System Overview

Florida's community-based child welfare system is comprised of a partnership between the Department of Children and Families (DCF), other state agencies, the courts, law enforcement agencies, service providers, and local communities.

There are over four million children in Florida of which most fortunately do not come to the attention of the system. For those children who do enter the system, entry begins with reports of allegations of abuse or neglect made to the Florida Abuse Hotline, operated by DCF. The Florida Abuse Hotline receives more than 350,000 child-related calls annually. Calls received are screened to determine if the criteria are met to initiate a protective investigation.

If criteria are met, the report is referred to a local Child Protective Investigations (CPI). Statewide there are over 240,000 protective investigations conducted annually. These investigations are conducted by DCF in 60 counties. In the remaining 7 counties, including Broward, Hillsborough, Manatee, Pasco, Pinellas, Seminole, and Walton, county sheriff's offices perform the investigations. Investigators determine the need for post-investigation services, including protecting the child through removal and placement in out-of-home care or through case-managed, in-home services (by court order or non-judicially), or through informal voluntary family support services. For SFY 2018-2019, over 37,000 children were served in out-of-home care.

Florida statute requires that post-investigation services be provided through contracting with community-based care lead agencies (CBCs). There are 17 Community-Based Care (CBC) lead agencies that each provide coverage to specific geographic areas within the 20 Judicial Circuits in Florida. Several lead agencies cover more than one geographic area and areas may include one or multiple counties. In two instances, the CBC lead agency serves two geographic areas under separate contracts, lending to 19 lead agencies displayed within the CBC tables of this report. Although services vary among CBC lead agencies, they have a shared role in participating and ensuring safety, permanency, and well-being for all children in the state.

The monthly Child Welfare Key Indicators Report presents data for the Florida Abuse Hotline, Child Protective Investigations, CBC lead agencies, as well as other key metrics describing the state of the Florida Child Welfare System.

Reporting Method Trends

The Florida Abuse Hotline offers a variety of methods for citizens to report concerns about children and vulnerable adults. A modification was made within the system, resulting in the tracking of webs and faxes together. Webs were previously represented by the green line within the graph below, however beginning in March 2017, webs were combined with faxes, now represented by the red line.

Investigative Workload: Incoming, Active, and Backlog Investigations

On the trend level, both accepted child abuse intakes and open active investigation decreased in December. On a year-over-year basis, accepted child abuse intakes-all types and special conditions were down 299 (-1.8%) from the prior December. Active investigations as of December 31, 2020 were down 840 (-4.8%) from the prior December. Investigations open more than 60 days as of December 31, 2020 increased to 353 (2.1% of all active investigations).
Investigative Workload: Backlog Stratified by Region

M

The recent steep decline in active investigations as of the last day of the month as skewed the percentage of active investigation in backlog upwards. However, as the number of active investigations as of the last day of the month has returned to more normal levels the percentages have stabilized in the range of 2.0%. Note the upward trend in the percentage of investigations open greater than 60 days over the last four months.

Safety Determinations and Services Provided

Statewide: Children Determined Safe at Investigative Closure by Post Investigation Service

This chart looks at all children with a safety determination of 'safe' in investigations closed during the month and shows what post investigation service (if any) the child is receiving. Due to the overwhelming percentage of children closing safe who do not receive post investigation services the "no services" percentage is displayed on a secondary (right) axis as an area chart.

Percentage of Children Determined to be Safe at Investigation Closure by Post Investigation Services Provided
Data Source: Child Welfare Dashboard Post Investigation Services that Align with Safety Determination

Stratification by CBC

There is great variation between CBCs for service provision for safe children, with some CBCs providing services to over 15% of the safe population in closed investigations, and others providing services to less than 10%.

Children Determined Unsafe at Investigative Closure by Post Investigation Service

This chart looks at all children with a safety determination of 'unsafe' in investigations closed during the month and shows what post investigation service (if any) the child is receiving. Statewide the percentages for all four service categories have been extremely stable over the last four years.

⬤ Statewide Children with No Recurrence of Verified Maltreatment within 12 Months

Statewide performance for this measure has been at, or above, the federal standard of 90.9% since July 2016.
⬤ Stratification by DCF Circuit and Sheriff's Office

Only four investigative areas failed to reach the 90.9% target in December. There generally is no discernable pattern that indicates ongoing poor performance within any area of the state.

