System Overview

Florida's community-based child welfare system is comprised of a partnership between the Department of Children and Families (DCF), other state agencies, the courts, law enforcement agencies, service providers, and local communities.

There are over four million children in Florida of which most fortunately do not come to the attention of the system. For those children who do enter the system, entry begins with reports of allegations of abuse or neglect made to the Florida Abuse Hotline, operated by DCF. The Florida Abuse Hotline receives more than 350,000 child-related calls annually. Calls received are screened to determine if the criteria are met to initiate a protective investigation.

If criteria are met, the report is referred to a local Child Protective Investigations (CPI). Statewide there are over 240,000 protective investigations conducted annually. These investigations are conducted by DCF in 60 counties. In the remaining 7 counties, including Broward, Hillsborough, Manatee, Pasco, Pinellas, Seminole, and Walton, county sheriff's offices perform the investigations. Investigators determine the need for post-investigation services, including protecting the child through removal and placement in out-of-home care or through case-managed, in-home services (by court order or non-judicially), or through informal voluntary family support services.

Florida statute requires that post-investigation services be provided through contracting with community-based care lead agencies (CBCs). There are 17 Community-Based Care (CBC) lead agencies that each provide coverage to specific geographic areas within the 20 Judicial Circuits in Florida. Several lead agencies cover more than one geographic area and areas may include one or multiple counties. In two instances, the CBC lead agency serves two geographic areas under separate contracts, lending to 19 lead agencies displayed within the CBC tables of this report. Although services vary among CBC lead agencies, they have a shared role in participating and ensuring safety, permanency, and well-being for all children in the state.

The monthly Child Welfare Key Indicators Report presents data for the Florida Abuse Hotline, Child Protective Investigations, CBC lead agencies, as well as other key metrics describing the state of the Florida Child Welfare System.

Child Safety in Out-of-Home Care

Q

This measure is generated by taking the total number of reports with at least one verified maltreatment and dividing it by the total number of days in foster care for all children, with the result multiplied by 100,000 to calculate the rate of victimization per 100,000 days in foster care. The data for this quarter shows only two lead agencies failed to meet the standard. Statewide performance has continued to improve over the past four quarters exceeding the national standard of 8.50 or less.

Education Program Enrollment

● Young Adults Aging Out Enrolled in Education Programs

This is one indicator of preparation for adulthood but does not control for any of the many variables that influence this preparation, including time in care and the child’s educational level when entering care. Statewide performance in this measure has been relatively stable and above the statewide target for the past 3 years. Youth are only included in this measure if they age out at age 18, if a youth chooses to remain in Extended Foster Care, they are not included in either the numerator or the denominator for this measure. Because of this change, the denominator of youth in this measure has been steadily declining and several CBC Lead Agencies have no youth in the measure at all, as evidenced by the blank cells. This has also impacted the statewide performance with the dwindling number of youths included in the measure.

CBC Lead Agencies	Hans Soder	Director of the Hotline	Average and % of Children Categorized as Missing	57	FSFN Missing Child Data	Average missing is the average number of children appearing categorized as missing with each of the missing child listings for the month. For example, 28 individual missing child list for February are summed and then divided by 28 to generate the average daily missing child count.
