# Graph and Table Symbols

## Performance Glance

Performance indicators have been added to the titles and table of contents to assist the reader in quickly determining current performance in specific areas.

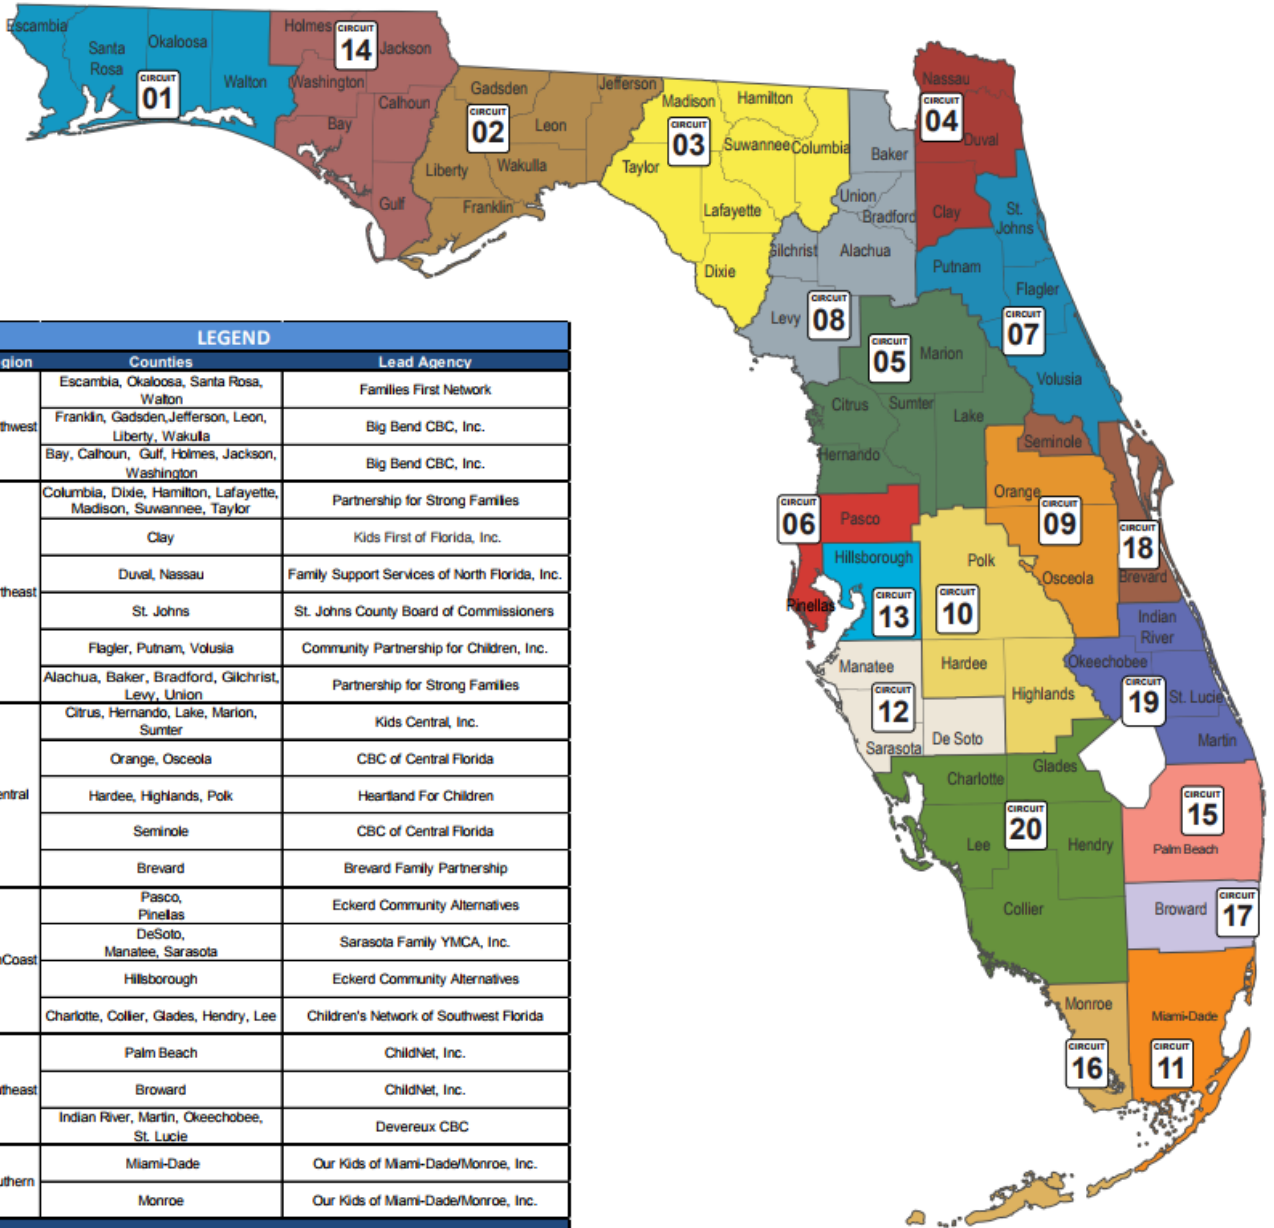

- Green dots before the titles indicate that either statewide/national targets are being met or for those measures where a target is not applicable, the previous 3-month trend is either stable or moving in the right direction.
- Red dots before the titles indicate that either statewide/national targets are not being met or for those measures where a target is not applicable, the previous 3-month trend is moving in the wrong direction.

# DCF Service Structure

## Regions, Circuits, Counties, and CBC Lead Agencies

# System Overview

Florida's community-based child welfare system is comprised of a partnership between the Department of Children and Families (DCF), other state agencies, the courts, law enforcement agencies, service providers, and local communities.

There are over four million children in Florida of which most fortunately do not come to the attention of the system. For those children who do enter the system, entry begins with reports of allegations of abuse or neglect made to the Florida Abuse Hotline, operated by DCF. The Florida Abuse Hotline receives in excess of 350,000 child-related calls annually. Calls received are screened to determine if the criteria are met to initiate a protective investigation.

If criteria are met, the report is referred to a local Child Protective Investigations (CPI). Statewide there are over 220,000 protective investigations conducted annually. These investigations are conducted by DCF in 60 counties. In the remaining 7 counties, including Broward, Hillsborough, Manatee, Pasco, Pinellas, Seminole, and Walton, county sheriff's offices perform the investigations. Investigators determine the need for post-investigation services, including protecting the child through removal and placement in out-of-home care or through case-managed, in-home services (by court order or non-judicially), or through informal voluntary family support services. For SFY 2017-2018, over 36,000 children were served in out-of-home care.

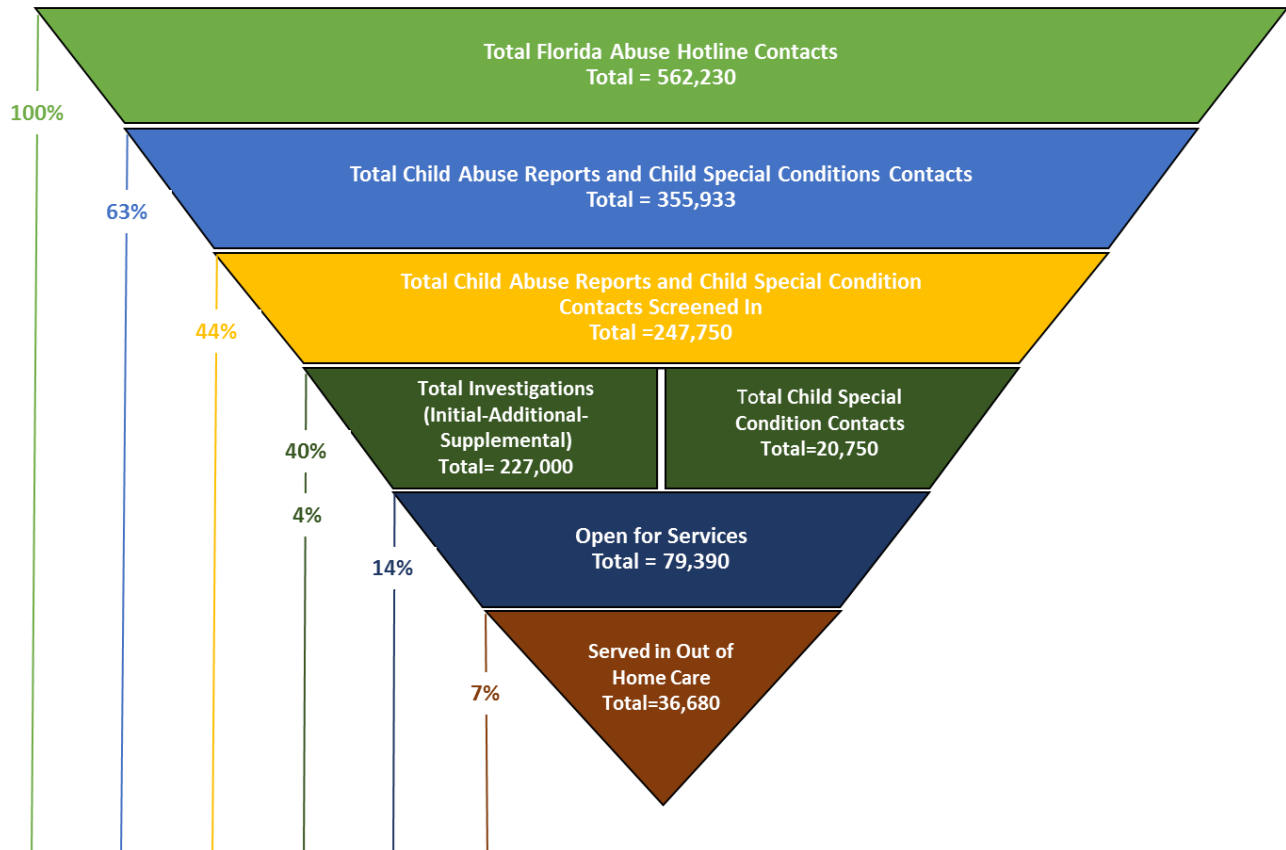

Florida statute requires that post-investigation services be provided through contracting with community-based care lead agencies (CBCs). There are 17 Community-Based Care (CBC) lead agencies that each provide coverage to specific geographic areas within the 20 Judicial Circuits in Florida. Several lead agencies cover more than one geographic area and areas may include one or multiple counties. In two instances, the CBC lead agency serves two geographic areas under separate contracts, lending to 19 lead agencies displayed within the CBC tables of this report. Although services vary among CBC lead agencies, they have a shared role in participating and ensuring safety, permanency, and well-being for all children in the state.

The monthly Child Welfare Key Indicators Report presents data for the Florida Abuse Hotline, Child Protective Investigations, CBC lead agencies, as well as other key metrics describing the state of the Florida Child Welfare System.

# System of Care

## Florida Child Protection System Overview 2017-18 SFY

### Total Exits from Out of Home Care 15,241

Reunifications	7,041
Adoptions	4,031

<http://www.dcf.state.fl.us/programs/childwelfare/dashboard/federal-indicators.shtm>

\*\*\*Black Belt projects were conducted on the Rate of Abuse, Re-entry, and Placement Moves Federal Indicators due to these measures not meeting the national target. The projects were completed in conjunction with state child welfare partners and have been routed to the Florida Institute for Child Welfare for research review as outlined in Florida's continuous quality improvement process. An analysis project is also currently underway on the permanency in 12 months Federal Indicator, which has dropped below the federal target for four of the last five quarters.

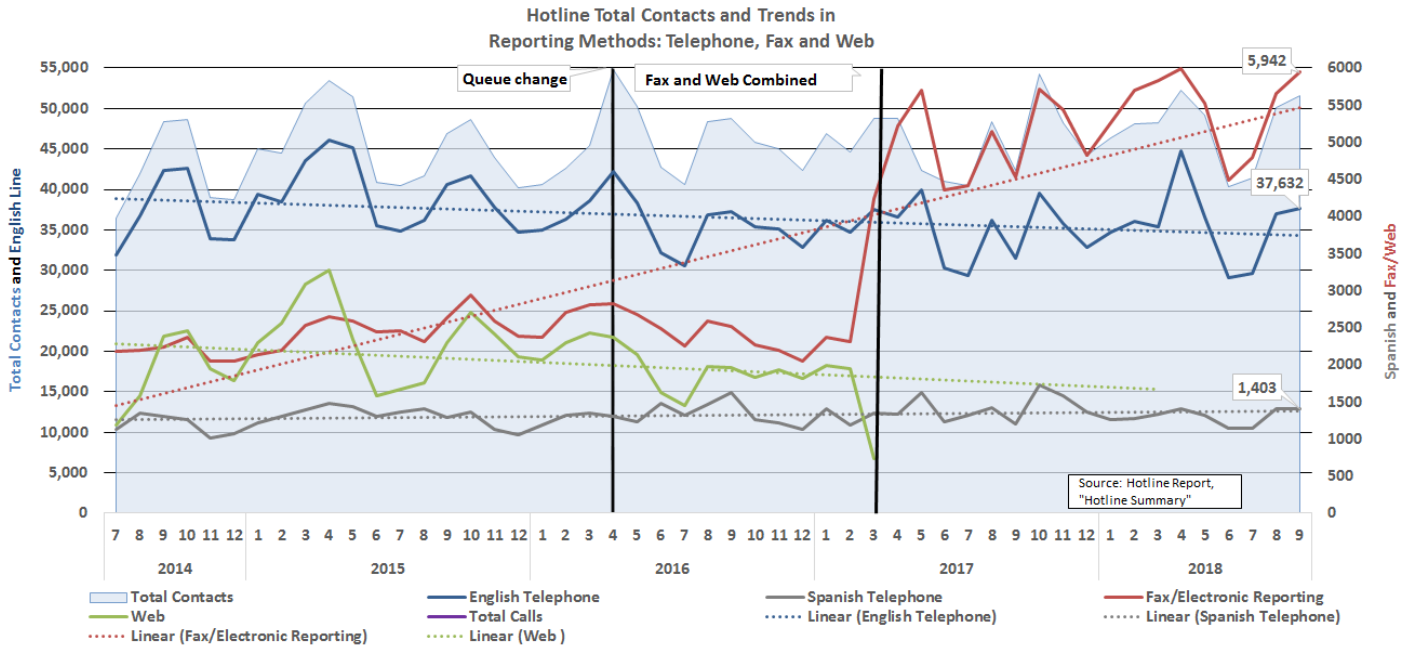

# Workload Trends

## Reporting Method Trends

M

The Florida Abuse Hotline offers a variety of methods for citizens to report concerns about children and vulnerable adults. A modification was made within the system, resulting in the tracking of webs and faxes together. Webs were previously represented by the green line within the graph below, however beginning in March 2017, webs were combined with faxes, now represented by the red line.

## Seasonality of Hotline Workload

M

There were 51,541 total contacts offered for the month of September. "Contacts Offered" include those abandoned by a caller who called back, so both attempts and completed calls from the same individual may be counted.

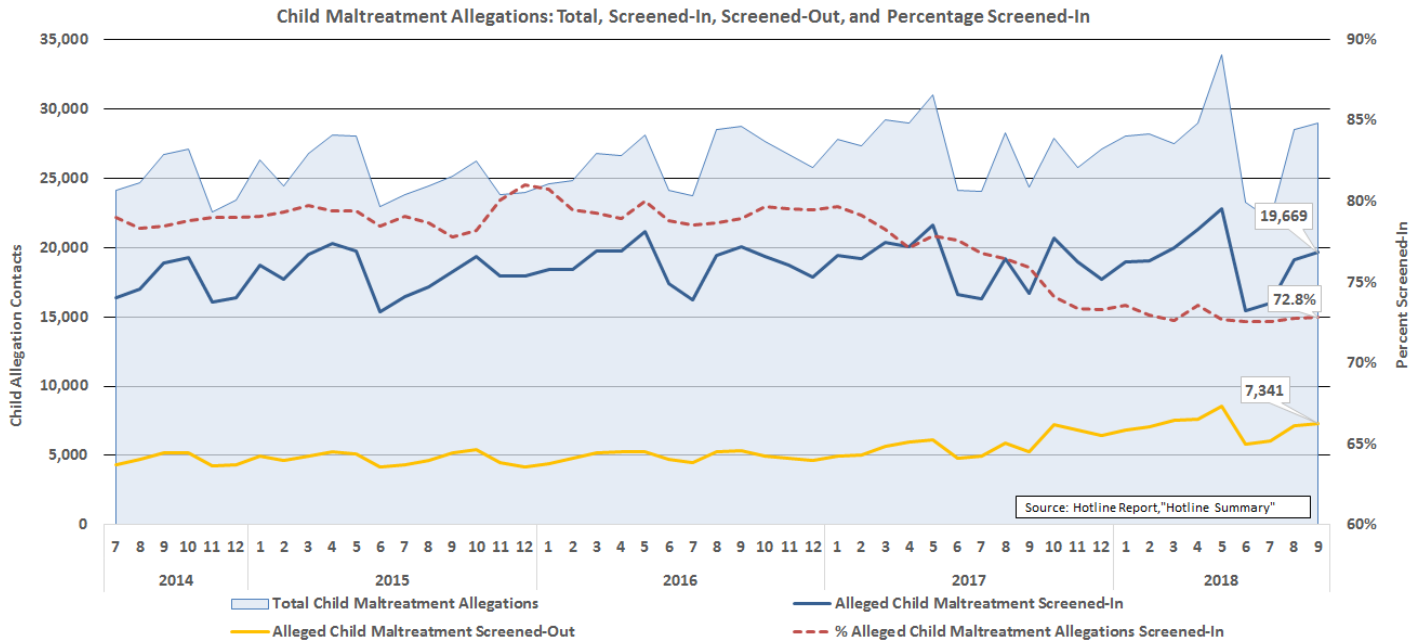

## Screening Trends

M

### Alleged Maltreatment Screening

Total child maltreatment allegations for September 2018 was 19,669. In September 2018, 72.8% of child maltreatment allegations reported were screened-in. Since September 2017, there has been a steady decline in the acceptance of screened-in intakes statewide.

### Special Conditions Screening

M

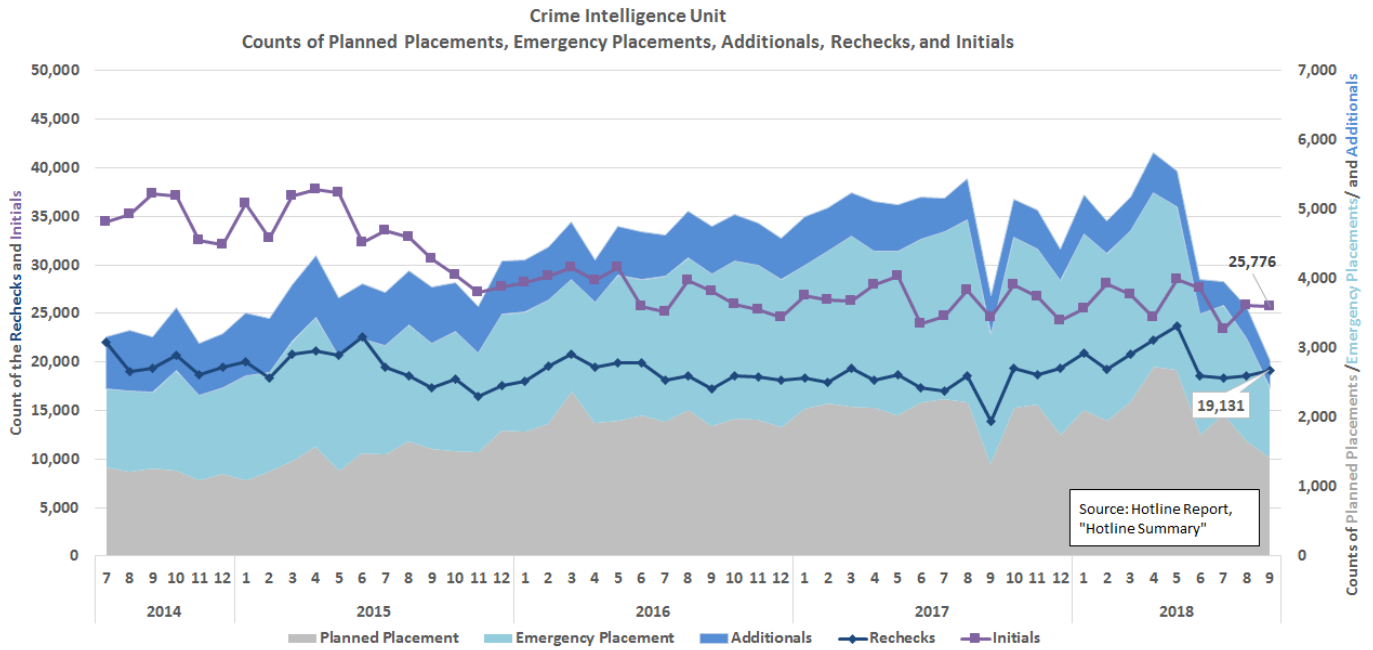

There were 1,898 screened-in special conditions for September 2018. However, the screen-in percentage for special conditions calls continues to decrease.

## Crime Intelligence Unit

M

The included chart contains Crime Intelligence Unit counts for planned placements, emergency placements, additional, rechecks, and initials.

