Performance Glance

Performance indicators have been added to the titles and table of contents to assist the reader in quickly determining current performance in specific areas.

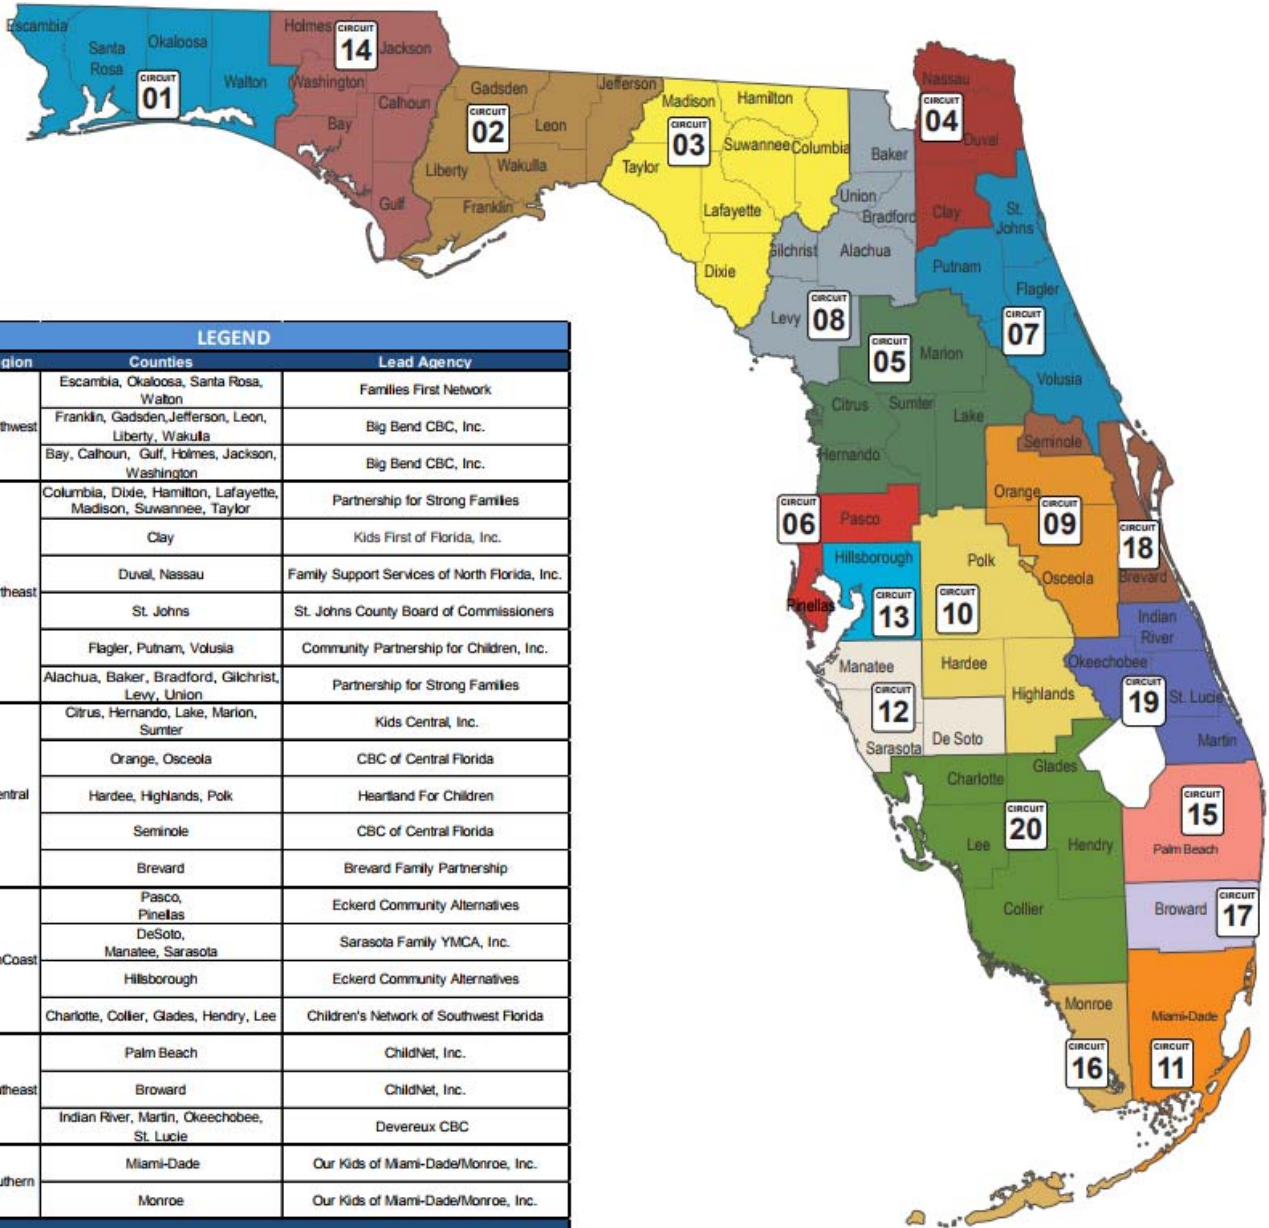

- Green dots before the titles indicate that either statewide/national targets are being met or for those measures where a target is not applicable, the previous 3-month trend is either stable or moving in the right direction.
- Red dots before the titles indicate that either statewide/national targets are not being met or for those measures where a target is not applicable, the previous 3-month trend is moving in the wrong direction.

DCF Service Structure

Regions, Circuits, Counties, and CBC Lead Agencies

System Overview

Florida's community-based child welfare system is comprised of a partnership between the Department of Children and Families (DCF), other state agencies, the courts, law enforcement agencies, service providers, and local communities.

There are over four million children in Florida of which most fortunately do not come to the attention of the system. For those children who do enter the system, entry begins with reports of allegations of abuse or neglect made to the Florida Abuse Hotline, operated by DCF. The Florida Abuse Hotline receives in excess of 350,000 child-related calls annually. Calls received are screened to determine if the criteria are met to initiate a protective investigation.

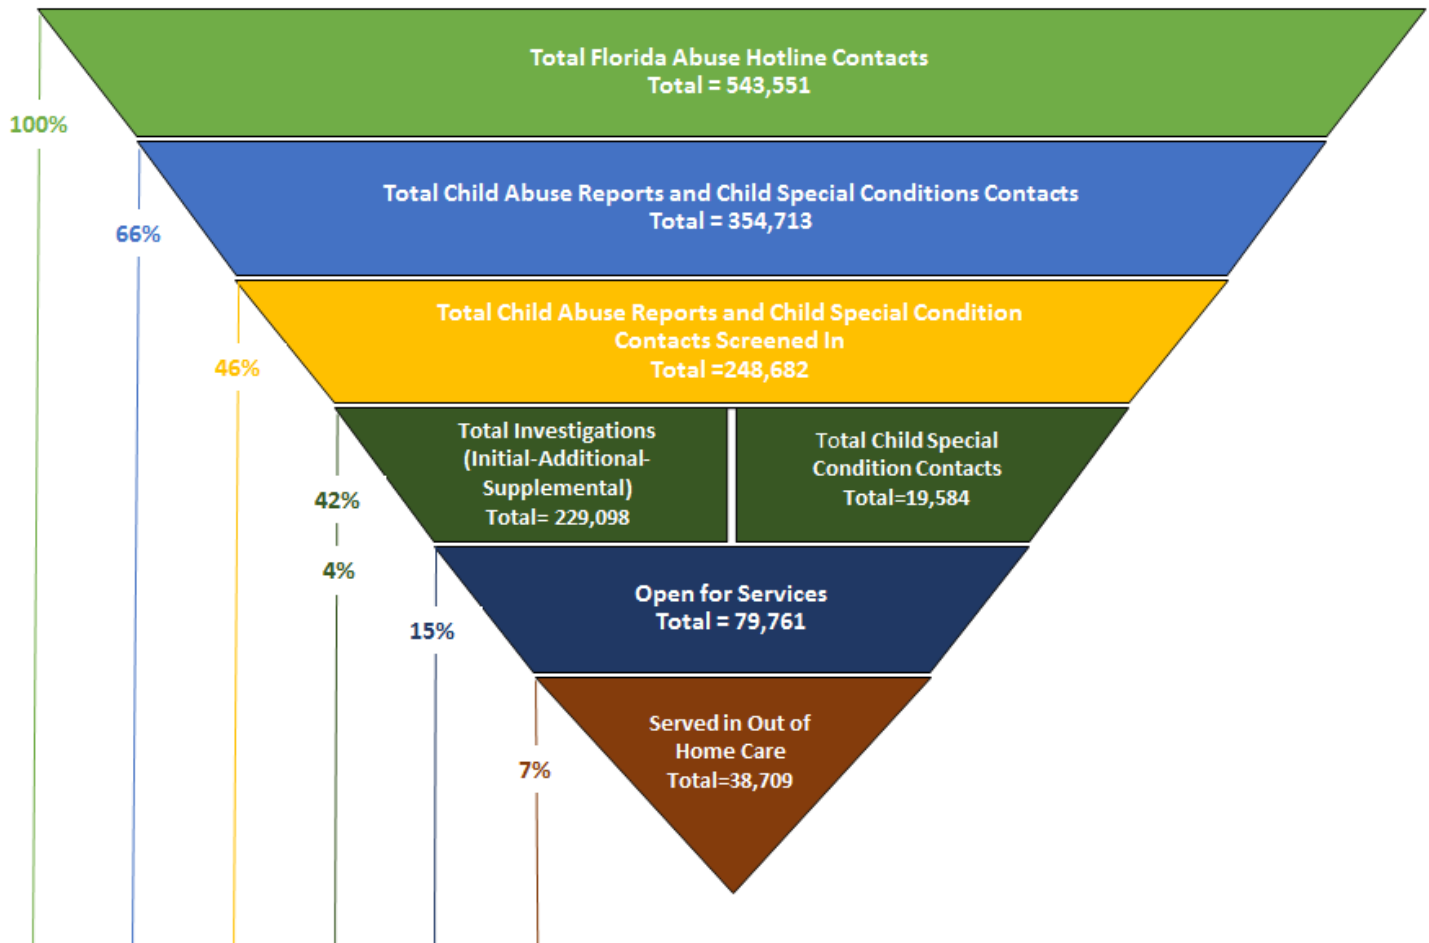

If criteria are met, the report is referred to a local Child Protective Investigations (CPI). Statewide there are over 220,000 protective investigations conducted annually. These investigations are conducted by DCF in 61 counties. In the remaining 6 counties, including Broward, Hillsborough, Manatee, Pasco, Pinellas, and Seminole, county sheriff's offices perform the investigations. Investigators determine the need for post-investigation services, including protecting the child through removal and placement in out-of-home care or through case-managed, in-home services (by court order or non-judicially), or through informal voluntary family support services. For SFY 2016-2017, over 35,000 children were served in out-of-home care.

Florida statute requires that post-investigation services be provided through contracting with community-based care lead agencies (CBCs). There are 17 Community-Based Care (CBC) lead agencies that each provide coverage to specific geographic areas within the 20 Judicial Circuits in Florida. Several lead agencies cover more than one geographic area and areas may include one or multiple counties. In three instances, the CBC lead agency serves two geographic areas under separate contracts, lending to 20 lead agencies displayed within the CBC tables of this report. Although services vary among CBC lead agencies, they have a shared role in participating and ensuring safety, permanency, and well-being for all children in the state.

The monthly Child Welfare Key Indicators Report presents data for the Florida Abuse Hotline, Child Protective Investigations, CBC lead agencies, as well as other key metrics describing the state of the Florida Child Welfare System.

System of Care

Florida Abuse Hotline

Workload Trends

Reporting Method Trends

M

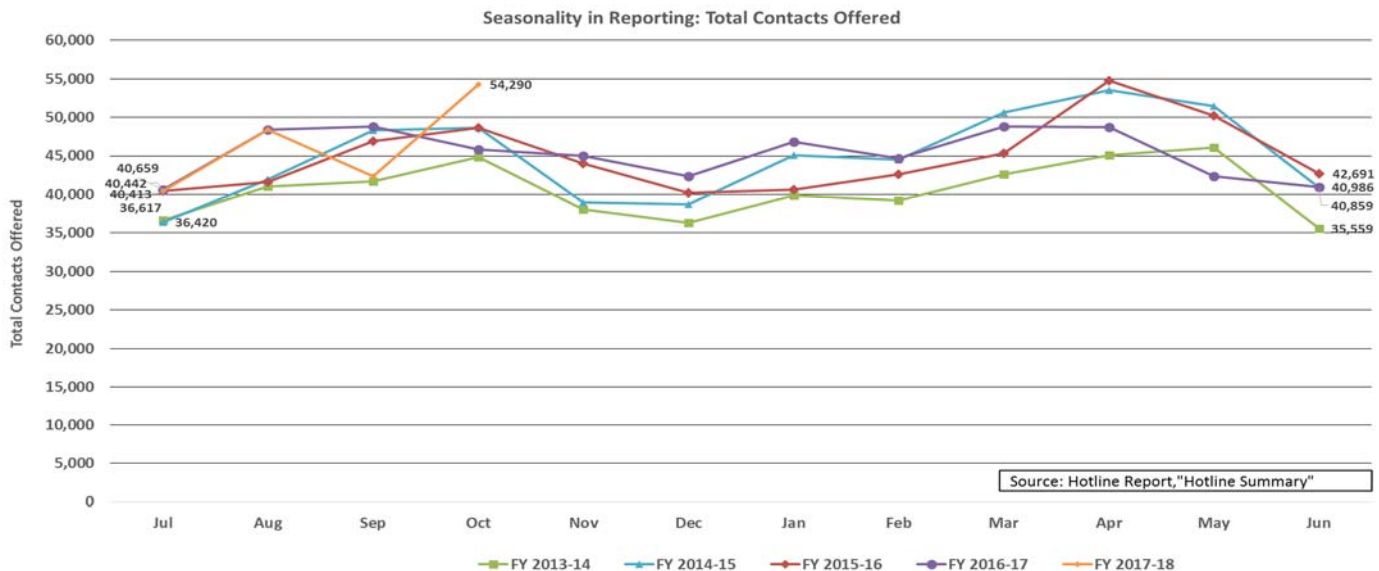

The Florida Abuse Hotline offers a variety of methods for citizens to report concerns about children and vulnerable adults. A modification was made within the system, resulting in the tracking of webs and faxes together. Webs were previously represented by the green line within the graph below, however beginning in March 2017, webs were combined with faxes, now represented by the red line.

M

Seasonality of Hotline Workload

There were 54,290 total contacts offered for the month of October. "Contacts Offered" include those abandoned by a caller who called back, so both attempts and completed calls from the same individual may be counted.

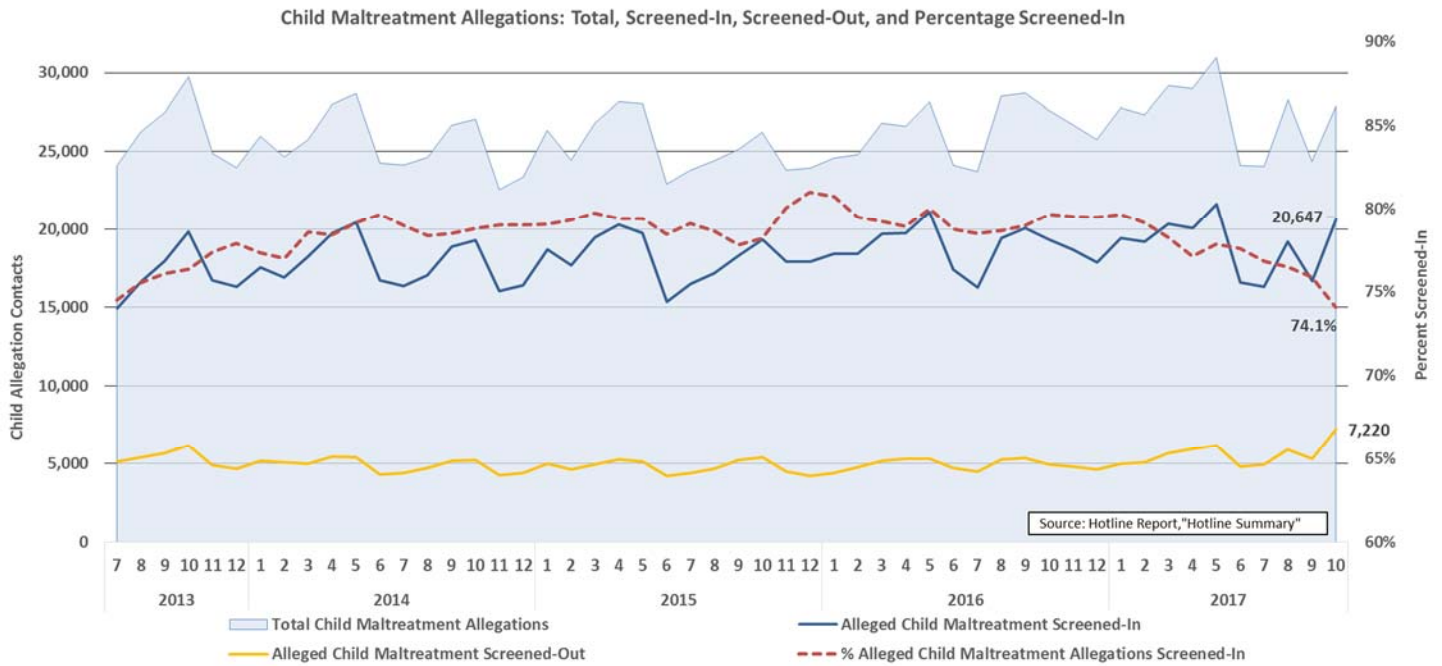

Screening Trends

M

Alleged Maltreatment Screening

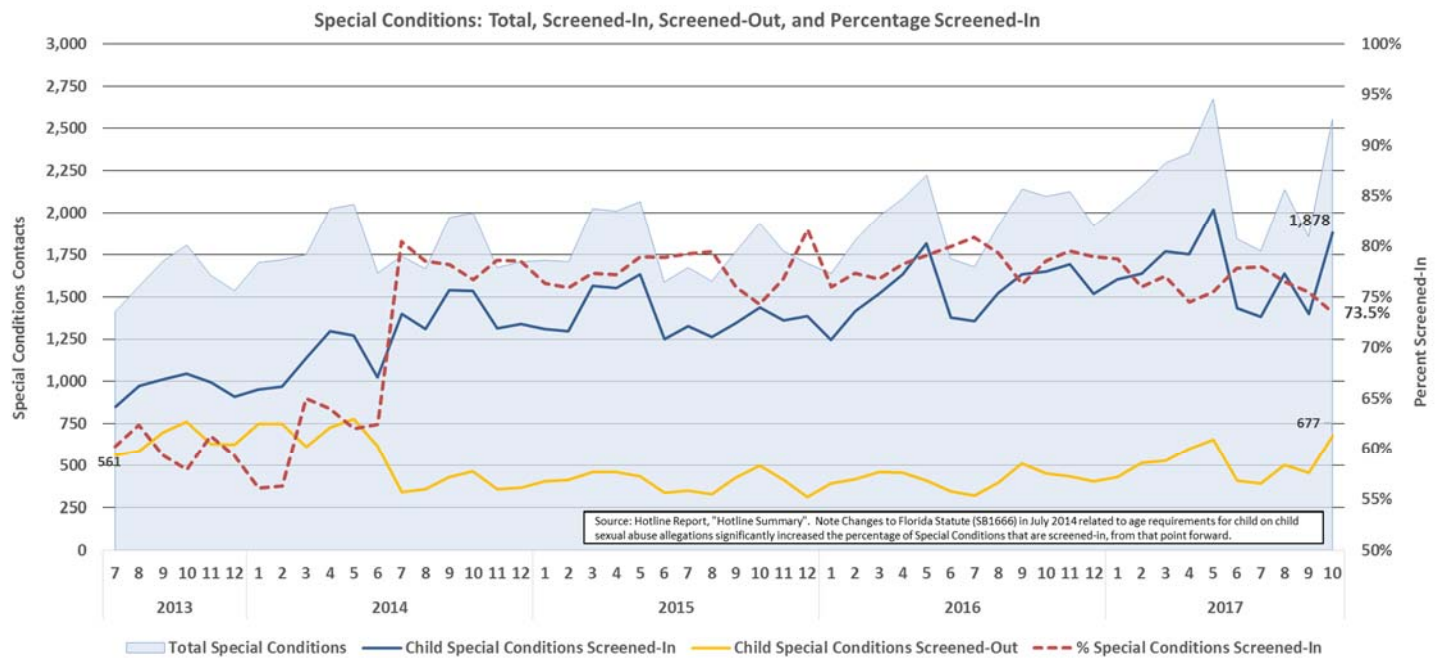

Total child maltreatment allegations for October 2017 was 20,647. In October 2017, 74.1% of child maltreatment allegations reported were screened-in.

