SUBJECT: Updates to the Human Trafficking Screening Tool (HTST)

PURPOSE: To provide notification of updates to language in the Human Trafficking Screening Tool (HTST) in Florida Administrative Code (Rule 65C-43.001 F.A.C.) and to notify of the HTST electronic tool launch.

BACKGROUND: The Department has made changes to the HTST and developed an electronic version of the tool that is now available for use by approved Department Child Welfare Professionals. The updated electronic tool will improve the assessment process to inform anti-trafficking and prevention efforts.

NOTE: There are two brief trainings (19 minutes total) available in the Learning Management System regarding the changes to the HTST. The trainings provide an overview of the changes to the tool language, how to access the electronic tool through OKTA Single Sign On, and instructions on the administration of the electronic tool that can be accessed through MyFLlearn system (see attached flyers).

ACTION REQUIRED: Mandatory completion of HTST training modules and use of the electronic Tool as outlined below:

For Department Employee:

1. All Human Trafficking approved Child Protective Investigators, Criminal Justice Coordinators, Supervisors, Program Administrators, and other pertinent team members shall complete the two HTST training modules no later than December 22, 2023.
2. All HTSTs completed in Child Protective Investigations shall be completed in the new electronic format immediately upon completion of the electronic tool training module, but no later than December 22, 2023. Upon completion of the HTST, the electronic format allows for conversion to a PDF, which shall be uploaded to FSFN.

For CBC Lead Agencies and Contracted Providers:

3. All Human Trafficking approved Child Welfare Professional Case Managers, Supervisors and any other level of management staff who have oversight of Human Trafficking case
2415 North Monroe Street, Suite 400, Tallahassee, Florida 32303-4190

management, shall complete the HTST language update training no later than January 4, 2024.

4. All HTSTs completed by CBC Lead Agency or Contracted Provider Case Managers shall utilize the updated format attached to this memo effective upon completion of the mandatory training, but no later than January 4, 2024. Completed tools shall be saved as a PDF document and uploaded to the FSFN. Transition to the electronic format of the tool will be developed in partnership with the lead agencies in 2024.

Please share this memorandum and attached updated Human Trafficking Screening Tool with all Child Protective Investigators, Lead Agencies, Case Management Organizations, and other human trafficking child welfare professionals.

CONTACT INFORMATION: If you have questions or need clarification regarding the updated Tool, please contact your Regional Human Trafficking Coordinator or the Statewide Human Trafficking Prevention Manager:

Human Trafficking Screening Tool – Administration Guide

Human Trafficking Screening Tool (HTST) Instructions

This guide¹ is designed to help child welfare and delinquency professionals screen for possible youth victims of human trafficking. The tool, in its entirety, should be used by the Department of Children and Families' Child Protective Investigators, the Sheriff's Offices Child Protective Investigators and Community-Based Care Lead Agency staff or their contracted providers as outlined below. Human trafficking may be suspected for a number of reasons.

Department of Children and Families

The following indicators will trigger Child Protective Investigators (CPI) to conduct the HTST with a child or victim listed in their report. Only staff who have completed the Specialized Human Trafficking training may complete the tool. A non-specialized CPI who recognizes any of the below indicators on a child or victim in an investigation is to request a specialized CPI to administer the screening tool. If the child is a current confirmed victim of human trafficking (within 6 months) and a new intake is received, the HTST does not need to be administered on that child unless needed to enhance the investigation.

Community-Based Care Lead Agencies

When a child on a Family Case Manager's (FCM) caseload has any of the following indicators, the FCM will refer the child to the Community-Based Care Lead Agency's designated specialized screener to conduct the HTST. If a dependent child already has a current designation in FSFN as confirmed commercially sexually exploited child (CSEC) involved on the person management page, the HTST does not need to be utilized on that child.

Indicators:

- Youth's acknowledgement of being trafficked.
- Report of human trafficking by parent/guardian, law enforcement, medical or service provider, teacher, child protective services, and/or juvenile probation officer.
- History of running away or getting kicked out 4+ times.
(Definition of running away or getting kicked out of home: Include times the youth did not voluntarily return within 24 hours, and include incidents not reported by or to law enforcement.)
- Child is 12 or older and has a history of allegations of sexual abuse (with or without findings) or a disclosure of sexual abuse by the child.
- Current incident or history of inappropriate sexual behaviors (not limited to prostitution).
- Child known to associate with confirmed or suspected CSEC youth.
- Child is recovered from runaway episode in a hotel or known area of prostitution.
- Child has no knowledge about the community he/she is located in.
- Child is not allowed or unable to speak for him/herself and may be extremely fearful.
- Child has no personal items or possessions (including identity documents if foreign born – labor trafficking).
- Child appears to have material items that he or she cannot afford (e.g., cell phones, expensive clothing, tablets, etc.).
- Child shows signs of being groomed (i.e., hair done, nails done, new clothing, etc.) that child cannot afford or justify how paid for.
- Suspicious tattoos or other signs of branding (e.g., tattoos of the trafficker's names, dollar signs, diamonds, stars, etc.). May also have certain designs/logos on nails, jewelry, etc.
- Child associates and/or has relationships with age-inappropriate friends, boyfriends, and/or girlfriends.
- Child has inappropriate, sexually suggestive activity on social media websites and/or chat apps.

¹ The contents of this guide and the screening tool were informed by the research and reporting of the Vera Institute (2014) *Screening for Human Trafficking: Guidelines for Administering the Trafficking Victim Identification Tool (TVIT)*, the Polaris Project (see www.PolarisProject.org), and the Covenant House (2013) *Human Trafficking Interview and Assessment Measure*.

To ensure that the tool is administered effectively, all screeners should follow the screening protocol set forth in this guide. This tool is to be completed by the screener after having a trauma informed conversation(s) with the child. The goal of the conversation is to gather information needed to complete this tool and to discover indicators that may determine if the child is a victim of human trafficking.

It is important for screeners to understand that conversations designed to screen for human trafficking are invasive by nature and may reveal that a youth is suffering from the effects of exposure to trauma. As such, screeners must take care to create a safe environment in which they establish rapport and trust with the youth. Additionally, screeners should be prepared to call upon therapeutic and legal staff in responding to the needs of trafficking victims.

Youth may be reluctant to engage with screener due to a lack of trust, fear of consequences related to disclosure, and/or not viewing themselves as a victim. Strengths-based, non-judgmental, and trauma-informed approaches should be used to engage youth in a conversation to secure answers needed to complete the tool. Motivational interviewing techniques may also be used to gently question inconsistencies and encourage disclosure. The guidelines that follow provide instruction for following the screening protocol for administering the HTST and should be adhered to each time a screening is conducted.

HTST Screening Protocol

Screening Preparation

The screening should be conducted in a safe and non-threatening environment. Screeners should be well-prepared, should be comfortable working with victims of trauma, and should recognize, when needed, to redirect the conversation in an appropriate manner that is sensitive to the needs of youth. The following guidelines should be followed when preparing to conduct a HTST screening:

- ➔ Read through the entire screening tool and this Administration Guide, so that you are familiar with the tool and able to conduct the screening in a conversational style, allowing the youth to direct the flow of discussion.
- ➔ Conduct the screening in a private, quiet environment designed to make the youth feel physically comfortable and safe.
- ➔ Be prepared to provide the youth with basic needs, such as an interpreter, tissues, drink, food, clothing, medical or therapeutic care, and/or access to services, as appropriate.
- ➔ If an interpreter is necessary, he/she should be trustworthy (unknown to the youth being interviewed) and able to use the same wording as the screener when asking questions and the same wording as the youth when answering questions. Use of an agency or certified interpreter is required (per DCF Operating Procedure 60-10, Chapter 3, in compliance with the laws governing ADA and Section 504 of the Rehabilitation Act).
- ➔ Do not interview a youth in front of a suspected trafficker or individual who is exhibiting controlling behavior over the youth. Do not allow this person to interpret for the youth if he/she does not speak fluent English.
- ➔ Recognize that dressing in uniforms, suits, or other formal attire may cause youth to fear that you are with immigration services or other enforcement agencies.
- ➔ Use strengths-based and trauma-informed care approaches during the screening, allowing youth to lead the direction of the conversation.
- ➔ The screening process may need to take place over multiple contact points if the screener judges that the youth needs more time. The screener may postpone the discussion to a later time when the youth is ready to discuss

his/her experiences. When a youth displays acute signs of anxiety, the screener should consider contacting a trained mental health professional to complete a session with the youth.

Screeners should be familiar with these techniques when completing the tool:

- ➡ Please use the lines provided within the tool to record youth's responses to open-ended questions or any additional information that has been disclosed to you that is specific to your determination of the child's involvement.
 - ➡ At the end of selected questions, you will see this symbol ➡ which asks that screeners code for the likelihood that the youth's responses suggest any evidence of the problem targeted by the preceding item(s). An example is provided below:
