(2) After 60 days from the child being reported as missing, the efforts to locate the child by the CPI may be reduced to a minimum of once every 30 days, unless information supports a more frequent check (e.g., severe maltreatment is alleged, or there are credible reports that a child has been frequenting a certain location, etc.).

(3) After 90 days from the child being reported as missing, the efforts to locate may be transferred to the Regional Criminal Justice Coordinator or their designee for continuation of remote electronic database and information system searches. (c) A CCWIS MCR recovery form will be submitted with the recovery type of "Aged Out."

(b) The child welfare professional may use the request to locate alert in CCWIS when there is a concern that there may be present or impending danger and the dependency case was closed and/or the Take Into Custody Order is denied by the court having jurisdiction over the child.

10. Procedures Required When a Child Is Located.

a. Upon learning that a child who was originally missing from an active child protective investigation or a judicial or non-judicial in-home services case or a child missing from an out-of-home care case in which there may be present or impending danger has been located, the child welfare professional, on-call child welfare professional, or designee shall respond immediately, to include weekends and holidays, to the child's location to assess the child's safety. If the child is located outside of the child welfare professional's service area, the child welfare professional, on-call child welfare professional, or designee shall immediately make an Out-of-Town Inquiry (OTI) or courtesy request to assess the child's safety.

b. The child welfare professional shall notify all parties noted in paragraph 8b (1)-(11) of this operating procedure that the child has returned.

(1) If the child welfare professional has reason to believe the child's caregiver or legal guardian was uncooperative with efforts to locate the child for the purpose of denying the child welfare professional access to the child and immediate notification would further impede the investigation or dependency case, the caregiver or legal guardian may be notified of the child's whereabouts after the child's safety has been assessed.

(2) The DJJ Interstate Compact for Juveniles (ICJ) Compact Specialist will also be contacted, if necessary, to collaboratively facilitate the safe return of a child who is missing from Florida and has been located out of state or is missing from another state's jurisdiction and has been located in Florida.

c. The child welfare professional shall interview the child within 24 hours of recovery, to include weekends and holidays, to determine the child's need for a change in placement and/or additional services needed for the child or caregiver to prevent future missing child episodes.

(1) The interview shall:

(a) Determine the primary factors that contributed to the child running away (if the child ran away); and,

(b) Inquire into the child's experience while absent from care, including identifying if the child has a history of running away, sexual abuse, or if the child discloses being trafficked or reports sexual exploitation. If any one of these indicators are present, the child welfare professional shall screen the child to determine if the child is a possible victim of trafficking pursuant to Rule [65C-43.001](#), F.A.C.

(2) Documentation of the interview shall be recorded within CCWIS as a Missing Child Debriefing note type within one business day of the attempted interview.

(3) Should the interview demonstrate that additional services for the child and/or caregiver are necessary to prevent future missing child episodes, the child welfare professional will involve all relevant stakeholders, including the child and caregiver, in the discussions regarding and the planning of any change in services.

d. The child's recovery shall be documented in CCWIS by completing the electronic MCR recovery form within 24 hours, to include weekends and holidays, upon learning that a missing child has been located.

(1) A rapid recovery form must be used when the MCR has not been approved by the DCF Statewide Missing Child Specialist and FDLE/MEPIC.

(2) A standard recovery form must be used when the MCR has been approved by the DCF Statewide Missing Child Specialist and FDLE/MEPIC.

(3) The DCF Statewide Missing Child Specialist shall review the missing child recovery report to ensure that the case meets case closure criteria with FDLE/MEPIC/NCMEC.

11. Procedure for Completing and Issuing Out-of-State Inquiries and Alerts. When an out-of-state inquiry is received, the DCF Statewide Missing Child Specialist shall query all parties using the information provided in CCWIS.

a. Regardless of information match results, a request to locate alert will be placed in CWIS for any parties who are believed to be in or traveling to Florida, or who were last seen in the states of Alabama or Georgia (due to their close proximity to the state of Florida).

b. If the criterion in paragraph 11a of this operating procedure is not met and there is an information match and contact with the party has occurred in the past 12 months but is not currently active:

(1) The DCF Statewide Missing Child Specialist shall issue a request to locate alert in CCWIS.

(2) This alert shall remain active until the DCF Statewide Missing Child Specialist is notified that the child has been located by the out-of-state agency (and he/she will then deactivate the alert) or until six months have passed, whichever occurs first.

c. If the criterion in paragraph 11a of this operating procedure is not met and there is no information match or contact with the party has not occurred in the past 12 months, no action shall be taken, and the request will be destroyed.

d. In any case, if there is an open abuse intake, special conditions referral, child protective investigation, dependency case, or other services, the DCF Statewide Missing Child Specialist shall do the following:

(1) Issue a request to locate alert in CCWIS for the party/parties. This alert will remain active until the DCF Statewide Missing Child Specialist is notified that the child has been located by the out-of-state agency (and he/she will then deactivate the alert) or until six months have passed, whichever occurs first.

(2) Contact the out-of-state agency, inform them of the open case, and provide the contact information for the current primary child welfare professional.

(3) Contact the current primary child welfare professional, inform them of the request to locate alert, and provide the contact information for the out-of-state agency contact.