Special Conditions Screening

M

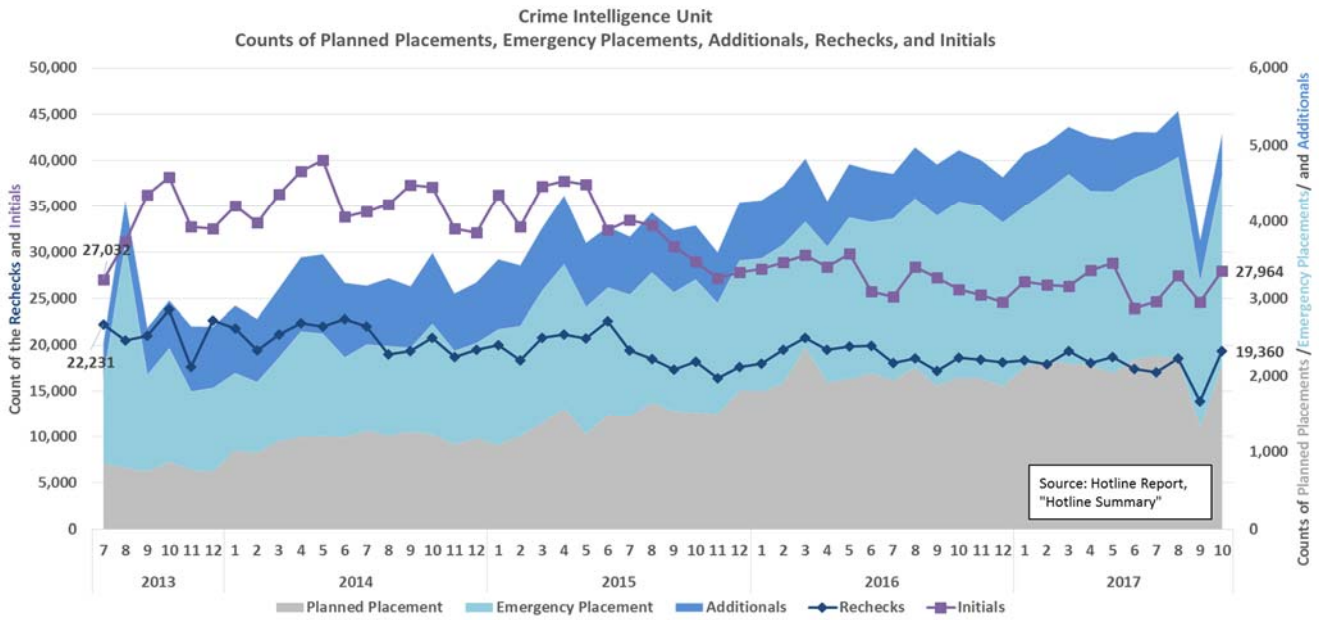

There were 1,878 screened-in special conditions for October 2017.

Crime Intelligence Unit

M

The included chart contains Crime Intelligence Unit counts for planned placements, emergency placements, additional, rechecks, and initials.

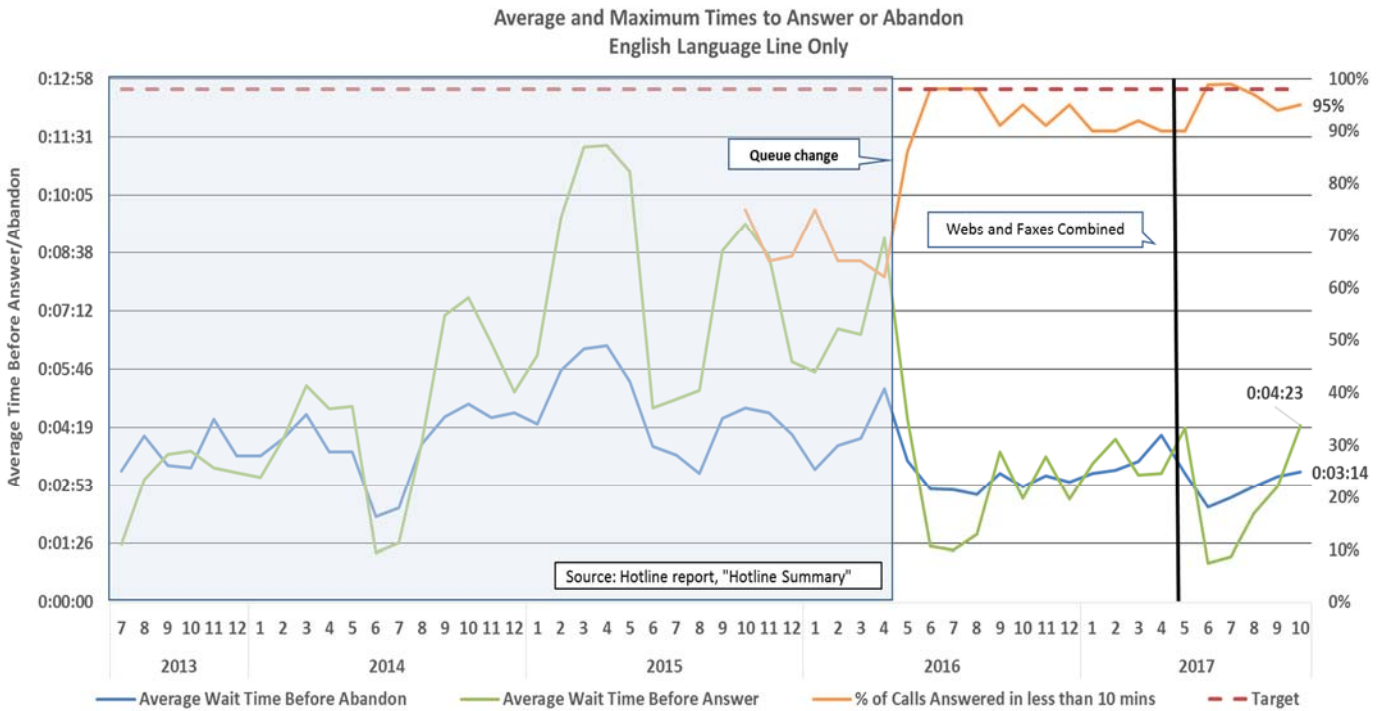

Timeliness Trends

M

● Average and Maximum Times to Answer or Abandon

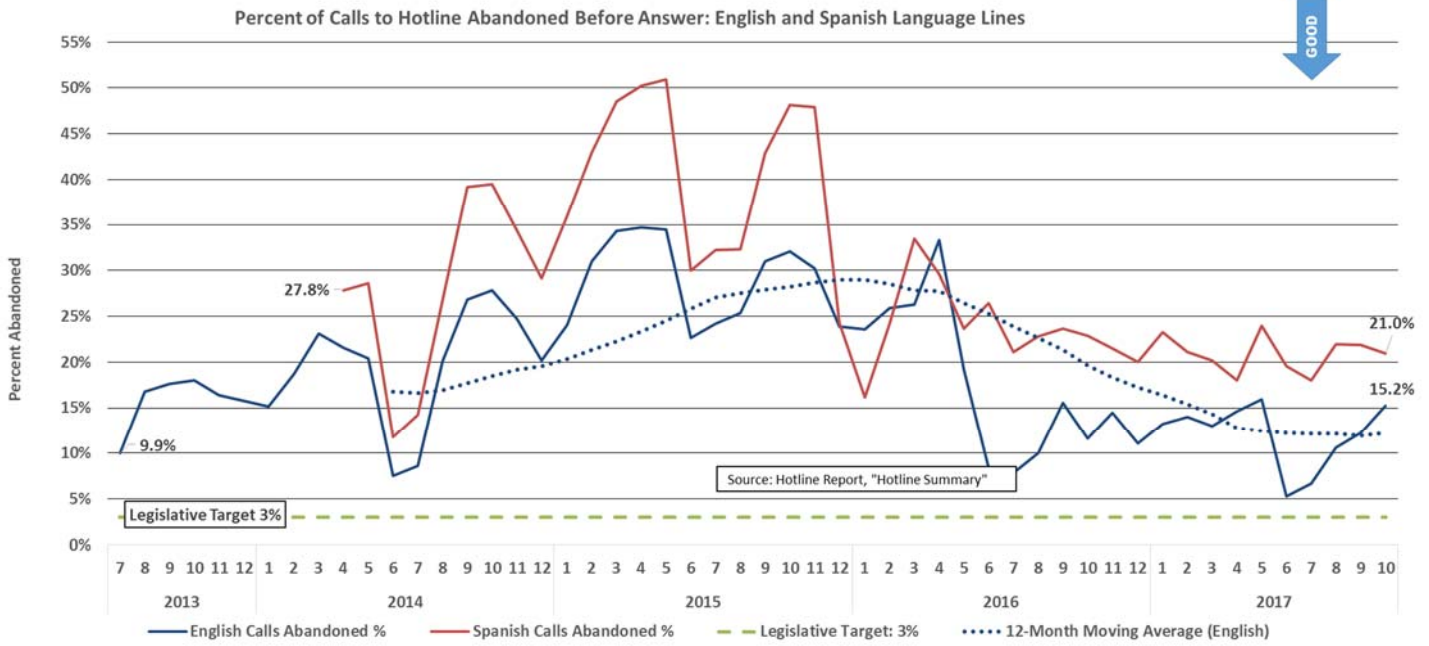

The average wait time before answer increased in October 2017 (4 minutes 23 seconds). 95% of calls were answered in 10 minutes or less, just shy of meeting the 98% target.

● Percent of Calls Abandoned

M

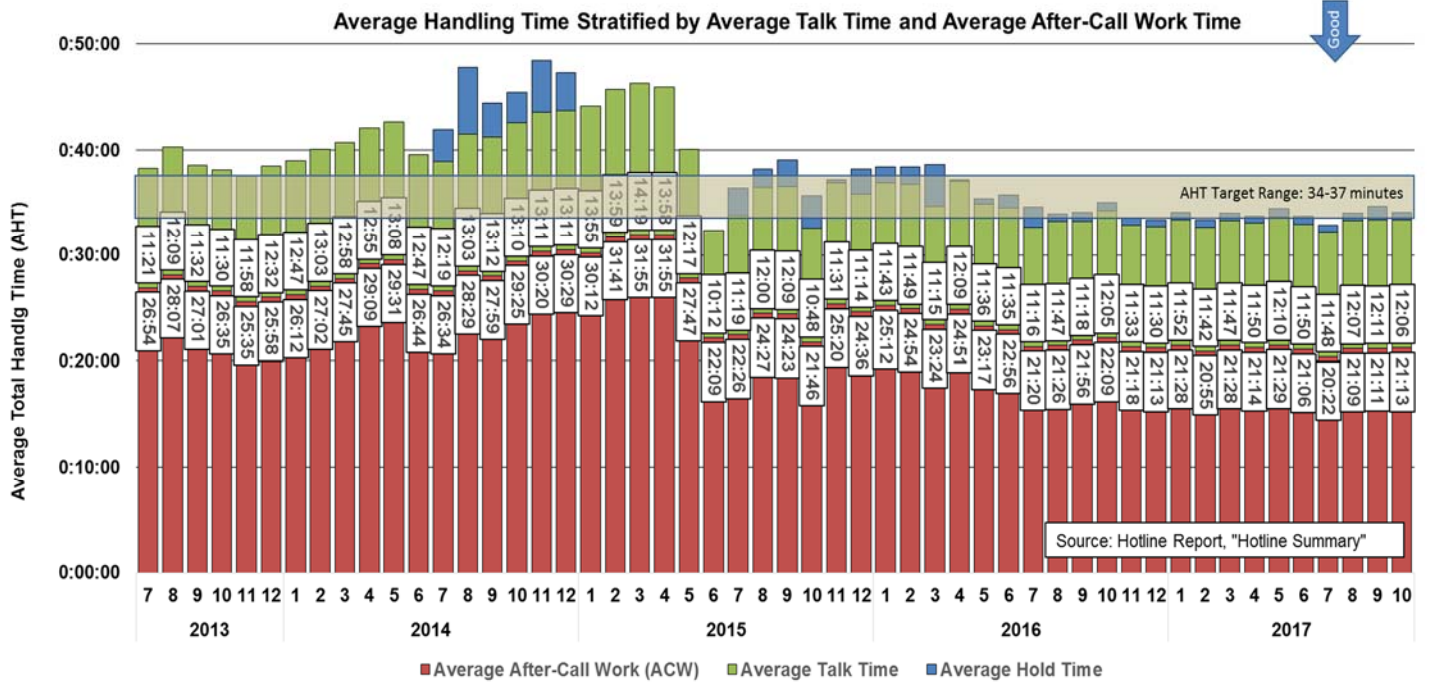

The percent of calls to the Florida Abuse Hotline that are abandoned before answer increased to 15.2% for October 2017 and the percent of Spanish Language Line abandoned calls decreased slightly to 21%.

● Average Handling Time Trend Stratification

M

The Average Handling Time (AHT) of a counselor includes talk time (ACD) and after call work (ACW). Average talk time climbed to just above the 12-minute level while ACW continued below the 22-minute level.

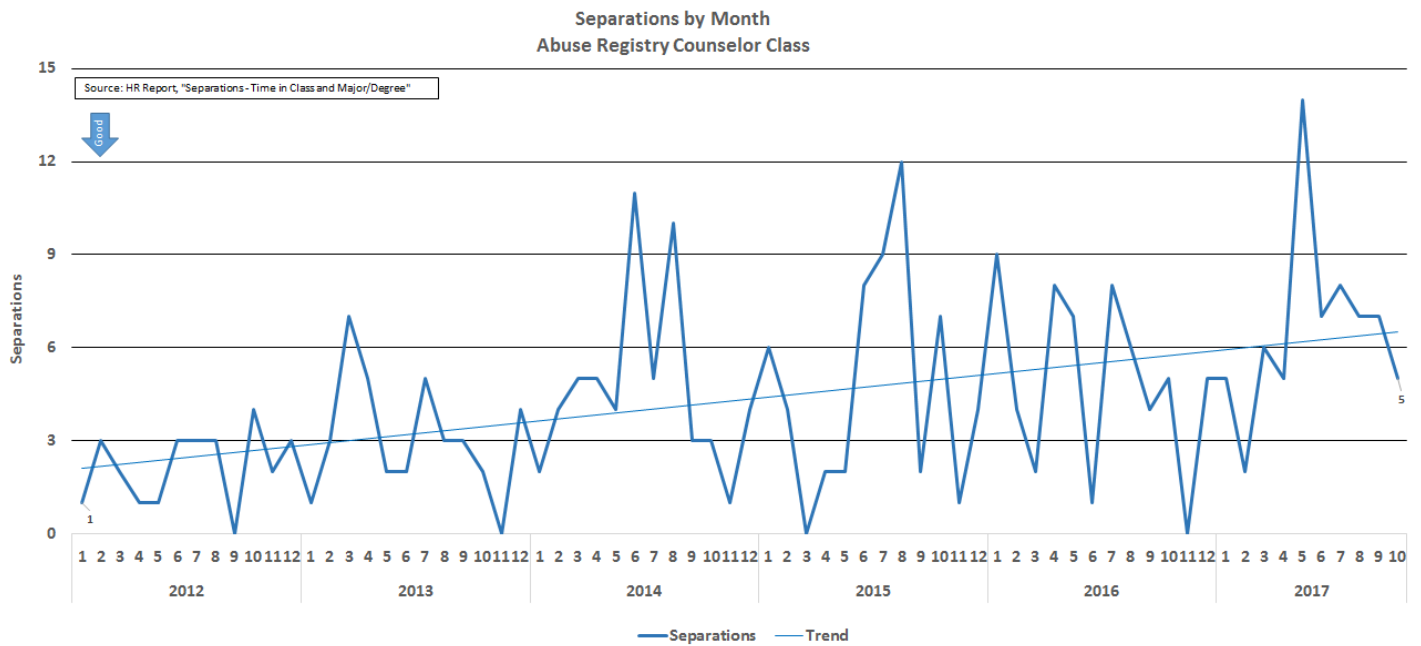

Hotline Counselor Workforce

Monthly Separations

M

The Florida Abuse Hotline had five counselor separations in October 2017. Six to eight counselor separations per month appears to be developing into the new standard for this measure.

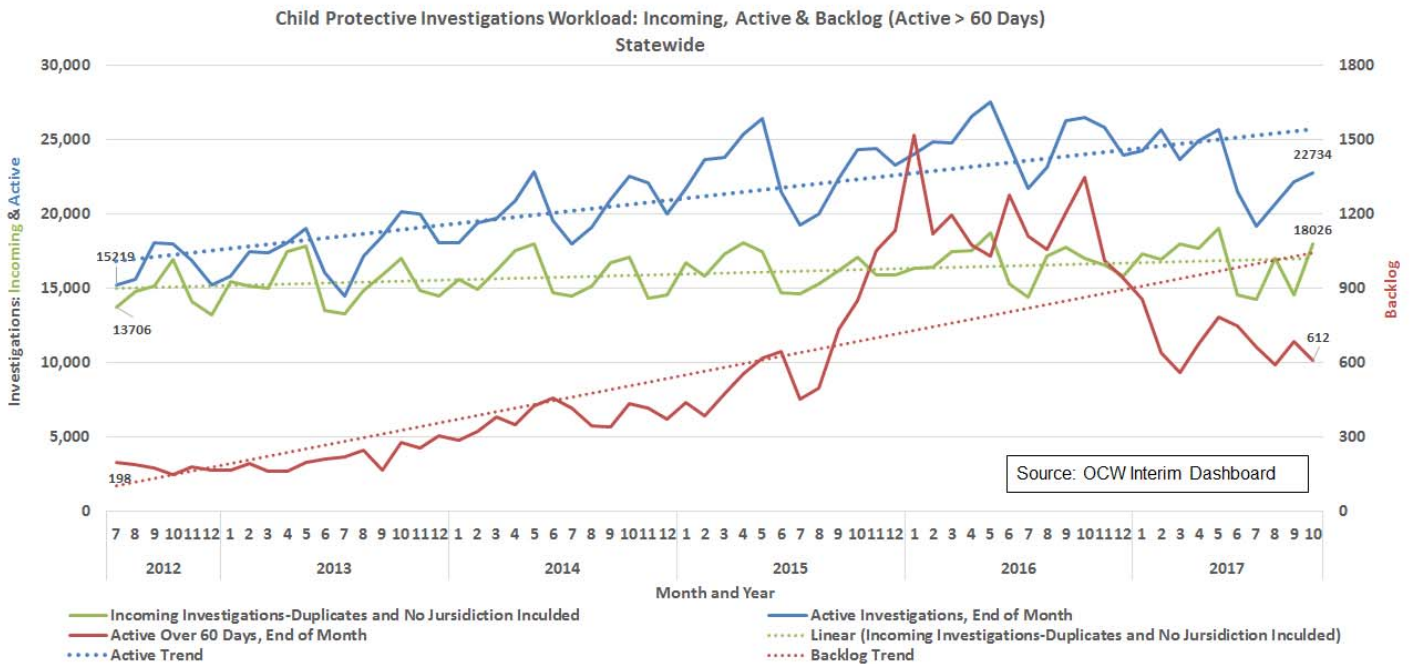

Child Protective Investigators

Workload Trends

Investigative Workload: Incoming, Active, and Backlog Investigations

M

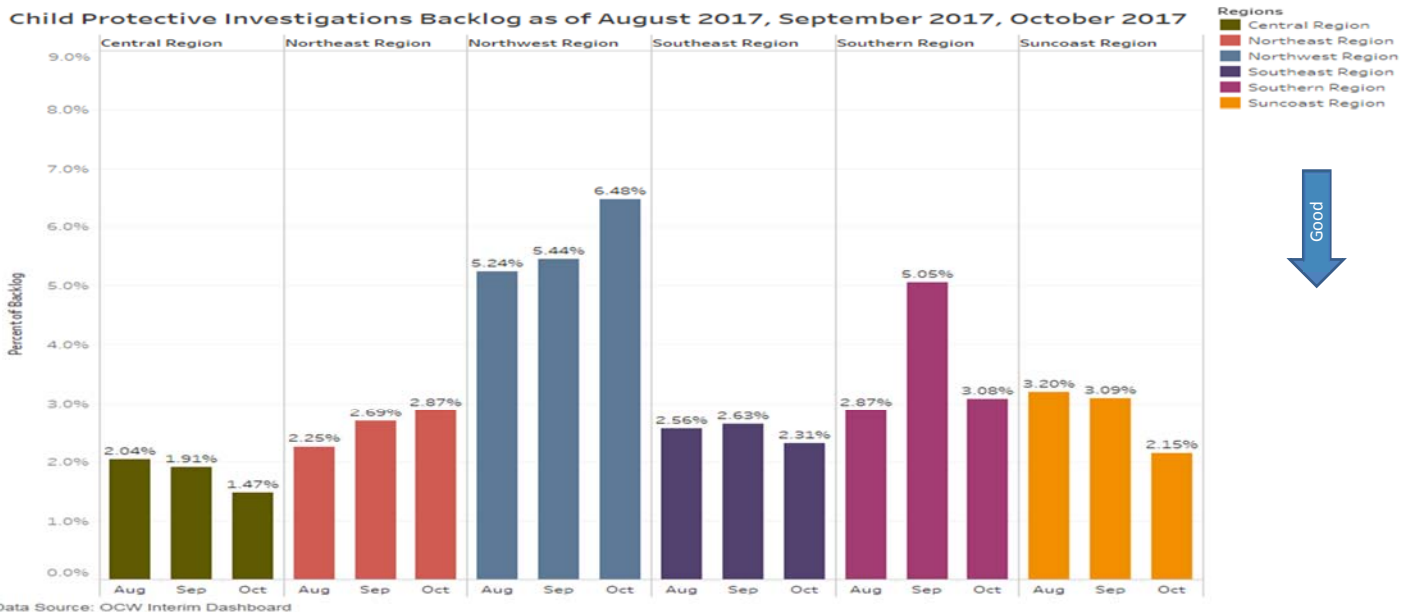

Incoming investigations returned to normal levels after a decline in September due to the anomaly that appears to be related to Hurricane Irma. Active investigations as of the last day of the month remained unseasonably low at 22,734. Backlog declined in October 2017 (612).

Investigative Workload: Stratified by Region

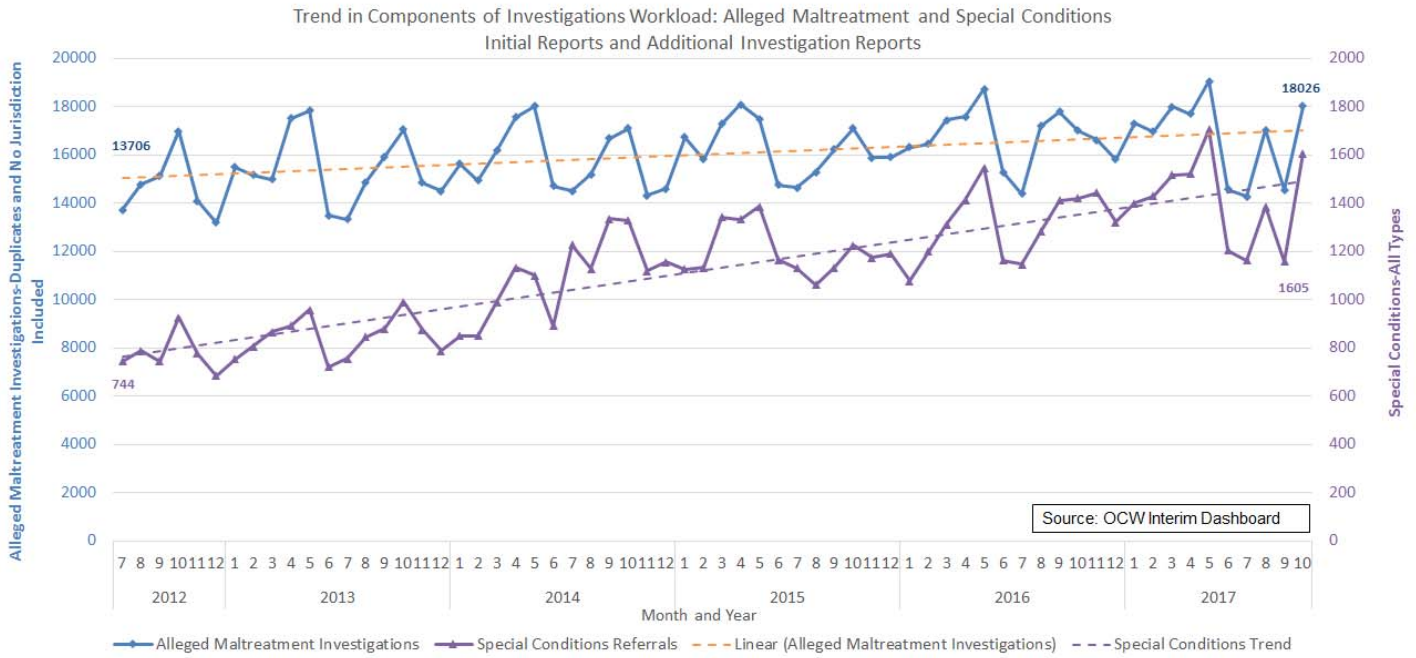

M

Four of the DCF regions had a decrease in backlog from September to October 2017, while Northeast and Northwest regions have three months of increase from August to October 2017.

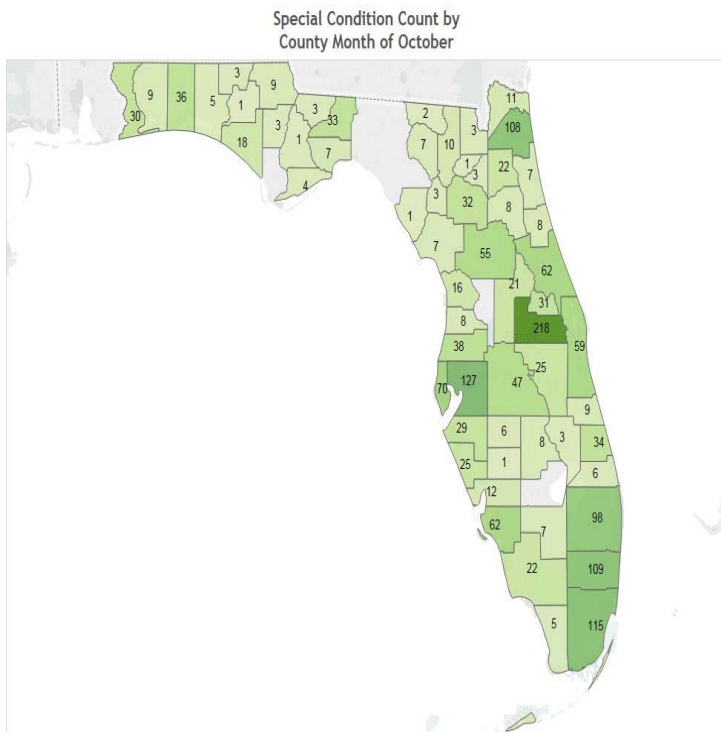

Maltreatment Investigations and Special Conditions Referrals

Alleged Maltreatment Investigations and Special Conditions Referrals returned to more normal level for October 2017 and were approximately 1,000 more than the observed totals for October 2015 and 2016.

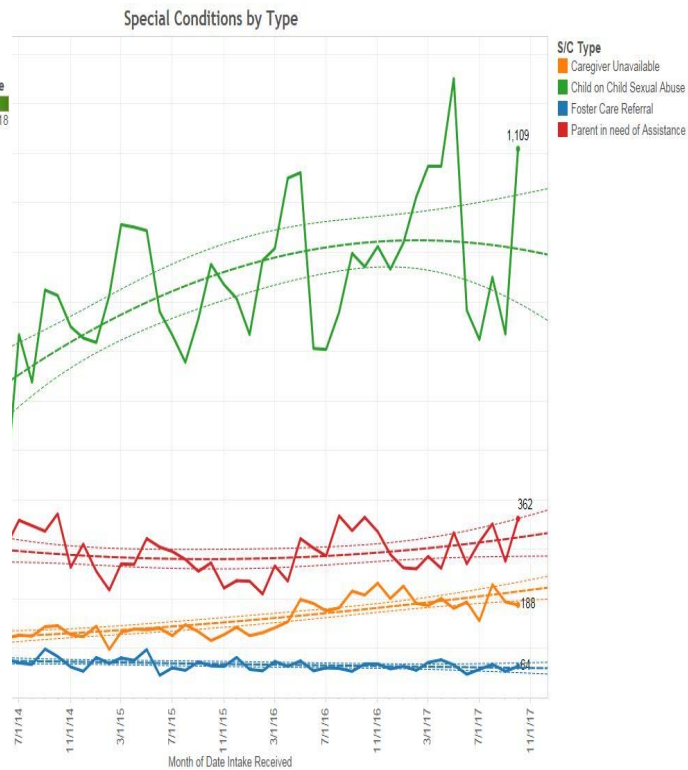

Special Conditions: Stratified by Type and by County

As observed in the data, the increasing trend in special conditions is largely due to the increase in child-on-child referrals. All other special condition types have remained fairly flat.

Map based on Longitude (generated) and Latitude (generated). Color shows count of S/C Type. The marks are labeled by count of S/C Type. Details are shown for County. The data is filtered on S/C Type, Date Intake Received Year and Date Intake Received Month. The S/C Type filter keeps Caregiver Unavailable, Child on Child Sexual Abuse, Foster Care Referral and Parent in need of Assistance. The Date Intake Received Year filter keeps 2017. The Date Intake Received Month filter keeps October.

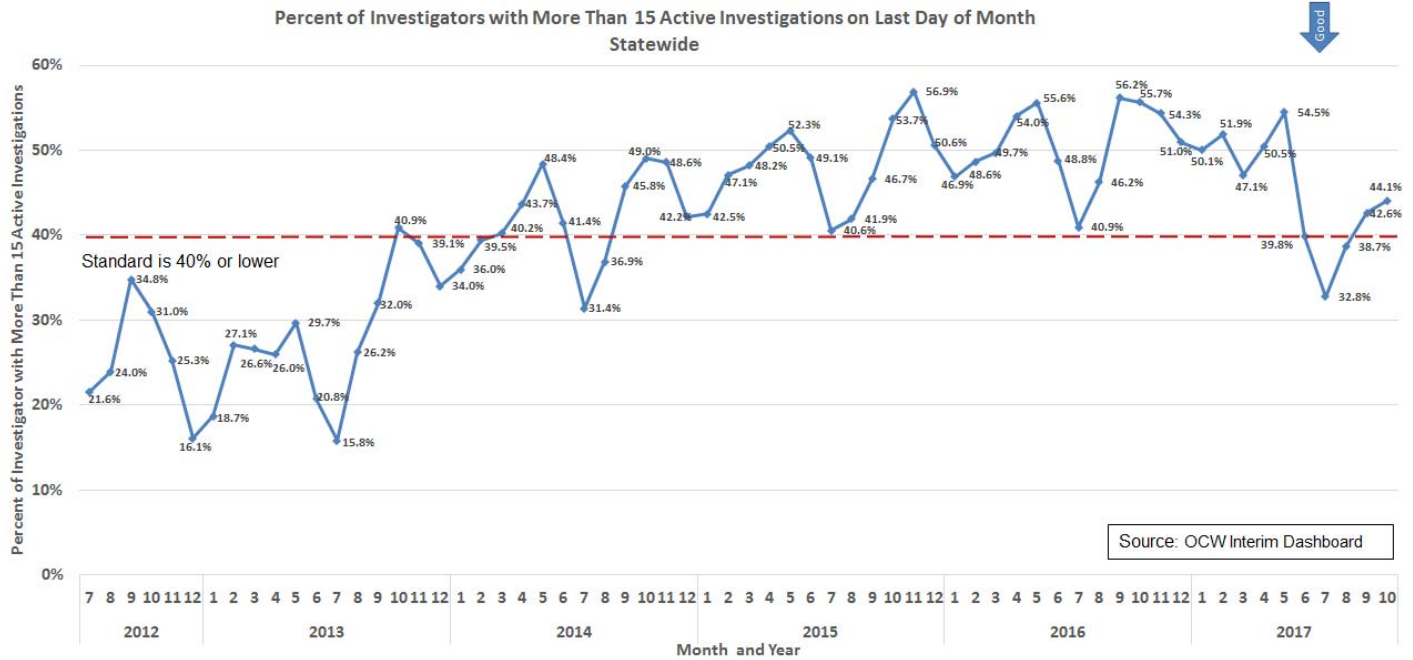

Color shows details about S/C Type. The data is filtered on County and Date Intake Received Month. The Date Intake Received Year filter keeps 2014, 2015, 2016 and 2017. The Date Intake Received Month filter keeps October.

Statewide: More Than 15 Active Investigations

M

The statewide percent of CPIs and Sheriff Office Investigators with 15 or more active investigations as of October 31, 2017 was 44.1%. This is the third consecutive month with an increase and this measure remains above the DCF standard of 40.0%.

