associated increase in the number of children exiting care to adoptions.

CBC Exit Counts and Average Length of Stay by All Exit Types

The table below shows the number of exits from out-of-home care since SFY 2013-14. Note the uptick in time to exit in SFY 2016-17.

Source: FSFN OCWDRU #1099 - "Children Who Do Not Re-Enter Foster Care within Twelve (12) Months of Moving to a Permanent Home"

Timeliness of Judicial Handling

M

These Children's Legal Services indicators are directly related to the indicators of timely permanency.

● Reunification Goal After 15 Months and No Termination of Parental Rights Activity

The statewide average for SFY 2019-20 is currently 6.9% as of November 30, 2019. Circuit goals are set for each period after review of baseline information.

Timeliness of Termination of Parental Rights, from Petition to Order

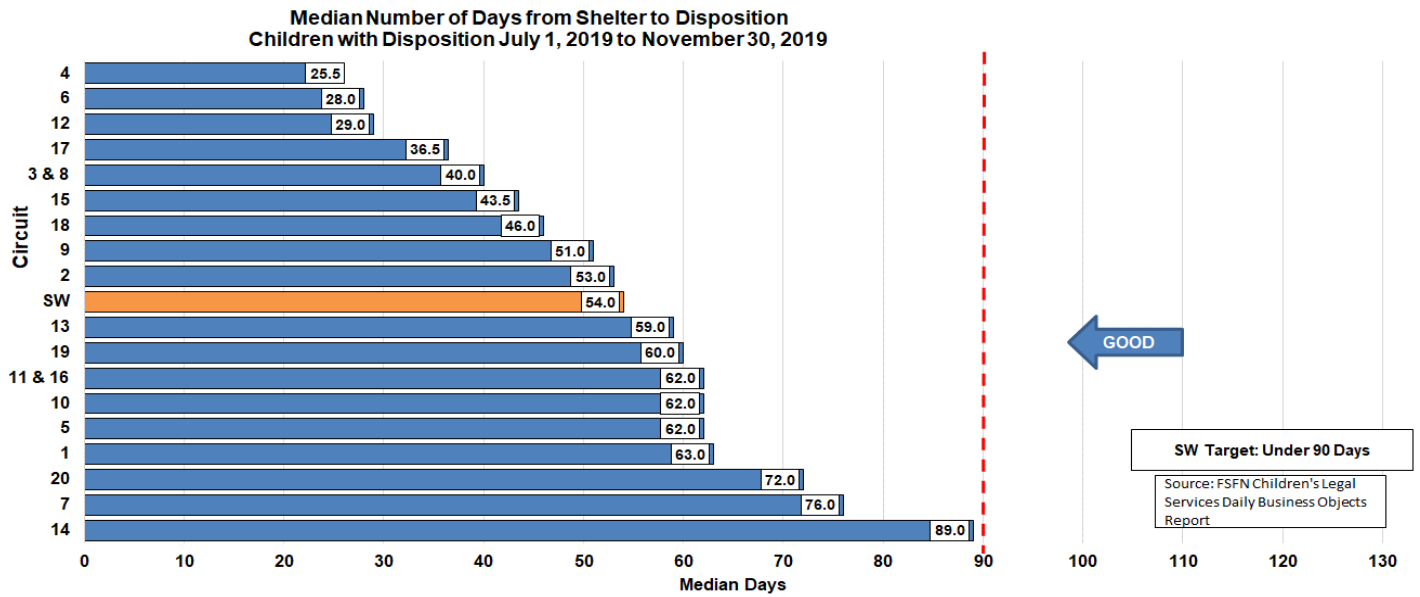

M

The statewide average for SFY 2019-20 is currently 168 days. Circuit goals are set for each period after review of the baseline information.

● Time from Removal Date to Disposition Order

The statewide average of 54.0 days for SFY 2019-20 is well below the established target of 90 days and all circuits are currently meeting the 90-day target.

Maintaining Connections in Placement

Q

Statewide Trend: Placement Stability

Statewide performance has gone up to 4.69 moves per 1,000 days in foster care continuing its upward trend. It is still not meeting the national standard of 4.12 moves.

Stratification by CBC Lead Agency

Q

Statewide performance, currently at 4.69 moves per 1,000 days in foster care, does not meet the national standard of 4.12 moves. There is wide variation among the lead agencies, with thirteen meeting the standard.

Prescribed Psychotropic Medications

Children in Out-of-Home Care with Prescribed Psychotropic Medications

M

The statewide percentage of children in out-of-home care that are prescribed at least one psychotropic medication on November 30, 2019 was 10.4%. This is consistent with past observations for this metric.

Children with Consent for Prescribed Psychotropic Medications

M

In order to administer psychotropic medication to a foster child, parental consent or a court order must be obtained, unless the child is receiving inpatient services, or a physician certifies that delay would be likely to harm the child. On November 30, 2019, the statewide percentage of children with at least one prescribed psychotropic medication where consent was obtained was 98.8% and eleven CBCs were at 100%. This is consistent with past observations for this measure. Also note that no single CBC dominates noncompliance with the range of noncompliance falling within three to eight children for any CBC that failed to reach the 100% target.

Medical Services

Q

● Children Receiving Medical Services in Last Twelve Months

The statewide percentage of children receiving recent medical services has consistently been above the statewide standard and stood at 96.61% as of September 30, 2019. Two CBCs failed to meet the standard.

Education Program Enrollment

Q

● Young Adults Aging Out Enrolled in Education Programs

This is one indicator of preparation for adulthood but does not control for any of the many variables that influence this preparation, including time in care and the child’s educational level when entering care. Statewide performance in this measure has been relatively stable and above the statewide target for the past 3 years. Youth are only included in this measure if they age out at age 18, if a youth chooses to remain in Extended Foster Care, they are not included in either the numerator or the denominator for this measure. Because of this change, the denominator of youth in this measure has been steadily declining and several CBC Lead Agencies have no youth in the measure at all, as evidenced by the blank cells. This has also impacted the statewide performance with the dwindling number of youths included in the measure.

GOOD

Dually Served Youth

M

Statewide Trend: Youths Served by CBC Lead Agencies and Juvenile Justice

The number of youths served by both the child welfare system and the juvenile justice system in December 2019 was 1,024. This measure does not have a specified target.

Stratification by CBC Lead Agency

The number of youths served by both systems (DCF and DJJ) is variable among the lead agencies but is related to the total number of youths served by each lead agency.

Missing Child

M

Average Number of Children Categorized as Missing from Care and Supervision

In November 2019 there was a slight decrease in the average number and percentage of children categorized as missing from the care or supervision of the state. The average number of 200 children missing on any given day appears to be the current upper resistance point for this metric and the average total of 171.03 for November 2019 did not test the 200 children upper resistance point.

Child Reports Entered in FSN within One Working Day

M

Statewide performance for November 2019 was stable at 86.7% and this percentage is consistent with past performance for this measure.

Resolution of reports within 3 days

The percentage of missing child entries that were resolved within 3 days for November was 73.3%. This is consistent with past performance for this metric.

Human Trafficking

Human Trafficking Intakes Trend

The number of Human Trafficking Reports (Initial and Additional) accepted by the Hotline appear to have entered a seasonal cycle while the percentage of human trafficking allegations that are closed as verified, not substantiated, or no indicators have also stabilized.

Children with Indication of Human Trafficking by CBC Lead Agency

The number of children in out-of-home care or receiving in-home services with at least one FSFN indicator of being a victim of Human Trafficking remains concentrated within Florida’s urban centers.

Children in Out-of-Home Care or Receiving In-Home Services on 11-20-2019 with at Least One Indicator of Human Trafficking Documented within FSFN
Statewide Out of Home = 218
Statewide In-Home = 36

Florida CQI and CFSR

Child Care and Domestic Violence

Child Care Regulation

● Child Care Inspections per Month

M

For October 2019, 100% of home inspections and 99.8% of facility inspections were completed within 45 days.

