Graph and Table Symbols

Performance Glance

Performance indicators have been added to the titles and table of contents to assist the reader in quickly determining current performance in specific areas.

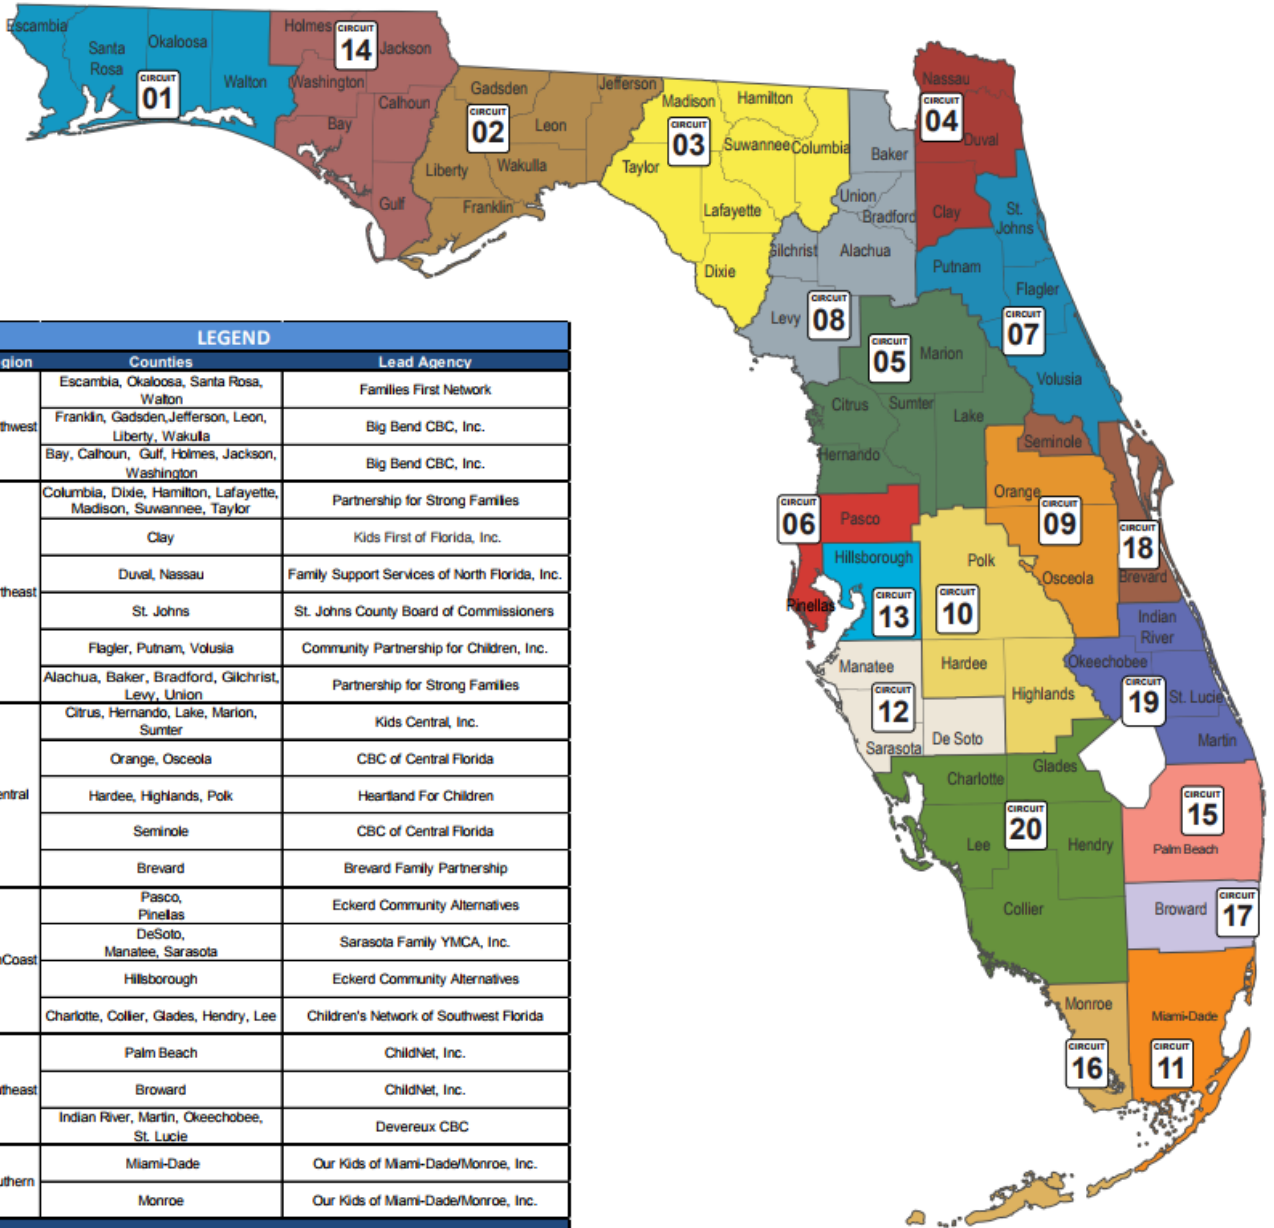

- Green dots before the titles indicate that either statewide/national targets are being met or for those measures where a target is not applicable, the previous 3-month trend is either stable or moving in the right direction.
- Red dots before the titles indicate that either statewide/national targets are not being met or for those measures where a target is not applicable, the previous 3-month trend is moving in the wrong direction.

DCF Service Structure

Regions, Circuits, Counties, and CBC Lead Agencies

System Overview

Florida's community-based child welfare system is comprised of a partnership between the Department of Children and Families (DCF), other state agencies, the courts, law enforcement agencies, service providers, and local communities.

There are over four million children in Florida of which most fortunately do not come to the attention of the system. For those children who do enter the system, entry begins with reports of allegations of abuse or neglect made to the Florida Abuse Hotline, operated by DCF. The Florida Abuse Hotline receives more than 350,000 child-related calls annually. Calls received are screened to determine if the criteria are met to initiate a protective investigation.

If criteria are met, the report is referred to a local Child Protective Investigations (CPI). Statewide there are over 220,000 protective investigations conducted annually. These investigations are conducted by DCF in 60 counties. In the remaining 7 counties, including Broward, Hillsborough, Manatee, Pasco, Pinellas, Seminole, and Walton, county sheriff's offices perform the investigations. Investigators determine the need for post-investigation services, including protecting the child through removal and placement in out-of-home care or through case-managed, in-home services (by court order or non-judicially), or through informal voluntary family support services. For SFY 2017-2018, over 36,000 children were served in out-of-home care.

Florida statute requires that post-investigation services be provided through contracting with community-based care lead agencies (CBCs). There are 17 Community-Based Care (CBC) lead agencies that each provide coverage to specific geographic areas within the 20 Judicial Circuits in Florida. Several lead agencies cover more than one geographic area and areas may include one or multiple counties. In two instances, the CBC lead agency serves two geographic areas under separate contracts, lending to 19 lead agencies displayed within the CBC tables of this report. Although services vary among CBC lead agencies, they have a shared role in participating and ensuring safety, permanency, and well-being for all children in the state.

The monthly Child Welfare Key Indicators Report presents data for the Florida Abuse Hotline, Child Protective Investigations, CBC lead agencies, as well as other key metrics describing the state of the Florida Child Welfare System.

Workload Trends

M

Reporting Method Trends

The Florida Abuse Hotline offers a variety of methods for citizens to report concerns about children and vulnerable adults. A modification was made within the system, resulting in the tracking of webs and faxes together. Webs were previously represented by the green line within the graph below, however beginning in March 2017, webs were combined with faxes, now represented by the red line.

Seasonality of Hotline Workload

M

There were 47,513 total contacts offered for the month of January. This is the highest contacts offered in the month of January for the past four years. "Contacts Offered" include those abandoned by a caller who called back, so both attempts and completed calls from the same individual may be counted.

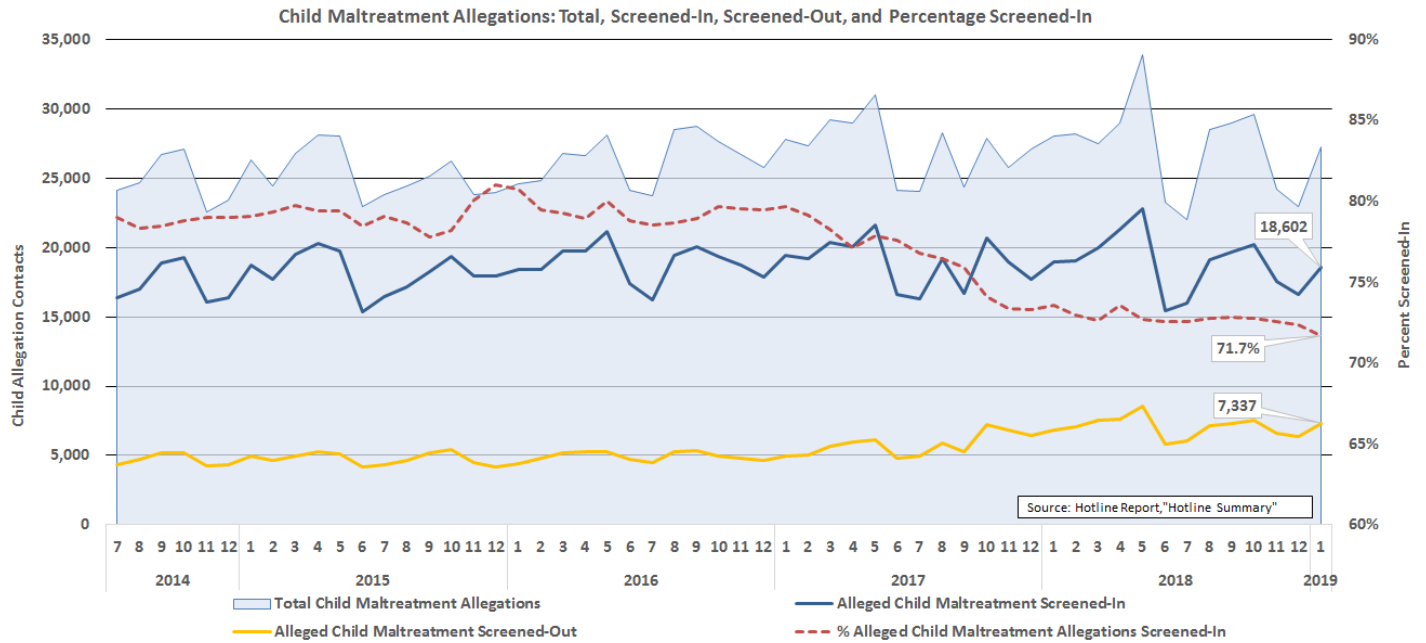

Screening Trends

M

Alleged Maltreatment Screening

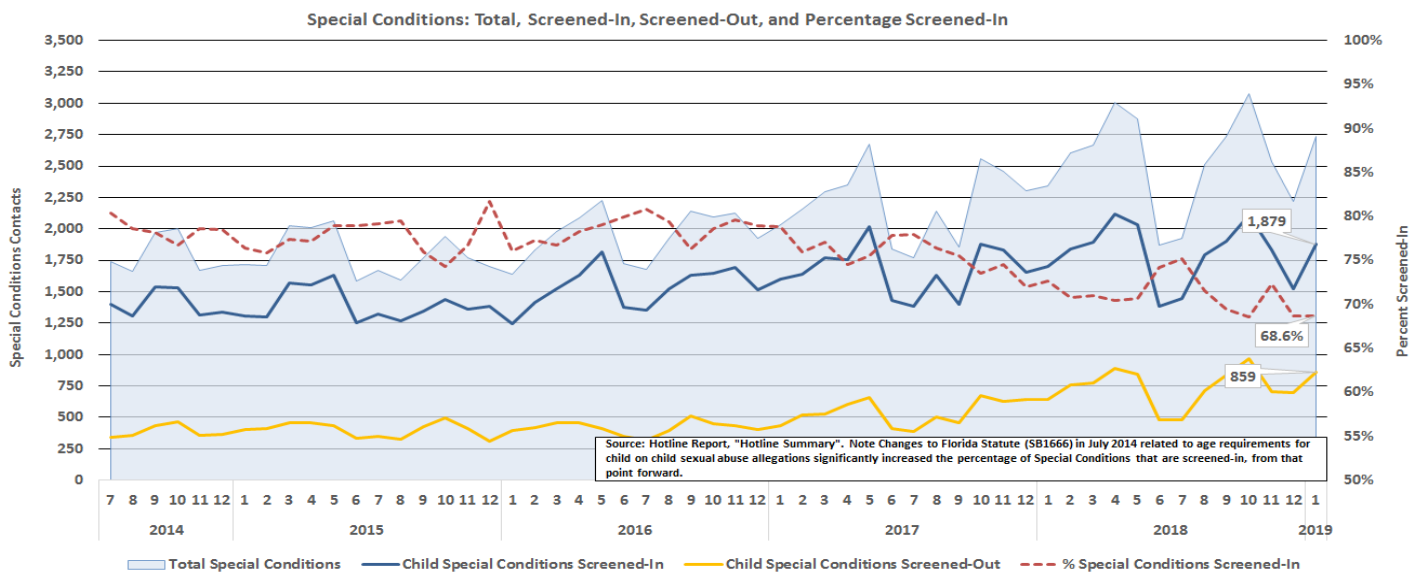

Total child maltreatment allegations for January 2019 was 18,602. In January 2019, 71.7% of child maltreatment allegations reported were screened-in. Screen in percentage in 2017 steadily declined and has maintained around 72% for the last 8 to 10 months.

M

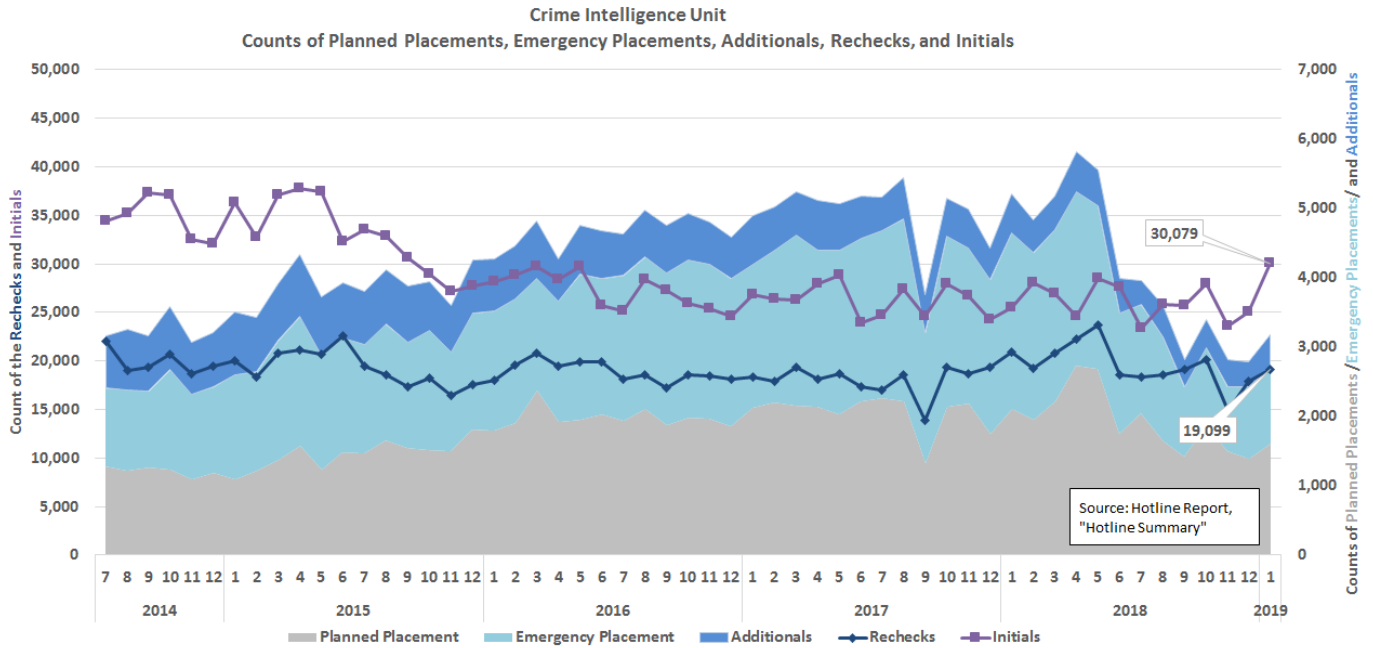

Special Conditions Screening

There were 1,879 screened-in special conditions for January 2019. The screen-in percentage for special conditions is at an all-time low 68.6%. Special Conditions screen-in percentage continues to decrease and remains below 70%. However, the number of accepted intakes continues to fluctuate according to the seasonal patterns.

Crime Intelligence Unit

The included chart contains Crime Intelligence Unit counts for planned placements, emergency placements, additional, rechecks, and initials. The CIU average time to completion on all background check types are within compliance of DCF standards.

Timeliness Trends

● Average and Maximum Times to Answer or Abandon

The average wait time before answer increased to five minutes and 07 seconds. 85% of calls were answered in 10 minutes or less, falling below the 98% target.

M

● Percent of Calls Abandoned

The percent of calls to the Florida Abuse Hotline English Line that are abandoned before answer increased to 14.7% for January 2019, and the percent of Spanish Line abandoned calls increased to 20.6%.

Source: Hotline Report, "Hotline Summary"

M

● Average Handling Time Trend Stratification

The Average Handling Time (AHT) for January is 33 mins 58 secs which is below the 34-37 min AHT Hotline target. Automated Calls Distribution (ACD) remains under 13 mins and After-Call Work (ACW) remains around 20 mins.

Office of Child Welfare-Performance and Quality Improvement

14 | Page

Recurrence of Hotline Reporting Trends

The following four measures look at all initial calls (no additional or supplemental) to the Hotline within a month and places them into a monthly cohort based on whether the first call received in the month was screened-in or screened-out. Subsequent initial calls to the Hotline within the following 12 months are captured as recurrence. These monthly screen-in and screen-out cohorts are tracked for recurrence of reporting by child (meaning the child appears again in a Hotline report within the following 12 months) and by perpetrator (meaning the perpetrator on the initial report appears as a perpetrator in another initial report within the following 12 months). The percentage of recurrence of reporting for these four groups are displayed at 3, 6, 9, and 12-month intervals.

Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Ins by Child

M

31.96% of children with an initial screen-in decision in January 2018 experienced recurrence of reporting over the following 12 months.

Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Outs by Child

M

24.59% of children with an initial screen-out decision in January 2018 experienced recurrence of reporting over the following 12 months.

Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Ins by Perpetrator

22.88% of alleged perpetrators involved in an initial screen-in decision in January 2018 experienced recurrence of reporting over the following 12 months.

M

Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Outs by Perpetrator

16.14% of alleged perpetrators involved in an initial screen-out decision in January 2018 experienced recurrence of reporting over the following 12 months.

M

Hotline Counselor Workforce

M

Monthly Separations for Abuse Counselors

Monthly Abuse Registry Counselor separations have been increasing since 2014 but have been relatively stable since September 2017, in the range of six separations monthly out of 219 positions. The eight observed Abuse Registry Counselor separations for January 2019 were normal for the current trend but they were slightly higher than the five and three observed separations for January 2017 and 2016 respectively.

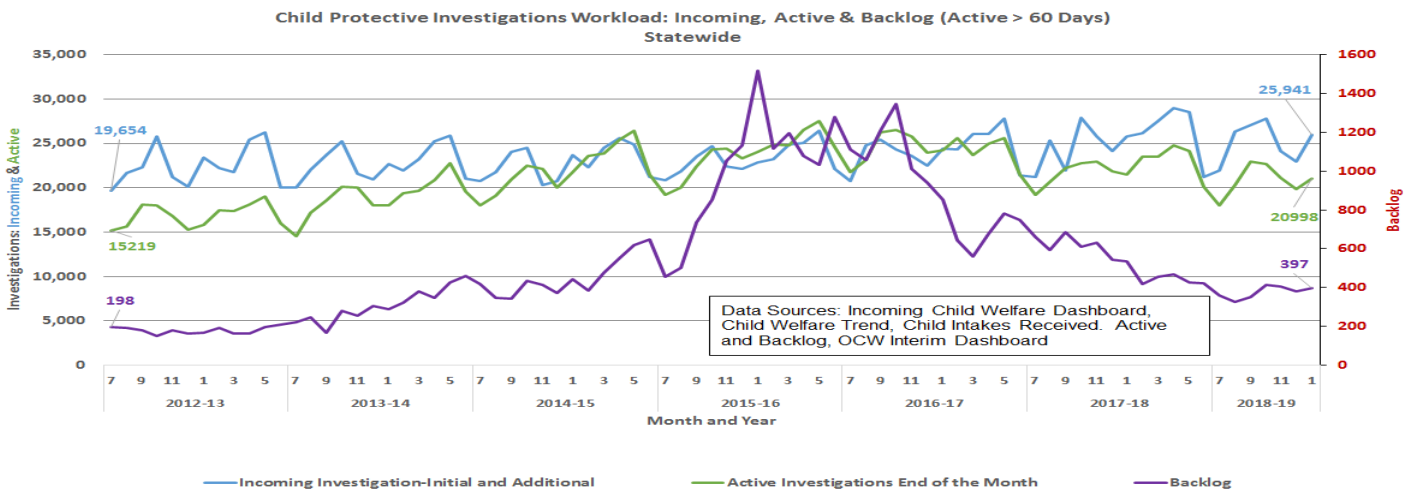

Child Protective Investigators

Workload Trends

M

Investigative Workload: Incoming, Active, and Backlog Investigations

There was an expected seasonal uptick in both incoming investigations and active investigations as of the last day of the month. Year-over-year data indicates that incoming workload held stable when compared to last year at the same time. There was a 2% decrease in the number of active investigations as of the last day of the month when January 2018 is compared with January 2019. Investigations open more than 60 days as of the last day of the month increased slightly to 397 as of January 31, 2019 and are currently operating at levels last observed in SFY 2014-15.

Investigative Workload: Stratified by Region

M

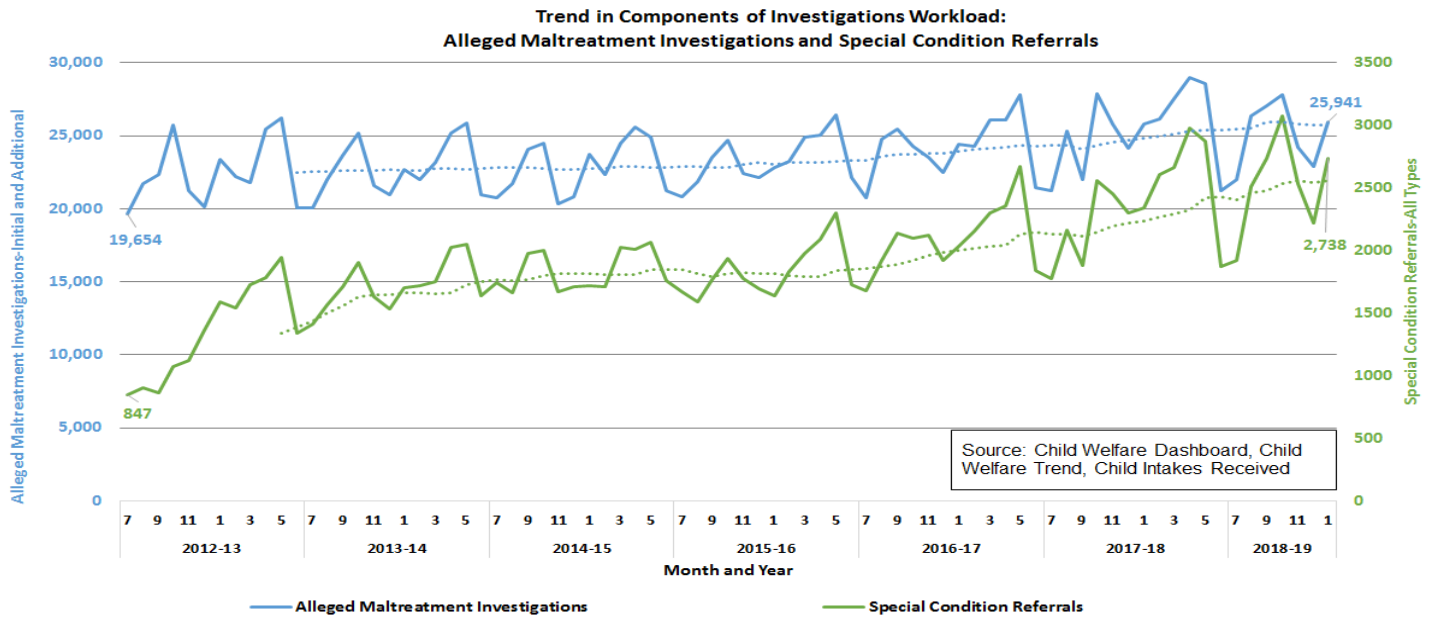

Circuits 4 (41), Hillsborough SO (40), Circuit 15 (37), Circuit 20 (35), and Broward SO (29) currently have the largest number of investigations that have been open over 60 days as of the last day of the month. Note the rapid increase in investigations open over 60 days as of the last day of the month within the Walton SO over the last 4 months.

OCW Interim Dashboard

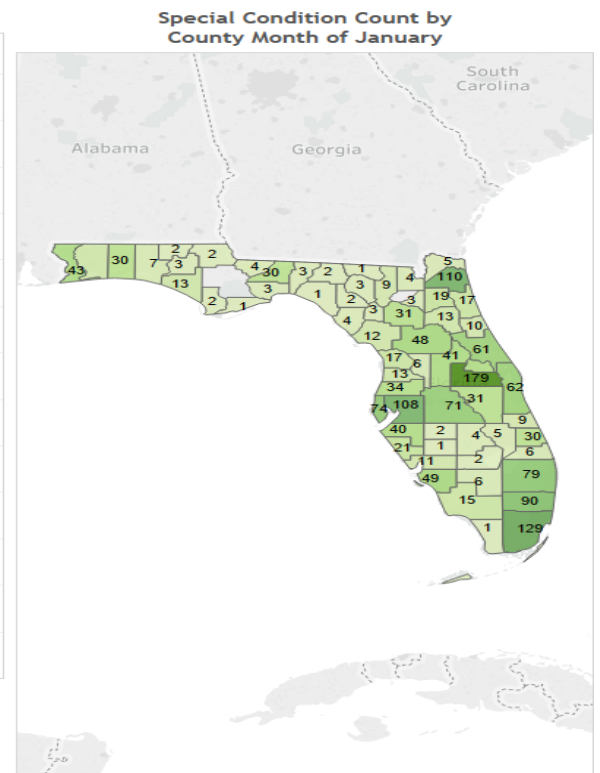

Maltreatment Investigations and Special Conditions Referrals

Incoming Alleged Maltreatment Investigations have been in a stable to declining trend since May 2017 while Special Conditions Referrals have been increasing since 2012.

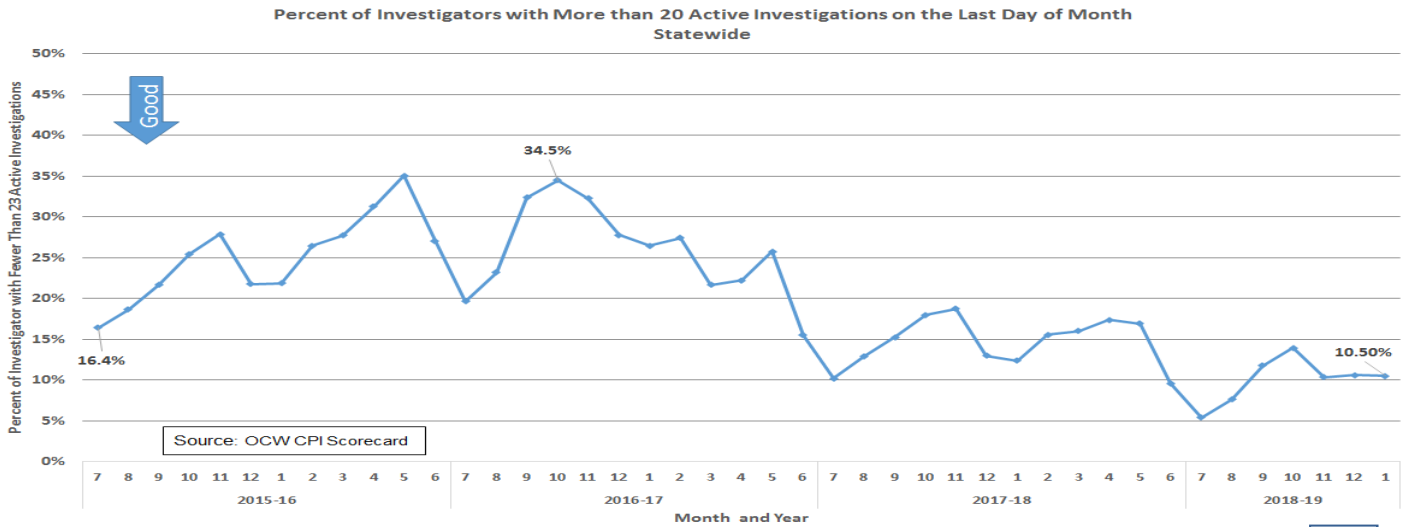

Special Conditions: Stratified by Type and by County

As observed in the data, the increasing trend in special conditions is largely due to the increase in child-on-child referrals which has seen a 3.64% increase compared to January of 2018. All other special condition types have remained fairly flat.

Statewide: More Than 20 Active Investigations

The percentage of investigators, DCF and SO areas combined, that were carrying more than 20 active investigations as of the last day of the month remained close to the prior month's performance at 10.5%.

Stratification More Than 20 Active investigations by DCF Circuit and Sheriff's Office

Note that the bulk of CPIs carrying more than 20 active investigations are in those areas where a sheriff office conducts the investigations. The majority of DCF investigators that area carrying more than 20 active investigations currently reside in the Northwest, Northeast, and Southeast Regions

Data Source: OCW CPI Scorecard Dashboard

Active Investigations by Cohort

Department-wide efforts designed to ensure that no DCF CPI is carrying a caseload greater than 20 cases have been extremely successful. As of January 30, 2019, only 2.9% (38/1,318) of the DCF investigative area workforce was carrying more than 20 active investigations.

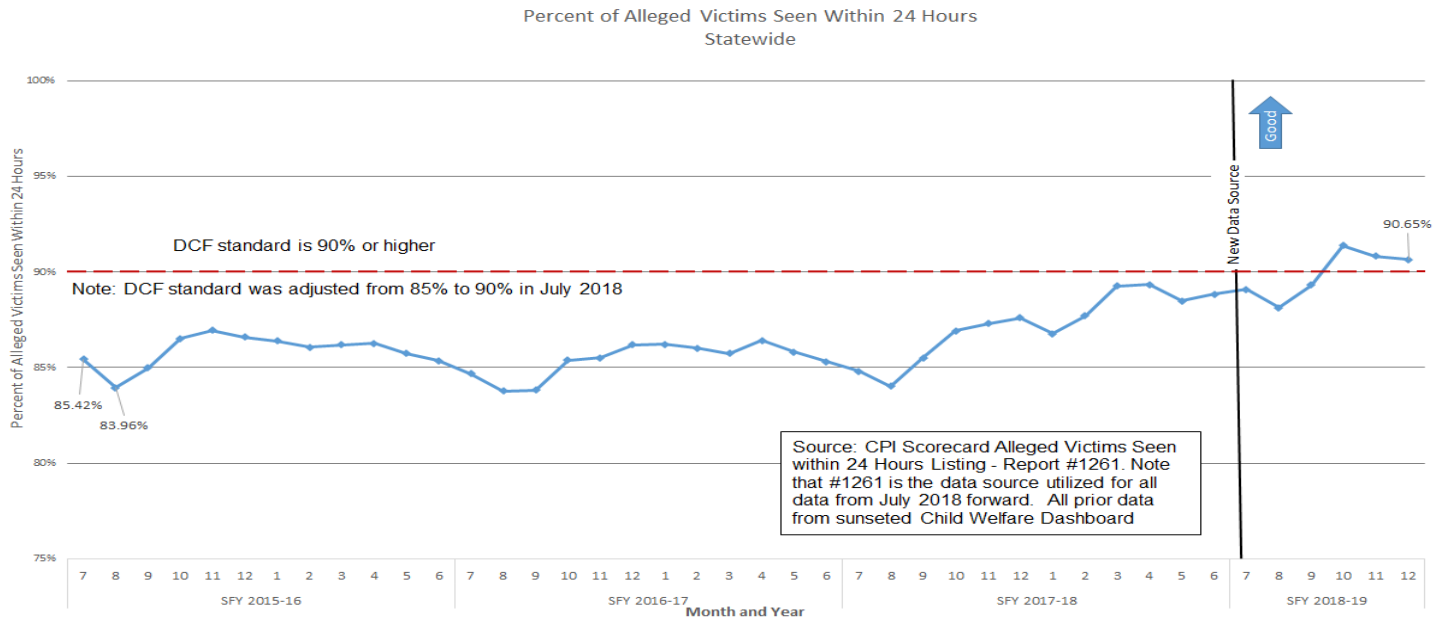

Timeliness Trends

Statewide: Alleged Child Victims Seen Within 24 Hours

Since implementation of 90% or higher target in July 2018, overall statewide performance for this measure has stabilized at a level that is above the target.

Stratification Alleged Victims Seen Within 24 Hours by DCF Circuit and Sheriff's Office

Fourteen of the twenty-four investigative areas were compliant with the 90% DCF standard for victims seen within 24 hours in December 2018. Areas that have failed to reach the target for at least three consecutive months are Circuits One, Two, Three, Four, Eight, Twelve, and Fourteen. As noted above, #1261 is the new data source for this measure for all data from July 2018 forward.

Data Source: CPI Scorecard Alleged Victims Seen within 24 Hours Listing - Report #1261

Statewide: Child Investigations Completed Within 60 Days

While there has been steady improvement for this metric since October 2016, January 2019 marks the 66th consecutive month that the Department has failed to meet the 99% standard for investigations completed in 60 days.

Stratification Child Investigations Completed Within 60 Days by DCF Circuit and Sheriff's Office

Six of the twenty-four investigative areas met the 99.0% standard for completing investigations within 60-days. Only Circuits 5, 8, 11, 18, Manatee SO and Seminole SO have met the 99% and of these only Circuit 5, 11, and Manatee SO have met the standard for 3 or more consecutive months. As noted above, #1198 is the new data source for this measure for all data from July 2018 forward.

Data Source: Investigation Closure Determination by Closed Date Parameters - OCWDRU Report #1198

Safety Determinations and Services Provided

M

Statewide: Children Determined Safe at Investigative Closure by Post Investigation Service

This new chart looks at all children with a safety determination of 'safe' in investigations closed during the month and shows what post investigation service (if any) the child is receiving. Due to the overwhelming percentage of children closing safe who do not receive post investigation services the "no services" percentage is displayed on a secondary (right) axis as an area chart.

Stratification by CBC

M

There is great variation between CBCs for service provision for safe children, with some CBCs providing services to nearly 10% of the safe population in closed investigations in their service area, and others providing services to less than 1%.

Statewide: Children Determined Unsafe at Investigative Closure by Post Investigation Service

M

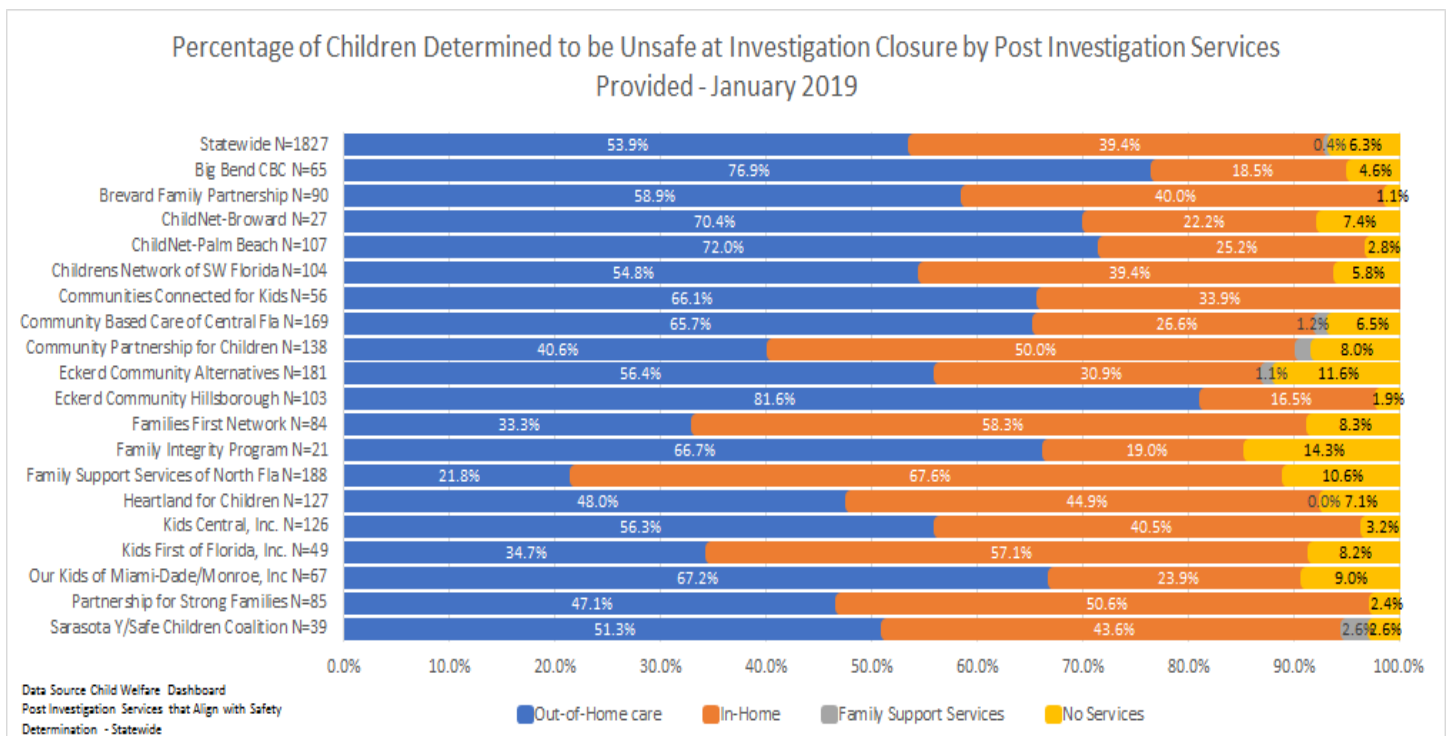

This new chart looks at all children with a safety determination of 'unsafe' in investigations closed during the month and shows what post investigation service (if any) the child is receiving. Statewide the percentages for all four service categories have been extremely stable over the last four years.

Stratification by CBC

M

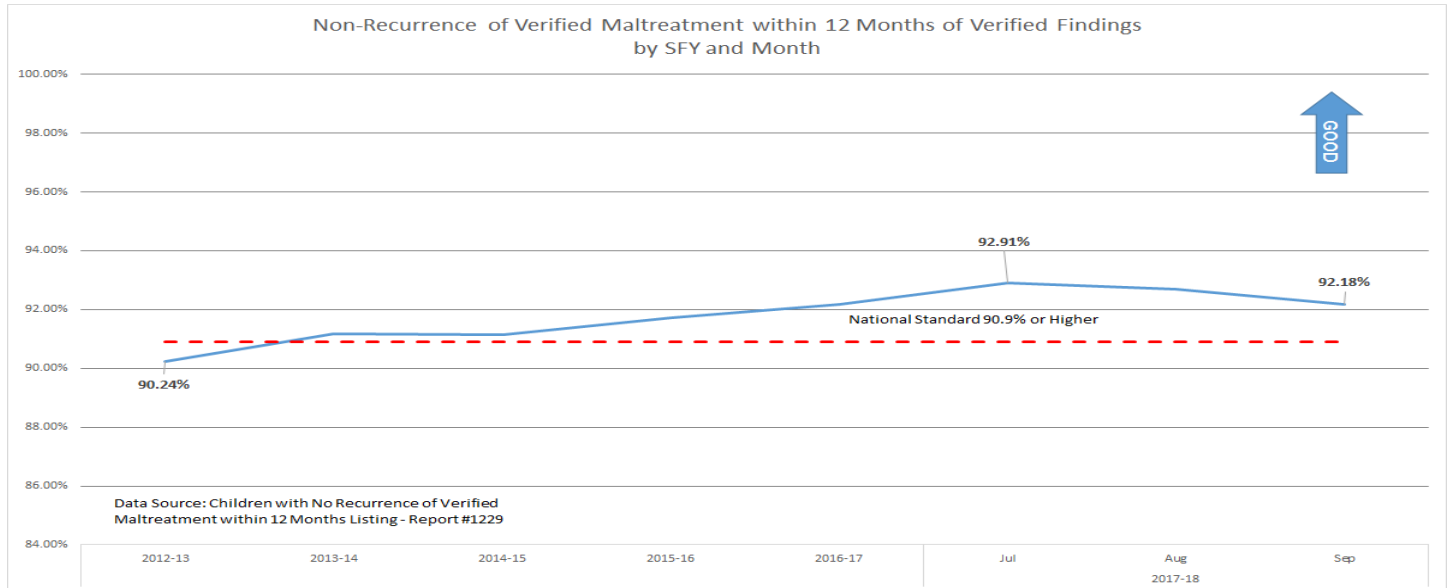

There is great variation between CBCs for service provision for unsafe children. Big Bend and Eckerd Hillsborough had the highest percentage of unsafe children entering out-of-home care in January 2019, while Family Support Services of North FL, Families First, and Kids First served more than half of their unsafe children with in-home services.

Statewide Children with No Recurrence of Verified Maltreatment within 12 Months

Q

This measure is utilizing a new data source to measure monthly performance. For investigations that were active in September 2017 that had a verified maltreatment, only 7.2% generated a new verified maltreatment report over the next 12 months. This places statewide performance at a level that exceeds the national standard of 90.9% for this measure. The most recent national data which has been stratified to the state level for this measure is from 2012/2013. Florida would rank 28th among states if comparing current performance to the available 2013 data. Wyoming led all states in 2012/2013 at 97.3%.

Stratification by DCF Circuit and Sheriff's Office

Q

There is wide variation among the circuits and sheriff's offices on this indicator. Within the current SFY only Circuit 2 has failed to meet the national standard for 3 or more months. At the annualized level, Pinellas SO, Seminole SO, and Circuit 18 have failed to meet the national standard across most recent annualized consecutive years.

Data Source: Children with No Recurrence of Verified Maltreatment within 12 Months Listing - Report #1229

CPI Workforce Monthly Separations

M

The number of Child Protective Investigators that separated from the department has been stable since July 2017 except for approximately four peaks within the data. Note that since May 2018 the volatility in the upper and lower levels has normalized somewhat and is now operating in the range of 40 CPI separations per month. This would indicate that CPI separations appear to be moving into a period of stability.

CPI Time in Classification

M

The addition of new CPI positions is skewing this data towards inexperience within the CPI work force. As these new positions are filled and move through the standard workforce attrition cycle it is expected that the displayed counts and percentages will stabilize in the 20.0%-25.0% range for CPI positions that were vacant or had less than 6-months experience and the 45.0% to 47.0% range for CPI positions that were vacant or had less than 1-year experience.

Flow from CPI to CBC Lead Agencies

Removals and Removal Rates

Statewide Trend

M

The number of children removed in January 2019 was 1,204 with a removal rate of 5.1.

M

Out-of-Home Care Entries Cumulative Count by SFY

The year-over-year cumulative count of out-home-care entries for January 2019 was 8,665. This is 6.2% lower than last year's total of 9,240.

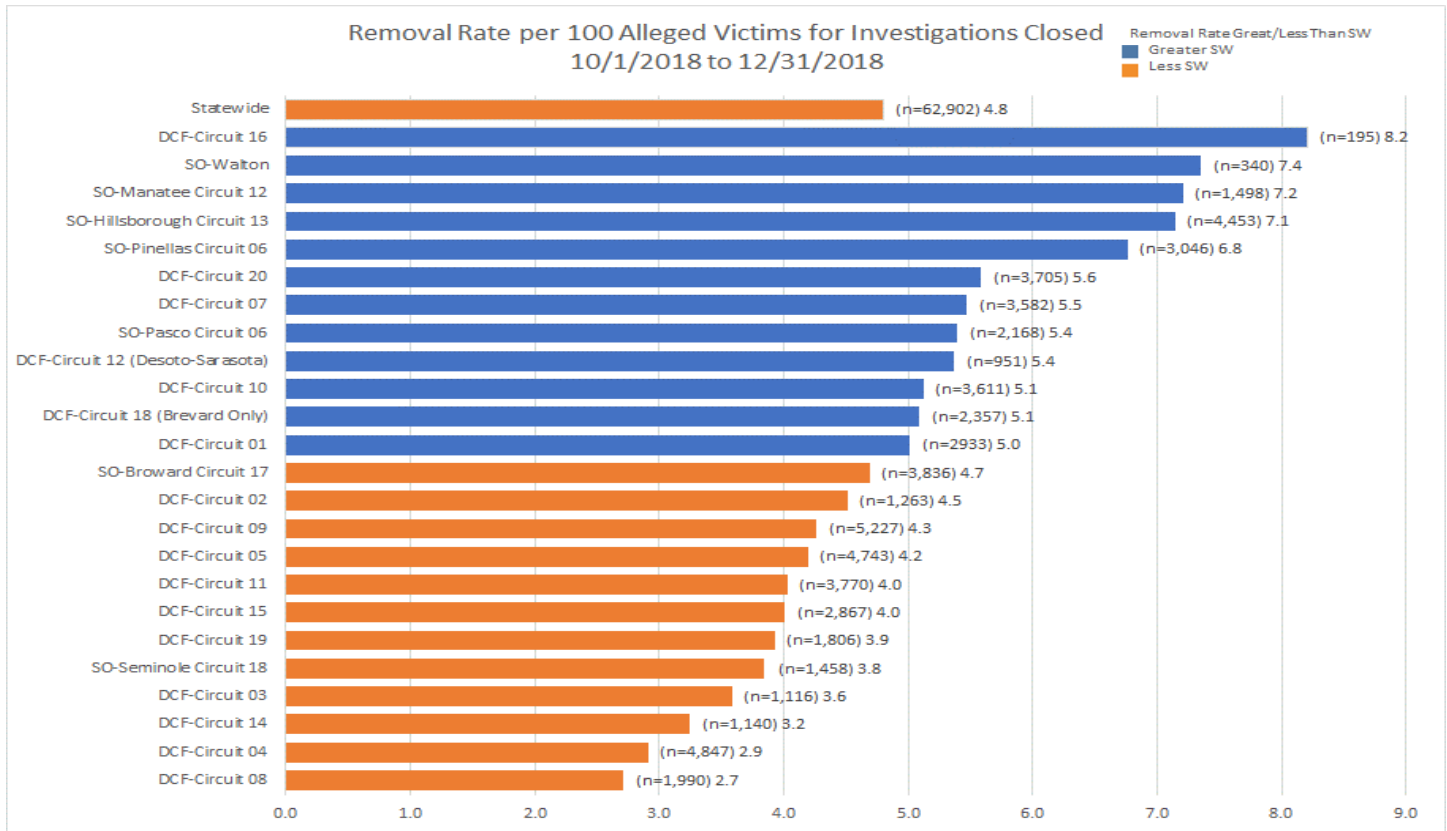

Cumulative Count of Out-of-Home Care Entries
Statewide
by State Fiscal Year

Quarterly Stratification by Circuit and Sheriff's Office

Q

There remains wide variation among circuits and sheriff's offices on this indicator. Removal rates range from 2.7 to 8.2 per 100 alleged victims.

*Sep 2017 - Measure changed from per 100 children investigated to per 100 Alleged Victims.

Quarterly Stratification by Circuit and CBC Lead Agency

Q

*Sep 2017 - Measure changed from per 100 children investigated to per 100 Alleged Victims.

Eligibility

Title IV-E and TANF Eligibility Licensed Substitute Care and Adoption Eligibility

Q

Percentage of Children in Licensed Substitute Care that were Title IV-E Eligible or in a Non-Reimbursable Placement

The percentage of children in out-of-home care that are deemed to be Title IV-E eligible or that are in a non-reimbursable placement remained relatively flat, in the range of 67.0%.

Percentage of Children with a Goal of Adoption that are Title IV-E or TANF Eligible and

Q

Count of Children with a Goal of Adoption Awaiting Finalization or have No Applicable Eligibility

The percentage with a goal of adoption that were classified as Title IV-E or TANF eligible has stabilized in the range of 55.0% after declining since January 2015. Note the increase in children awaiting finalization by the CIC or where the child has no eligibility determination since June 2016. As of September 2017, approximately 1/3 of these pending eligibility cases were located within the Eckerd Community Alternatives (Pasco & Pinellas Counties) system of care.

Community-Based Care Lead Agencies

Caseload Indicators

Statewide Trends in Case-Managed Services

M

There were 23,616 children in out-of-home (OHC) care on January 31, 2019, which remained stable compared to the consistent upward trend in OHC observed since the middle of 2013. The trend for children receiving in-home services has remained relatively flat for three years, with 10,989 children receiving in-home services on January 31, 2019.

Services Mix

M

There continues to be variation among circuits regarding in-home and out-of-home care services, with the widest variation occurring in the use of Family Support Services.

Data Source: FSN Data Repository, Tableau Data Source

Removals and Discharges Compared to Out-of-Home Care Trend

The number of removals increased slightly from 1,099 in December 2018 to 1,204 removals for January 2019. However, the number of discharges has decreased from 973 in December 2018 to 841 discharges during January 2019.

Placement Types Compared to Children in Out-of-Home Care Trend

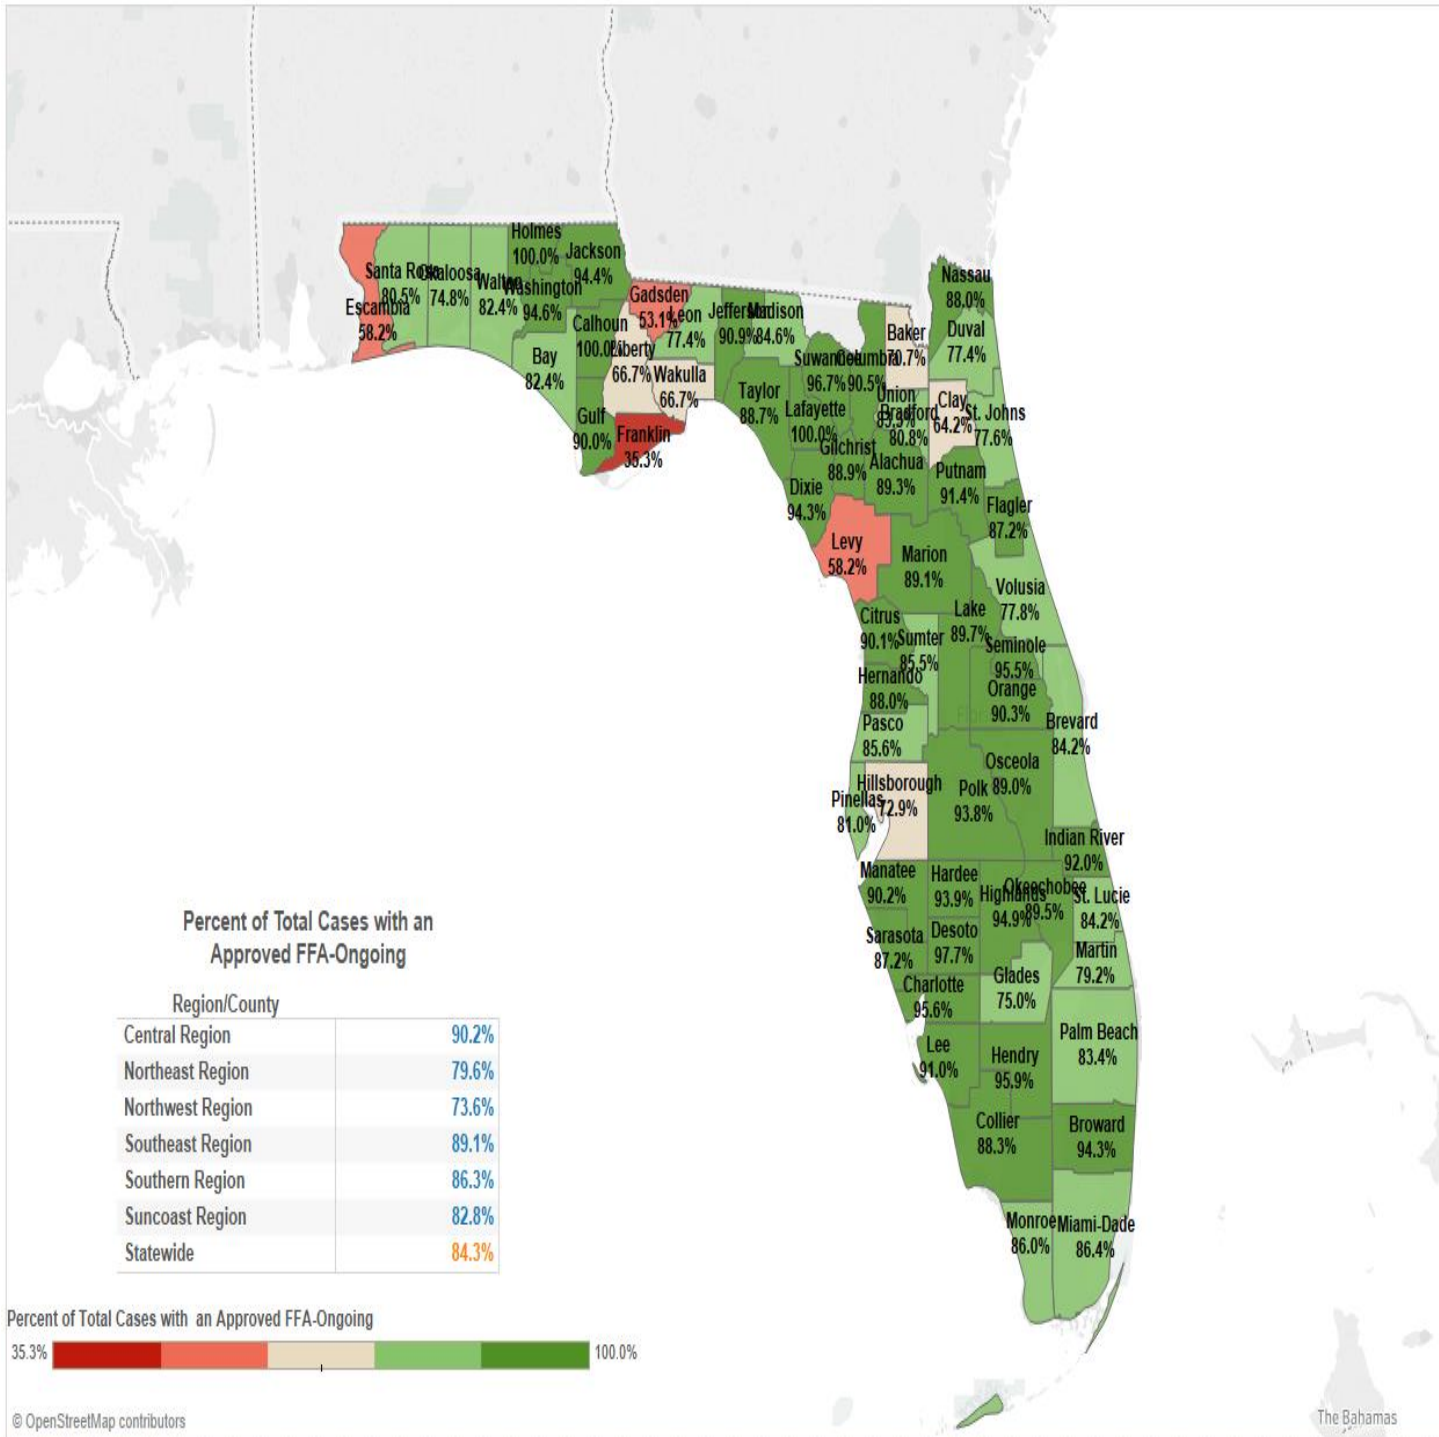

As of January 31, 2019, there were 23,616 children in out of home care with 10,234 in relative care placement, 7,096 in a licensed family foster home, 3,170 in non-relative care, 1,987 in licensed group care, and 987 in other placements.

Family Functioning Assessment-Ongoing Implementation Map

This Tableau map provides county-specific percentages, as well as percentages by region. Please note that this map is a snapshot in time and does not reflect closed cases that utilized an FFA ongoing. Zero percent for some counties may result from a small number of cases or cases assigned to other counties. It is important to note the change in the scale from previous months.

Percentage of Cases with Approved FFA Ongoing as of 02/18/2019

Source: FSFN report Active Cases with an Approved FFA-Ongoing – OCWRU #1084
 Notes: Small number of cases assigned to the county will affect percentages. Based on location of primary worker. Counties with no cases assigned to them will not appear in the map.

Family Support Services “Prime” Counts

This measure shows the number of children in investigations closed during the quarter who met all “FSS Prime” criteria of: 1) being deemed safe; 2) being high or very high risk, 3) having a Family Support Services module opened within 45 days of investigative closure, and 4) having an attempted or completed face-to-face contact within 45 days of investigative closure. Data is lagged to allow note entry and Family Support Services module creation.

Safety Indicators

Q

Child Safety Trends: Comparison of Three Indicators

Children continue to be safer while receiving services than after termination of services:

- The percent of children with no verified maltreatment during case-managed in-home services was 97.4%, for July through September 2018. The state continues to exceed the set target for this measure at 95%.
- The percent of children with no verified maltreatment within six months after termination of case-managed services was 95.9% for January through March 2018. The state continues to exceed the set target for this measure at 95%.
- The percent of children with no verified maltreatment within six months of termination of Family Support Services was at 93.9% for those terminating January through March 2018. This measure does not have a set target.

Safety of Children During Case-Managed In-Home Services and Within Six Months of Termination from Family Support Services and Case-Managed In-Home Services Statewide

Sources: FSFN OCWDRU reports #1109, #1115, and "No Maltreatment within 6 Months of Family Support Services Summary"

Child Safety During Case-Managed In-Home Services

Q

Statewide performance for period July through September 2018 was 97.4%, and all lead agencies exceeded the target.

Source: FSN Report - "No Maltreatment within 6 Months of Family Support Services"

● Child Safety in Out-of-Home Care ★

Q

This measure is generated by taking the total number of reports with at least one verified maltreatment and dividing it by the total number of days in foster care for all children, with the result multiplied by 100,000 to calculate the rate of victimization per 100,000 days in foster care. The data for this quarter continues to show wide variation among the CBCs, with statewide performance meeting the national standard of 8.50 or less. The most recent national data which has been stratified to the state level for this measure is from 2013. Florida would rank 32nd among states if comparing current performance to the available 2013 data. Wyoming led all states in 2013 at 1.16.

Source: Child Welfare Dashboard - Abuse During Services

Note: The data in this table has been updated to match the Child Welfare Dashboards for this measure. Each quarter of data reflects a rolling twelve (12) month period ending two (2) months prior to the end of the state fiscal quarter.

Permanency Indicators

Q

Statewide Trend: Permanency Within 12 Months of Removal

Permanency within 12 Months of Removal is our primary indicator of timely permanency. Statewide performance is at 37.5%, which is below the 40.5% national standard and the lowest point in five years. The most recent national data which has been stratified to the state level for this measure is from 2012. Florida would rank 29th among states if comparing current performance to the available 2012 data. Arkansas led all states in 2012 at 63.8%.