Stratification by DCF Circuit and Sheriff's Office

M

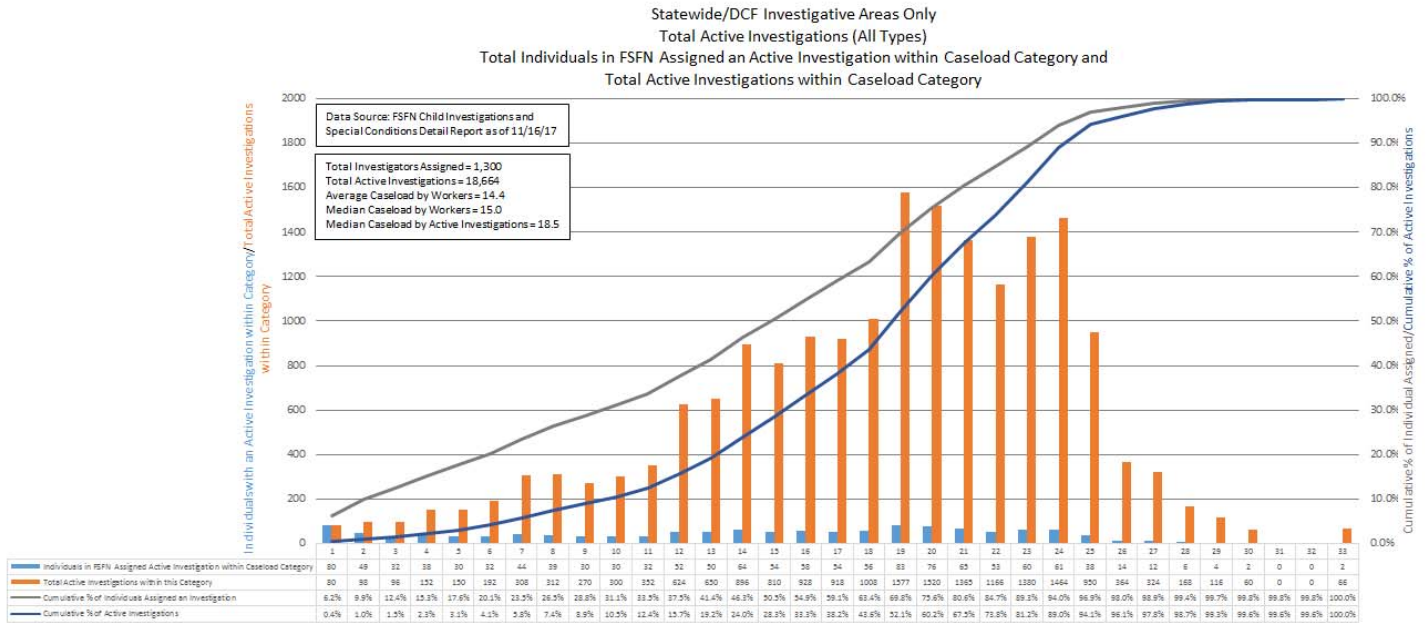

9 of the 23 investigative areas are currently meeting the DCF standard of 40% or less. Note that DCF-Circuit 16 and the Seminole SO are consistently the highest performers. DCF-Circuit 16 is a small investigative area and the Seminole SO has the shortest average open investigative time, approximately 13 days open in FSFN for an in-home investigation with the completion of a family functioning assessment.

Data Source: OCW Interim Dashboard

Active Investigations by Cohort

Department-wide efforts to ensure that no DCF CPI is carrying a case load in excess of 26 cases have been extremely successful. As of November 16, 2017, only 40 DCF CPIs were carrying 26 or more active investigations (all types). However, the number of DCF investigators carrying 26+ investigations has been increasing since October 29, 2017.

Timeliness Trends

Statewide: Alleged Child Victims Seen Within 24 Hours

The statewide percent of alleged victims seen within 24 hours increased to 89.4% in October 2017. This was above the statewide target of 85.0% or more, and is slightly higher than the last 14 months of data which have been generally stable in the area of 87.0% (with the exception of June 2017).

Stratification by DCF Circuit and Sheriff's Office

M

19 of the 23 investigative areas are currently meeting the DCF standard of 85.0% or more

Statewide: Child Investigations Completed Within 60 Days

M

The state continues to struggle with this measure with 95.5% of investigations being completed within 60 days for August 2017 incoming investigations. This was the 51st consecutive month where the state failed to reach the target of 99.0%.

Stratification by DCF Circuit and Sheriff's Office

M

Only two of the 23 investigative areas met the 99.0% 60-day investigation completion target for SFY 2016-17 and only four areas met the target for August 2017.

Safety Determinations and Services Provided

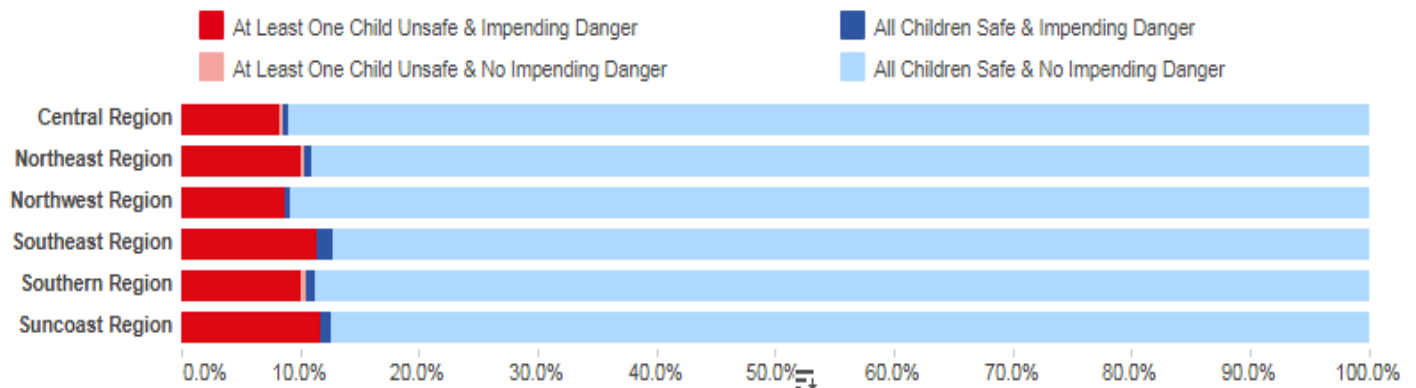

M

These Tableau visualizations are for investigations closed between September 29, 2017 and November 28, 2017.

Impending Danger Threats and Safety Determination

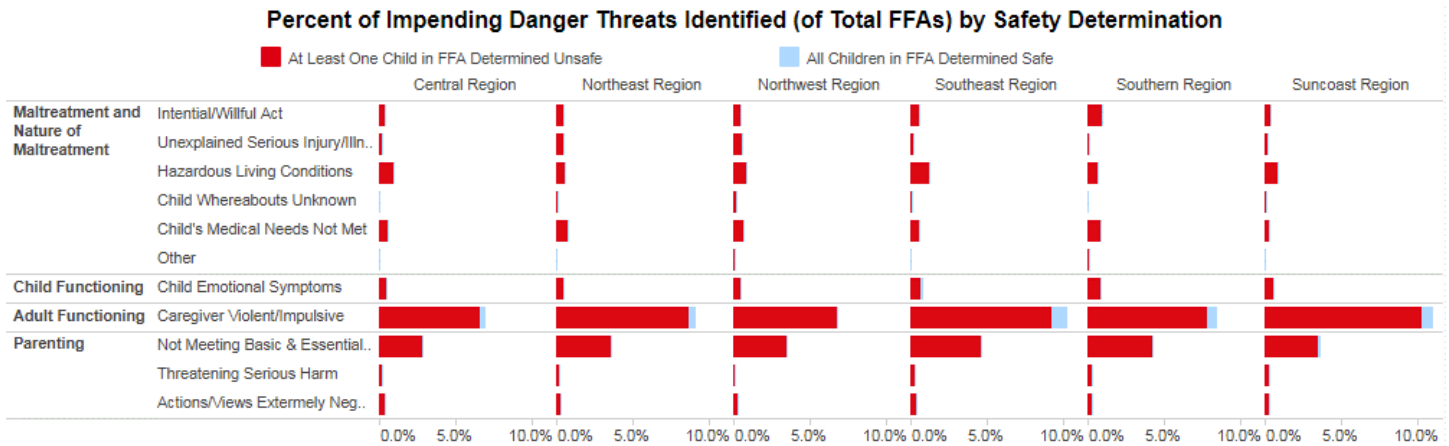

This visualization indicates that some children have been determined “unsafe,” yet have no impending danger (pink), while others are determined “safe,” yet there is impending danger (dark blue).

Percent of FFAs - Investigation by Impending Danger Threat and Safety Determination

Impending Danger Threats Identified by Safety Determination

This Tableau visualization indicates the percentage of the identified Impending Danger Threats for both safe and unsafe children, by region.

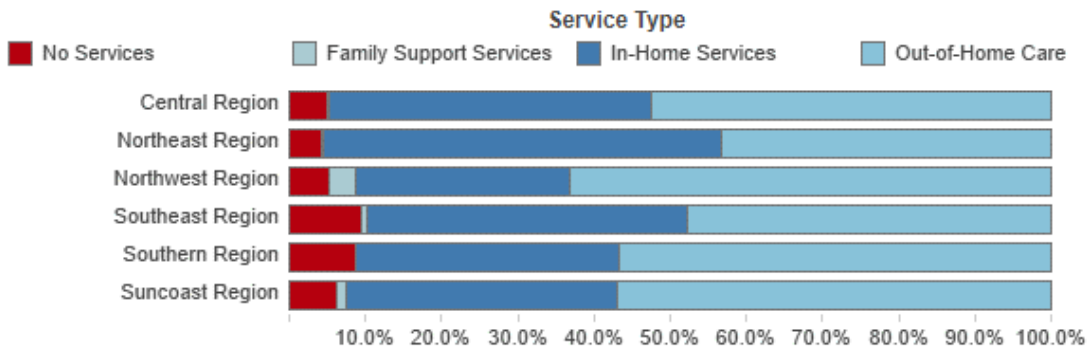

Unsafe Children and Safe Children by Placement Service Type upon Investigation Closure

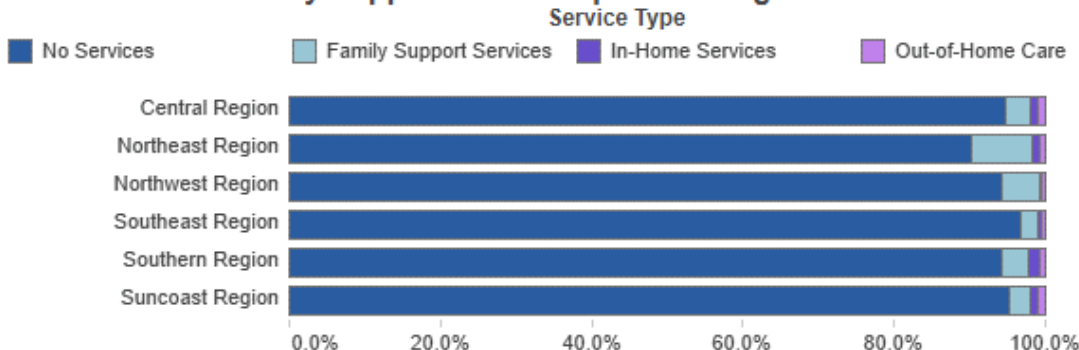

These Tableau visualizations reflect investigations closed between September 29, 2017 and November 28, 2017.

- The visualization on the top indicates that some children have been determined “unsafe,” yet have no placement services (red) or are indicated as receiving Family Support Services (lightest blue).
- The visualization on the bottom indicates that some children have been determined “safe,” yet were placed in out-of-home care (violet) or received case-managed in-home services (dark purple).

Percent of Unsafe Children by Placement Service Type or Family Support Services Upon Investigative Closure

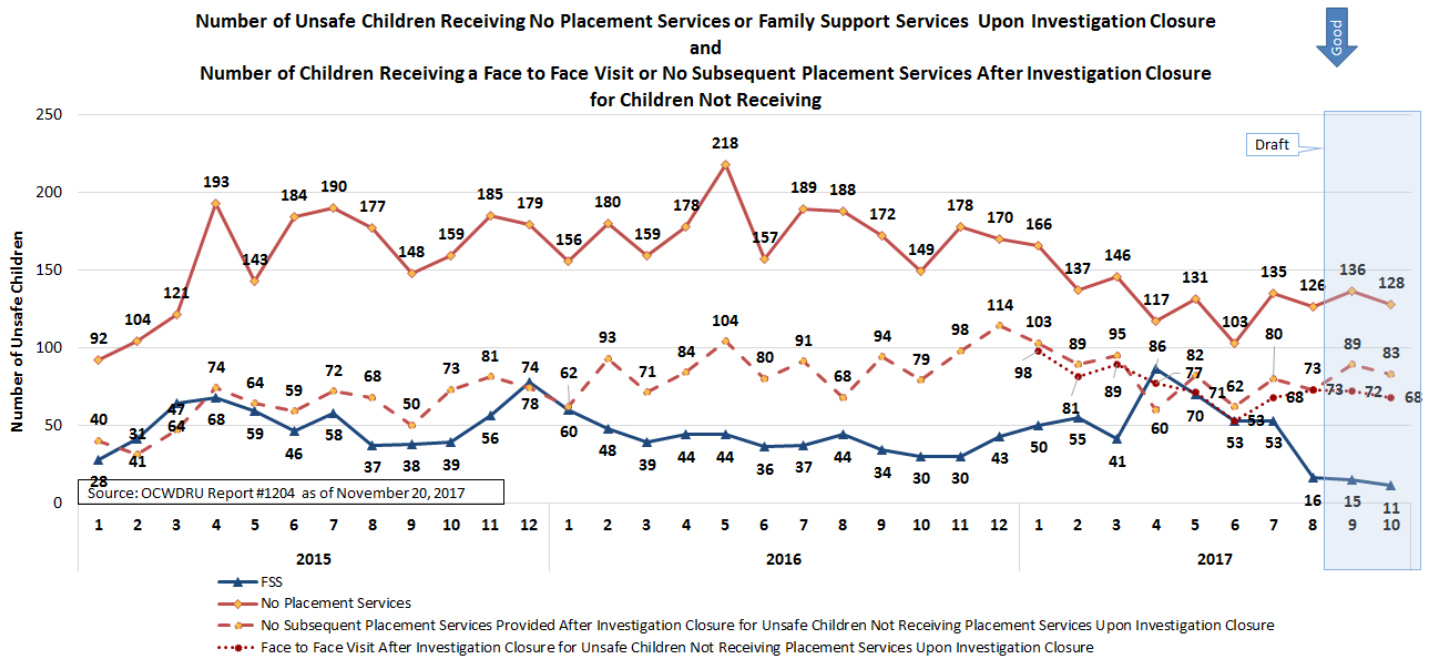

Percent of Safe Children by Placement Service Type or Family Support Service Upon Investigative Closure

● Unsafe Children Receiving No Placement Services or Family Support Services Upon Investigative Closure and No Placement Services After Investigation Closure

M

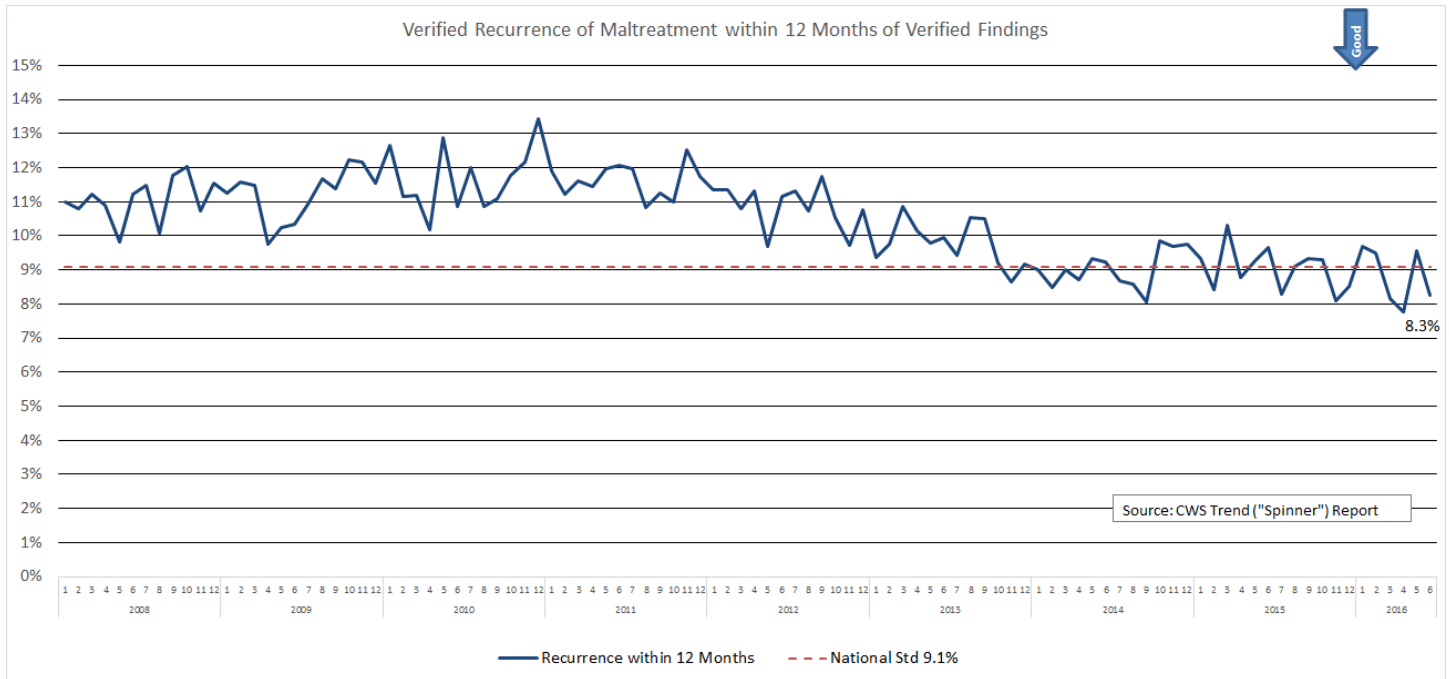

The following chart provides a trend view of the number of children who have been deemed unsafe, by month of investigation closure, who are receiving Family Support Services or no placement services as opposed to ongoing, case-managed services. Each month's data is finalized on the third pull, allowing for a grace period of around 75 days for data entry. The No Subsequent Services Provided After Investigation Closure line is a drill down on the children not receiving placement services upon investigative closure. Additionally, a new line has been added to identify if there was a face-to-face contact made after investigation closure for those children that had no placement services at investigation closure. In October 2017, although 128 children were not receiving placement services upon investigation closure, 68 of them had face-to-face contacts after investigation closure.

Statewide: Recurrence of Maltreatment After Verified Findings

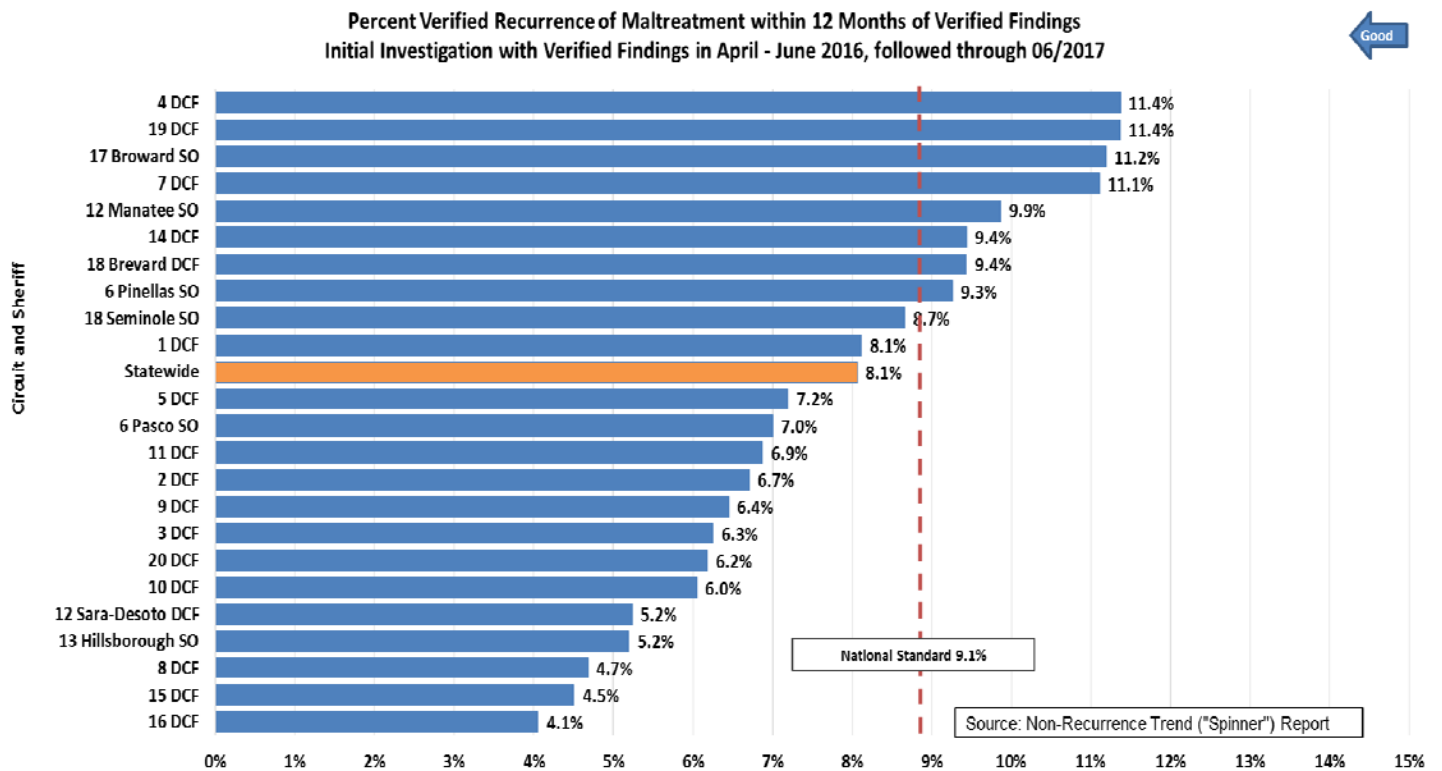

Recurrence of maltreatment within 12 months has consistently been within a percentage point since October 2013 and is currently at 8.3%.

Stratification by DCF Circuit and Sheriff's Office

There is wide variation among the circuits and sheriff's offices on this indicator. However, it should be noted variation in rates is influenced by both reporting and verification rates.

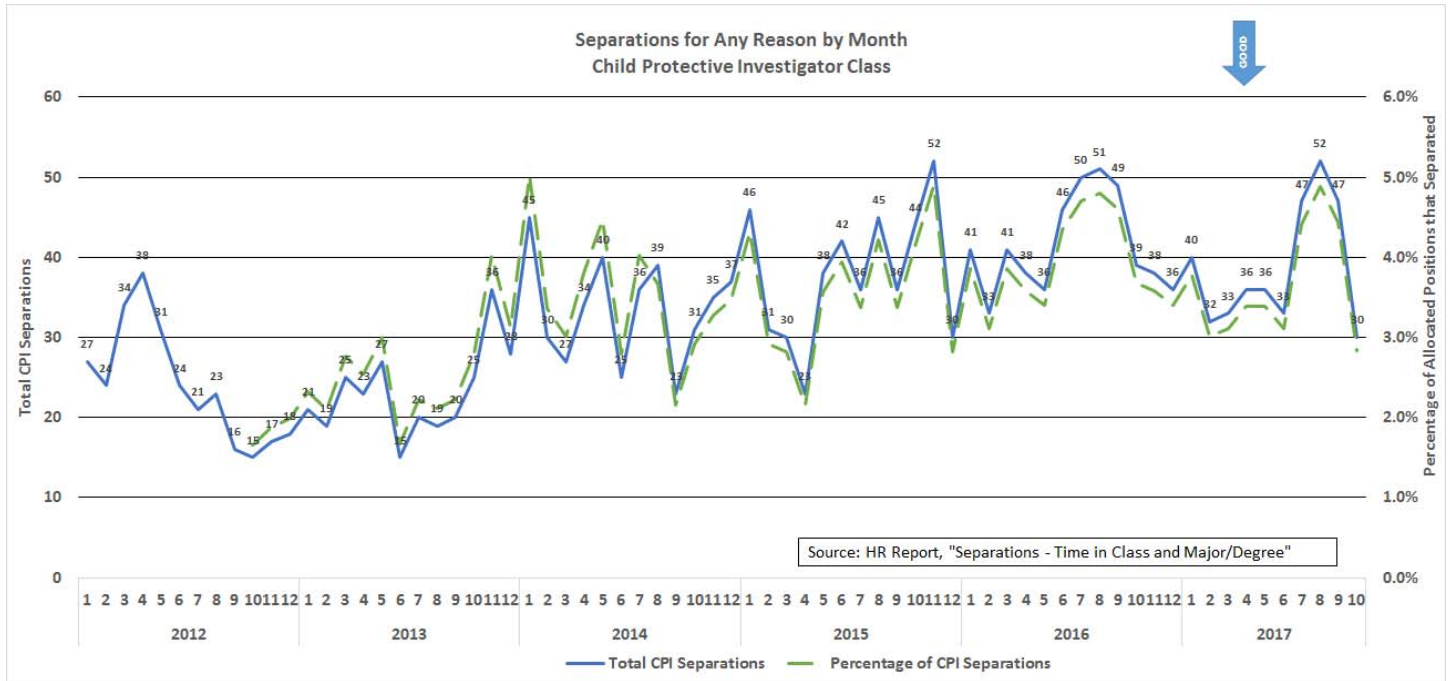

CPI Workforce

Monthly Separations

M

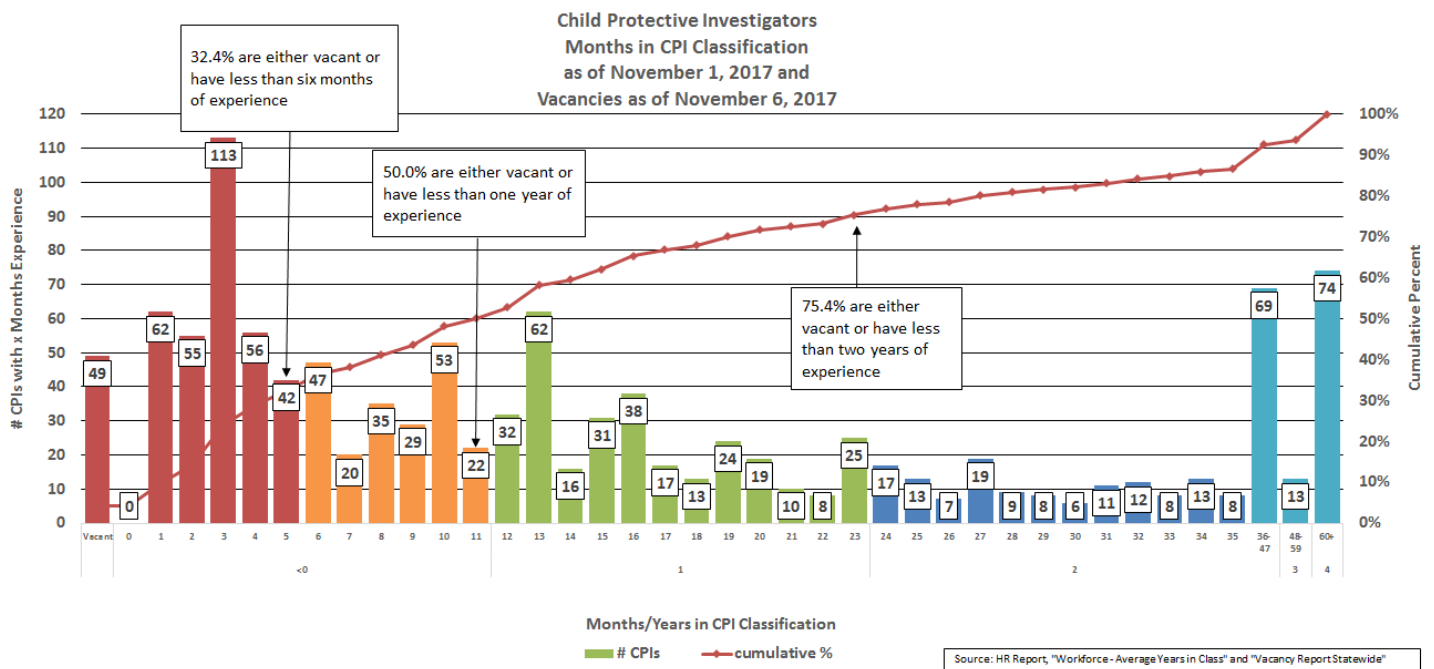

Child Protective Investigator separations were 30 for October 2017. The observed bell pattern, which includes declining CPI separations for October, mirrors the data for SFY 2015-16.

Time in Classification

M

Consistent with recent trends, at the point in time of the data pull, 32.4% of CPI positions were vacant or had less than 6-months experience and 50.0% were vacant or had less than 1-year experience.

Flow from CPI to CBC Lead Agencies

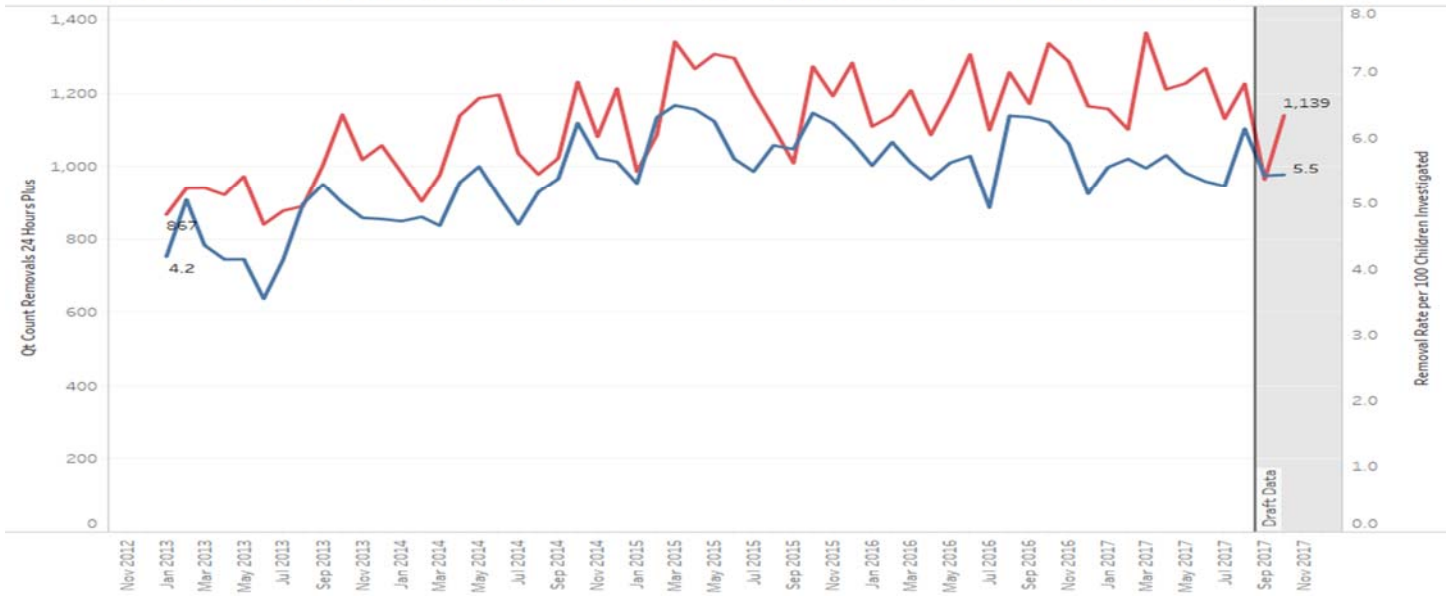

Removals and Removal Rates

Statewide Trend

M

1,139 children were removed in October 2017, which was an increase from September (975).

Number of Alleged Victims Removed During an Investigation for Investigations Closed During the Month and Removal Rates per 100 Alleged Victims for Investigations Closed During the Month, Statewide

Data Source: FSFN Data Repository, Tableau Data Source

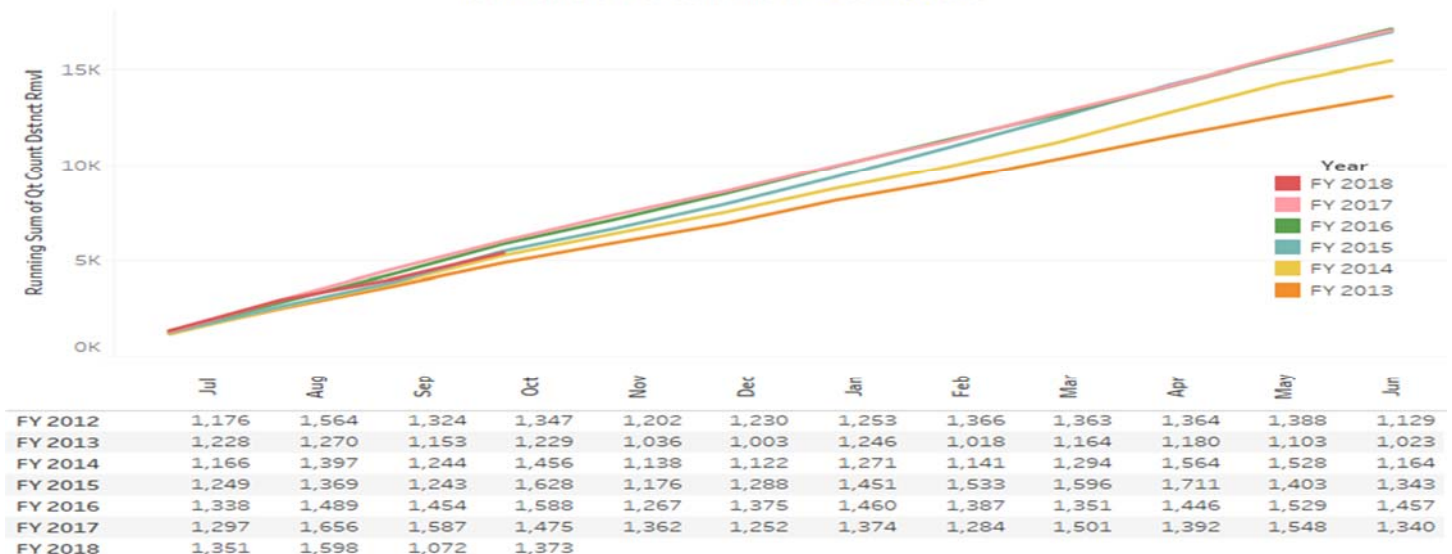

Removals and Removal Rate
■ Count of Removals (24 Hours Plus)
■ Removal Rate per 100 Alleged Victims

Removals Cumulative Count by SFY

M

The year over year cumulative count of removals for SFY 2017-2018 are slightly behind SFY 2016-17 removals but remain fairly consistent for the last 3 SFYs.

Cumulative Count of Removals

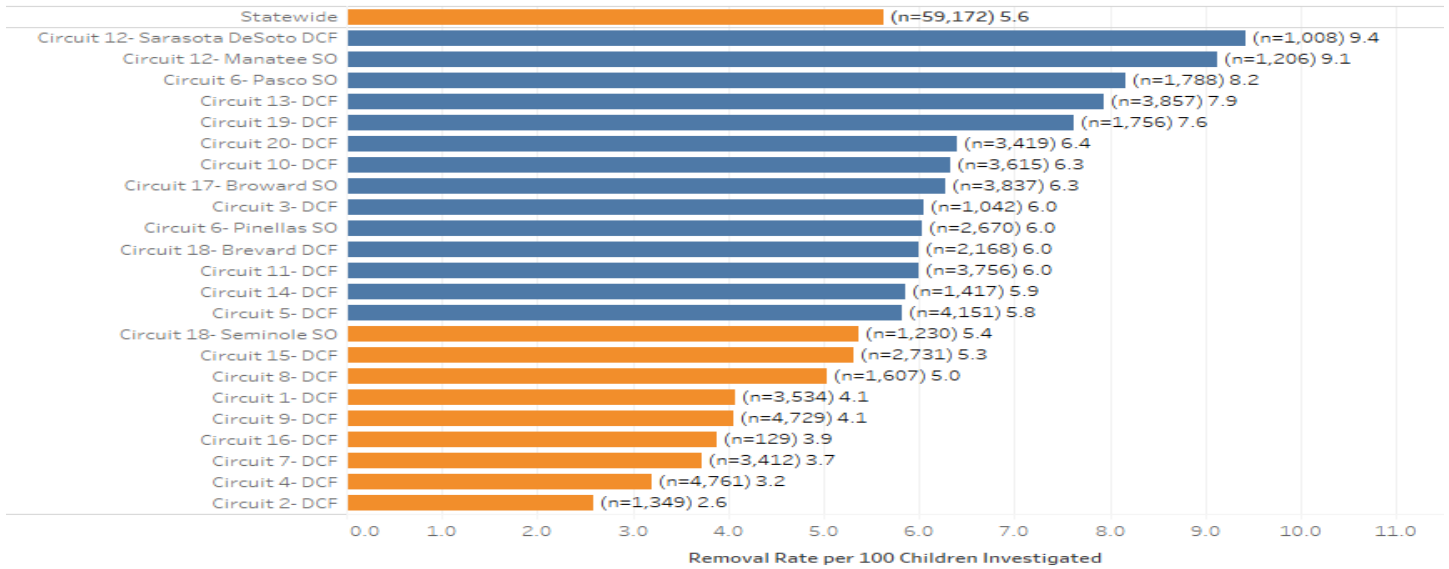

Data Source: FSFN Data Repository, Tableau Data Source

Quarterly Stratification by Circuit and Sheriff's Office

Q

There remains wide variation among circuits and sheriff's offices on this indicator. Removal rates range from 2.6 to 9.4 per 100 alleged victims.