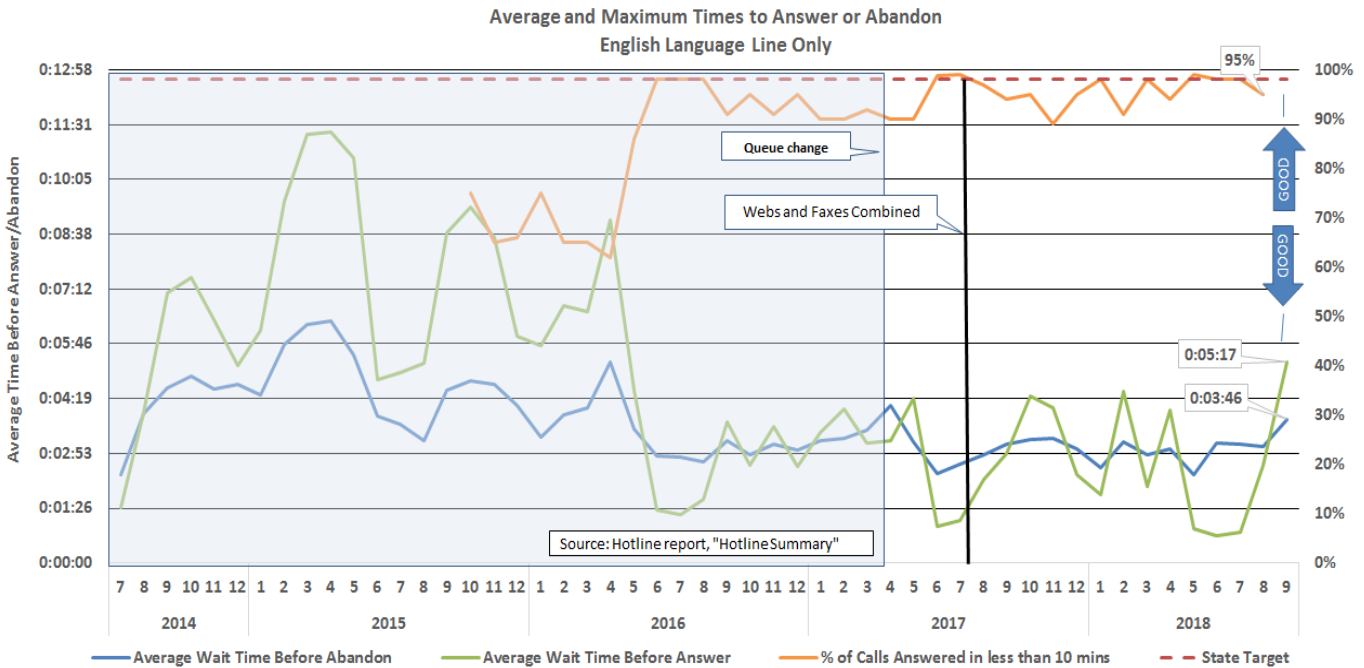

## Timeliness Trends

M

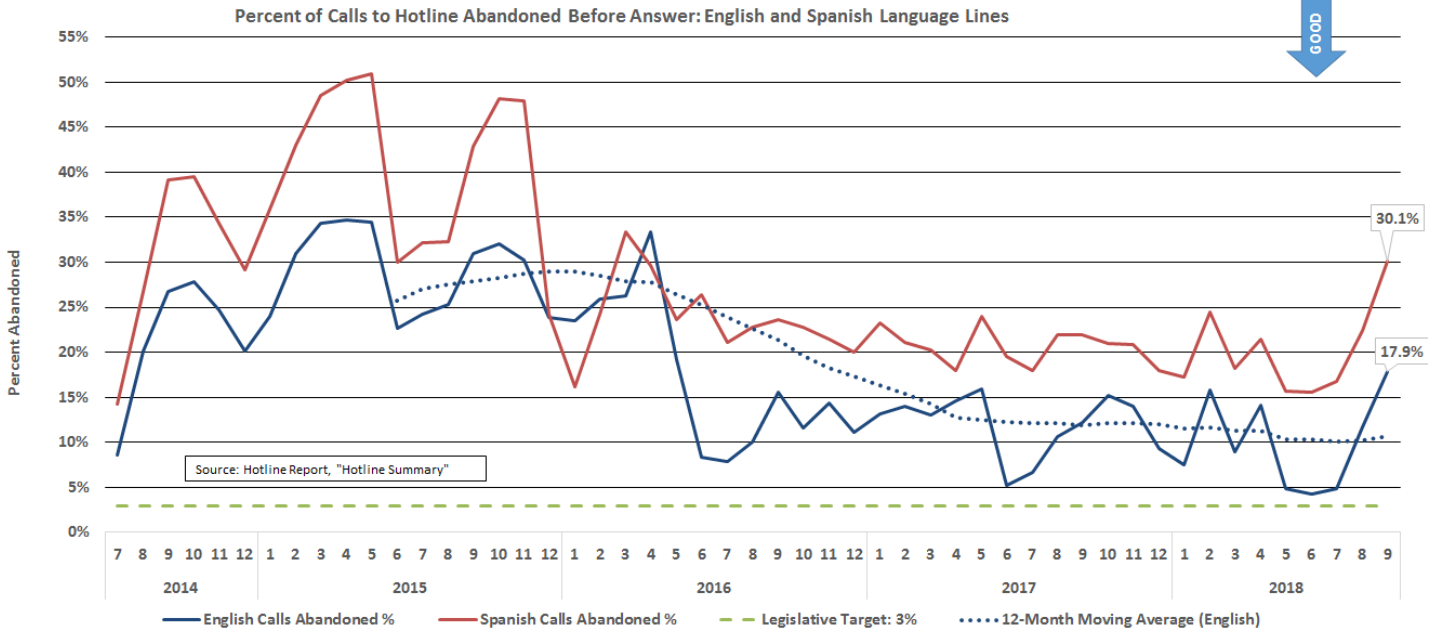

### ● Average and Maximum Times to Answer or Abandon

The average wait time before answer increased significantly in September to five minutes and 17 seconds. 95% of calls were answered in 10 minutes or less, falling below the 98% target.

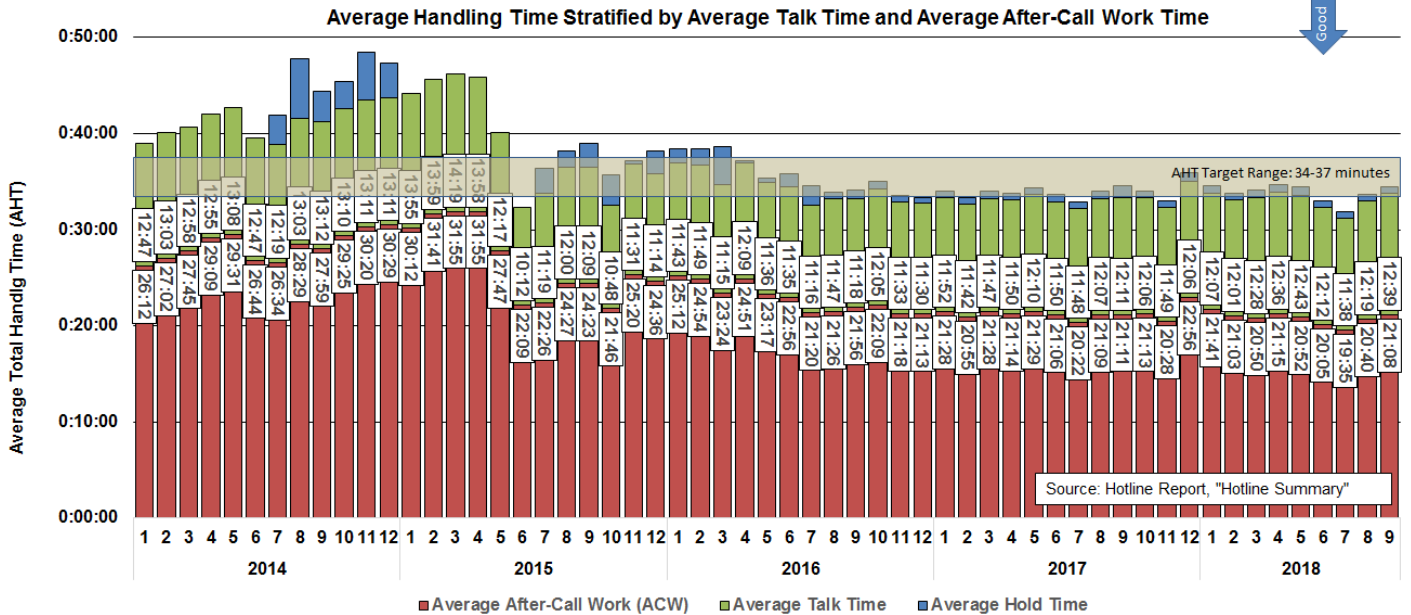

### ● Percent of Calls Abandoned

The percent of calls to the Florida Abuse Hotline English Line that are abandoned before answer increased to 17.9% for September 2018, and the percent of Spanish Line abandoned calls increased to 30.1%.

### ● Average Handling Time Trend Stratification

The Average Handling Time (AHT) of a counselor includes talk time (ACD) and after call work (ACW). Average talk time is 12 minutes 39 seconds and ACW continued around 21-minutes.

