# Graph and Table Symbols

## Performance Glance

Performance indicators have been added to the titles and table of contents to assist the reader in quickly determining current performance in specific areas.

- Green dots before the titles indicate that either statewide/national targets are being met or for those measures where a target is not applicable, the previous 3-month trend is either stable or moving in the right direction.
- Red dots before the titles indicate that either statewide/national targets are not being met or for those measures where a target is not applicable, the previous 3-month trend is moving in the wrong direction.

# DCF Service Structure

## Regions, Circuits, Counties, and CBC Lead Agencies

# System Overview

Florida's community-based child welfare system is comprised of a partnership between the Department of Children and Families (DCF), other state agencies, the courts, law enforcement agencies, service providers, and local communities.

There are over four million children in Florida of which most fortunately do not come to the attention of the system. For those children who do enter the system, entry begins with reports of allegations of abuse or neglect made to the Florida Abuse Hotline, operated by DCF. The Florida Abuse Hotline receives more than 350,000 child-related calls annually. Calls received are screened to determine if the criteria are met to initiate a protective investigation.

If criteria are met, the report is referred to a local Child Protective Investigations (CPI). Statewide there are over 220,000 protective investigations conducted annually. These investigations are conducted by DCF in 60 counties. In the remaining 7 counties, including Broward, Hillsborough, Manatee, Pasco, Pinellas, Seminole, and Walton, county sheriff's offices perform the investigations. Investigators determine the need for post-investigation services, including protecting the child through removal and placement in out-of-home care or through case-managed, in-home services (by court order or non-judicially), or through informal voluntary family support services. For SFY 2017-2018, over 36,000 children were served in out-of-home care.

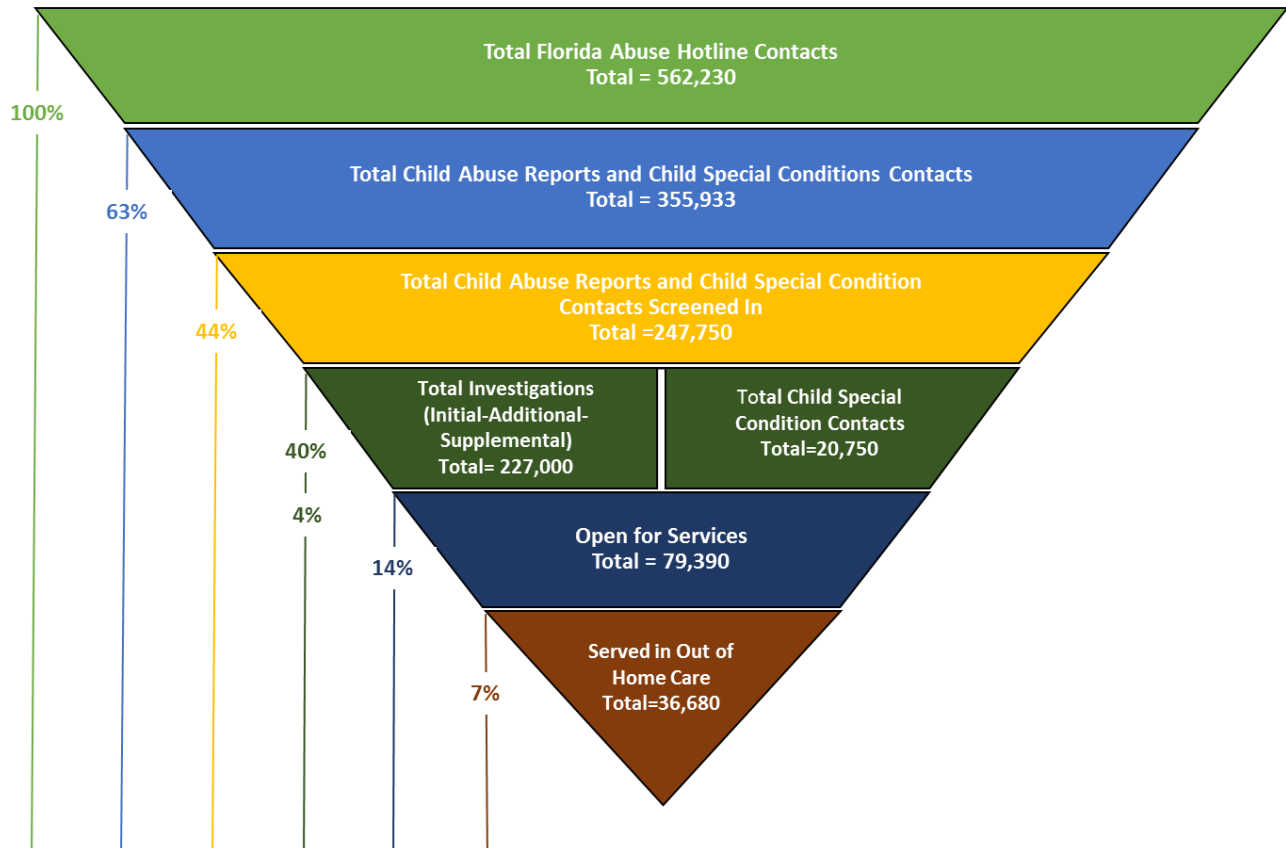

Florida statute requires that post-investigation services be provided through contracting with community-based care lead agencies (CBCs). There are 17 Community-Based Care (CBC) lead agencies that each provide coverage to specific geographic areas within the 20 Judicial Circuits in Florida. Several lead agencies cover more than one geographic area and areas may include one or multiple counties. In two instances, the CBC lead agency serves two geographic areas under separate contracts, lending to 19 lead agencies displayed within the CBC tables of this report. Although services vary among CBC lead agencies, they have a shared role in participating and ensuring safety, permanency, and well-being for all children in the state.

The monthly Child Welfare Key Indicators Report presents data for the Florida Abuse Hotline, Child Protective Investigations, CBC lead agencies, as well as other key metrics describing the state of the Florida Child Welfare System.

# System of Care

## Florida Child Protection System Overview 2017-18 SFY

### Total Exits from Out of Home Care 15,241

Reunifications	7,041

Eight Quarter Statewide Trend:												

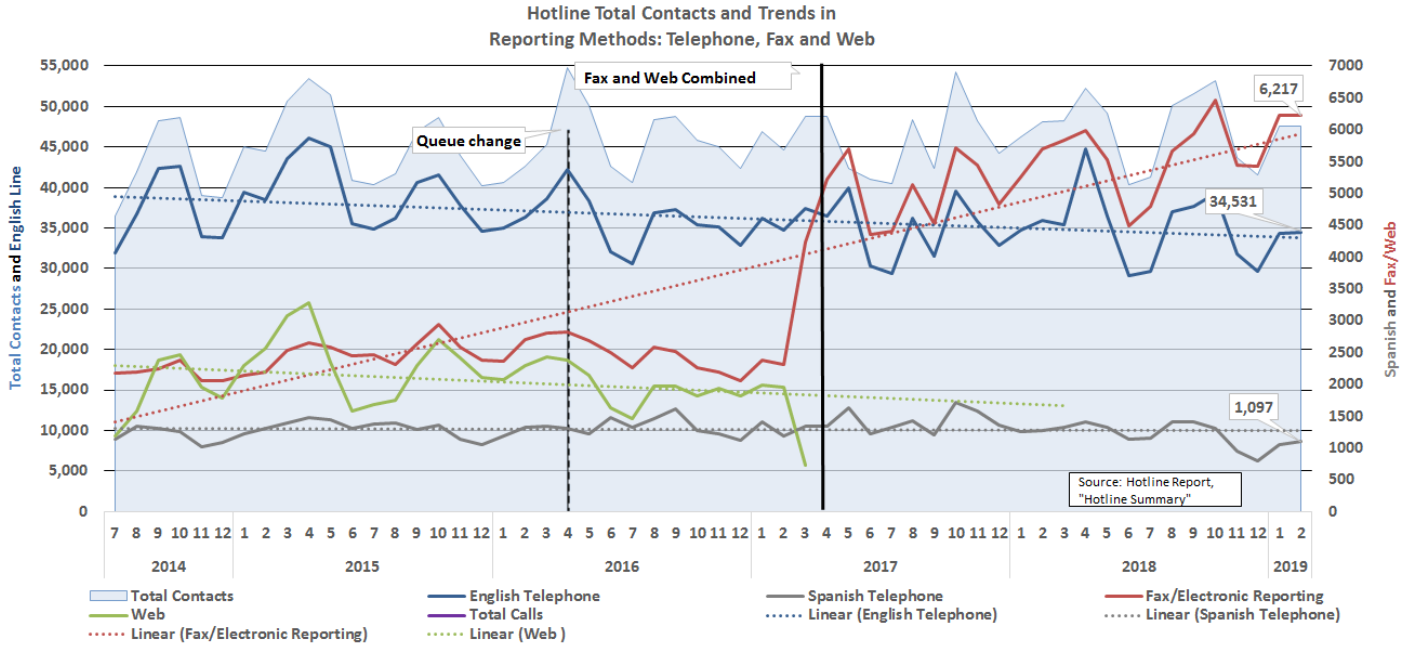

The above CBC scorecard measures are calculated based on quarterly performance for trending purposes. The performance in this chart will not align with performance displayed on the CBC Scorecard dashboard for all measures due to the dashboard utilizing a 12-month rolling average on several measures.