Removal Rate per 100 Children Investigated
7/1/2017 to 9/30/2017

Data Source: FSN Data Repository, Tableau Data Source

Removal Rate Great/Less Than SW

Removal Rate Great/Less Than SW
■ Greater SW
■ Less SW

*Sep 2017 - Measure changed from per 100 children investigated to per 100 Alleged Victims.

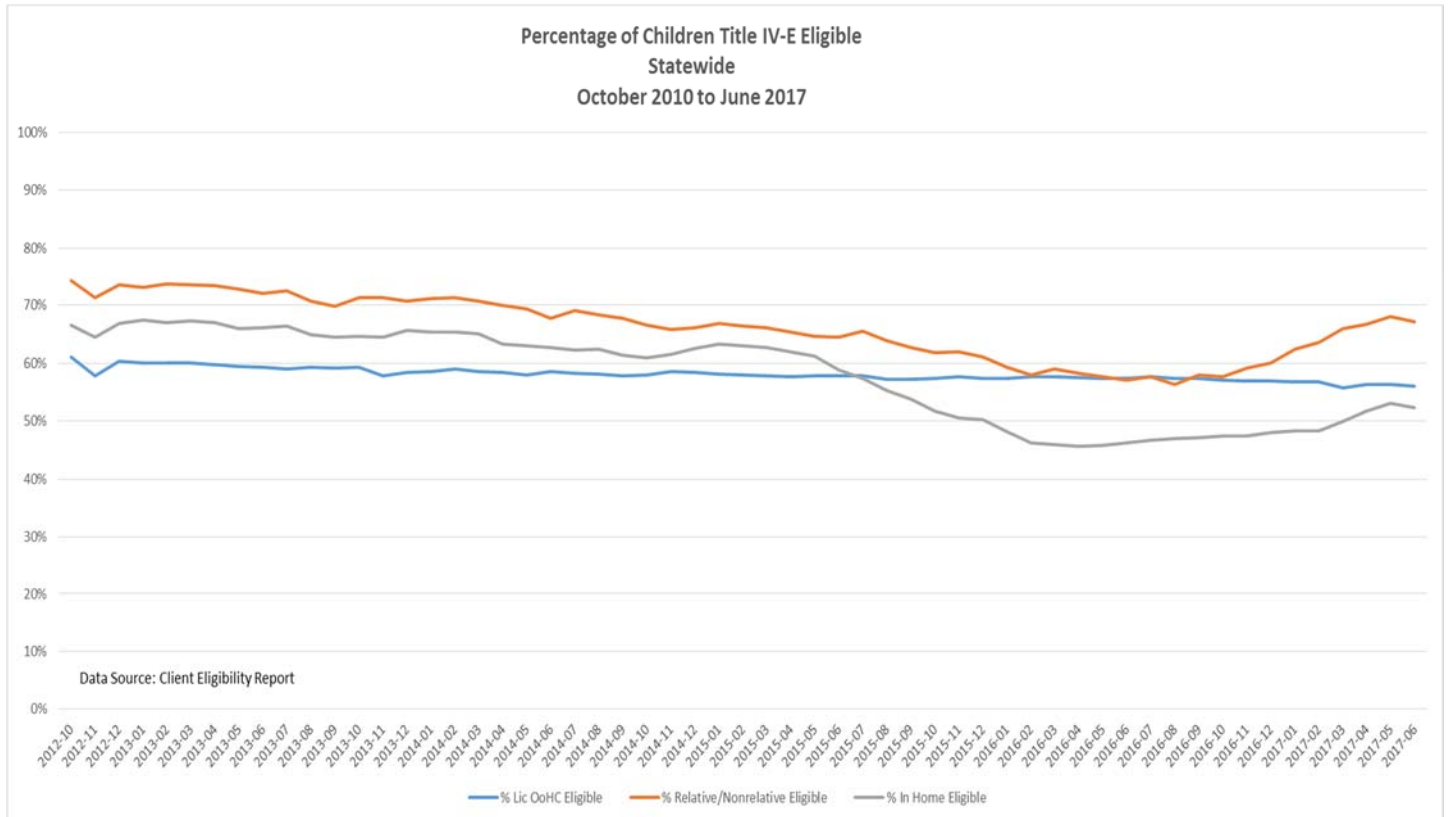

Eligibility

Title IV-E Eligibility

Percentage of Children Title IV-E Eligible

Q

The percentage of children in out-of-home care that are deemed to be Title IV-E eligible continues to decline slowly. Relative/Nonrelative and In-Home Title IV-E eligibility have both been increasing since the start of SFY 2016-17 although both of these measures have shown a noticeable decline of the last 3 months of available data. This measure is under review.

Community-Based Care Lead Agencies

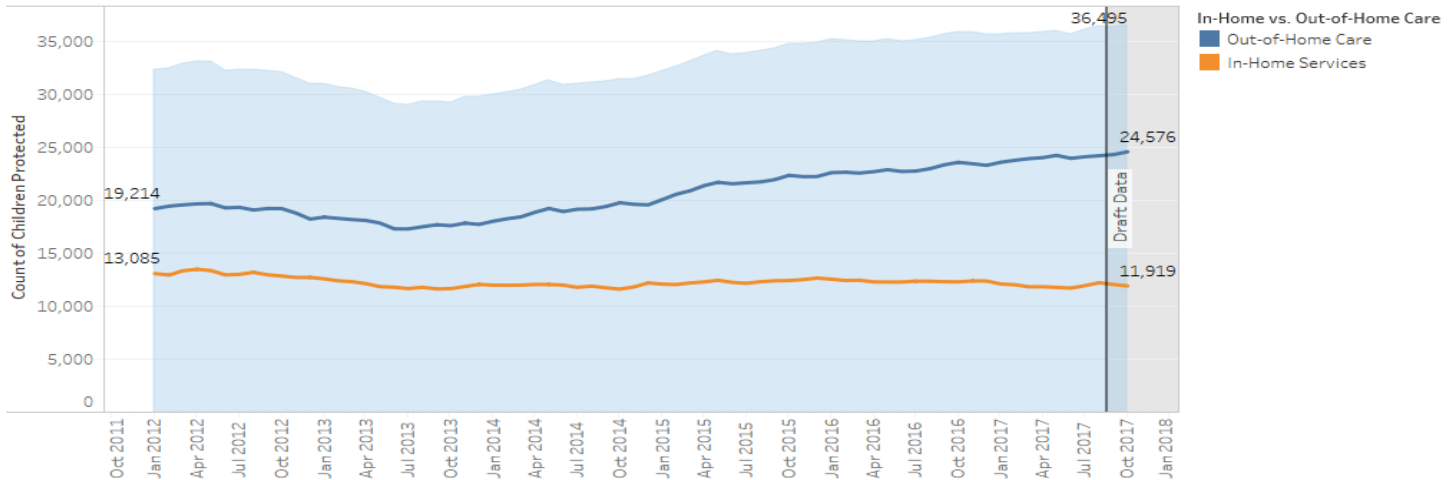

Caseload Indicators

Statewide Trends in Case-Managed Services

M

There were 24,576 children in out-of-home (OHC) care on October 31, 2017, consistent with the upward trend in OHC observed since the middle of 2013. The trend for children receiving in-home services has remained relatively flat for three years, with 11,909 children receiving in-home services on October 31, 2017.

Children Protected: In-Home vs. Out-of-Home Care

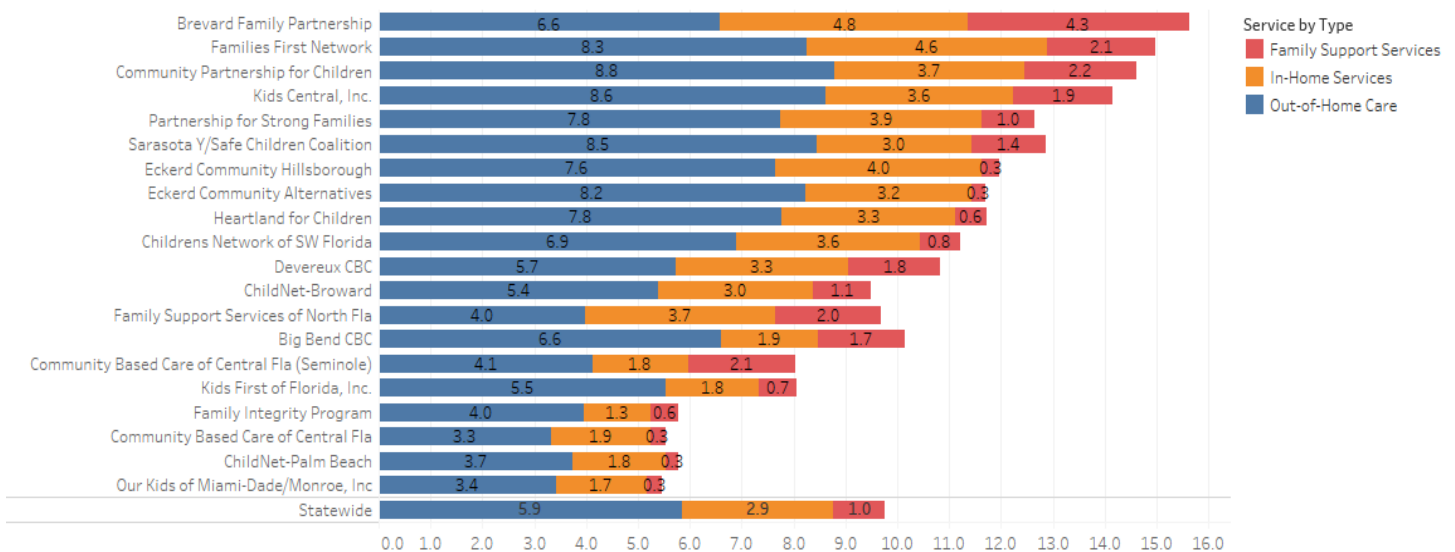

Data Source: FSFN Data Repository, Tableau Data Source

M

Services Mix

There continues to be variation among circuits in regards to in-home and out-of-home care services, with the widest variation continuing to occur in the use of Family Support Services.

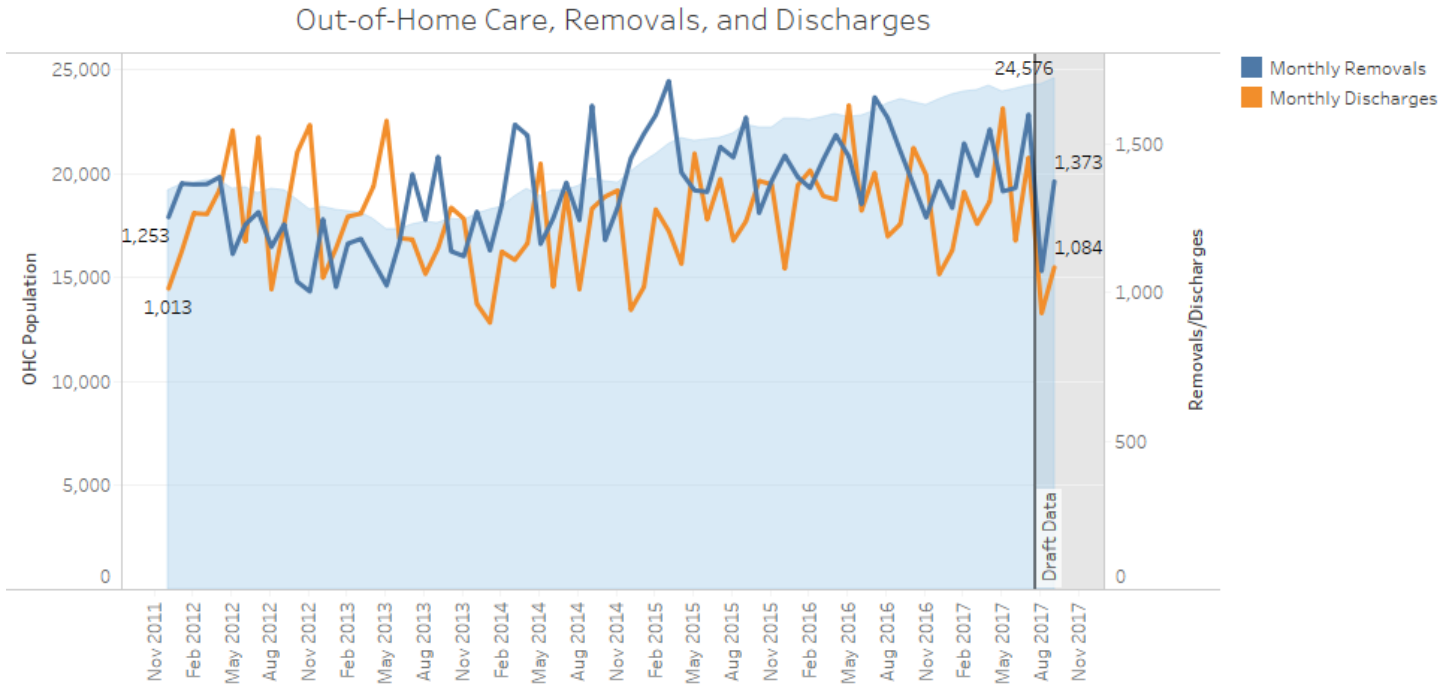

Children Receiving Service by Type on 9/30/2017-- Rates per 1,000 Child Population

Data Source: FSFN Data Repository, Tableau Data Source

Removals and Discharges Compared to Out-of-Home Care Trend

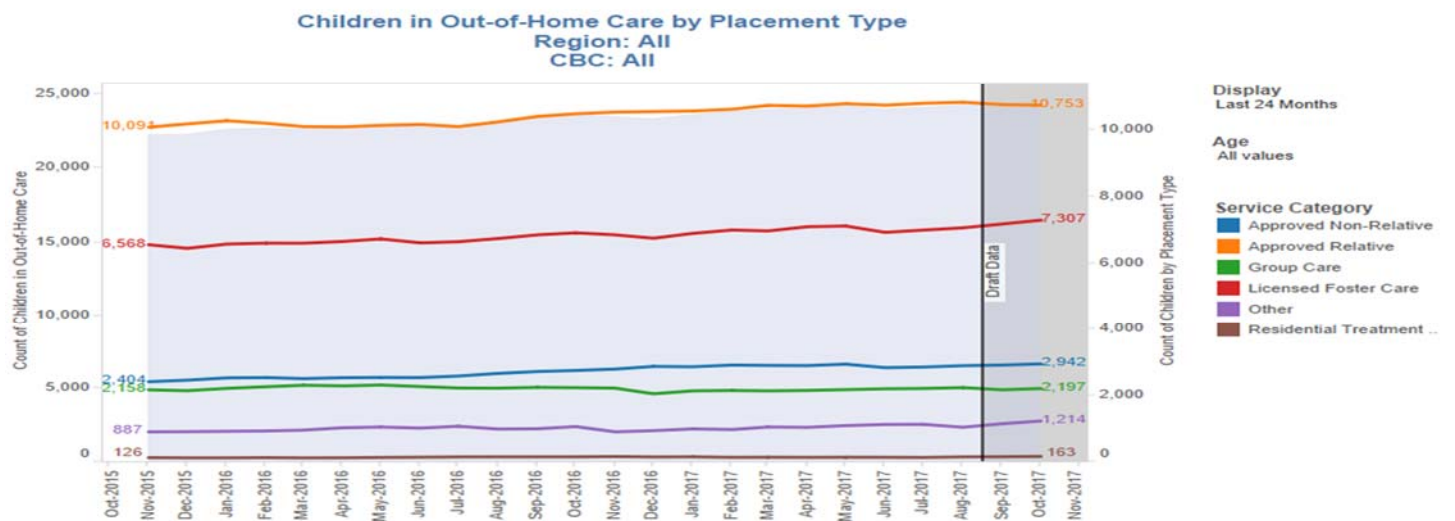

There were 1,084 discharges and 1,373 removals during October 2017.

Data Source: FSFN Data Repository, Tableau Data Source

Placement Types Compared to Children in Out-of-Home Care Trend

On October 31, 2017, there were 24,576 children in out-of-home care with 10,753 in relative care placement, 7,307 in a licensed family foster home, 2,942 in non-relative care, 2,197 in licensed group care, and 1,514 in other placement.

Family Functioning Assessment-Ongoing Implementation Map

This Tableau map provides county-specific percentages, as well as percentages by region. Please note that this map is a snapshot in time and does not reflect closed cases that utilized an FFA ongoing. Zero percent for some counties may result from a small number of cases or cases assigned to other counties. It is important to note the change in the scale from previous months.

Ongoing Services Safety Methodology Implementation Status as of 11/29/2017

Source: FSN report Active Cases with an Approved FFA-Ongoing – OCWRU #1084

Notes: Small number of cases assigned to the county will affect percentages. Based on location of primary worker. Counties with no cases assigned to them will not appear in the map.

The following table has been added providing statewide and lead agency outcome ratings from FL CQI and CFSR data around Safety, Permanency, and Well-being.

Assessment of Child Welfare Practice	Number of Cases in Sample	Safety Outcome 1		Safety Outcome 2		Permanency Outcome 1		Permanency Outcome 2		Well-Being Outcome 1		Well-Being Outcome 2		Well-Being Outcome 3	
		Outcome Rating		Outcome Rating		Outcome Rating		Outcome Rating		Outcome Rating		Outcome Rating		Outcome Rating	
		Children are, first and foremost, protected from abuse and neglect.		Children are safely maintained in their homes whenever possible and appropriate.		Children have permanency and stability in their living situations.		The continuity of family relationships and connections is preserved for children.		Families have enhanced capacity to provide for their children's needs.		Children receive appropriate services to meet their educational needs.		Children receive adequate services to meet their physical and mental health needs.

Safety Indicators

● Child Safety Trends: Comparison of Three Indicators

Children continue to be safer while receiving services than after termination of services:

- The percent of children with no verified maltreatment during case-managed in-home services has been steady around 97% for years, including in April through June 2017.
- The percent of children with no verified maltreatment within six months after termination of case-managed services was 95.2% for October through December 2016.
- The percent of children with no verified maltreatment within six months of termination of Family Support Services was at 93.9% for those closing in October through December 2016.