Domestic Violence

● Percent Victims Leaving a Shelter with a Family Safety and Security Plan

M

The percent of adult victims leaving a shelter after 72 hours with a Family Safety and Security Plan in October 2019 was 99.4%, continuing to exceed the target of 97%.

Eligibility	Hans Soder	Asst. Sec. of Operations / RMD	Percentage of Children in Licensed Substitutes Care that were Title IV-E Eligible or in a Non-Reimbursable Placement	31	OCWDRU Report #1191 Eligibility Summary Report for Children in Care	All children in Foster Care or receiving In-Home Services as of the report date categorized into out-of-home care/no adoption goal, out-of-home care/adoption goal, out-of-home relative/nonrelative placement and in-home services. Eligibility is determined by the FSFN eligibility data as of the report date. The absence of eligibility data is categorized as "No Applicable Eligibility". Percentages are determined by summing and dividing all eligible children and all non-reimbursable children as of the report data by all children categorized as being within licensed substitute care per the FSFN report date.

Section	Analytical Process Owner	Business Owner	Chart	Page No.	Source	Algorithm
Eligibility	Hans Soder	Asst. Sec. of Operations / RMD	Percentage of Children with a Goal of Adoption that Title IV-E or TANF Eligible and Count of Children with a Goal of Adoption that Awaiting Finalization or have No Applicable Eligibility	31	OCWDRU Report #1191 Eligibility Summary Report for Children in Care	Report structure is same as above. Title IV-E percentages are determined by dividing all eligible children with a goal of adoption minus all TANF children from the numerator and denominator. Ineligible Title IV-E and TANF children and awaiting CIC and no eligibly determination are added to the numerator and denominator of the Title IV-E measure. TANF percentages are determined by dividing all eligible children with a goal of adoption minus all Title IV-E children. Ineligible Title IV-E and TANF children and awaiting CIC and no eligibly determination are added to the numerator and denominator of the Title TANF measure.

CBC Lead Agencies	Hans Soder	Director of the Hotline	Average and % of Children Categorized as Missing	59	FSFN Missing Child Data	Average missing is the average number of children appearing categorized as missing with each of the missing child listings for the month. For example, 28 individual missing child list for February are summed and then divided by 28 to generate the average daily missing child count. This total is then divided by the total number of children in out-of-home and in-home as determined by subtracting young adults from the Children Active by Primary Worker for the 15th day of the month.
CBC Lead Agencies	Hans Soder	Director of the Hotline	Missing Child Reports Entered into FSN within One Working Day	59	FSFN Missing Child Data	All missing child episodes entered in FSN as determined by Missing Child Entry Date in FSN (time stamp) subtracted from Date FSN CBC/CPI Notified of Missing Child (free text) with total resulting in number of days from notification to entry. Entries are reviewed to determine if entry was in one working day and then all missing child episodes that were entered in FSN within one working day are divided by all missing child entries for the month.
CBC Lead Agencies	Hans Soder	Director of the Hotline	% Missing Child Reports Resolved within 3 Days	60	FSFN Missing Child Data	Subtract child's recovery date (FSFN free text) from child's missing from date (FSFN free text) to calculate a missing from care duration. Divide all episodes entered within the month that were resolved within three days or less from the total number of missing child reports entered within the month.
CBC Lead Agencies	Hans Soder	Asst. Sec. of Operations / RMD	Total HT Intakes and % of Findings	60	FSFN HT Data	Sum of all HT intakes accepted by the Florida Abuse Hotline by month. Investigative findings run on a 60-day lag to allow for completion of the all investigations. This represents the sum of all HT investigative findings with the month absent data for the 2 most recent months. CALCULATED HT findings divided by all HT INTAKES
CBC Lead Agencies	Hans Soder	Asst. Sec. of Operations / RMD	Total Children with an Indication of HT	61	FSFN HT Data	Sum of all children in out of home or in-home care with one or more of the following data elements in FSN Verified HT Finding, FSN Person Mgt Page populated with HT info, one or more Missing Child Reports with HT selected as "Yes"