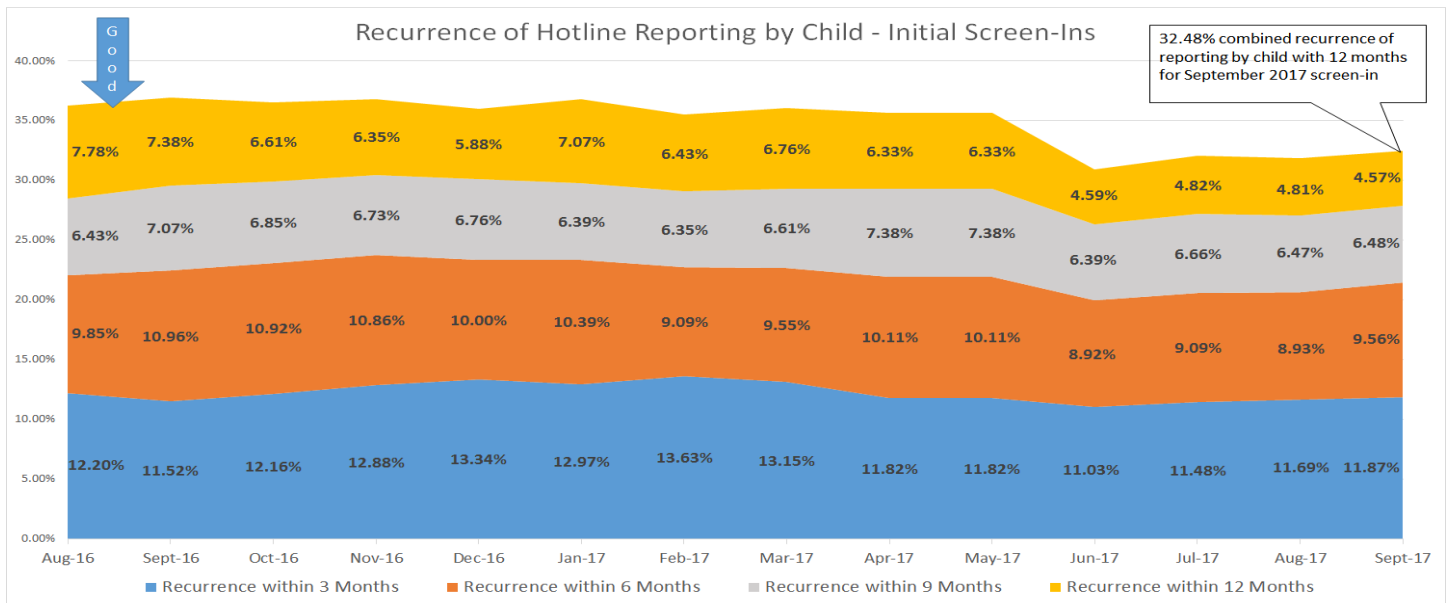

## Recurrence of Hotline Reporting Trends

The following four new measures look at all initial calls (no additional, supplemental, or special conditions) to the Hotline within a month and places them into a monthly cohort based on whether the first called received in the month was screened-in or screened-out. Subsequent initial calls to the Hotline within the following 12 months are captured as recurrence. These monthly screen-in and screen-out cohorts are tracked for recurrence of reporting by child (meaning the child appears again in a Hotline report within the following 12 months) and by perpetrator (meaning the perpetrator on the initial report appears as a perpetrator in another initial report within the following 12 months). The percentage of recurrence of reporting for these four groups are displayed at 3, 6, 9, and 12-month intervals.

### Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Ins by Child

M

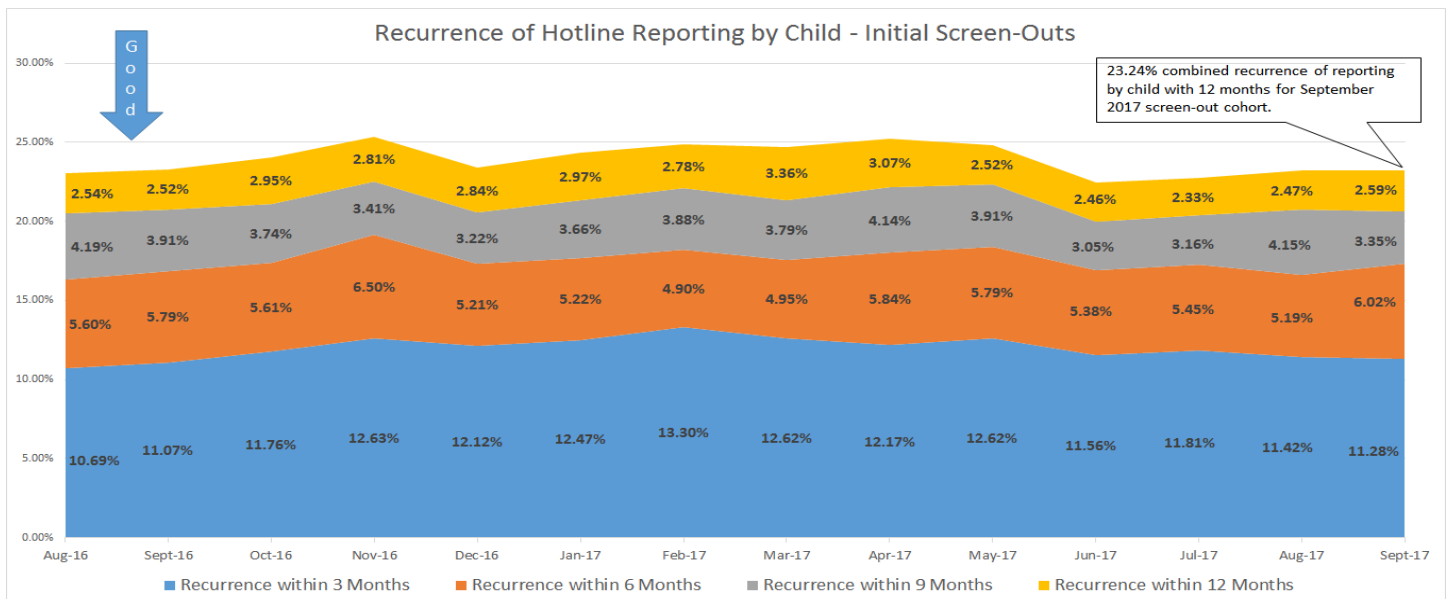

32.48% of children with an initial screen-in decision in September 2017 experienced recurrence of reporting over the following 12 months.

### Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Outs by Child

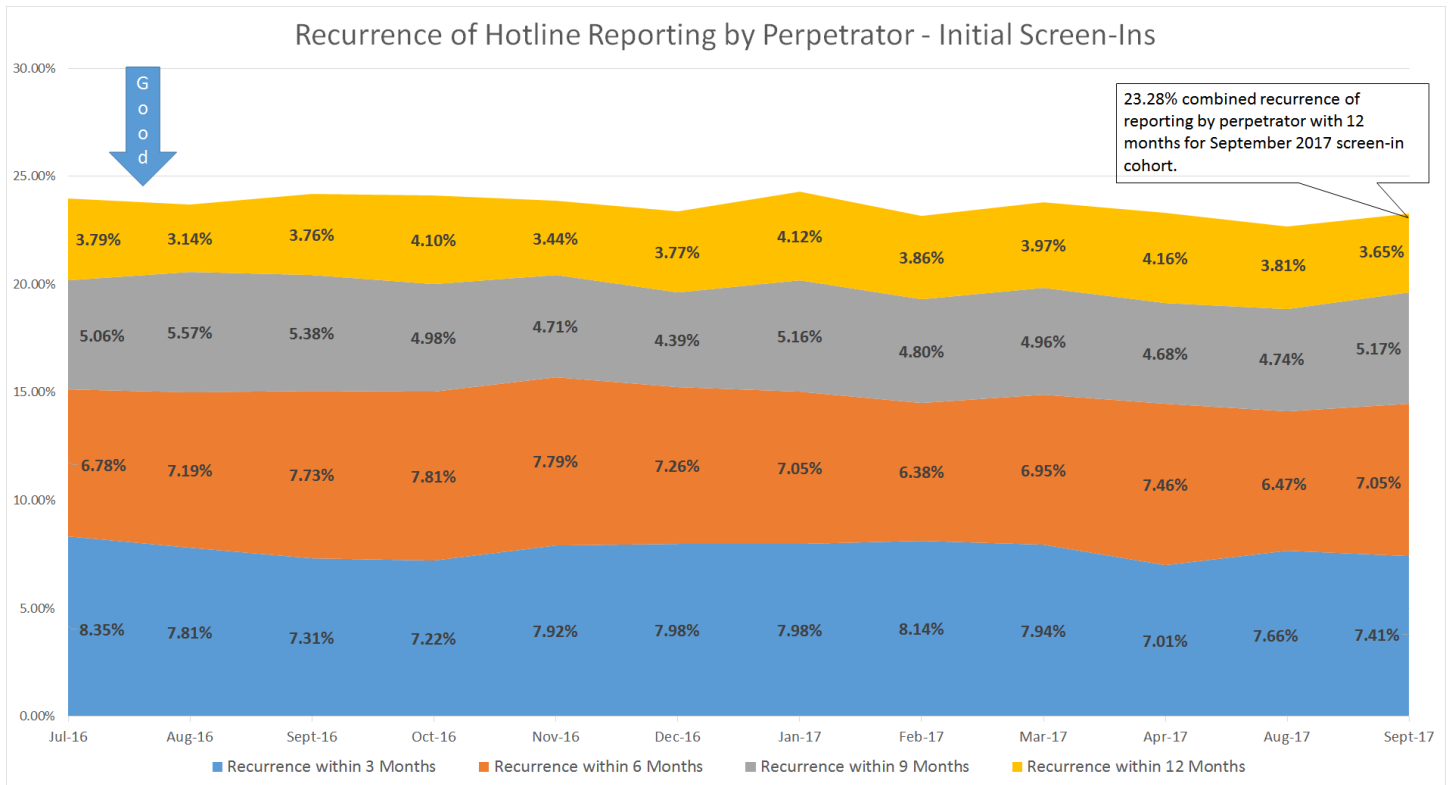

M

23.24% of children with an initial screen-out decision in September 2017 experienced recurrence of reporting over the following 12 months.

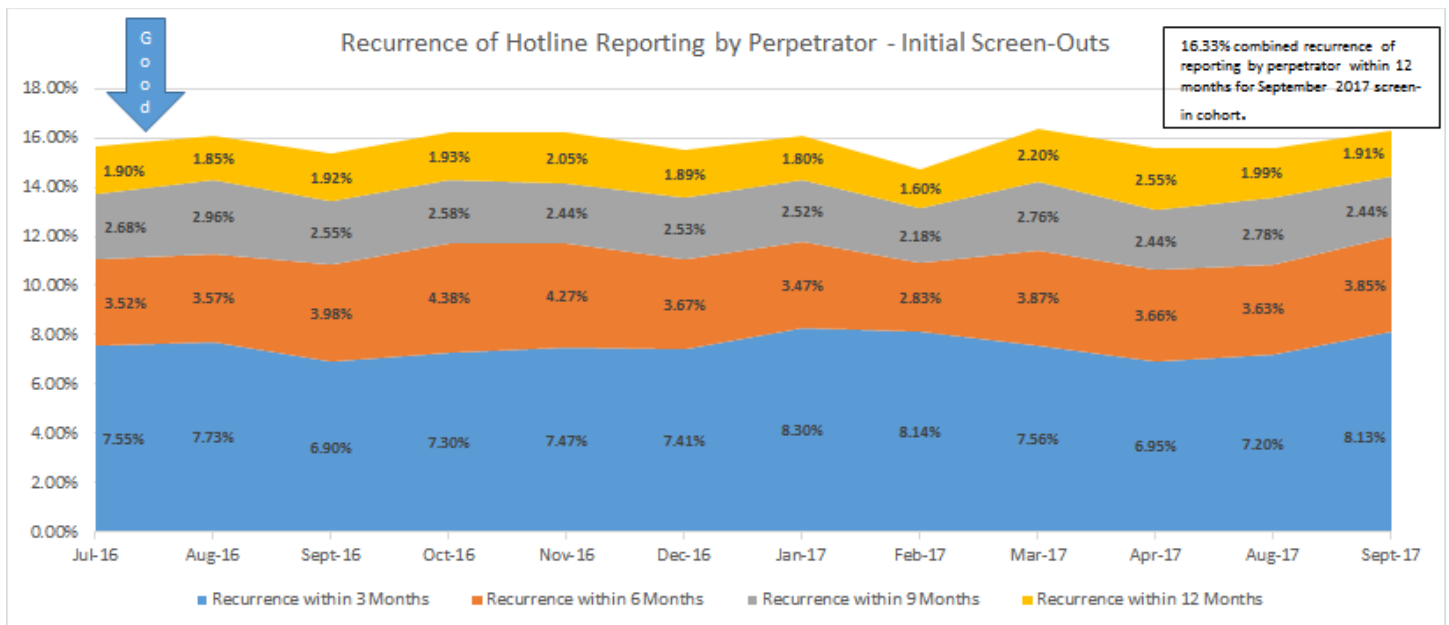

### Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Ins by Perpetrator

23.28% of alleged perpetrators involved in an initial screen-in decision in September 2017 experienced recurrence of reporting over the following 12 months.