# Workload Trends

M

## Reporting Method Trends

The Florida Abuse Hotline offers a variety of methods for citizens to report concerns about children and vulnerable adults. A modification was made within the system, resulting in the tracking of webs and faxes together. Webs were previously represented by the green line within the graph below, however beginning in March 2017, webs were combined with faxes, now represented by the red line.

## Seasonality of Hotline Workload

M

There were 47,524 total contacts offered for the month of February. "Contacts Offered" include those abandoned by a caller who called back, so both attempts and completed calls from the same individual may be counted.

# Screening Trends

M

## Alleged Maltreatment Screening

Total child maltreatment allegations for February 2019 was 18,664. In February 2019, 71.2% of child maltreatment allegations reported were screened-in. Screen in percentage in 2017 steadily declined and has maintained around 72% for the last 8 to 10 months.

M

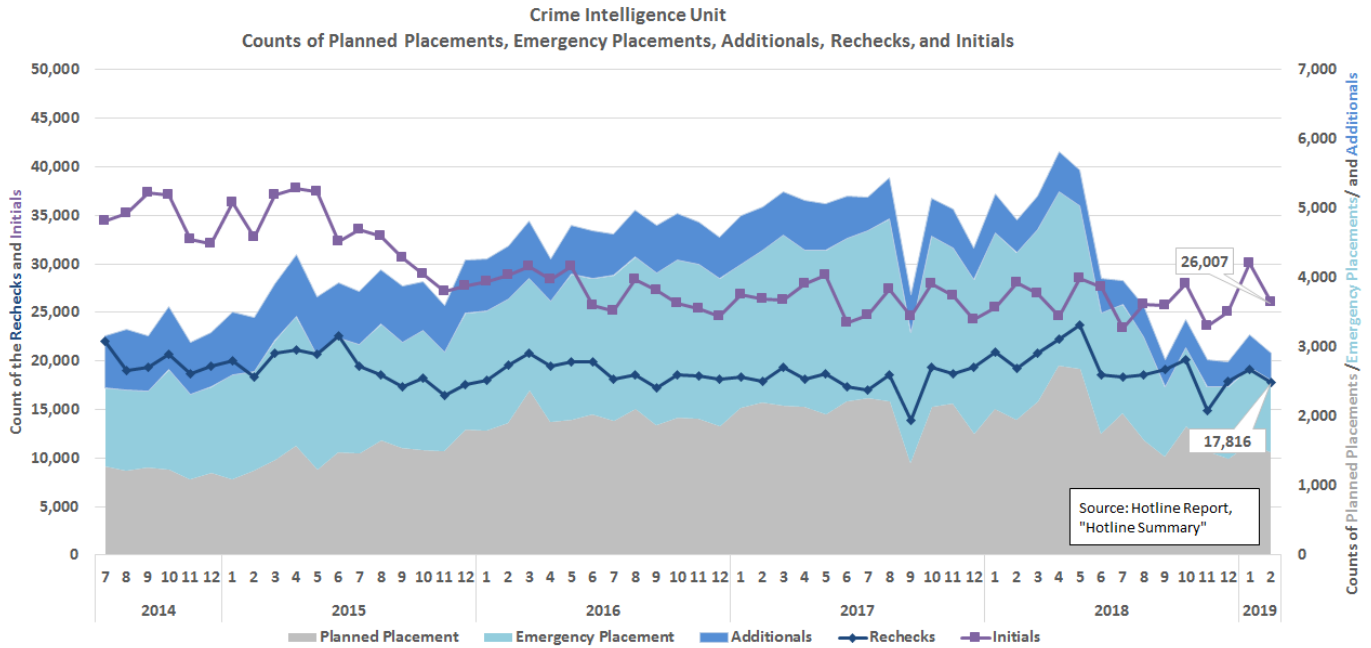

## Special Conditions Screening

There were 1,926 screened-in special conditions for February 2019. The screen-in percentage for special conditions is at an all-time low of 67.7%. Special Conditions screen-in percentage continues to decrease and remains below 70%. However, the number of accepted intakes continues to fluctuate according to the seasonal patterns.

### Crime Intelligence Unit

The included chart contains Crime Intelligence Unit counts for planned placements, emergency placements, additional, rechecks, and initials. The CIU average time to completion on all background check types are within compliance of DCF standards.

### Timeliness Trends

#### ● Average and Maximum Times to Answer or Abandon

The average wait time before answer slightly increased to five minutes and 42 seconds. 85% of calls were answered in 10 minutes or less, falling below the 98% target.

### ● Percent of Calls Abandoned

The percent of calls to the Florida Abuse Hotline English Line that are abandoned before answer increased to 15.7% for February 2019, and the percent of Spanish Line abandoned calls decreased to 19.6%.

### ● Average Handling Time Trend Stratification

The Average Handling Time (AHT) for February is 33 mins 58 secs which is below the 34-37 min AHT Hotline target. Automated Calls Distribution (ACD) remains under 13 mins and After-Call Work (ACW) remains around 20 mins.

## Recurrence of Hotline Reporting Trends

The following four measures look at all initial calls (no additional or supplemental) to the Hotline within a month and places them into a monthly cohort based on whether the first call received in the month was screened-in or screened-out. Subsequent initial calls to the Hotline within the following 12 months are captured as recurrence. These monthly screen-in and screen-out cohorts are tracked for recurrence of reporting by child (meaning the child appears again in a Hotline report within the following 12 months) and by perpetrator (meaning the perpetrator on the initial report appears as a perpetrator in another initial report within the following 12 months). The percentage of recurrence of reporting for these four groups are displayed at 3, 6, 9, and 12-month intervals.

### Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Ins by Child

M

31.32% of children with an initial screen-in decision in February 2018 experienced recurrence of reporting over the following 12 months.

### Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Outs by Child

M

24.09% of children with an initial screen-out decision in February 2018 experienced recurrence of reporting over the following 12 months.

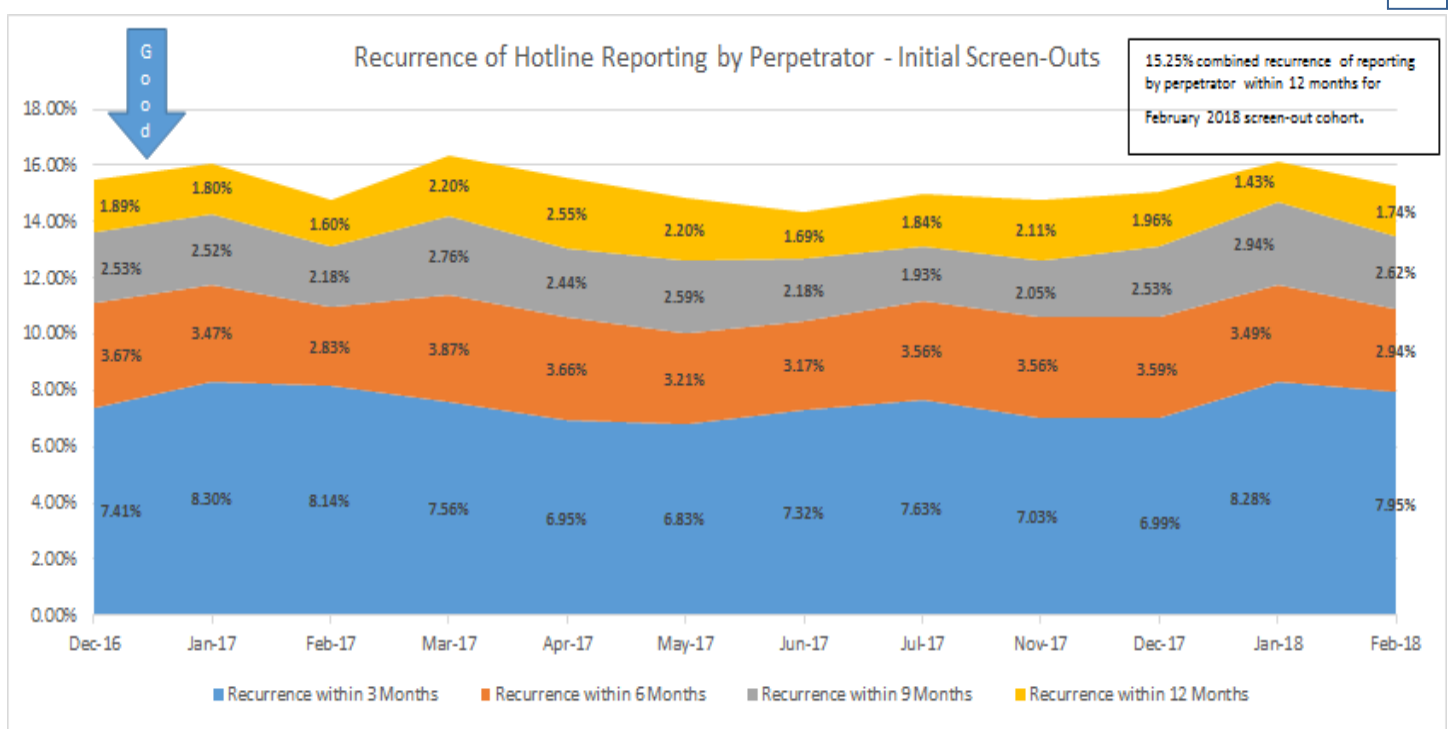

### Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Ins by Perpetrator

21.58% of alleged perpetrators involved in an initial screen-in decision in February 2018 experienced recurrence of reporting over the following 12 months.

### Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Outs by Perpetrator

15.25% of alleged perpetrators involved in an initial screen-out decision in February 2018 experienced recurrence of reporting over the following 12 months.

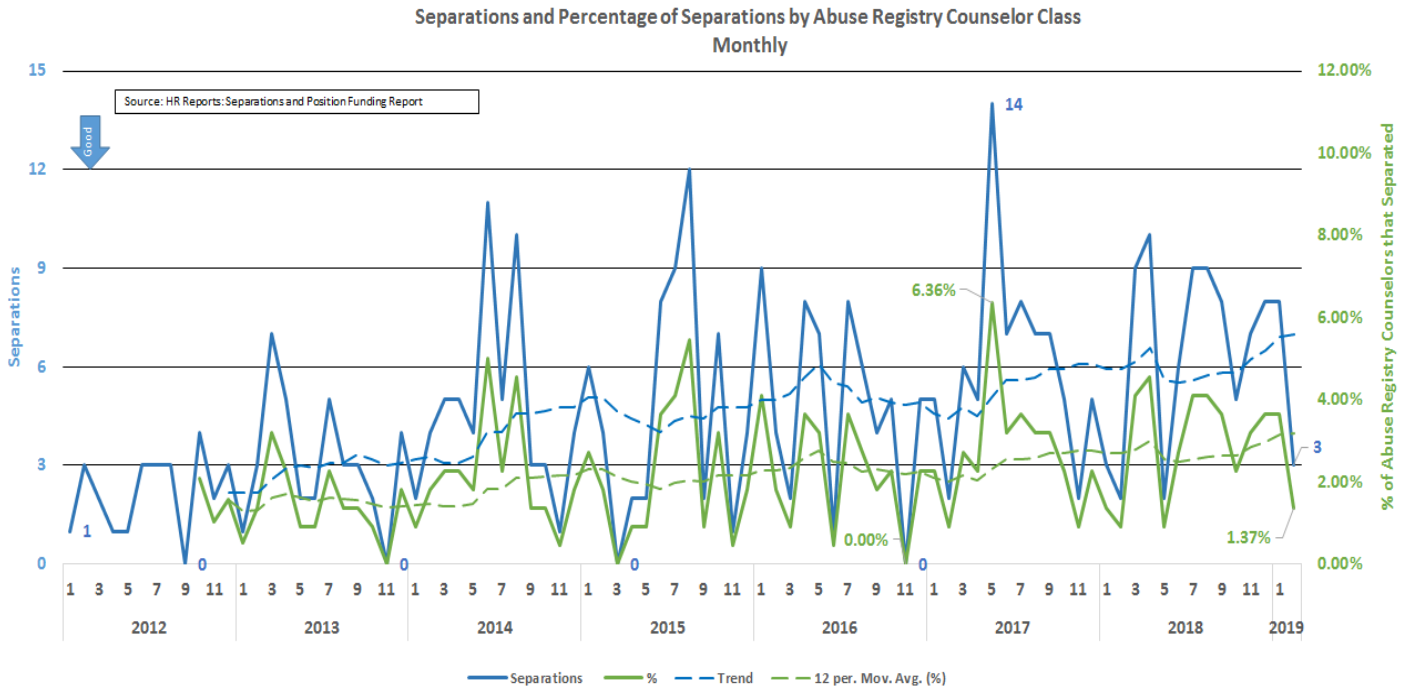

# Hotline Counselor Workforce

M

## Monthly Separations for Abuse Counselors

Monthly Abuse Registry Counselor separations fell sharply in February, this is consistent with past observations for February (two separations for February 2018 and February 2017). Note that since March 2017 the general separation trend continues to display an increase and the twelve month moving average is currently above six Abuse Registry Counselor separations per month.

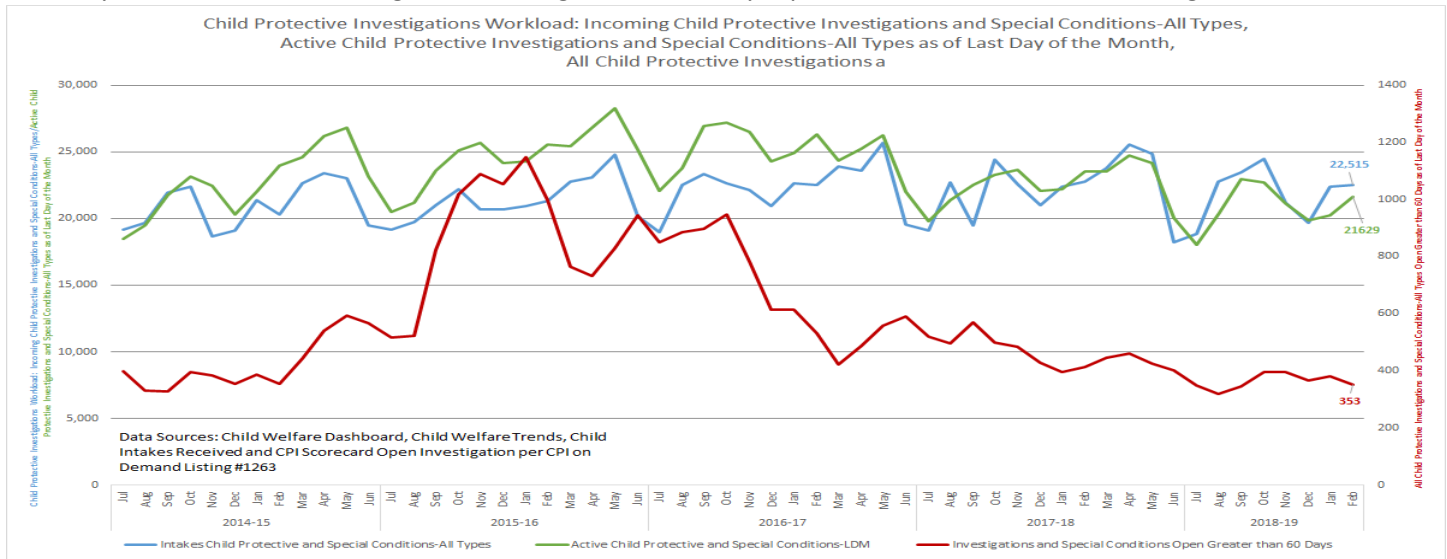

# Child Protective Investigators

## Workload Trends

M

### Investigative Workload: Incoming, Active, and Backlog Investigations

This measure is utilizing a new data source to measure monthly performance. There was an expected seasonal uptick in both incoming investigations and active investigations as of the last day of the month in February. Year-over-year data indicates that incoming workload decreased by 1.1% compared to last year at the same time. There was a 7.9% decrease in the number of active investigations as of the last day of the month when February 2018 is compared with February 2019. Investigations open more than 60 days as of the last day of the month decreased slightly to 353 as of February 28, 2019 and these long-term investigations currently represent 1.6% of the active investigative caseload.

### Investigative Workload: Backlog Stratified by Region

M

This measure is utilizing a new data source to measure monthly performance. There are currently nine investigative areas where 2% or more of the investigative workload has been active for more than 60 Days. DCF Circuit 12 (DeSoto and Sarasota), Seminole SO, and Walton SO are all currently operating at above 4%.