Family Support Services "Prime" Counts

This measure shows the number of children in investigations closed during the quarter who met all "FSS Prime" criteria of: 1) being deemed safe; 2) being high or very high risk, 3) having a Family Support Services module opened within 45 days of investigative closure, and 4) having an attempted or completed face-to-face contact within 45 days of investigative closure. Data is lagged to allow note entry and Family Support Services module creation.

⬤ Child Safety in Out-of-Home Care

This measure is generated by taking the total number of reports with at least one verified maltreatment and dividing it by the total number of days in foster care for all children, with the result multiplied by 100,000 to calculate the rate of victimization per 100,000 days in foster care. The data for this quarter shows only four lead agencies failed to meet the standard. Statewide performance has continued to improve over the past four quarters exceeding the national standard of 8.50 or less.

Child Safety During Case-Managed In-Home Services

This measure is generated by taking the total number of days the child received service and dividing by the number of verified maltreatment reports during the report period. This is a rolling 12 months ending 3 months prior to the end of the quarter. Statewide performance for the quarter ending December 2020 was 95.56%, and all but four lead agencies met or exceeded the 95% target.

Length of Stay for Children Exiting Care by Exit Type

Length of stay for children that exited out-of-home care has been steadily increasing and is now over four months longer than it was in January 2014. On average children exiting care to reunification, guardianship, and adoption have all increased and on average all discharged children are now spending an additional 4 months in out-of-home care when compared with January 2014.
Percentage of Exits by Exit Type

The percentage of children exiting out-of-home care to reunification had been declining since January 2014. However, beginning in July 2020 the proportion of children exiting to reunification increased while exits to adoptions declined.

Children with Consent for Prescribed Psychotropic Medications

M

In order to administer psychotropic medication to a foster child, parental consent or a court order must be obtained, unless the child is receiving inpatient services, or a physician certifies that delay would be likely to harm the child. On December 17, 2020, the statewide percentage of children with at least one prescribed psychotropic medication where consent was obtained was 98.3% and twelve CBCs were at 100%. This is consistent with past observations for this measure.

Education Program Enrollment

Young Adults Aging Out Enrolled in Education Programs

This is one indicator of preparation for adulthood but does not control for any of the many variables that influence this preparation, including time in care and the child's educational level when entering care. Statewide performance in this measure has been relatively stable and above the statewide target for the past 3 years. Youth are only included in this measure if they age out at age 18, if a youth chooses to remain in Extended Foster Care, they are not included in either the numerator or the denominator for this measure. Because of this change, the denominator of youth in this measure has been steadily declining and several CBC Lead Agencies have no youth in the measure at all, as evidenced by the blank cells. This has also impacted the statewide performance with the dwindling number of youths included in the measure.

CBC Lead Agencies	Hans Soder	Director of the Hotline	Average and % of Children Categorized as Missing	57	FSFN Missing Child Data	Average missing is the average number of children appearing categorized as missing with each of the missing child listings for the month. For example, 28 individual missing child list for February are summed and then divided by 28 to generate the average daily missing child count. This total is then divided by the total number of children in out-of-home and in-home as determined by subtracting young adults from the Children Active by Primary Worker for the 15th day of the month.
CBC Lead Agencies	Hans Soder	Director of the Hotline	Missing Child Reports Entered into FSFN within One Working Day	57	FSFN Missing Child Data	All missing child episodes entered in FSFN as determined by Missing Child Entry Date in FSFN (time stamp) subtracted from Date FSFN CBC/CPI Notified of Missing Child (free text) with total resulting in number of days from notification to entry. Entries are reviewed to determine if entry was in one working day and then all missing child episodes that were entered in FSFN within one working day are divided by all missing child entries for the month.
CBC Lead Agencies	Hans Soder	Director of the Hotline	% Missing Child Reports Resolved within 3 Days	58	FSFN Missing Child Data	Subtract child's recovery date (FSFN free text) from child's missing from date (FSFN free text) to calculate a missing from care duration. Divide all episodes entered within the month that were resolved within three days or less from the total number of missing child reports entered within the month.