### Recurrence of Hotline Reporting Within 12 Months for Initial Screen-Outs by Perpetrator

16.33% of alleged perpetrators involved in an initial screen-out decision in September 2017 experienced recurrence of reporting over the following 12 months.

# Hotline Counselor Workforce

## Monthly Separations for Abuse Counselors

Abuse Registry Counselor separations were stable at nine for September.

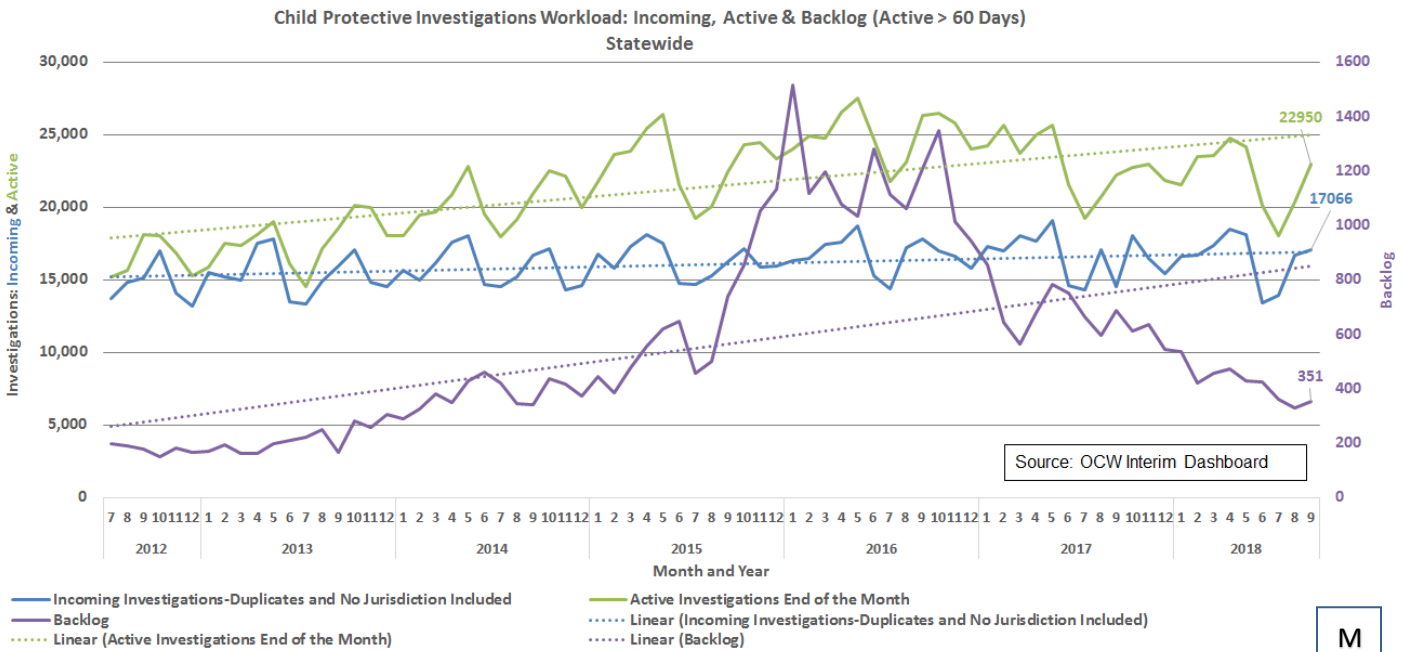

# Child Protective Investigators

## Workload Trends

M

### Investigative Workload: Incoming, Active, and Backlog Investigations

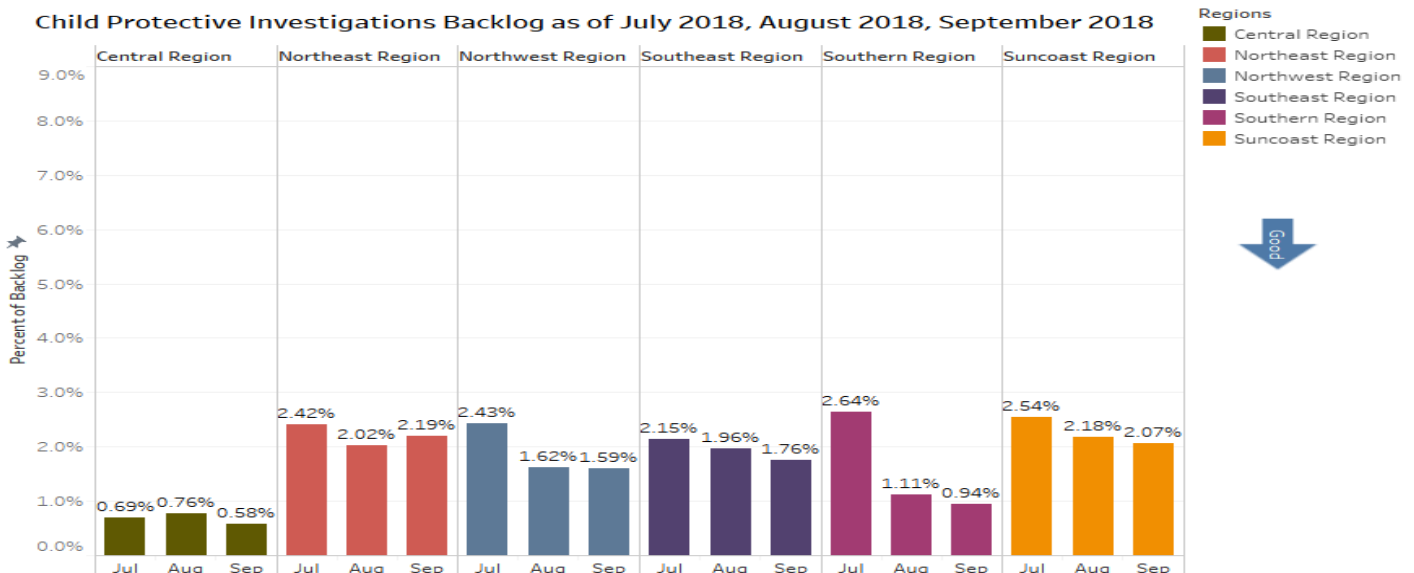

There was an expected increase in the number of incoming investigations and active investigations as of the last day of the month in September. However, the investigative intake total of 17,066 was in line with a normal September. There was a slight increase to 351 from 328 in the number of investigations in Backlog.

M

### Investigative Workload: Stratified by Region

The Central Region has continued to have the lowest backlog from July through September 2018. The Southern Region backlog has experienced a significant decrease in backlog from July to September 2018.

Data Source: OCW Interim Dashboard  
Backlog Percentage calculation doesn't include active investigations closed after last day of month, effective 3/15/2018.

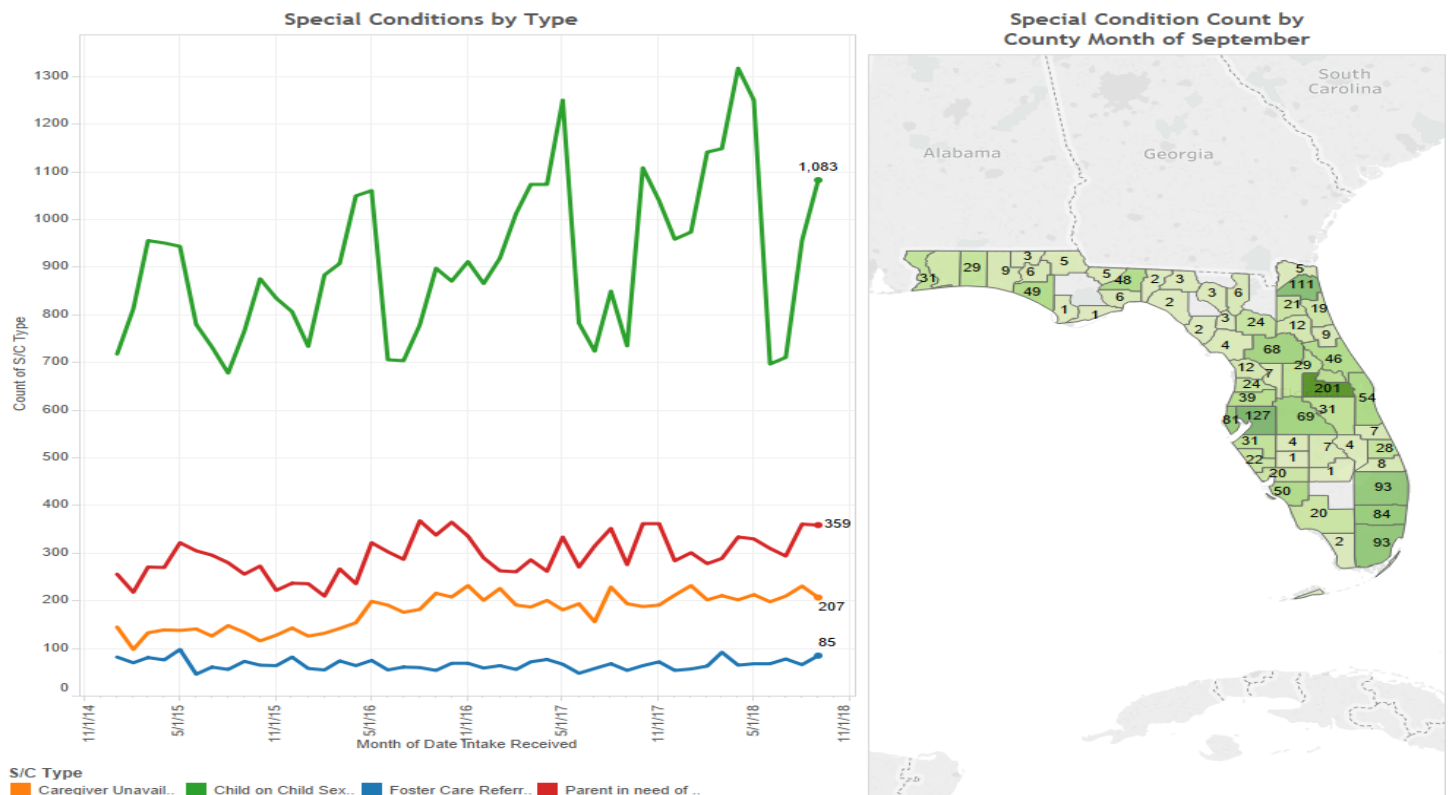

## Maltreatment Investigations and Special Conditions Referrals

Both Alleged Maltreatment Investigations and Special Conditions Referrals increased slightly in September. September data for 2017 was skewed lower due to the effects of Hurricane Irma making year-over-year comparisons invalid.