Child Safety During Case-Managed In-Home Services

Statewide performance for April through June 2017 was 97.2%.

Percent of Children Receiving In-Home Services Who Were Not Maltreated During Services

● Child Safety in Out-of-Home Care

Q

This measure is generated by taking the total number of reports with at least one verified maltreatment and dividing it by the total number of days in foster care for all children, with the result multiplied by 100,000 to calculate the rate of victimization per 100,000 days in foster care. The data for this quarter continues to show wide variation among the CBCs, with statewide performance not meeting the national standard of 8.50 or less.

Timeliness of Judicial Handling

M

These Children’s Legal Services indicators are directly related to the indicators of timely permanency.

● Reunification Goal After 15 Months and No Termination of Parental Rights Activity

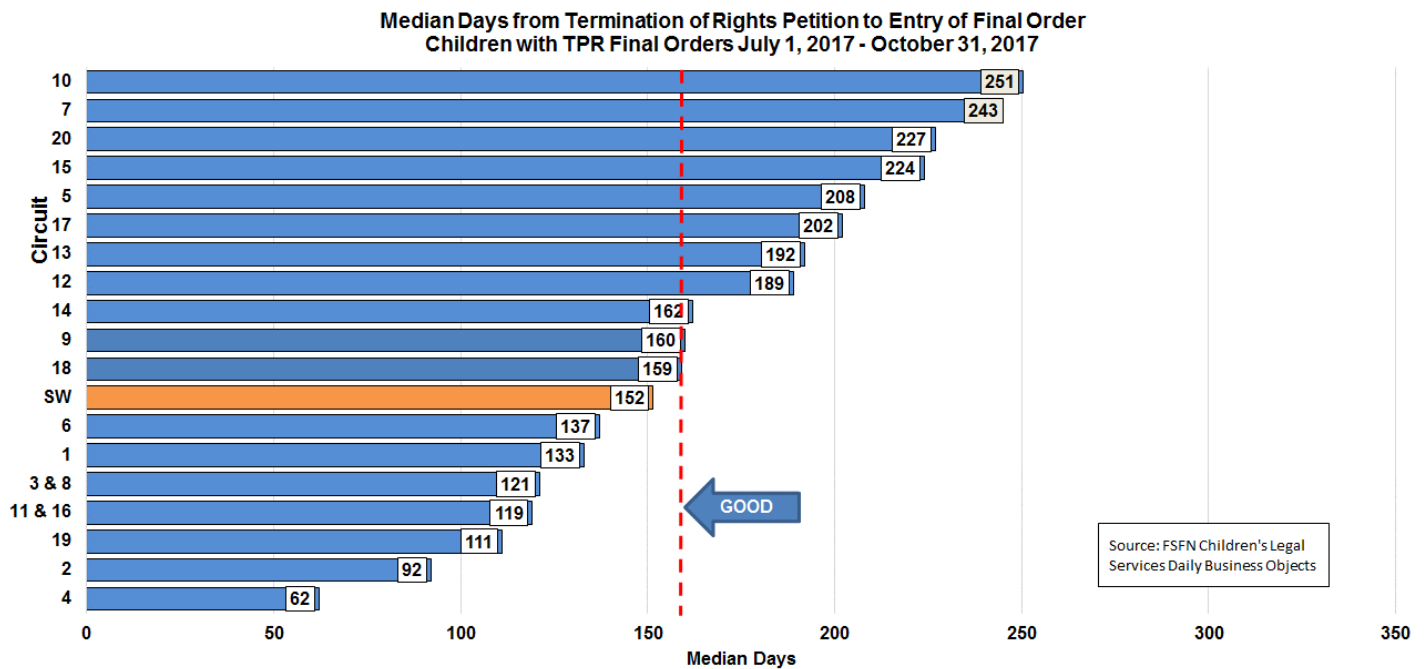

The statewide average was 7.05% on October 31, 2017. Circuit goals are set for each period after review of baseline information.

Timeliness of Termination of Parental Rights, from Petition to Order

Q

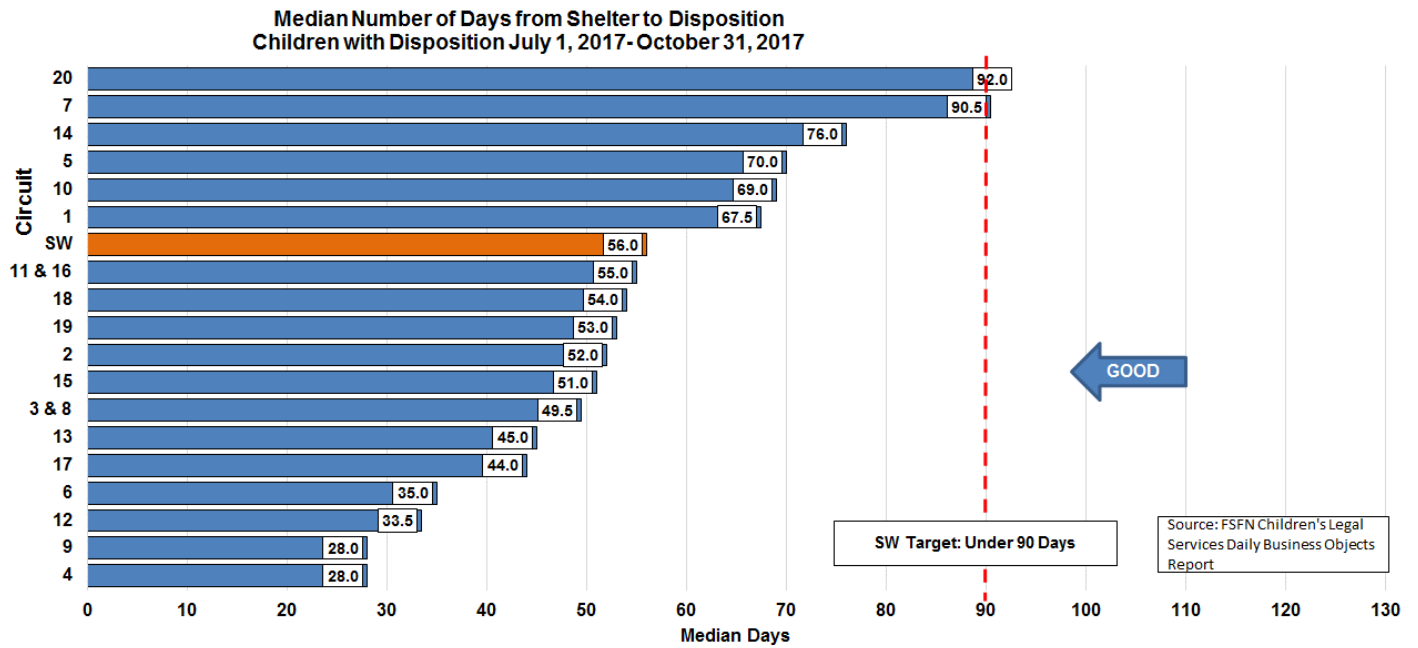

The statewide median was 152 days from July 1, 2017 through October 31, 2017. Circuit goals are set for each period after review of baseline information.

● Time from Removal Date to Disposition Order

The statewide median is 56 days, much better than the statewide target of less than 90 days. Circuit goals are set for each six-month period after review of baseline information.

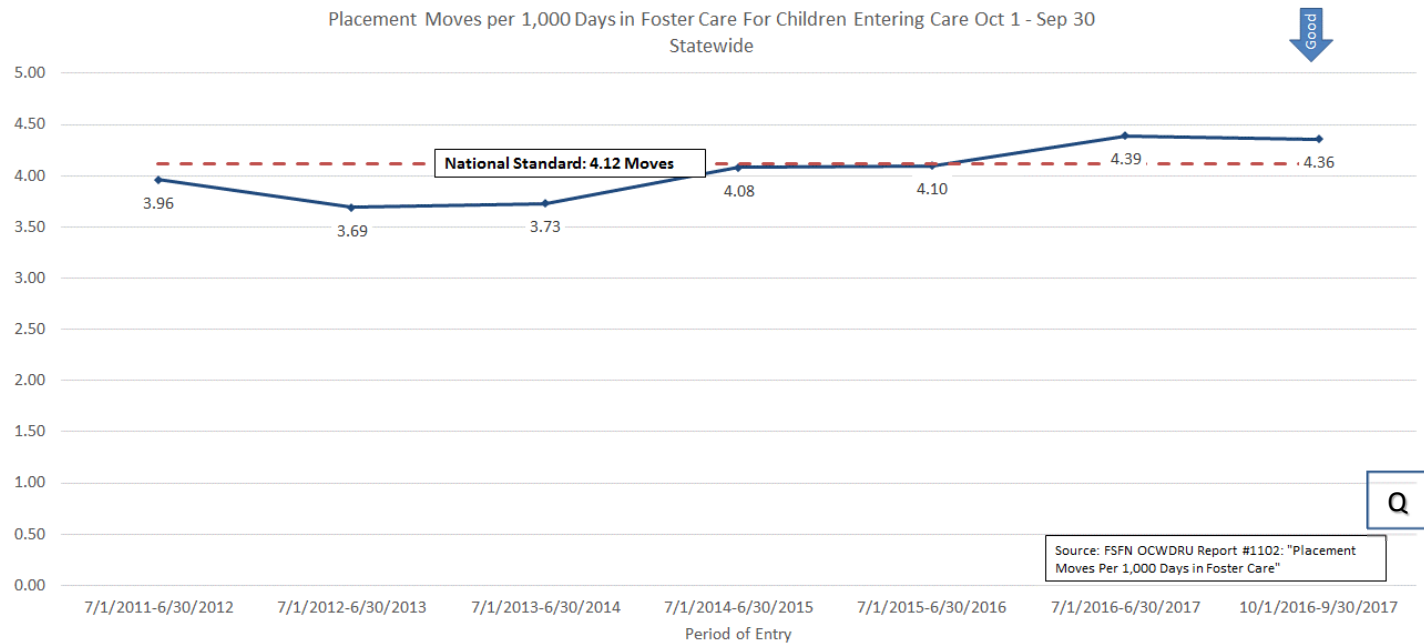

Maintaining Connections in Placement

● Statewide Trend: Placement Stability

Statewide performance has decreased to 4.36 moves per 1,000 days, but is still above the national standard of 4.12 moves per 1,000 days in foster care.

Stratification by CBC Lead Agency

Statewide performance, currently at 4.36 moves per 1,000 days in foster care, does not meet the national standard of 4.12 moves. There is wide variation among the lead agencies, with twelve meeting the standard.

Source: FSFN OCWDRU #1007 - "Children in Licensed Out-of-Home Care Placed Outside of Removal County/Circuit/Region"

Children Placed Outside the Removal Circuit

The 18.4% currently placed outside of their removal circuit is lower than for the out-of-county indicator, as many children that are not placed in their home county are placed within their home circuit.

Prescribed Psychotropic Medications

Children in Out-of-Home Care with Prescribed Psychotropic Medications

The statewide percentage of children in out-of-home care with at least one prescribed psychotropic medication on November 16, 2017 was 10.8%.

Percentage of Children in Out-of-Home Care that were Prescribed at Least One Psychotropic Medication as of 11/16/2017

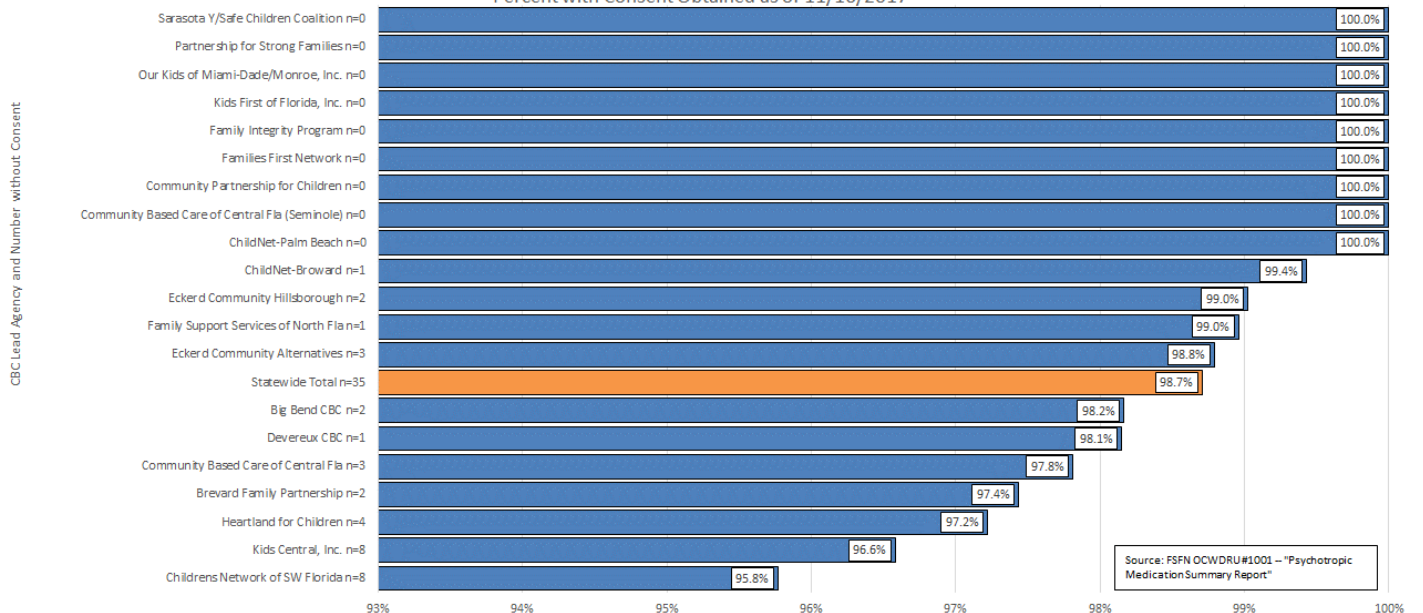

Children with Consent for Prescribed Psychotropic Medications

In order to administer psychotropic medication to a foster child, parental consent or a court order must be obtained, unless the child is receiving inpatient services or a physician certifies that delay would be likely to harm the child. The statewide percentage of children with at least one prescribed psychotropic medication on November 16, 2017 where consent was obtained was 98.7%.

Children in Out-of-Home Care that Were Prescribed at Least One Psychotropic Medication Percent with Consent Obtained as of 11/16/2017

Dental Services

Children Receiving Dental Services in Last Seven Months

Q

Considerable progress has been made in the last few years with medical and dental services, with the statewide percent of children receiving recent dental services at 90.5% as of September 30, 2017, the lowest it has been in two years.

Education Program Enrollment

Young Adults Aging Out Enrolled in Education Programs

Q

For children who don't achieve permanency prior to reaching adulthood, it is crucial that they are prepared for life after foster care by the time they "age out" of care. This is one indicator of that preparation for adulthood, but does not control for any of the many variables that influence this preparation, including time in care and the child's educational level when entering care.

Dually Served Youth

M

Statewide Trend: Youths Served by CBC Lead Agencies and Juvenile Justice

The number of youths served by both the child welfare system and the juvenile justice system in November 2017 was 1,062.

Stratification by CBC Lead Agency

M

The number of youths served by both systems is variable among the lead agencies, but is related to the total number of youths served by each lead agency.

Missing Child

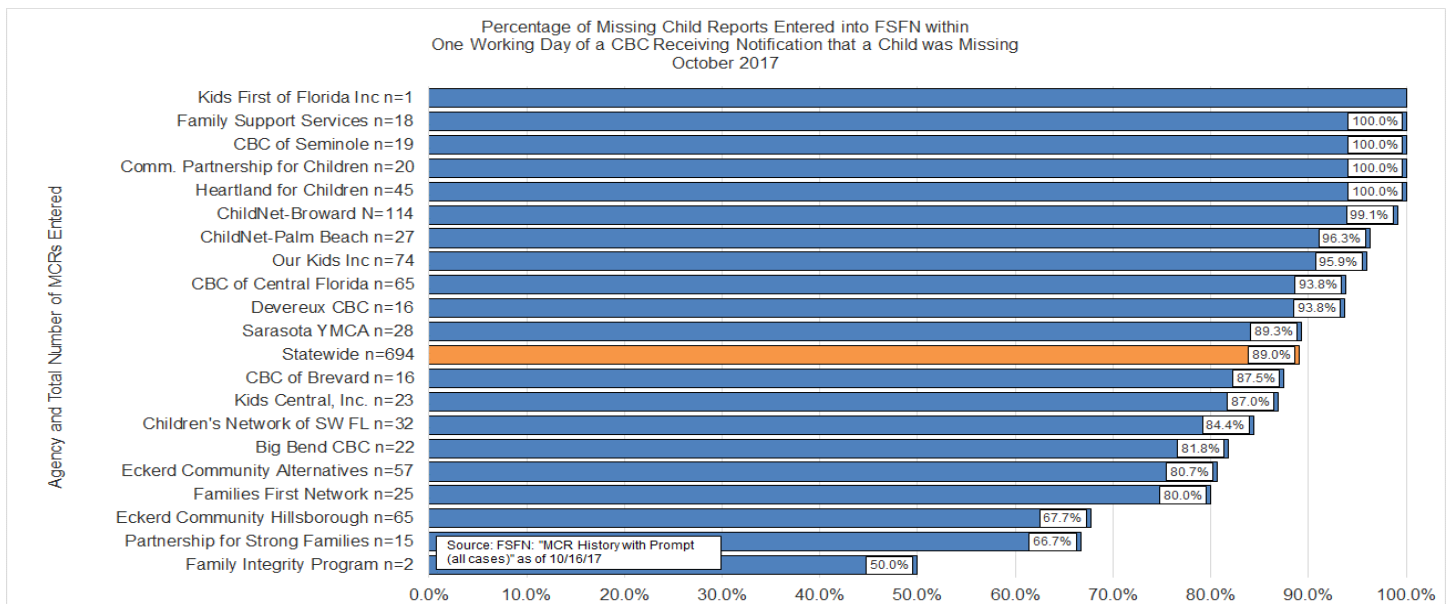

Average Number of Children Categorized as Missing from Care and Supervision

The average daily number of children categorized as missing from the care or supervision of the Department continues to display a strong 12 month oscillating pattern with October 2017 showing an upward trend. Year over year data indicates that the average daily number of children categorized as missing from the care or supervision of the Department increased, moving from an average of 211 in October 2016 (0.59%) to 244 in October 2017 (0.70%).