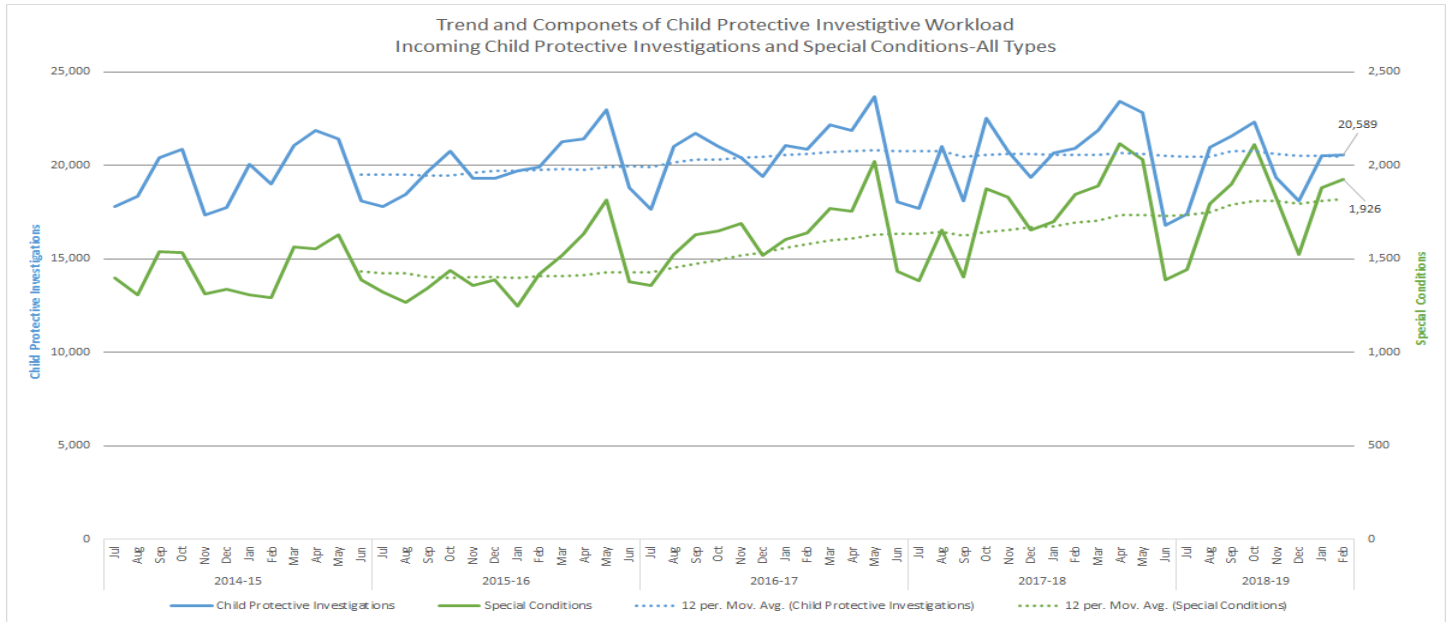

**Percentage of Active Child Protective Investigations and Special Conditions-All Types Open Greater than 60 Days as of the Last Day of the Month (Monthly Average for FY)**

Data Source: CPI Scorecard Open Investigations Per CPI on Demand Listing #1263 (Hotline Intake Decision Date - Report Date)

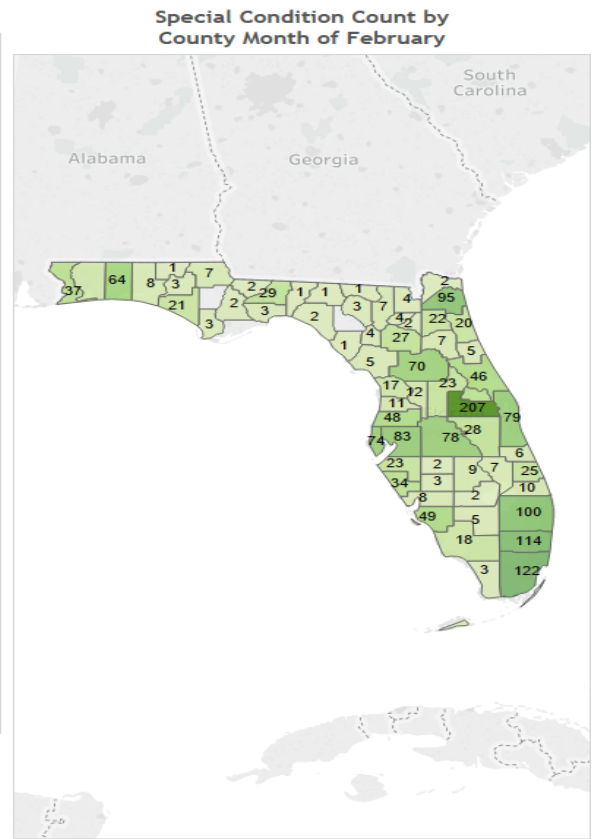

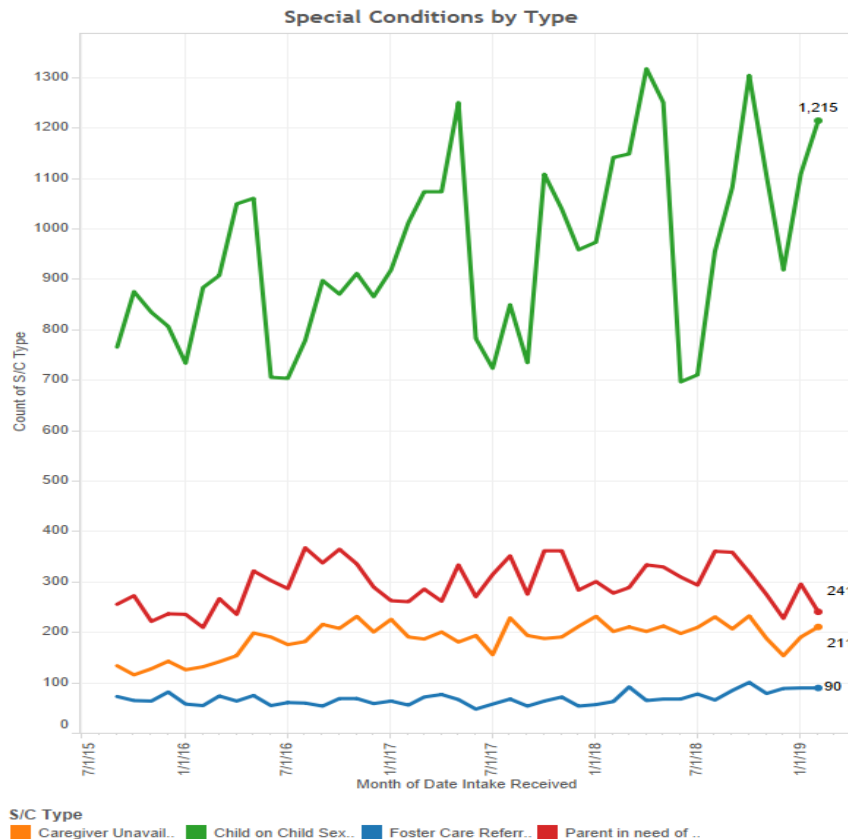

## Maltreatment Investigations and Special Conditions Referrals

This measure is utilizing a new data source to measure monthly performance. Incoming Alleged Maltreatment Investigations have been in a stable to declining trend since May 2016 while Special Conditions Referrals have been increasing since July 2016.

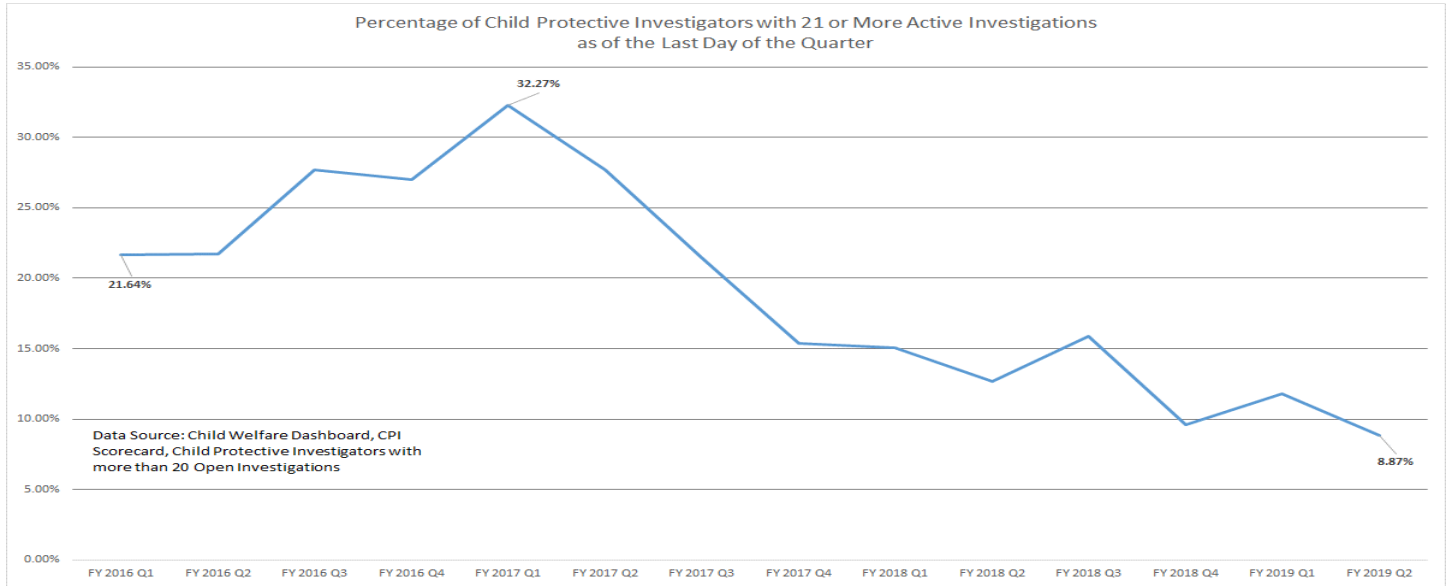

### Special Conditions: Stratified by Type and by County

As observed in the data, the increasing trend in special conditions is largely due to the increase in child-on-child referrals which has seen a 3.64% increase compared to February of 2018. All other special condition types have remained fairly flat.

## Statewide: More Than 20 Active Investigations

This measure is utilizing a new data source to measure performance as of the last day of the quarter. The percentage of investigators, DCF and SO areas combined, that were carrying more than 20 active investigations continues to decline and as of December 31, 2018 only 8.87% of all child protective investigators were carrying more than 20 active investigations.

## Stratification More Than 20 Active investigations by DCF Circuit and Sheriff’s Office

Note that the bulk of CPIs carrying more than 20 active investigations are in those areas where a sheriff office conducts the investigations. The majority of DCF investigators that area carrying more than 20 active investigations currently reside in the Northwest, Northeast, and Southeast Regions.

Data Source: Child Welfare Dashboard, CPI Scorecard, Child Protective Investigators with more than 20 Open Investigations

# Active Investigations by Cohort

Department-wide efforts designed to ensure that no DCF CPI is carrying an active caseload greater than 20 cases have been extremely successful. As of February 27, 2019, only 3.6% (37/1,318) of the DCF investigative workforce was carrying more than 20 active investigations. For context, on March 2, 2018, 13.7% (184/1,341) of the DCF investigative staff was carrying more than 20 active investigations.

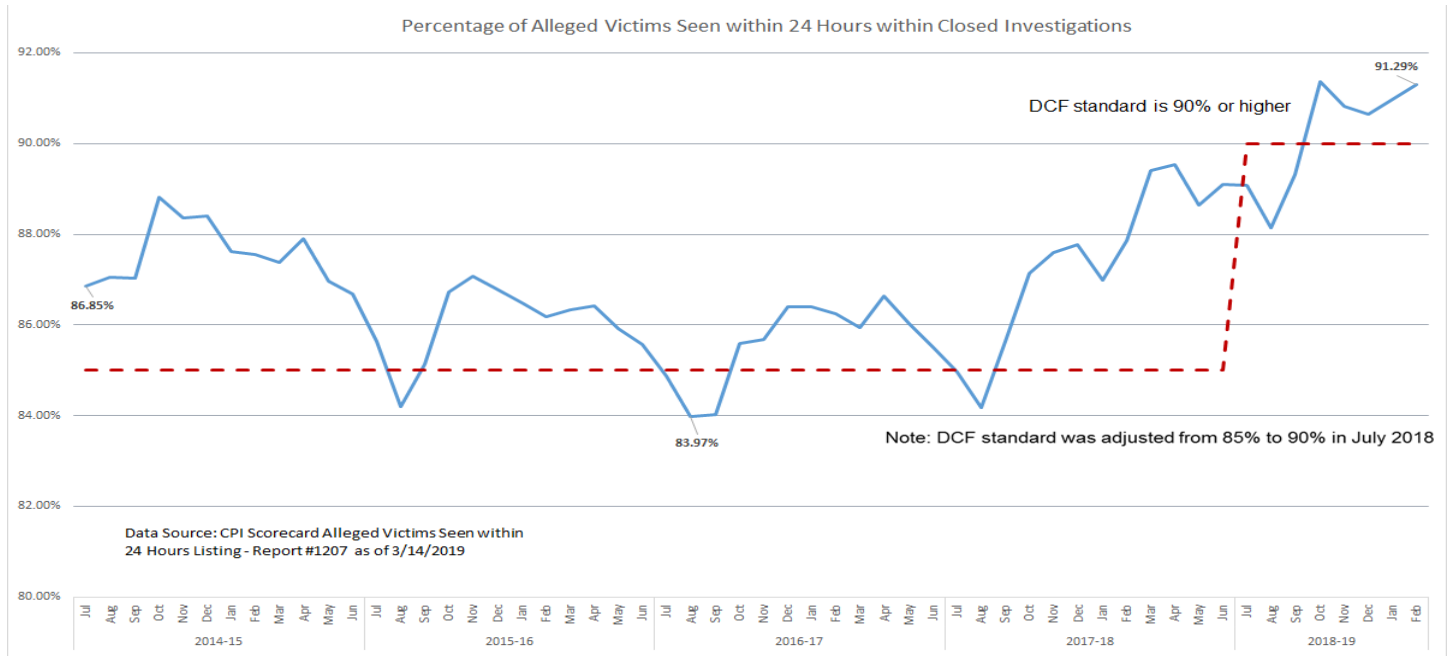

# Timeliness Trends

## Statewide: Alleged Child Victims Seen Within 24 Hours

This measure is utilizing a new data source to measure monthly performance. Since implementation of 90% or higher target in July 2018, statewide performance for this measure has stabilized at a level that is consistently above the DCF target.

## Stratification Alleged Victims Seen Within 24 Hours by DCF Circuit and Sheriff's Office

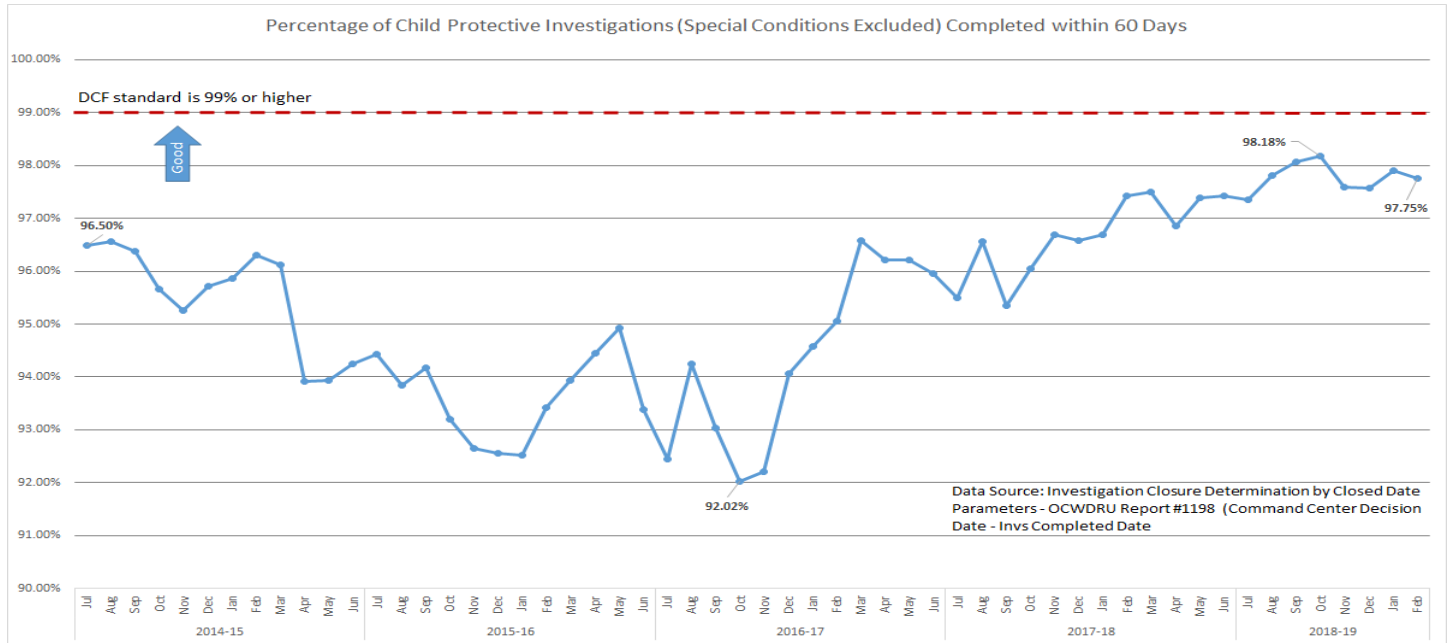

This measure is utilizing a new data source to measure monthly performance. Eleven investigative areas failed to reach the 90% target for victims seen within 24 hours within investigations closed for February. Six of these areas, DCF Circuit 12, DCF Circuit 20, DCF Circuit 14, DCF Circuit 3, DCF Circuit 1 and DCF Circuit 2, have failed to reach the 90% target for 4 or more consecutive months.

Percentage of Alleged Victims Seen within 24 Hours													
DCF Target 85.00% SFY 2014-15 to SFY 2017-18													
DCF Target 90.00% SFY 2018-19

Data Source: CPI Scorecard Open Investigations Per CPI on Demand Listing #1263 (Hotline Intake Decision Date - Report Date)

### Statewide: Child Investigations Completed Within 60 Days

This measure is utilizing a new data source to measure monthly performance. While there has been steady improvement for this metric since October 2016, February 2019 marks the 67<sup>th</sup> consecutive month that the Department has failed to meet the 99% standard for investigations completed in 60 days.

Stratification Child Investigations Completed Within 60 Days by DCF Circuit and Sheriff's Office Thirteen of the twenty-six investigative areas met the 99.0% standard for completing investigations within 60-days. DCF Circuit 1, DCF Circuit 12, DCF Circuit 2, DCF Circuit 14, and Walton SO were all 3% or greater away from making the 99% target and all of these areas have had at least four consecutive months of being at least 3% away from meeting the target.

Percentage of Closed Child Protective Investigations (Special Conditions Excluded) Closed within 60 Days of Hotline Command Center Decision Date

Data Sources: Investigation Closure Determination by Closed Date Parameters - OCWDRU Report #1198 (Hotline Command Center Decision Date - Invs Completed Date)

## Safety Determinations and Services Provided

M

Statewide: Children Determined Safe at Investigative Closure by Post Investigation Service

This new chart looks at all children with a safety determination of 'safe' in investigations closed during the month and shows what post investigation service (if any) the child is receiving. Due to the overwhelming percentage of children closing safe who do not receive post investigation services the "no services" percentage is displayed on a secondary (right) axis as an area chart.

## Stratification by CBC

M

There is great variation between CBCs for service provision for safe children, with some CBCs providing services to nearly 10% of the safe population in closed investigations in their service area, and others providing services to less than 1%.

## Statewide: Children Determined Unsafe at Investigative Closure by Post Investigation Service

M

This new chart looks at all children with a safety determination of 'unsafe' in investigations closed during the month and shows what post investigation service (if any) the child is receiving. Statewide the percentages for all four service categories have been extremely stable over the last four years.

## Stratification by CBC

M

There is great variation between CBCs for service provision for unsafe children. Big Bend and Eckerd Hillsborough had the highest percentage of unsafe children entering out-of-home care in February 2019, while Partnership for Strong Families served more than three fourths of their unsafe children with in-home services.

Statewide Children with No Recurrence of Verified Maltreatment within 12 Months

This measure is utilizing a new data source to measure monthly performance. Statewide performance for this measure has been at, or above, the federal standard of 90.9% since July 2016. Florida would rank 28<sup>th</sup> among states if comparing current performance to the available 2013 data. Wyoming led all states in 2012/2013 at 97.3%.

Stratification by DCF Circuit and Sheriff's Office

Only six investigative areas failed to reach the 90.9% target in February. All five of these areas have made the 90.9% target in at least one of the last three months. This would seem to indicate that monthly performance for this metric is somewhat random in nature.

## CPI Workforce Monthly Separations

CHANGE CHART The number of Child Protective Investigators that separated from the department has been stable since January of 2017 except for approximately four peaks within the data. Note that since May 2018 the volatility in the upper and lower levels has normalized somewhat and is now operating in the range of 40 CPI separations per month. This would indicate that CPI separations could be moving into a period of stability.

## CPI Time in Classification

The percentage of CPI positions that are vacant or the CPI has been within their current position for less than six months was 29.2%. This means that at a minimum slightly less than one-third of CPIs are not currently available for full rotation. Also note that 47.2% of CPI positions currently have under one year of experience.

# Flow from CPI to CBC Lead Agencies

## Removals and Removal Rates

### Statewide Trend

M

The number of children removed in February 2019 was 1,106 with a removal rate of 4.7.

Number of Alleged Victims Removed During an Investigation for Investigations Closed During the Month and Removal Rates per 100 Alleged Victims for Investigations Closed During the Month, Statewide

# Eligibility

## Title IV-E and TANF Eligibility Licensed Substitute Care and Adoption Eligibility

Q

Percentage of Children in Licensed Substitute Care that were Title IV-E Eligible or in a Non-Reimbursable Placement

The percentage of children in out-of-home care that are deemed to be Title IV-E eligible or that are in a non-reimbursable placement remained relatively flat, in the range of 67.0%.

## Percentage of Children with a Goal of Adoption that are Title IV-E or TANF Eligible and

Q

Count of Children with a Goal of Adoption Awaiting Finalization or have No Applicable Eligibility

The percentage with a goal of adoption that were classified as Title IV-E or TANF eligible has stabilized in the range of 55.0% after declining since January 2015. Note the increase in children awaiting finalization by the CIC or where the child has no eligibility determination since June 2016. As of September 2017, approximately 1/3 of these pending eligibility cases were located within the Eckerd Community Alternatives (Pasco & Pinellas Counties) system of care.

# Community-Based Care Lead Agencies

## Caseload Indicators

### Statewide Trends in Case-Managed Services

M

There were 23,565 children in out-of-home (OHC) care on February 28, 2019, which remained stable compared to the consistent upward trend in OHC observed since the middle of 2013. The trend for children receiving in-home services has remained relatively flat to declining for three years, with 10,908 children receiving in-home services on February 28, 2019.

## Services Mix

M

There continues to be variation among circuits regarding in-home and out-of-home care services, with the widest variation occurring in the use of Family Support Services.

Data Source: FSN Data Repository, Tableau Data Source

### Entries and Discharges Compared to Out-of-Home Care Trend

The number of entries decreased slightly from 1,204 in January 2019 to 1,105 removals for February 2019 while the number of discharges increased from 841 in January 2019 to 937 discharges for February 2019.

### Placement Types Compared to Children in Out-of-Home Care Trend

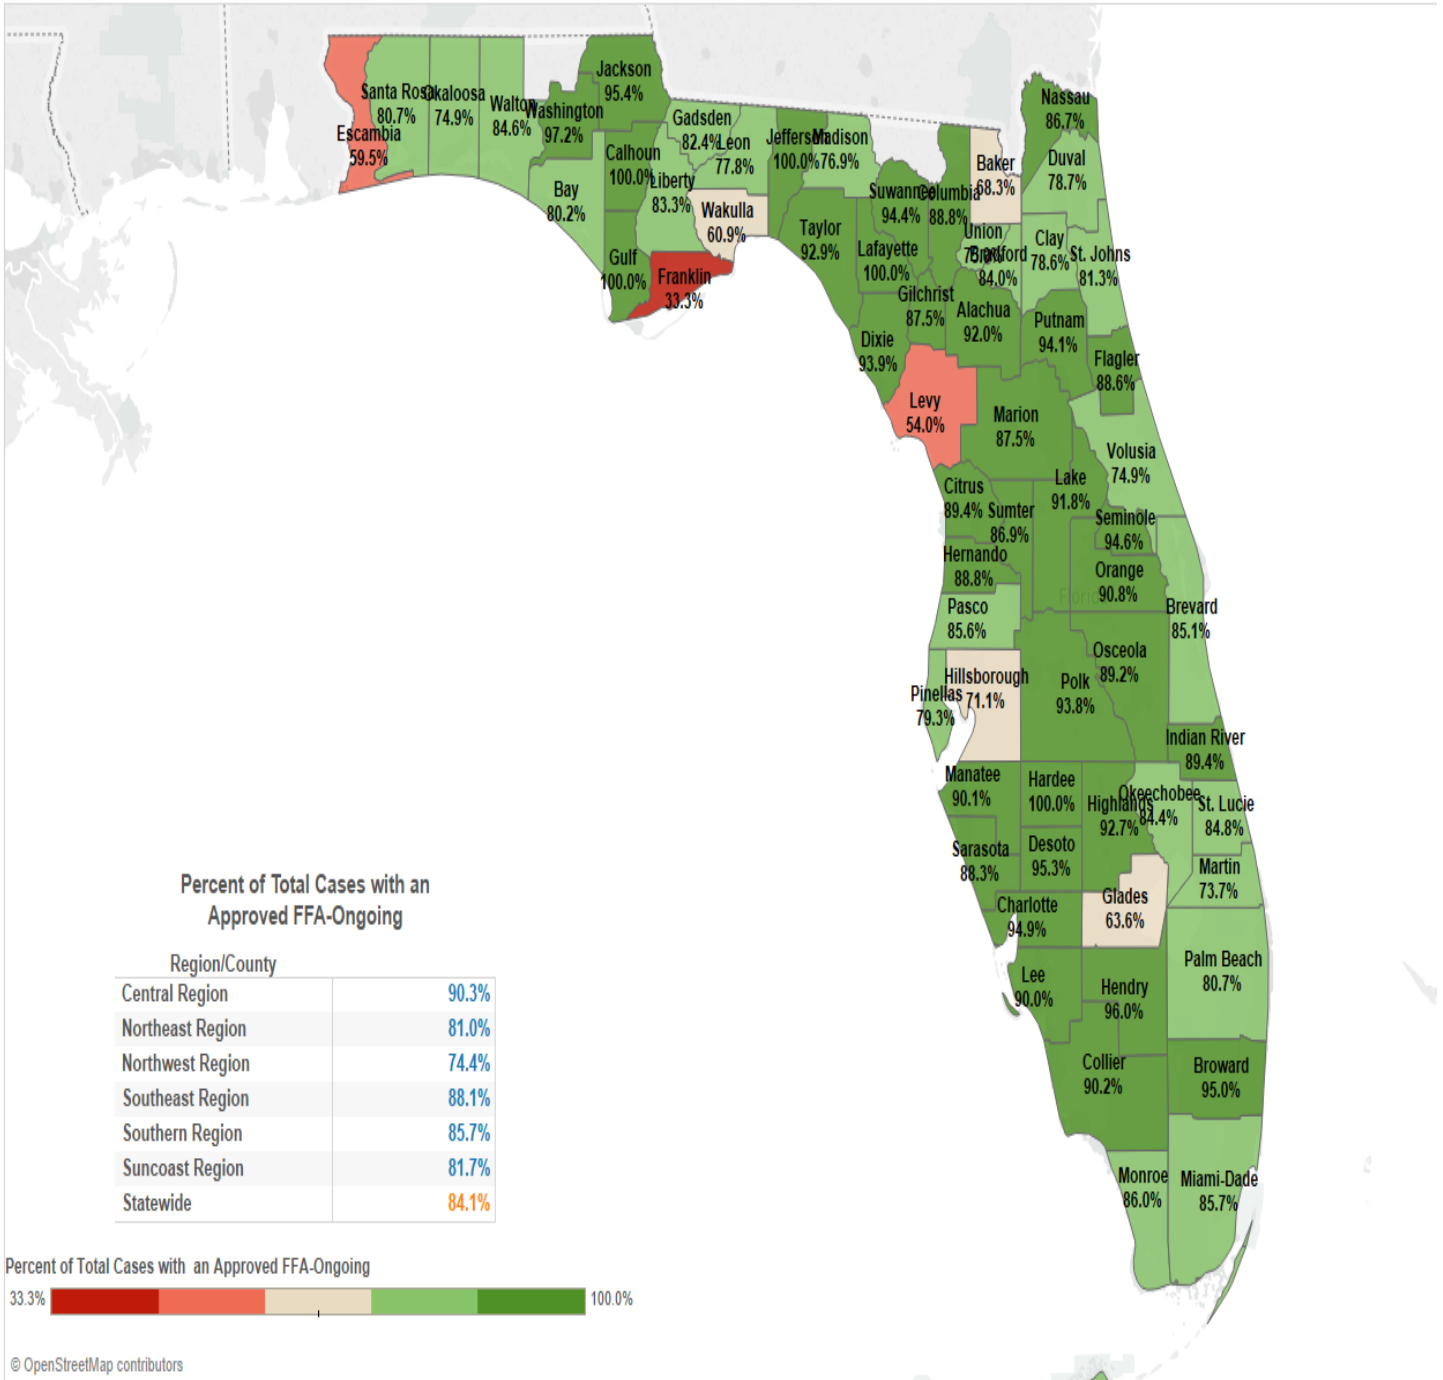

As of February 28, 2019, there were 23,543 children in out of home care with 10,147 in relative care placement, 7,156 in a licensed family foster home, 3,125 in non-relative care, 1,963 in licensed group care, and 1,006 in other placements.

## Family Functioning Assessment-Ongoing Implementation Map

This Tableau map provides county-specific percentages, as well as percentages by region. Please note that this map is a snapshot in time and does not reflect closed cases that utilized an FFA ongoing. Zero percent for some counties may result from a small number of cases or cases assigned to other counties. It is important to note the change in the scale from previous months.

Percentage of Cases with Approved FFA Ongoing as of 03/18/2019

Source: FSFN report Active Cases with an Approved FFA-Ongoing – OCWRU #1084  
 Notes: Small number of cases assigned to the county will affect percentages. Based on location of primary worker. Counties with no cases assigned to them will not appear in the map.

## Family Support Services “Prime” Counts

This measure shows the number of children in investigations closed during the quarter who met all “FSS Prime” criteria of: 1) being deemed safe; 2) being high or very high risk, 3) having a Family Support Services module opened within 45 days of investigative closure, and 4) having an attempted or completed face-to-face contact within 45 days of investigative closure. Data is lagged to allow note entry and Family Support Services module creation.

# Safety Indicators

Q

## Child Safety Trends: Comparison of Two Indicators

Children continue to be safer after termination of services:

- The percent of children with no verified maltreatment within six months after termination of case-managed services was 97.5% for April through June 2018. The state continues to exceed the set target for this measure at 95%.
- The percent of children with no verified maltreatment within six months of termination of Family Support Services was at 93.8% for those terminating April through June 2018. This measure does not have a set target.

## Child Safety After Termination of Case-Managed Services

Q

Statewide performance for services terminated in April through June 2018 increased to 97.5% and all lead agencies were above the target of 95%.

GOOD

# Child Safety in Out-of-Home Care

This measure is generated by taking the total number of reports with at least one verified maltreatment and dividing it by the total number of days in foster care for all children, with the result multiplied by 100,000 to calculate the rate of victimization per 100,000 days in foster care. The data for this quarter continues to show wide variation among the CBCs, with statewide performance meeting the national standard of 8.50 or less. The most recent national data which has been stratified to the state level for this measure is from 2013. Florida would rank 32<sup>nd</sup> among states if comparing current performance to the available 2013 data. Wyoming led all states in 2013 at 1.16.

## Child Safety During Case-Managed In-Home Services

This measure is generated by taking the total number of days the child received service and dividing by the number of verified maltreatment reports during the report period. This is a rolling 12 months ending 3 months prior to the end of the quarter. Statewide performance for the quarter ending December 2018 was 94.28%, and six lead agencies met or exceeded the 95% target.

Source: New Data Source as of FY 2019 Q2: Child Welfare Dashboard, "Abuse During In-Home Services"

**Note:** The data in this table has been updated to match the Child Welfare Dashboards for this measure. Each quarter of data reflects a rolling twelve (12) month period ending three (3) months prior to the end of the state fiscal quarter.

# Permanency Indicators

Q

## Statewide Trend: Permanency Within 12 Months of Removal ★

Permanency within 12 Months of Removal is our primary indicator of timely permanency. Statewide performance is at 37.5%, which is below the 40.5% national standard and the lowest point in five years. The most recent national data which has been stratified to the state level for this measure is from 2012. Florida would rank 29<sup>th</sup> among states if comparing current performance to the available 2012 data. Arkansas led all states in 2012 at 63.8%.

## Stratification by CBC Lead Agency

Q

Seven of the lead agencies exceed the national standard of 40.5%.

Source: FSN OCWDRU #1196 -- "Children Exiting Foster Care to a Permanent Home within 12 Months for Children in Foster Care Twenty-Four Months or More"

### Length of Stay for Children Exiting Care by Exit Type

Length of stay for children that exited out-of-home care has been steadily increasing and is now approximately two to three months longer than it was in January 2014. On average children exiting care to reunification (up 1.5 months), guardianship (up 2.9 months), and adoption (up 2.43 months) have all increased and on average children are now spending an additional 3.48 months (14.34 months compared to 17.82 months) in out-of-home care than they were in January 2014.

### Percentage of Exits by Exit Type

The percentage of children exiting out-of-home care to reunification has been declining and is currently down 7.3% since January 2014. Similarly, children exiting care to a guardianship is down by 11% since January 2014. Note the associated 19% increase in the number of children exiting care to adoptions.

CBC Exit Counts, Percentage of Exits, and Average Length of Stay by Reunification Exit Type  
 The table below shows that the proportion of exits from out-of-home care to reunification began to decline in SFY 2016-17. At the same time the average duration to exit to reunification began to increase. Since then the decline in proportion and average time to exit to reunification has intensified.

## CBC Exit Counts, Percentage of Exits, and Average Length of Stay by Guardianship Exit Type

The table below shows the decline in the percentage of exits from out-of-home care to guardianship began to decline in SFY 2016-17. At the same time, average duration to exit to guardianship began to increase. Since then the decline in the proportion and average time to exit to guardianship have both intensified.

Data Source: Children Entering and Exiting Foster Care On-Demand Listing - OCWDRU Report #1182

## Statewide Trend: Percent of Children Who Do Not Re-Enter Care within 12 Months of Achieving Permanency

Statewide performance for the most recent available quarter decreased to 90.5%, below the national standard of 91.7%, but an improvement over last quarter's 88.7%. The most recent national data which has been stratified to the state level for this measure is from 2012. Florida would rank 30<sup>th</sup> among states if comparing current performance to the available 2012 data. Delaware led all states in 2012 at 97.9%.

## Stratification by CBC Lead Agency

Ten of 20 CBCs met or exceeded the national standard of 91.7%.

Source: FSFN OCWDRU #1099 - "Children Who Do Not Re-Enter Foster Care within Twelve (12) Months of Moving to a Permanent Home"

## Timeliness of Judicial Handling

M

These Children's Legal Services indicators are directly related to the indicators of timely permanency.