## Special Conditions: Stratified by Type and by County

As observed in the data, the increasing trend in special conditions is largely due to the increase in child-on-child referrals. All other special condition types have remained fairly flat.

### Statewide: More Than 20 Active Investigations

The percentage of DCF investigators that were carrying more than 20 active investigations as of the last day of the month for September increased significantly to 9.9%.

### Stratification More Than 20 Active investigations by DCF Circuit and Sheriff’s Office

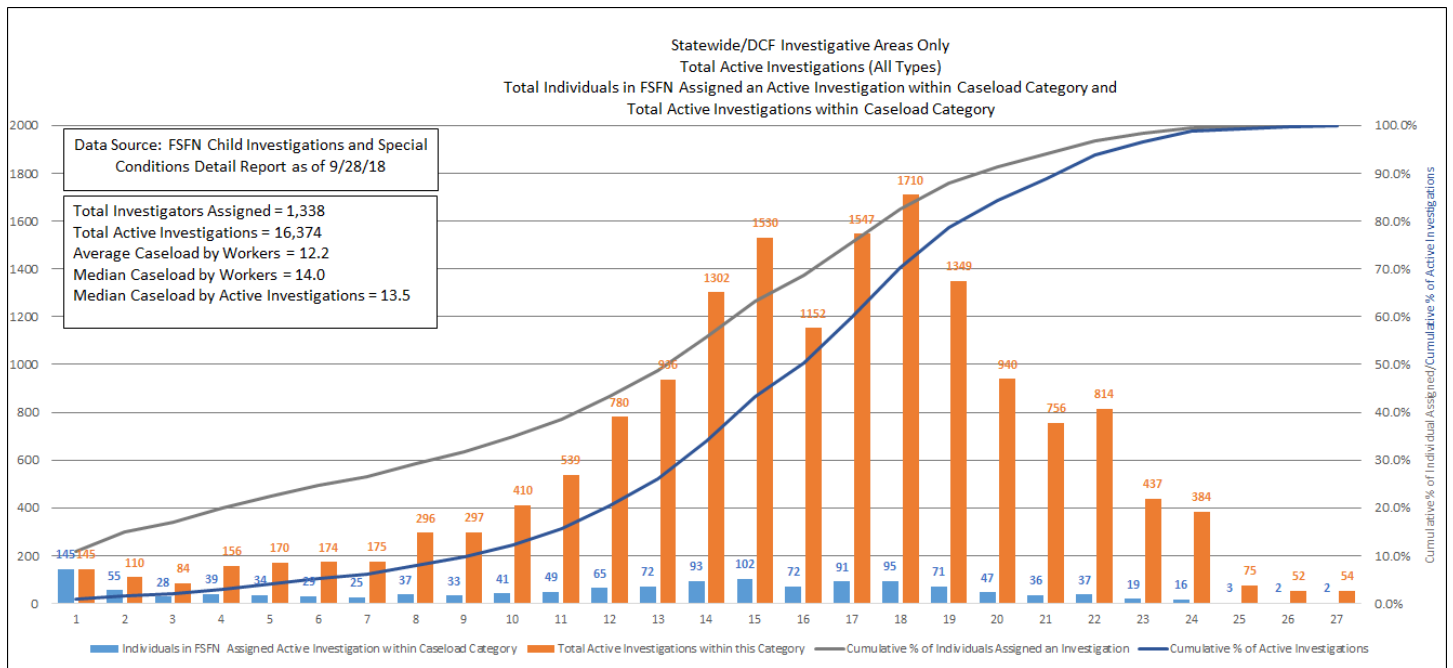

Note that the most dramatic increases in the percentage of CPIs carrying 21+ active investigations is generally located in those areas where the sheriff office conducts investigations.

Data Source: OCW CPI Scorecard Dashboard

# Active Investigations by Cohort

Department-wide efforts to ensure that no DCF CPI is carrying a caseload greater than 26 cases have been extremely successful. As of August 29, 2018, only one DCF CPI was carrying 26 or more active investigations (all types).

# Timeliness Trends

M

## Statewide: Alleged Child Victims Seen Within 24 Hours

The new DCF standard for this measure as of July 2018 is 90% or higher. The data has been adjusted to reflect compliance against the new 90% measure.

## Stratification Alleged Victims Seen Within 24 Hours by DCF Circuit and Sheriff's Office

M

Eight of the twenty-four investigative areas were in compliance with the new 90% DCF standard for victims seen within 24 hours in September.

# Safety Determinations and Services Provided

M

These Tableau visualizations are for investigations closed during September 2018.

## Impending Danger Threats and Safety Determination

This visualization indicates that some children have been determined “unsafe,” yet have no impending danger (pink), while others are determined “safe,” yet there is impending danger (dark blue).

### Impending Danger Threats and Safety Determination for Investigations Closed During September 2018

Percent of FFAs - Investigations by Impending Danger Threats and Safety Determination

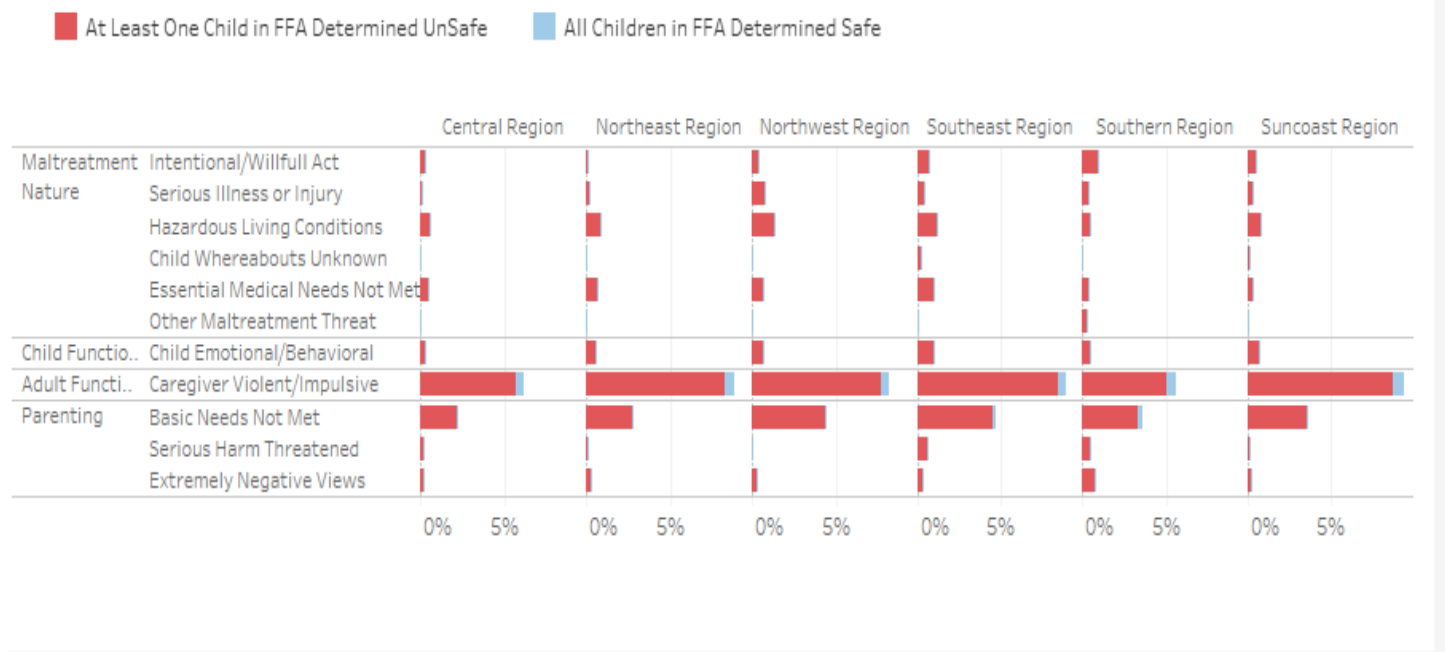

## Impending Danger Threats Identified by Safety Determination

This Tableau visualization indicates the percentage of the identified Impending Danger Threats for both safe and unsafe children, by region.

Percent of Impending Danger Threats Identified (of Total FFAs) by Safety Determination

M

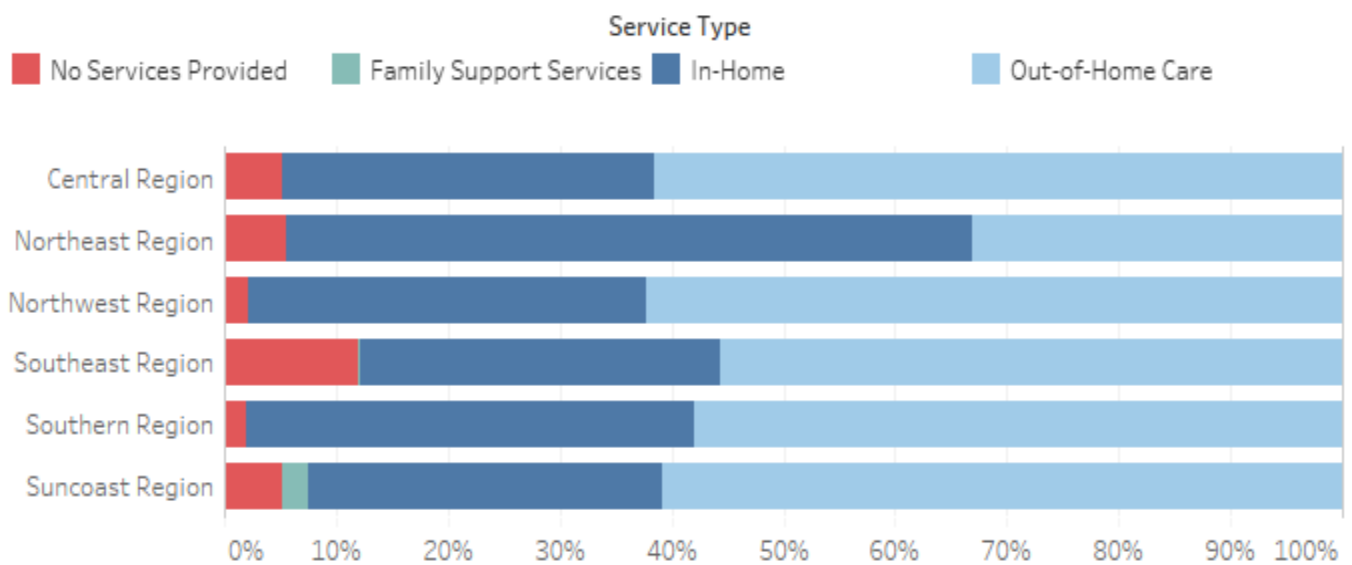

Unsafe Children and Safe Children by Placement Service Type upon Investigation Closure  
 These Tableau visualizations reflect investigations closed during August 2018.