Child Reports Entered into FSFN within One Working Day

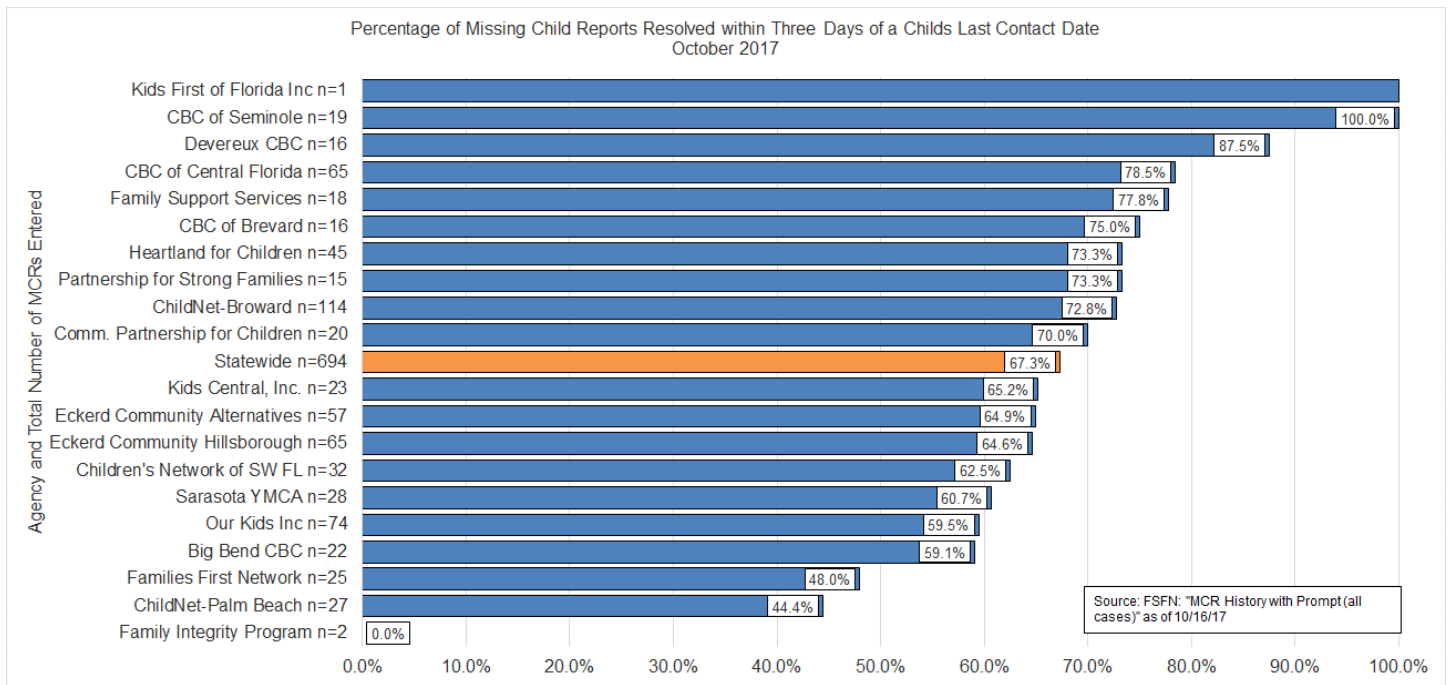

There is wide variance in the total number of missing child reports that were entered within FSFN and the percentage of missing child reports entered into FSFN within one working day of a CBC learning that a child was missing across the CBCs. On average, of the 694 missing child reports entered into FSFN in October 2017, 89.0% were entered into FSFN within one day of a CBC learning that a child was missing.

Resolution of reports within 3 days

M

The majority of missing child episodes are generally resolved quickly. Of the 694 missing child reports that were entered into FSFN in October 2017, 66.3% were resolved within three days of a child's last contact date.

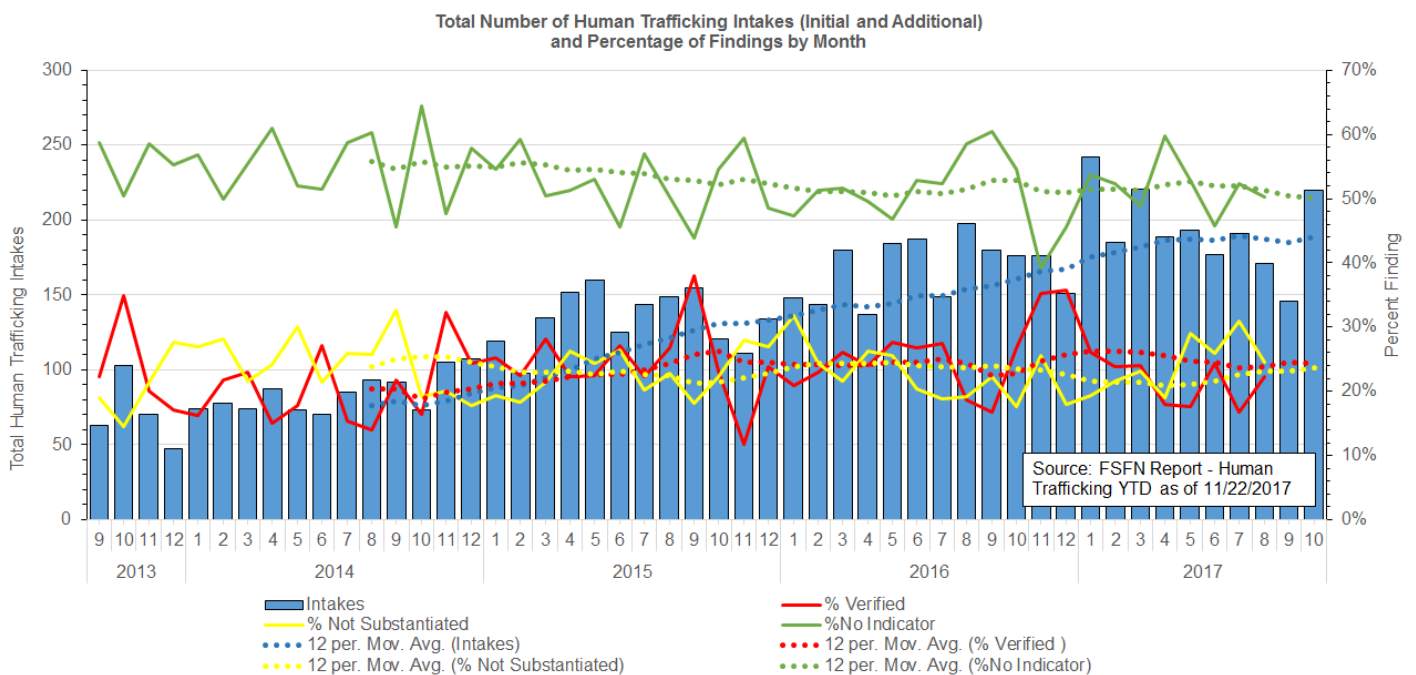

Human Trafficking

M

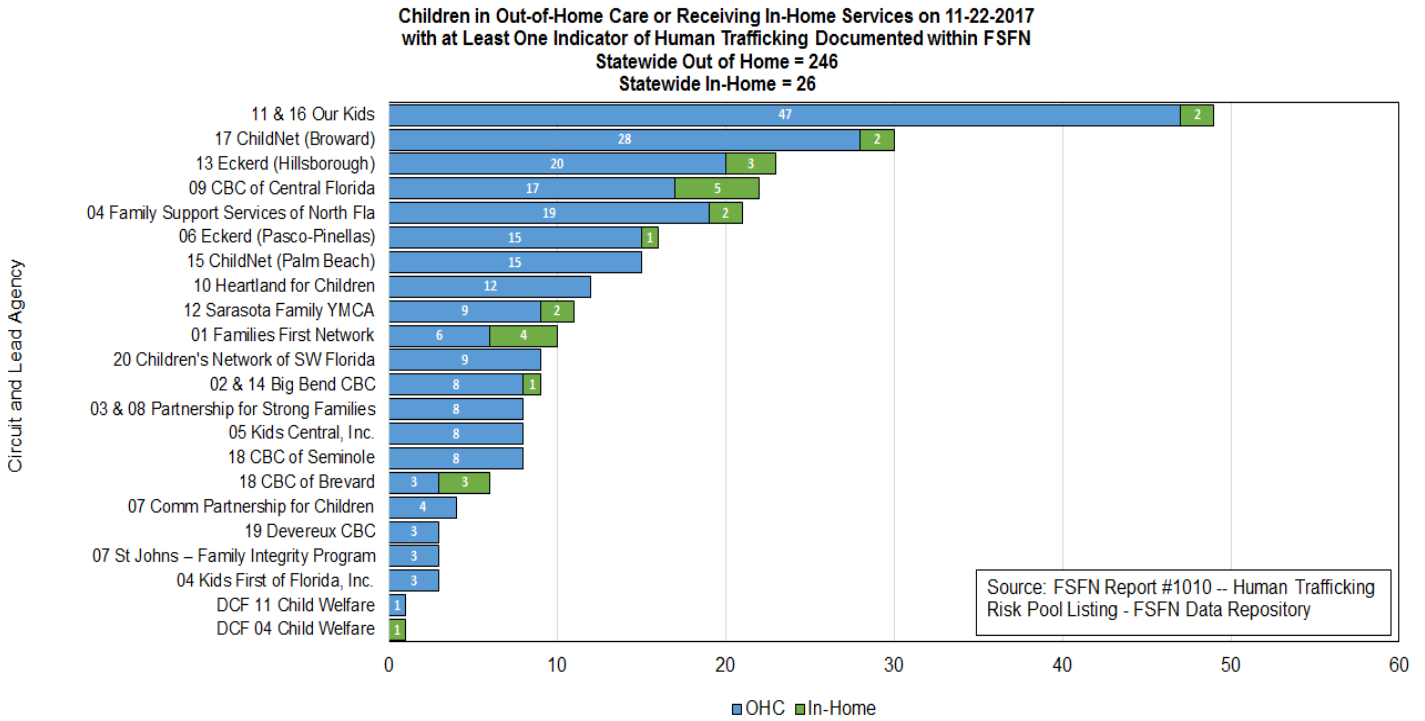

Human Trafficking Intakes Trend

The trend in monthly number of Human Trafficking Reports (Initial and Additional) accepted by the Hotline increased while the twelve month moving average remained stable. Note that the percentage of human trafficking intakes that are verified has been fairly stable since June 2017.

Children with Indication of Human Trafficking by CBC Lead Agency

The number of children in out-of-home care or receiving in-home services with at least one FSN indicator of being a victim of Human Trafficking remains concentrated within Florida’s urban centers, primarily in the Gold Coast and Tampa Bay areas.

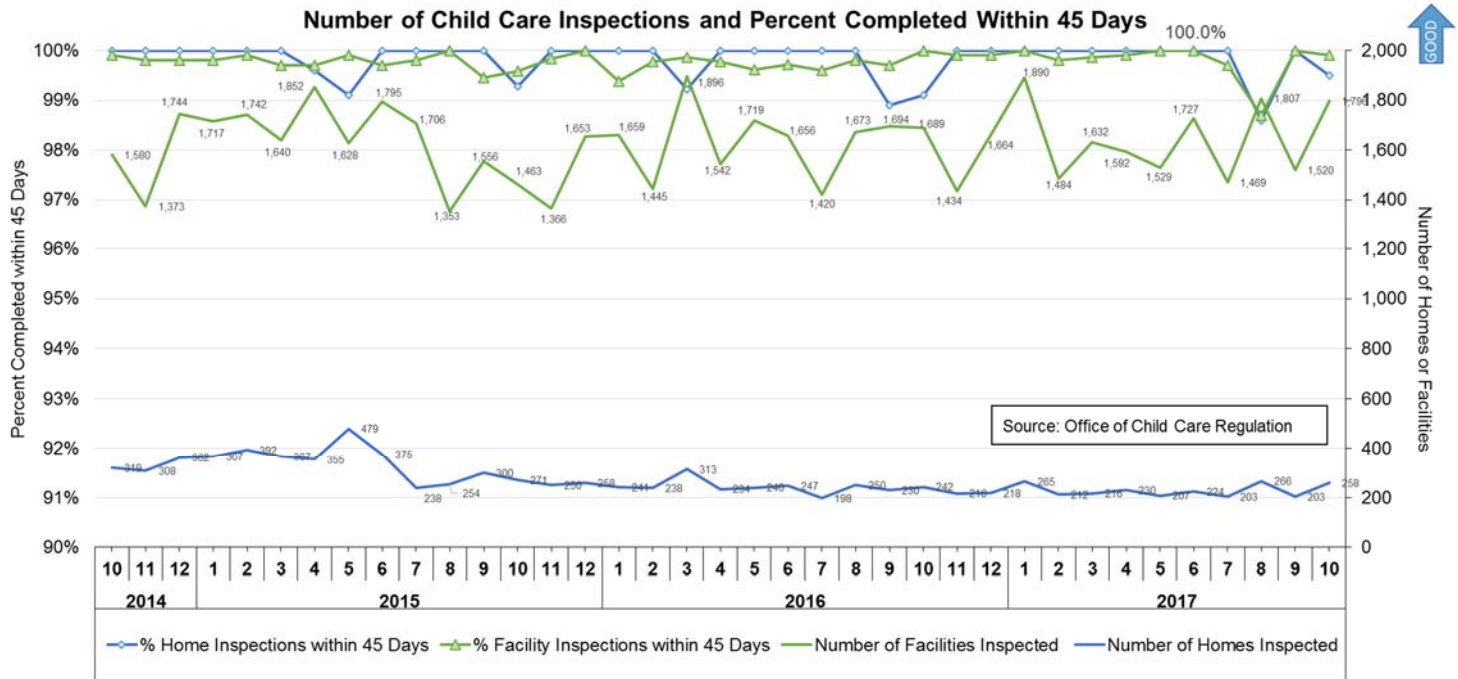

Child Care and Domestic Violence

Child Care Regulation

● Child Care Inspections per Month

For October 2017, 99.5% of home inspections and 99.9% of facility inspections were completed within 45 days.

M

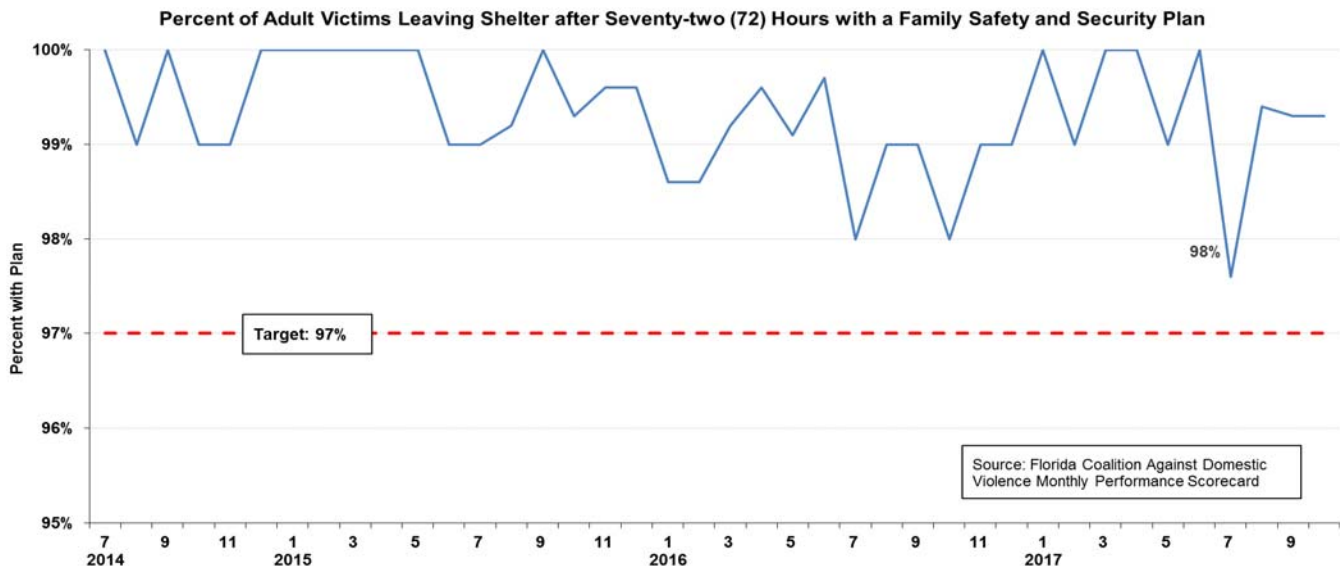

Domestic Violence

● Percent Victims Leaving a Shelter with a Family Safety and Security Plan

The percent of adult victims leaving a shelter after 72 hours with a Family Safety and Security Plan in October 2017 was 99%, continuing to exceed the target of 97%.

CBC Lead Agencies	Hans Soder	Director of the Hotline	Avg and % of Children Categorized as Missing	49	FSFN Missing Child Data	Average missing is the average number of children appearing categorized as missing with each of the missing child listings for the month. For example, 28 individual missing child list for February are summed and then divided by 28 to generate the average daily missing child count. This total is then divided by the total number of children in out-of-home and in-home as determined by subtracting young adults from the Children Active by Primary Worker for the 15th day of the month.
CBC Lead Agencies	Hans Soder	Director of the Hotline	Missing Child Reports Entered into FSFN within One Working Day	49	FSFN Missing Child Data	All missing child episodes entered into FSFN as determined by Missing Child Entry Date in FSFN (time stamp) subtracted from Date FSFN CBC/CPI Notified of Missing Child (free text) with total resulting in number of days from notification to entry. Entries are reviewed to determine if entry was in one working day and then all missing child episodes that were entered into FSFN within one working day are divided by all missing child entries for the month.
CBC Lead Agencies	Hans Soder	Director of the Hotline	% Missing Child Reports Resolved within 3 Days	50	FSFN Missing Child Data	Subtract child's recovery date (FSFN free text) from child's missing from date (FSFN free text) to calculate a missing from care duration. Divide all episodes entered within the month that were resolved within three days or less from the total number of missing child reports entered within the month.
CBC Lead Agencies	Hans Soder	Asst. Sec. of Operatio ns / RMD	Total HT Intakes and % of Findings	50	FSFN HT Data	Sum of all HT intakes accepted by the Florida Abuse Hotline by month.