Stratification by CBC Lead Agency

Q

Seven of the lead agencies exceed the national standard of 40.5%.

● Children Achieving Permanency Within 12 Months for Children in Care 12-23 Months ★ Q

With 53.8% of children achieving permanency within 12 months for children in foster care 12-23 months, Florida continues to exceed the national standard of 43.6%. The most recent national data which has been stratified to the state level for this measure is from 2014. Florida would rank 6th among states if comparing current performance to the available 2012 data. Idaho led all states in 2014 at 62.6%.

Stratification by CBC Lead Agency

Statewide performance continues to exceed the national average with all but two CBCs exceeding standard. Q

● Children Achieving Permanency Within 12 Months for Children in Care 24+ Months ★

With 44.72% of children achieving permanency within 12 months for children in foster care 24+ months, Florida continues to exceed the national standard of 30.3%. The most recent national data which has been stratified to the state level for this measure is from 2014. Florida would rank 1st among states if comparing current performance to the available 2014 data. West Virginia led all states in 2014 at 44.3%.

Stratification by CBC Lead Agency

Statewide performance is 44.7% and all areas exceed the 30.3% national standard.

Source: FSN OCWDRU #1196 -- "Children Exiting Foster Care to a Permanent Home within 12 Months for Children in Foster Care Twenty-Four Months or More"

Length of Stay for Children Exiting Care by Exit Type

Length of stay for children that exited out-of-home care has been steadily increasing and is now approximately two to three months longer than it was in January 2014. On average children exiting care to reunification (up 1.5 months), guardianship (up 2.9 months), and adoption (up 2.43 months) have all increased and on average children are now spending an additional 3.48 months (14.34 months compared to 17.82 months) in out-of-home care than they were in January 2014.

Percentage of Exits by Exit Type

The percentage of children exiting out-of-home care to reunification has been declining and is currently down 7.3% since January 2014. Similarly, children exiting care to a guardianship is down by 11% since January 2014. Note the associated 19% increase in the number of children exiting care to adoptions.

CBC Exit Counts, Percentage of Exits, and Average Length of Stay by Reunification Exit Type
 The table below shows that the proportion of exits from out-of-home care to reunification began to decline in SFY 2016-17. At the same time the average duration to exit to reunification began to increase. Since then the decline in proportion and average time to exit to reunification has intensified.

CBC Exit Counts, Percentage of Exits, and Average Length of Stay by Guardianship Exit Type

The table below shows the decline in the percentage of exits from out-of-home care to guardianship began to decline in SFY 2016-17. At the same time, average duration to exit to guardianship began to increase. Since then the decline in the proportion and average time to exit to guardianship have both intensified.

Data Source: Children Entering and Exiting Foster Care On-Demand Listing - OCWDRU Report #1182

Statewide Trend: Percent of Children Who Do Not Re-Enter Care within 12 Months of Achieving Permanency

Statewide performance for the most recent available quarter decreased to 90.5%, below the national standard of 91.7%, but an improvement over last quarter's 88.7%. The most recent national data which has been stratified to the state level for this measure is from 2012. Florida would rank 30th among states if comparing current performance to the available 2012 data. Delaware led all states in 2012 at 97.9%.

Stratification by CBC Lead Agency

Ten of 20 CBCs met or exceeded the national standard of 91.7%.

Source: FSFN OCWDRU #1099 - "Children Who Do Not Re-Enter Foster Care within Twelve (12) Months of Moving to a Permanent Home"

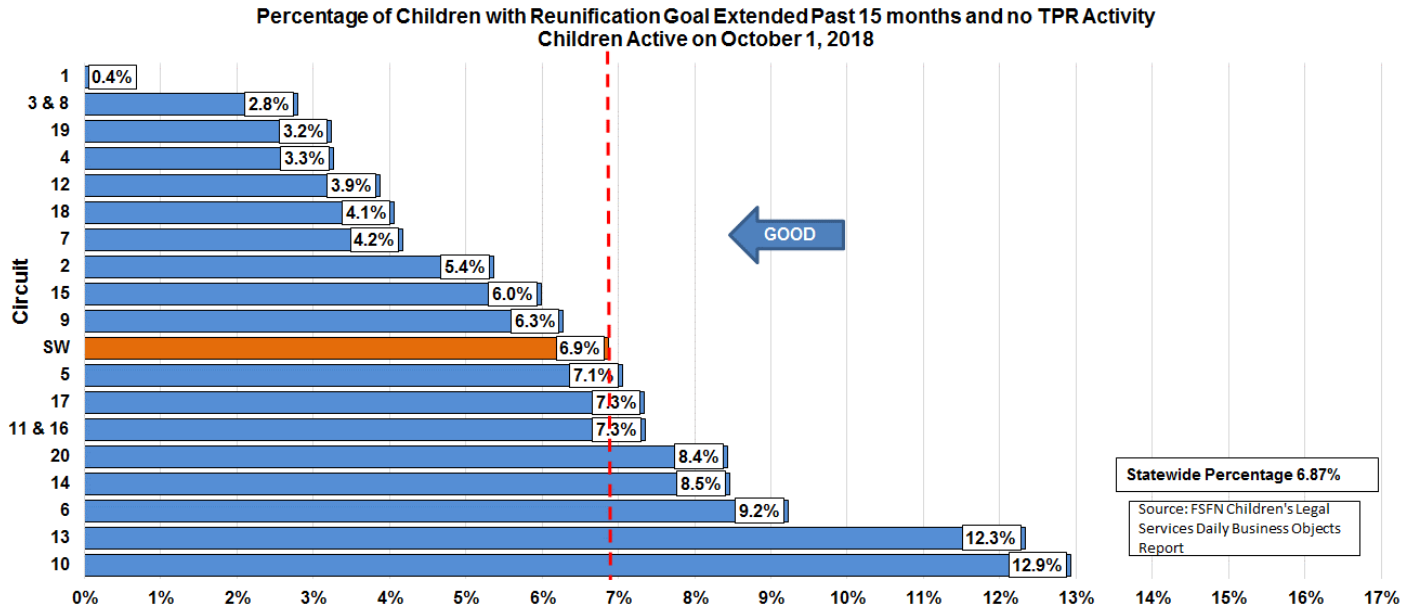

Timeliness of Judicial Handling

M

These Children’s Legal Services indicators are directly related to the indicators of timely permanency.

● Reunification Goal After 15 Months and No Termination of Parental Rights Activity

The statewide average for SFY 2018-19 is currently 6.87% as of September 30, 2018. Circuit goals are set for each period after review of baseline information. There are currently data issues with the FSFN reporting structure that prevent this measure from being updated.

M

Timeliness of Termination of Parental Rights, from Petition to Order

The statewide average for SFY 2018-19 is currently 157 days as of September 30, 2018. Circuit goals are set for each period after review of baseline information. There are currently data issues with the FSFN reporting structure that prevent this measure from being updated.

● Time from Removal Date to Disposition Order

The statewide average of 58 days is well below the established target of 90 days and only Circuit 14 is currently above the 90-day target.

Maintaining Connections in Placement

Q

Statewide Trend: Placement Stability ★

Statewide performance has gone down to 4.41 moves per 1,000 days in foster care after trending up for several quarters, however it is still not meeting the national standard of 4.12 moves. The most recent national data which has been stratified to the state level for this measure is from 2013/2014. Florida would rank 32nd among states if comparing current performance to the available 2013/2014 data. Rhode Island led all states in 2013 at 2.60.

Stratification by CBC Lead Agency

Q

Statewide performance, currently at 4.41 moves per 1,000 days in foster care, does not meet the national standard of 4.12 moves. There is wide variation among the lead agencies, with nine meeting the standard.

Good

Prescribed Psychotropic Medications

Children in Out-of-Home Care with Prescribed Psychotropic Medications

M

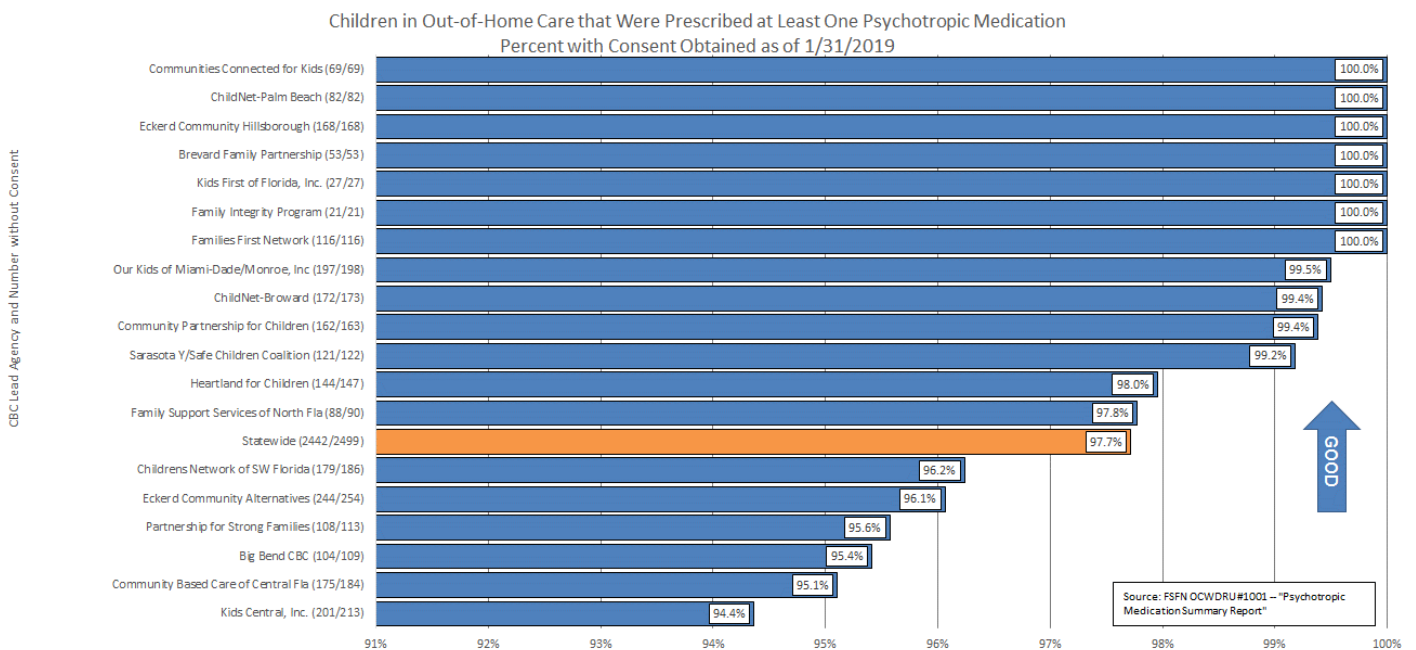

The statewide percentage of children in out-of-home care that are prescribed at least one psychotropic medication on January 31, 2019 was 10.2%. This was the same percentage as observed in December 2018 and this percentage has been consistent over the last 12 months.