- The visualization on the top indicates that some children have been determined “unsafe,” yet have no placement services (red) or are indicated as receiving Family Support Services (lightest blue).
- The visualization on the bottom indicates that some children have been determined “safe,” yet were placed in out-of-home care (violet) or received case-managed in-home services (dark purple).

### Percent of UnSafe Children by Placement Service Type or Family Support Services Upon Investigative Closure

### Percent of Safe Children by Placement Service Type or Family Support Services Upon Investigative Closure

# Unsafe Children Receiving No Placement Services or Family Support Services Upon Investigative Closure and No Placement Services After Investigation Closure

M

The following chart provides a trend view of the number of children who have been deemed unsafe, by month of investigation closure, who are receiving Family Support Services or no placement services, as opposed to ongoing, case-managed services. Each month's data is finalized on the third pull, allowing for a grace period of around 75 days for data entry. The "No Subsequent Services Provided After Investigation Closure" line is a drill down on the children not receiving placement services upon investigative closure. Additionally, a line has been added to identify if there was a face-to-face contact made after investigation closure for those children that had no placement services at investigation closure. In September 2018, 62 of the 109 children who were not receiving placement services upon investigation closure had a face-to-face contact after closure. None of these measures have a set target, but lower is the desired direction.

Statewide Children with No Recurrence of Verified Maltreatment within 12 Months ★

M

The percentage of children with no recurrence of maltreatment within 12 months of a verified finding was stable for children with completed investigation in July of 2017 and Florida remained above the national standard of 90.1%. The most recent national data which has been stratified to the state level for this measure is from 2012/2013. Florida would rank 25<sup>th</sup> among states if comparing current performance to the available 2013 data. Wyoming led all states in 2012/2013 at 97.3%.

Stratification by DCF Circuit and Sheriff's Office

Q

There is wide variation among the circuits and sheriff's offices on this indicator. Note that Florida met the national standard for the fourth quarter of the SFY for this measure.

# CPI Workforce Monthly Separations

M

The number of Child Protective Investigators that separated from the department in August 2018 continued to decline.

# CPI Time in Classification

M

The addition of new CPI positions is skewing this data towards inexperience within the CPI work force. As these new positions are filled and move through the standard workforce attrition cycle it is expected that the displayed counts and percentages will stabilize in the 20.0%-25.0% range for CPI positions that were vacant or had less than 6-months experience and the 45.0% to 47.0% range for CPI positions that were vacant or had less than 1-year experience.

# Flow from CPI to CBC Lead Agencies

## Removals and Removal Rates

### Statewide Trend

M

The number of children removed decreased from 1,172 in August 2018 to 1,101 in September 2018.

### Quarterly Stratification by Circuit and Sheriff's Office

There remains wide variation among circuits and sheriff's offices on this indicator. Removal rates range from 3.5 to 10.8 per 100 alleged victims.

Data Source: FSFN Data Repository, Tableau Data Source

\*Sep 2017 - Measure changed from per 100 children investigated to per 100 Alleged Victims.

### Quarterly Stratification by Circuit and CBC Lead Agency

There remains wide variation among the circuits and CBC lead agencies for this indicator.

Data Source: FSFN Data Repository, Tableau Data Source

\*Sep 2017 - Measure changed from per 100 children investigated to per 100 Alleged Victims.

# Eligibility

## Title IV-E and TANF Eligibility Licensed Substitute Care and Adoption Eligibility

Q

Percentage of Children in Licensed Substitute Care that were Title IV-E Eligible or in a Non-Reimbursable Placement

The percentage of children in out-of-home care that are deemed to be Title IV-E eligible or that are in a non-reimbursable placement remained relatively flat, in the range of 67.0%.

## Percentage of Children with a Goal of Adoption that are Title IV-E or TANF Eligible and

Q

Count of Children with a Goal of Adoption Awaiting Finalization or have No Applicable Eligibility

The percentage with a goal of adoption that were classified as Title IV-E or TANF eligible has stabilized in the range of 55.0% after declining since January 2015. Note the increase in children awaiting finalization by the CIC or where the child has no eligibility determination since June 2016. As of September 2017, approximately 1/3 of these pending eligibility cases were located within the Eckerd Community Alternatives (Pasco & Pinellas Counties) system of care.

# Community-Based Care Lead Agencies

## Caseload Indicators

### Statewide Trends in Case-Managed Services

M

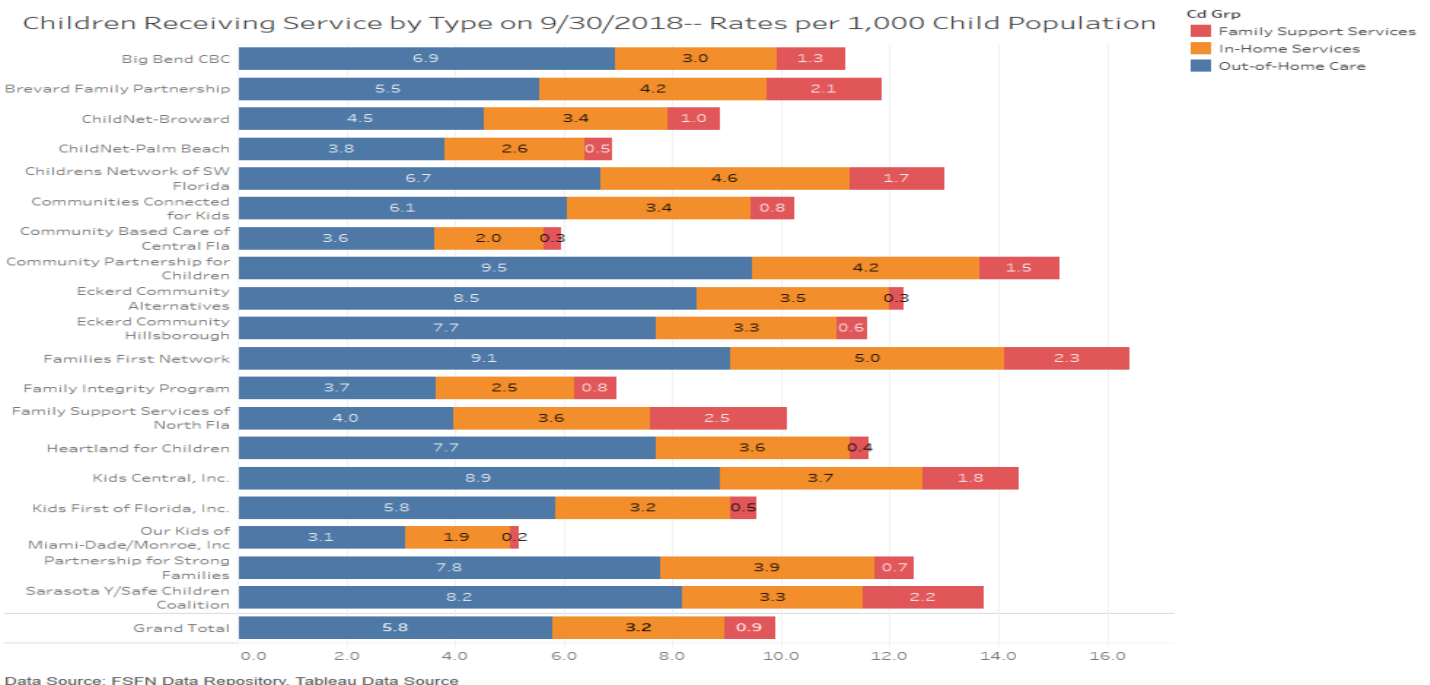

There were 24,235 children in out-of-home (OHC) care on September 30, 2018, which remained stable compared to the consistent upward trend in OHC observed since the middle of 2013. The trend for children receiving in-home services has remained relatively flat for three years, with 11,143 children receiving in-home services on September 30, 2018.

### Services Mix

M

There continues to be variation among circuits regarding in-home and out-of-home care services, with the widest variation occurring in the use of Family Support Services.

### Removals and Discharges Compared to Out-of-Home Care Trend

There were 924 discharges and 1,166 removals during September 2018.

Data Source: FSFN Data Repository, Tableau Data Source

### Placement Types Compared to Children in Out-of-Home Care Trend

As of September 30, 2018, there were 24,235 children in out of home care with 10,501 in relative care placement, 7,296 in a licensed family foster home, 3,139 in non-relative care, 2,044 in licensed group care, and 1,114 in other placements.

## Family Functioning Assessment-Ongoing Implementation Map

This Tableau map provides county-specific percentages, as well as percentages by region. Please note that this map is a snapshot in time and does not reflect closed cases that utilized an FFA ongoing. Zero percent for some counties may result from a small number of cases or cases assigned to other counties. It is important to note the change in the scale from previous months.

### Ongoing Services Safety Methodology Implementation Status as of 09/19/2018

Source: FSN report Active Cases with an Approved FFA-Ongoing – OCWRU #1084  
 Notes: Small number of cases assigned to the county will affect percentages. Based on location of primary worker. Counties with no cases assigned to them will not appear in the map.

## Florida CQI and CFSR

The following table provides statewide and lead agency outcome ratings from FL CQI and CFSR data around Safety, Permanency, and Well-being.

Assessment of Child Welfare Practice Q4 April - June 2018	Number of Cases in Sample	Safety Outcome 1 Outcome Rating		Safety Outcome 2 Outcome Rating		Permanency Outcome 1 Outcome Rating		Permanency Outcome 2 Outcome Rating		Well-Being Outcome 1 Outcome Rating		Well-Being Outcome 2 Outcome Rating		Well-Being Outcome 3 Outcome Rating	
		Children are, first and foremost, protected from abuse and neglect.	Children are safely maintained in their homes whenever possible and appropriate.	Children have permanency and stability in their living situations.	The continuity of family relationships and connections is preserved for children.	Families have enhanced capacity to provide for their children's needs.	Children receive appropriate services to meet their educational needs.	Children receive adequate services to meet their physical and mental health needs.

# Safety Indicators

Q

## Child Safety Trends: Comparison of Three Indicators

Children continue to be safer while receiving services than after termination of services:

- The percent of children with no verified maltreatment during case-managed in-home services was 97.4%, for April through June 2018. The state continues to exceed the set target for this measure at 95%.
- The percent of children with no verified maltreatment within six months after termination of case-managed services was 96.4% for October through December 2017. The state continues to exceed the set target for this measure at 95%.
- The percent of children with no verified maltreatment within six months of termination of Family Support Services was at 95.3% for those terminating October through December 2017. This measure does not have a set target.