### ● Reunification Goal After 15 Months and No Termination of Parental Rights Activity

The statewide average for SFY 2018-19 is currently 6.87% as of September 30, 2018. Circuit goals are set for each period after review of baseline information. There are currently data issues with the FSFN reporting structure that prevent this measure from being updated.

M

## Timeliness of Termination of Parental Rights, from Petition to Order

The statewide average for SFY 2018-19 is currently 157 days as of September 30, 2018. Circuit goals are set for each period after review of baseline information. There are currently data issues with the FSFN reporting structure that prevent this measure from being updated.

● Time from Removal Date to Disposition Order

The statewide average of 58 days is well below the established target of 90 days and only Circuit 14 is currently above the 90-day target.

# Maintaining Connections in Placement

Q

## Statewide Trend: Placement Stability ★

Statewide performance has gone down to 4.41 moves per 1,000 days in foster care after trending up for several quarters, however it is still not meeting the national standard of 4.12 moves. The most recent national data which has been stratified to the state level for this measure is from 2013/2014. Florida would rank 32<sup>nd</sup> among states if comparing current performance to the available 2013/2014 data. Rhode Island led all states in 2013 at 2.60.

## Stratification by CBC Lead Agency

Q

Statewide performance, currently at 4.41 moves per 1,000 days in foster care, does not meet the national standard of 4.12 moves. There is wide variation among the lead agencies, with nine meeting the standard.

### Statewide Trend: Placement of Sibling Groups Together

Statewide performance has declined slightly over the last few years from around 66% in 2013 to around 64%, which is below the statewide target of 65%. Statewide performance has been below target since SFY 2014-2015.

Percent of Sibling Groups in Foster Care Where All Siblings Are Placed Together - Statewide

### Stratification by CBC Lead Agency

Statewide performance is at 63.4%, which is below the 65% statewide target. Nine CBCs were above the target as of December 31, 2018.

# Prescribed Psychotropic Medications

## Children in Out-of-Home Care with Prescribed Psychotropic Medications

M

The statewide percentage of children in out-of-home care that are prescribed at least one psychotropic medication on February 28, 2019 was 10.3%. This is consistent with past observations for this metric.

## Children with Consent for Prescribed Psychotropic Medications

M

In order to administer psychotropic medication to a foster child, parental consent or a court order must be obtained, unless the child is receiving inpatient services, or a physician certifies that delay would be likely to harm the child. On February 28, 2019, the statewide percentage of children with at least one prescribed psychotropic medication where consent was obtained was 97.7% and five CBCs were at 100%. This is consistent with past observations for this measure. Also note that no single CBC dominates noncompliance with the range of noncompliance falling within two to ten children for the CBC that failed to reach the 100% target.

## Medical Services

Q

### ● Children Receiving Medical Services in Last Twelve Months

The statewide percentage of children receiving recent medical services has consistently been above the statewide standard and stood at 97.7% as of December 31, 2018. Only two CBCs failed to meet the standard.

## Dental Services

Q

### ● Children Receiving Dental Services in Last Seven Months

The statewide percentage of children receiving recent dental services decreased to 90.4% as of December 31, 2018 and is still below the statewide standard.

## Education Program Enrollment

Q

### ● Young Adults Aging Out Enrolled in Education Programs

This is one indicator of preparation for adulthood but does not control for any of the many variables that influence this preparation, including time in care and the child’s educational level when entering care. Statewide performance in this measure has been relatively stable and above the statewide target for the past 3 years.

Percent of Young Adults Aging Out of Foster Care Who Have Completed or are Enrolled in Secondary Education, Vocational Training, or Adult Education

# Dually Served Youth

M

## Statewide Trend: Youths Served by CBC Lead Agencies and Juvenile Justice

The number of youths served by both the child welfare system and the juvenile justice system in February 2019 was 1,055. This measure does not have a specified target.

Source: Imaging Lite Filing, Match File from FSN/JJS

## Stratification by CBC Lead Agency

The number of youths served by both systems (DCF and DJJ) is variable among the lead agencies but is related to the total number of youths served by each lead agency.

# Missing Child

M

## Average Number of Children Categorized as Missing from Care and Supervision

Another decline in the number of children categorized as missing from the care or supervision of the Department was observed in February. The daily average of average of 159.36 for February 2019 was down -30.0% from the February 2018 daily average of 207.0. This decline is not inconsistent with general missing children trends. FDLE reported a 16% decline in the number of non-DCF children reported as missing to FDLE between 2017 and 2018.

## Child Reports Entered in FSFN within One Working Day

M

Statewide performance for January 2019 increased to 90.0% from in January's 85.2%. These percentages appear to be consistent with past performance for this measure.

## Resolution of reports within 3 days

There was a significant stability in the percentage of children located with 3 days for all February 2019 MCR entries. 74.8% of children that were classified as missing in January 2019 had their missing child case resolved within 3 days. This was up from January 2019 percentage of 74.2%. Note that shorter duration missing child episodes could be impacting the average daily missing child counts

## Human Trafficking

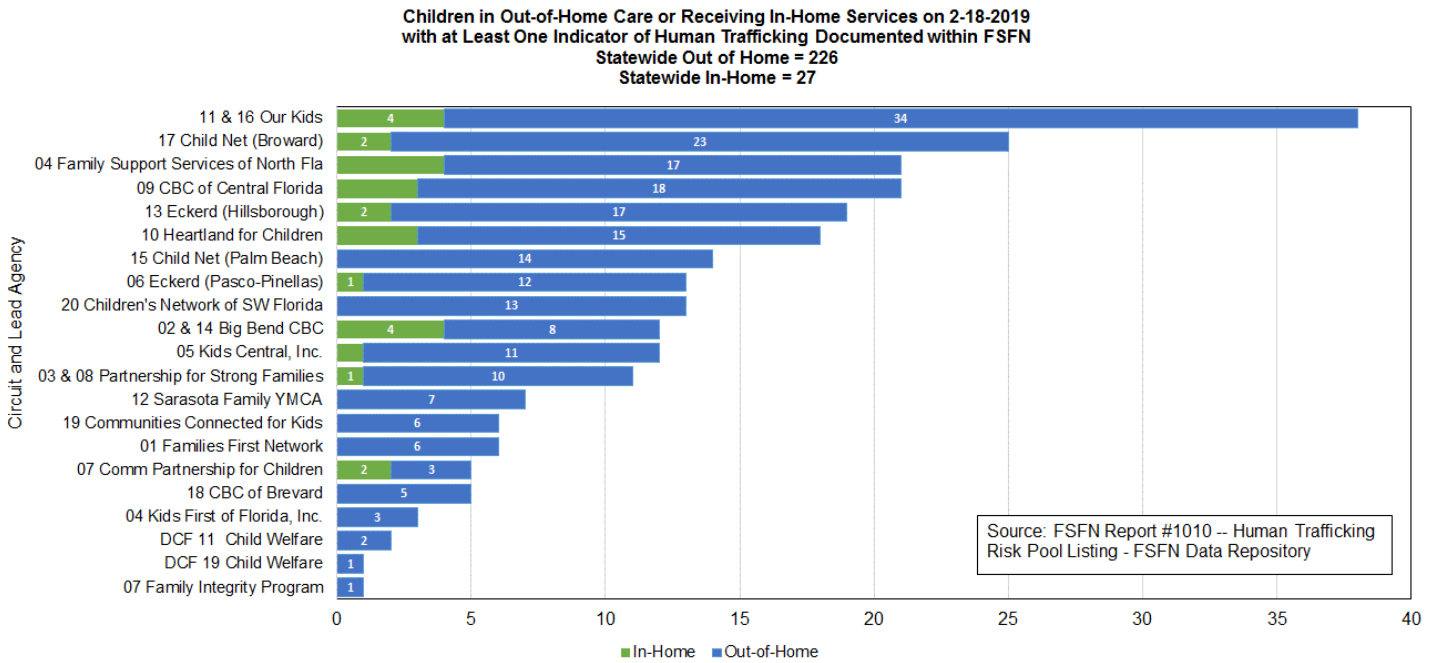

### Human Trafficking Intakes Trend

The number of Human Trafficking Reports (Initial and Additional) accepted by the Hotline appear to have entered a seasonal cycle while the percentage of human trafficking allegations that are closed as verified, not substantiated or no indicators have also stabilized.

## Children with Indication of Human Trafficking by CBC Lead Agency

The number of children in out-of-home care or receiving in-home services with at least one FSN indicator of being a victim of Human Trafficking remains concentrated within Florida's urban centers.

## Florida CQI and CFSR

The following table provides statewide and lead agency outcome ratings from FL CQI and CFSR data around Safety, Permanency, and Well-being.

# Child Care and Domestic Violence

## Child Care Regulation

### ● Child Care Inspections per Month

M

For February 2019, 99.5% of home inspections of facility inspections were completed within 45 days.

## Domestic Violence

### ● Percent Victims Leaving a Shelter with a Family Safety and Security Plan

M

The percent of adult victims leaving a shelter after 72 hours with a Family Safety and Security Plan in January 2019 was 100%, continuing to exceed the target of 97%.