Children with Consent for Prescribed Psychotropic Medications

M

In order to administer psychotropic medication to a foster child, parental consent or a court order must be obtained, unless the child is receiving inpatient services, or a physician certifies that delay would be likely to harm the child. On January 31, 2019, the statewide percentage of children with at least one prescribed psychotropic medication where consent was obtained was 97.7% and seven CBCs were at 100%. This is consistent with past observations for this measure. Also note that no single CBC dominates noncompliance with the range of noncompliance falling within two to ten children for the CBC that failed to reach the 100% target.

Medical Services

Q

● Children Receiving Medical Services in Last Twelve Months

The statewide percentage of children receiving recent medical services has consistently been above the statewide standard and stood at 97.7% as of December 31, 2018. Only two CBCs failed to meet the standard.

Education Program Enrollment

Q

● Young Adults Aging Out Enrolled in Education Programs

This is one indicator of preparation for adulthood but does not control for any of the many variables that influence this preparation, including time in care and the child’s educational level when entering care. Statewide performance in this measure has been relatively stable and above the statewide target for the past 3 years.

Dually Served Youth

M

Statewide Trend: Youths Served by CBC Lead Agencies and Juvenile Justice

The number of youths served by both the child welfare system and the juvenile justice system in January 2019 was 1,004. This measure does not have a specified target.

Stratification by CBC Lead Agency

M

The number of youths served by both systems (DCF and DJJ) is variable among the lead agencies but is related to the total number of youths served by each lead agency.

Missing Child

M

Average Number of Children Categorized as Missing from Care and Supervision

Another decline in the number of children categorized as missing from the care or supervision of the Department was observed in January. The daily average of average of 171.4 for January 2019 was down -18.1% from the January 2018 daily average of 209.2. This decline is not inconsistent with general missing children trends. FDLE reported a 16% decline in the number of non-DCF children reported as missing to FDLE between 2017 and 2018. However, January 2019 Missing Child Reports (MCRs) entered in FSFN are down significantly when compared with last year for the same time period within Family Integrity Program (-85.7%), Big Bend CBC (-81.2%), Kids First (-50.0%), Children’s Network of SW FL (-39.5%), Community Partnership for Children (-39.5%), CBC of Central FL (-29.6%), ChildNet-Broward (-27.5%) and ChildNet-Palm Beach (-25.0%)

Child Reports Entered in FSFN within One Working Day

M

Statewide performance for January 2019 increased to 85.2% from in December 2018. These percentages appear to consistent with past performance for this measure.

Resolution of reports within 3 days

There was a significant upward bump in the percentage of children located with 3 days for all January 2019 MCR entries. 74.2% of children that were classified as missing in January 2019 had their missing child case resolved within 3 days. This was up from December 2019 percentage of 66.8%. Shorter duration missing child episodes could be impacting the average daily missing child counts

Human Trafficking

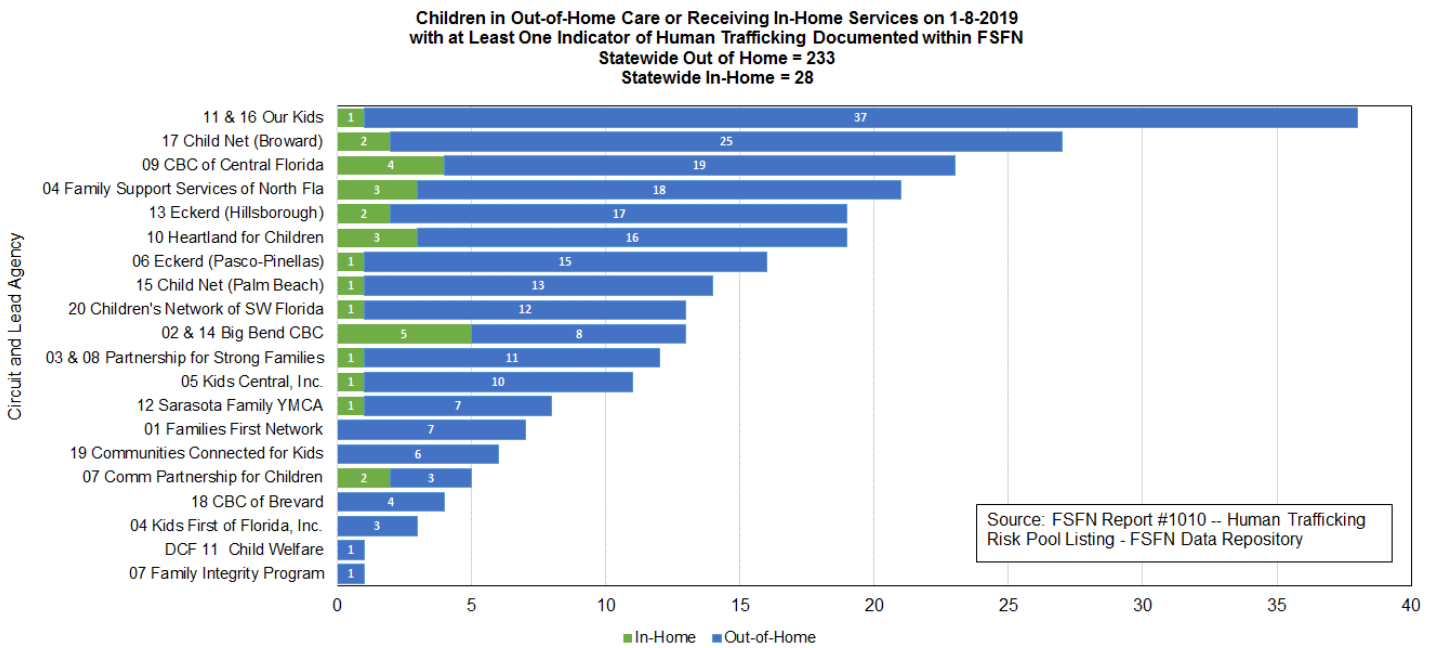

Human Trafficking Intakes Trend

The number of Human Trafficking Reports (Initial and Additional) accepted by the Hotline appear to have entered a seasonal cycle while the percentage of human trafficking allegations that are closed as verified, not substantiated or no indicators have also stabilized.

Children with Indication of Human Trafficking by CBC Lead Agency

The number of children in out-of-home care or receiving in-home services with at least one FSFN indicator of being a victim of Human Trafficking remains concentrated within Florida's urban centers.

Florida CQI and CFSR

The following table provides statewide and lead agency outcome ratings from FL CQI and CFSR data around Safety, Permanency, and Well-being.

	Safety Outcome 1		Safety Outcome 2		Permanency Outcome 1		Permanency Outcome 2		Well-Being Outcome 1		Well-Being Outcome 2		Well-Being Outcome 3				
	Outcome Rating		Outcome Rating		Outcome Rating		Outcome Rating		Outcome Rating		Outcome Rating		Outcome Rating				
Assessment of Child Welfare Practice Q2 October - December 2018	Number of Cases in Sample	Children are, first and foremost, protected from abuse and neglect.	Children are safely maintained in their homes whenever possible and appropriate.	Children have permanency and stability in their living situations.	The continuity of family relationships and connections is preserved for children.	Families have enhanced capacity to provide for their children's needs.	Did the agency make concerted efforts to assess the needs of and provide services to meet their educational needs, children, parents, and foster parents to identify the	Children receive appropriate services to meet their educational needs.	Children receive adequate services to meet their physical and mental health needs.

Child Care and Domestic Violence

Child Care Regulation

● Child Care Inspections per Month

M

For December 2018, 100% of home inspections of facility inspections were completed within 45 days.

Domestic Violence

● Percent Victims Leaving a Shelter with a Family Safety and Security Plan

M

The percent of adult victims leaving a shelter after 72 hours with a Family Safety and Security Plan in January 2019 was 100%, continuing to exceed the target of 97%.

CBC Lead Agencies	Robin Preston	Asst. Sec. of Operations / RMD	Dually Served Youth	57	Imaging Lite Filing, Match File from FSFN/JJIS	Number of youth served by both DCF and DJJ
CBC Lead Agencies	Hans Soder	Director of the Hotline	Average and % of Children Categorized as Missing	58	FSFN Missing Child Data	Average missing is the average number of children appearing categorized as missing with each of the missing child listings for the month. For example, 28 individual missing child list for February are summed and then divided by 28 to generate the average daily missing child count. This total is then divided by the total number of children in out-of-home and in-home as determined by subtracting young adults from the Children Active by Primary Worker for the 15th day of the month.

Section	Analytical Process Owner	Business Owner	Chart	Page No.	Source	Algorithm
CBC Lead Agencies	Hans Soder	Director of the Hotline	Missing Child Reports Entered into FSFN within One Working Day	58	FSFN Missing Child Data	All missing child episodes entered in FSFN as determined by Missing Child Entry Date in FSFN (time stamp) subtracted from Date FSFN CBC/CPI Notified of Missing Child (free text) with total resulting in number of days from notification to entry. Entries are reviewed to determine if entry was in one working day and then all missing child episodes that were entered in FSFN within one working day are divided by all missing child entries for the month.
CBC Lead Agencies	Hans Soder	Director of the Hotline	% Missing Child Reports Resolved within 3 Days	59	FSFN Missing Child Data	Subtract child's recovery date (FSFN free text) from child's missing from date (FSFN free text) to calculate a missing from care duration. Divide all episodes entered within the month that were resolved within three days or less from the total number of missing child reports entered within the month.