Safety of Children During Case-Managed In-Home Services and Within Six Months of Termination from Family Support Services and Case-Managed In-Home Services Statewide

Sources: FSFN OCWDRU reports #1109, #1115, and "No Maltreatment within 6 Months of Family Support Services Summary"

Q

## Child Safety During Case-Managed In-Home Services

Statewide performance for period April through June 2018 was 97.4%, and all lead agencies exceeded the state target.

● Child Safety in Out-of-Home Care 15 ★

Q

This measure is generated by taking the total number of reports with at least one verified maltreatment and dividing it by the total number of days in foster care for all children, with the result multiplied by 100,000 to calculate the rate of victimization per 100,000 days in foster care. The data for this quarter continues to show wide variation among the CBCs, with statewide performance meeting the national standard of 8.50 or less. The most recent national data which has been stratified to the state level for this measure is from 2013. Florida would rank 36<sup>th</sup> among states if comparing current performance to the available 2013 data. Wyoming led all states in 2013 at 1.16.

**Note:** The data in this table has been updated to match the algorithm used in the Federal Child Welfare Indicators and CBC Scorecard Dashboards for this measure. Each quarter of data reflects a rolling twelve (12) month period ending two (2) months prior to the end of the state fiscal quarter.

# Permanency Indicators

## Statewide Trend: Permanency Within 12 Months of Removal 9 ★

Permanency within 12 Months of Removal is our primary indicator of timely permanency. Statewide performance is at 39.6%, which is below the 40.5% national standard. The most recent national data which has been stratified to the state level for this measure is from 2012. Florida would rank 28<sup>th</sup> among states if comparing current performance to the available 2012 data. Arkansas led all states in 2012 at 63.8%.

Children Achieving Permanency within Twelve Months for Children Removed Each Quarter Statewide

## Stratification by CBC Lead Agency

Eight of the lead agencies exceed the national standard of 40.5%.

## Timeliness of Judicial Handling

M

These Children’s Legal Services indicators are directly related to the indicators of timely permanency.

### ● Reunification Goal After 15 Months and No Termination of Parental Rights Activity

The statewide average for SFY 2018-19 is currently 6.87% as of September 30, 2018. Circuit goals are set for each period after review of baseline information.

M

## Timeliness of Termination of Parental Rights, from Petition to Order

The statewide average for SFY 2018-19 is currently 157 days as of September 30, 2018. Circuit goals are set for each period after review of baseline information.

● Time from Removal Date to Disposition Order

The statewide average of 55 days is well below the established target of 90 days and only Circuit 14 is currently surpassing the 90-day target.

# Maintaining Connections in Placement

Q

## Statewide Trend: Placement Stability 15 ★

Statewide performance, currently at 4.67 moves per 1,000 days in foster care, does not meet the national standard of 4.12 moves. The most recent national data which has been stratified to the state level for this measure is from 2013/2014. Florida would rank 31<sup>st</sup> among states if comparing current performance to the available 2013/2014 data. Rhode Island led all states in 2013 at 2.60.

## Stratification by CBC Lead Agency

Q

Statewide performance, currently at 4.67 moves per 1,000 days in foster care, does not meet the national standard of 4.12 moves. There is wide variation among the lead agencies, with nine meeting the standard.

# Prescribed Psychotropic Medications

M

## Children in Out-of-Home Care with Prescribed Psychotropic Medications

The statewide percentage of children in out-of-home care with at least one prescribed psychotropic medication on October 11, 2018 was 10.4%.

## Children with Consent for Prescribed Psychotropic Medications

M

In order to administer psychotropic medication to a foster child, parental consent or a court order must be obtained, unless the child is receiving inpatient services or a physician certifies that delay would be likely to harm the child. On October 11, 2018, the statewide percentage of children with at least one prescribed psychotropic medication where consent was obtained was 98.6% and nine CBCs were at 100%.

## Dental Services

Q

### ● Children Receiving Dental Services in Last Seven Months

The statewide percent of children receiving recent dental services increased to 92.8% as of September 30, 2018, but is still below the statewide standard.

## Education Program Enrollment

Q

### ● Young Adults Aging Out Enrolled in Education Programs

This is one indicator of preparation for adulthood, but does not control for any of the many variables that influence this preparation, including time in care and the child's educational level when entering care. Statewide performance in this measure has been relatively stable and above the statewide target for the past 3 years.

# Dually Served Youth

M

## Statewide Trend: Youths Served by CBC Lead Agencies and Juvenile Justice

The number of youths served by both the child welfare system and the juvenile justice system in September 2018 was 920. This measure does not have a specified target.

## Stratification by CBC Lead Agency

M

The number of youths served by both systems (DCF and DJJ) is variable among the lead agencies, but is related to the total number of youths served by each lead agency.

# Missing Child

M

## Average Number of Children Categorized as Missing from Care and Supervision

There was a slight increase in both the number and percentage of children that were categorized as missing from the care and supervision of the state in September 2018.

## Child Reports Entered into FSFN within One Working Day

M

Statewide performance for September 2018 increased slightly to 85.7% when compared with August's 85.4%. Overall performance for this measure has improved since March 2018 when the statewide percentage was 77.8%. Note the low performance of Eckerd Community Hillsborough.

## Resolution of reports within 3 days

The majority of children, 68.4% in September, that are classified as missing from the care and supervision of the Department are located in less than three days.

## Human Trafficking

### Human Trafficking Intakes Trend

The number of Human Trafficking Reports (Initial and Additional) accepted by the Hotline appears to have entered into a seasonal cycle while the percentage of human trafficking allegations that are closed as verified, not substantiated or no indicators has also stabilized.

## Children with Indication of Human Trafficking by CBC Lead Agency

The number of children in out-of-home care or receiving in-home services with at least one FSFN indicator of being a victim of Human Trafficking remains concentrated within Florida’s urban centers, primarily in the Gold Coast and Tampa Bay areas.

**Children in Out-of-Home Care or Receiving In-Home Services on 9-17-2018  
with at Least One Indicator of Human Trafficking Documented within FSFN**  
Statewide Out of Home = 240  
Statewide In-Home = 32

# Child Care and Domestic Violence

## Child Care Regulation

● Child Care Inspections per Month

M

For August 2018, 100% of home inspections of facility inspections were completed within 45 days.

## Domestic Violence

● Percent Victims Leaving a Shelter with a Family Safety and Security Plan

M

The percent of adult victims leaving a shelter after 72 hours with a Family Safety and Security Plan in August 2018 was 99.5%, continuing to exceed the target of 97%.

Eligibility	Hans Soder	Asst. Sec. of Operations / RMD	Percentage of Children in Licensed Substitutes Care that were Title IV-E Eligible or in a Non-Reimbursable Placement	31	OCWDRU Report #1191 Eligibility Summary Report for Children in Care	All children in Foster Care or receiving In-Home Services as of the report date categorized into out-of-home care/no adoption goal, out-of-home care/adoption goal, out-of-home relative/nonrelative placement and in-home services. Eligibility is determined by the FSFN eligibility data as of the report date. The absence of eligibility data is categorized as "No Applicable Eligibility" throughout the report. Percentages are determined by summing and dividing all eligible children and all non-reimbursable children as of the report date by all children categorized as being within licensed substitute care per the FSFN report date.
Eligibility	Hans Soder	Asst. Sec. of Operations / RMD	Percentage of Children with a Goal of Adoption that Title IV-E or TANF Eligible and Count of Children with a Goal of Adoption that Awaiting Finalization or have No Applicable Eligibility	31	OCWDRU Report #1191 Eligibility Summary Report for Children in Care	Report structure is same as above. Title IV-E percentages are determined by dividing all eligible children with a goal of adoption minus all TANF children from the numerator and denominator. Ineligible Title IV-E and TANF children and awaiting CIC and no eligibly determination are added to the numerator and denominator of the Title IV-E measure. TANF percentages are determined by dividing all eligible children with a goal of adoption minus all Title IV-E children. Ineligible Title IV-E and TANF children and awaiting CIC and no eligibly determination are added to the numerator and denominator of the Title TANF measure.

CBC Lead Agencies	Robin Preston	Asst. Sec. of Operations / RMD	Permanency within 12 Mos of Removal by Cal. Quarter -- Line Graph	39	OCWDRU Report #1118	Line graph of the percent of children achieving permanency within 12 months for children removed during that quarter
CBC Lead Agencies	Robin Preston	Asst. Sec. of Operations / RMD	Permanency within 12 Mos of Removal by Cal. Quarter – Data Table	39	OCWDRU Report #1118	Select all children with a new removal episode during the report period where the removal episode was at least eight (8) days in duration. Exclude any removal episode ending with a discharge reason of "Dismissed by Court." Exclude any removal episode where the child was eighteen (18) years of age before the beginning of the report period. If a child has multiple removal episodes that meet the above criteria, select only the first such removal episode in the report period. A child is flagged as "Yes" in the Numerator column if the child achieved permanency such that their permanency date is less than twelve (12) months from the removal date of the removal episode. Children are assigned to the Lead Agency based on the primary case worker as of the earlier of the discharge date of the removal episode or twelve (12) months after the removal date. Only children with a worker whose agency type is "CBC Lead Agency" are included in this listing. <b><i>Same criteria for 12-23 and 24+ month children</i></b>

<b>CBC Lead Agencies</b>	Hans Soder	Director of the Hotline	Avg and % of Children Categorized as Missing	54	FSFN Missing Child Data	Average missing is the average number of children appearing categorized as missing with each of the missing child listings for the month. For example, 28 individual missing child list for February are summed and then divided by 28 to generate the average daily missing child count. This total is then divided by the total number of children in out-of-home and in-home as determined by subtracting young adults from the Children Active by Primary Worker for the 15th day of the month.
<b>CBC Lead Agencies</b>	Hans Soder	Director of the Hotline	Missing Child Reports Entered into FSFN within One Working Day	54	FSFN Missing Child Data	All missing child episodes entered into FSFN as determined by Missing Child Entry Date in FSFN (time stamp) subtracted from Date FSFN CBC/CPI Notified of Missing Child (free text) with total resulting in number of days from notification to entry. Entries are reviewed to determine if entry was in one working day and then all missing child episodes that were entered into FSFN within one working day are divided by all missing child entries for the month.
<b>CBC Lead Agencies</b>	Hans Soder	Director of the Hotline	% Missing Child Reports Resolved within 3 Days	55	FSFN Missing Child Data	Subtract child's recovery date (FSFN free text) from child's missing from date (FSFN free text) to calculate a missing from care duration. Divide all episodes entered within the month that were resolved within three days or less from the total number of missing child reports entered within the month.
